THE MANNY MOWER has been extensively used for the past two years in New England, and more than six years at the West.—Its success is beyond that of any other Mower or Reaper ever constructed. Over 160 1st *Premiums* have been awarded it, including the *Grand 1st Class Silver Medal* at the WORLD'S FAIR, PARIS, 1856.

With the two past years' *experience*, we have been enabled to make a number of very *important improvements*. We find New England farmers require a different Machine from other sections—the fields generally being small. It must be *light*, at the same time possess *great strength*; *portable*, with facilities to *raise the cutters to pass obstructions*, and to remove from field to field. A patent cutting apparatus, to cut the fine grasses without clogging, and so constructed as to *start* in the grass *without backing*, easily adjusted to cut high or low, and have a feed to cut equally well with or against the wind, and to be worked with ease by a light team, and so easily managed and simple that any one of common ability may operate it successfully, and to be built in the most thorough manner.

With this knowledge of the farmers' requirements, and with the determination to build a *better* Machine than has ever before been constructed in this country, we offer the **Manny Mower** of 1857 with confidence, as combining the qualities enumerated above, and as one particularly adapted to meet the wants of New England farmers.

☞ We invite the farmers to call and examine Machines. Orders should be sent early. Circulars, with testimonials, forwarded FREE, on application.

Price of Mower, $110; with Reaper attachment, $15 Extra. Delivered on board the cars at Worcester, Mass. JOHN P. ADRIANCE & Co.,

AYER'S Cathartic Pills,

(SUGAR COATED,)

FOR MORE EFFECTUAL

CLEANSE THE BLOOD AND CURE THE SICK

Invalids, Fathers, Mothers, Physicians Philanthropists, read their Effects, and judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach

PITTSBURG, PA., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have, by one or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once. If they will do to others as they do me, the fact is worth knowing.

Yours with great respect, ED. W. PREBLE,
Clerk of Steamer Clarion.

Bilious Disorders and Liver Complaints

DEPARTMENT OF THE INTERIOR,
WASHINGTON, D. C., 7 Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is equal to calomel, and especially they are admirable remedy for derangements of the organs. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them.

Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Relax, and Worms.

POST OFFICE, HARTLAND, LIV. CO., MICH., NOV. 16, 1855

DR. AYER: Your Pills are the perfection of medicine they have done my wife more good than all the rest you She had been sick and pining away for months. Went off to be doctored at great expense, but got no better. She then commenced taking your Pills, and in a few weeks could be by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of bloody dysentery. One of our neighbors had it bad, and my wife gave him with the best effect some of your Pills, while others around us paid from five to twenty dollars doctors bills, and lost much time, without being cured entirely even then. Such a medicine, like you prove, which is actually good and honest, will be prized here.

GEO. J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among my people. I am called to visit in distress. To regulate the organs of digestion and purify the blood they are the very best remedy I have ever known, and I can confidently recommend them to my friends.

Yours, J. V. HIMES.

WERSAW, WYOMING CO., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the purgative of all others is great in medicine. They have cured my little daughter of virulent sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her face and skin in her hair. After our child was cured, she also tried your Pills, and they have cured her. ASA MORGRIDGE

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawks, of the Methodist Episc. Church.

PLANTERS HOUSE, SAVANNAH, GA., Feb. 4, 1856.

HONORED SIR: I should be ungrateful for the relief your pill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until, by the advice of your excellent agent in Baltimore, I was induced to try your Pills. Their effects were slow, but sure. By persevering in the use of them I am now entirely well.

SENATOR CRANDER, BAYOU ROUGE, LA., 5 Dec., 1855.

DR. AYER: I have been severely afflicted with your Pills of Rheumatic Gout—a painful disease that had afflicted me for years. VINCENT SLIDELL.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a **Dinner Pill,** they are agreeable and effectual.

Fits, Suppression, Paralysis, Inflammation, and even **Deafness,** and **Partial Blindness,** have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous to a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, INCIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout this country, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it already known. Nay, few are the nations of the civilized country on this continent without some personal experience of its effects; and fewer yet the communities any where which have not among them some living trophy of its victory over the subtlest and dangerous diseases of the chest and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous diseases of the pulmonary organs, it is also the pleasantest and most agreeable of all medicines employed for infants and young persons. Parents should have it in store against the insidious enemy that steals upon them unprepared. Experience has proved and now believes the Cherry Pectoral saves more lives by the consumptions it prevents than those it cures. Keep it by you, and cure your colds while they are curable, nor neglect the slightest cough in your family, lest it increase to a canker that, fastened on the vitals, eats your life away. All know the dreadful fatality of lung disorders, and we they know the virtues of this remedy. DONELDSON BURKE, more than to assure them it is still made the best it can be. We spare no cost, no care, no toil to produce it the most perfect possible, and thus afford it. Does it not deserve it the best support which our skill can furnish for their cure?

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. Franck & Co are the managers, are chartered by the state of Maryland, and is commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication seemed to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combination. Prizes vary in amount from $20 to $100 000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

The drawings of the Maryland Consolidated Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the first drawing to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $50,000; every prize being drawn, and result of drawing published in all principal papers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Day Book*. Persons ordering tickets will address direct to S. SWAN & Co., Atlanta, Georgia

Prizes paid in full—no percentage deducted from prizes as other lotteries do.

(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)

No. 76 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States and Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL, AFFORDS MORE SATISFACTION to the inventor; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has every reason to believe, and can state, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

Ancor 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

The Medicine THAT NEVER FAILS!

IS DR. WILSON'S

DYSENTERY POWDER,

Which cures Dysentery, Diarrhœa, Cholera Morbus, and all the affections of the Bowels attended with Pain and frequent Discharges.

This Medicine is now being introduced into all parts of the United States and British Provinces, and great success attends its use everywhere.—These Powders are now offered to the world as a PERFECTLY SAFE AND EFFECTUAL MEDICINE, for the purposes they are recommended and in nine cases out of ten

ONE POWDER WILL CURE

THE WORST CASE,

when they are taken in the first stages, and almost invariably *two will effect a permanent Cure;* and unlike all other preparations, which, if they check the disease, leave the person in a condition that requires physic after it, which is not the case with the Dysentery Powders, for they *regulate the Bowels,* tone up the system, and leave it in a healthy state.

These Powders are put up in boxes, with full directions on each box, and sold for **50 Cents.**

Please try them; if they do not give *perfect satisfaction,* return them and take your money.

THE COST.—An editor of a public journal observes: "When we consider the universality of the use of tobacco, and the fact that some men spend $10, $60 or $100 yearly for cigars. This town uses 20 per cent. less than the average: $9000 is devoted to the weed yearly; about twice what we raise by tax for schools; about enough to build the High School house, about which we tobaco-chewers have quarrelred so much; enough to buy a twenty-five cent delaine dress for each adult female in town, a pair of boots for each lad, and a five dollar bonnet for each lass in town; to pay the salaries of all our ministers, and cover all our contributions for benevolent purposes. The city of New York, accordidg to the authority of McGregor, consumes $10,000 a day on cigars and but about $8500 on bread."

The coroner's inquest in the case of Mowatt, who hung himself, in the Boston Jail, reveals the fact that an innocent man was imprisoned; and a sensitive man, by false imputation, driven to suicide. He was committed upon the testimony of one Jere. Hart, who swore positively that Mowatt had robbed him.—There were no circumstances to sustain the evidence, but he was held for the sitting of the Grand Jury, who it was supposed by parties conversant with the case, would not find a bill; but continually asserting his innocence, stating that he was on a visit to the city, and had left a wife and family in Webster, where he belonged, the anxiety of his mind drove him to the rash act.—*Newburyport Herald.*

☞ In the Police Court of Newburyport, as we learn from the Herald of Tuesday, Luke Town, of Topsfield, was found guilty of making two sales of spiritous liquors, contrary to law; and the usual fine and costs, with a certificate to the County House, were imposed. An appeal was taken. Failing to recognize, he was committed. Mr. Town conducted his own case, and endeavored to introduce some new laws, which have not yet been incorporated in the Revised Statutes.

Wild Cat, the Seminole Chief, and 40 of his people, have lately died of the small pox. This is unfortunate for some of the border whites, who could always have claims for dead horses, lost negroes, and services never rendered, so long as he lived. It would not be wonderful, as the Seminoles die out, if some of these white border savages should turn Indians themselves, to keep up the sponging operation.—*Newburyport Herald.*

DONATION.—It is stated that some liberal friend of the University of Rochester, has intimated his intention to devote $25,000 toward the erection of new buildings, for which purpose the State has appropriated like sum. We have heard the name of of Poughkeepsie, a wealthy tioned in connection with this ward the cause of education. *Y.) Democrat.*

WAGON ROAD OVER THE WESTERN PLAINS. A private letter dated Independence, Missouri, July 1, states that a portion of the Wagon Road Expedition, under Wm. M. F. Magraw, had taken up the line of march, and that the remainder would follow immediately. Thirty wagons, and the larger portion of the force of one hundred and twenty men were upon the plains. This route has been designated by the Department of the Interior as the Fort Kearney, South Pass, and Honey Lake Pacific Wagon Road.—*National Intelligencer.*

PEDAL BASS MELODEONS,

No. 511 Washington Street, Boston.

The first premium over all competitors, at the Fair of the Mass. Charitable Mechanic Association, of the National Fair, Washington, D. C., also at the Ohio State Fair, held at Columbus, Ohio, was awarded to these Manufacturers.

By means of a new method of Voicing, known only to themselves, they have succeeded in removing the harsh and buzzing sound which formerly characterized the instrument, and rendering the tones full, clear and organ like. The action is prompt and reliable, enabling the performer to execute the most rapid music without blurring the tones. The swell is arranged to give great expression.

THE PEDAL BASS MELODEONS,

Are designed particularly for Churches, Lodges, Halls, &c. It is arranged with two manuals, or banks of Keys, the lower set running an octave higher than the other, and may be used separately, and thus get in one case two distinct instruments; or by use of the coupler, the two banks of keys may be played at the same time by use of the front set only. This connected with the Pedal bass, will produce the effect of a large organ, and is sufficiently heavy to fill a house that seats from 1000 to 1500 persons.

THE ORGAN MELODEON

Is designed for parlor and private use. The construction is similar to the Church instrument, being furnished with two banks of Keys, and when used together, by means of the coupler, is capable of as great volume of power as the Church Instrument when used without the pedals. Also, every variety of MELODEONS for Parlor use.

Purchasers may rely upon instruments from our Manufactory, being made in the most complete and thorough manner. Having removed to the spacious Buildings

511 Washington Street,

We have every facility for manufacturing purposes, and employ none but the most experienced and skilful workmen. In short, we will promise our customers an Instrument equal, if not superior, to any Manufactory in Boston, and guarantee an *entire and perfect satisfaction.*

Music Teachers, Leaders of Choirs, and others interested in musical matters, are respectfully invited to visit our Rooms at any time and examine or test the instruments on exhibition for sale at their pleasure.

As a still further guarantee to the public as to the excellence of the MELODEONS from our Manufactory, we beg leave to refer, by permission, to the following eminent

Piano Forte Manufacturers of Boston,

who have examined our Instruments, and will give their opinion when called upon:

Chickering & Sons, Hallett & Cumston,
T. Gilbert & Co., Wm. P. Emerson,
Brown & Allen, A. W. Ladd & Co.,
George Hewes, Woodward & Brown,
Newhall & Co.

MELODEONS RENTED.

Persons who wish to hire Melodeons with a view of purchasing at the end of the year, can have the rent credited as part payment of the purchase money. This method is worthy of special note, as it enables those who desire a fair test of the instruments before purchasing, to obtain it at the expense of the manufacturers, to the extent at least of a year's rent.

Orders from any part of the country or world, sent direct to the manufactory in Boston, with cash, or satisfactory references, will be promptly attended to, and as faithfully executed as if the parties were present, or employed an agent to select, and on as reasonable terms.

IMPORTANT DISCOVERY.

DR. CHEESEMAN'S PILLS FOR FEMALES.

Prepared by an old Physician of 40 years experience

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance have the Pills been successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square flat Boxes—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid,* to DR. C. L. CHEESEMAN, BOX No. 4,581, Post Office, New York City, can have them sent to their respective addresses by return of mail.

BUSINESS PROSPECTS.—The following article from the Journal of Commerce, is well worth the attention of business men:

There has been speculation at the West which has created great scarcity of money, and interfered with the operations of trade. Some people will come out of these operations minus all that they were worth, and many others will involve their friends and neighbors in their ruin. But the West is not bankrupt, and its recuperative energy is wonderful. Two good crops of agricultural produce will probably wipe out nearly every vestige of these misfortunes.

Prices of all the necessaries of life have become very high, and there is a prospect that during the next six months most of them will tumble. Probably in this break down, some who try to sustain them will go down too; but we see no reason to anticipate any wide spread defalcation from this source. The country is, in the main, prosperous; and as long as this prosperity has for its basis the industry and energy of the masses, its foundation cannot be shaken.

There have been too many idle, reckless speculators living upon plunder but, after all, these are in a lean minority.

A large majority of the people of the United States are at this moment engaged in productive labor, and so long as they continue in this calling, the prophets of blue ruin may blow their dismal trumpets until their cheeks split, without being able to bring about the disaster they predict.—Like a bowling dog, they may keep nervous people awake o'nights; but the sun will shine, and the grass grow, nevertheless.

THE FOURTH IN SOUTH CAROLINA.—The "Flea-bite Company," a military corps in St. Matthew's Parish, S. C., celebrated the Fourth by a parade, after which they had an oration and a public dinner. At the latter the "Fleabiters" illustrated their natural taste for blood by the following toast to the successor of Preston S. Brooks:

Gen. Bonham: May his arguments in opposition to Northern fanaticism be as striking as those of his late predecessor.

Another of these valorous insects wanted to bite the Union in two:

The only Union that we want is the union of the south to dissolve her connection with the North.

CATHOLICISM.—The Courrier du Canada, a Catholic paper, very gravely states "that the Rev. Mr. Baillargeon, Cure of St. Nichols, before a single soul perished, gave absolution to all the unfortunate passengers on board the ill-fated steamer Montreal. He was in his own parish on the opposite side of the St. Lawrence, observed the danger in which the lives of those on board were, and pronounced the absolution." Of course, the Catholics all believe that Father Baillargeon sent the souls of the unfortunates, direct to heaven—a happy event that had not occurred but for his fortunate presence in that vicinity.

ASSAULT IN EXETER.—A man by the name of William Murphy, supposed to be a Nova-Scotian, went to his boarding house, one evening last week, in a state of intoxication, and began to smash up things on the table, breaking with his fist a sugar bowl and plate, and using violent language. An officer was called, when he resisted, seizing a knife and threatening his life. Other officers came in, Murphy was taken, hand-cuffed and put in jail. He was examined before J. W. Clark, Esq., on a charge of assault with intent to kill, and required to give bail for his appearance at Court, to the amount $500, in default of which he was committed to jail. It is said that he professed to teach the art of boxing. Whether he had any pupils in Exeter, (says the News-Letter,) we have not learned.

☞ A report of the death of Robert Holmes, the celebrated Irish barrister who defended Emmet in 1803, and John Mitchell in 1848, has been going the rounds of the papers, copied from some English journal. The report, however, is unfounded. The Journal of Commerce says: "The venerable and distinguished advocate, who has retired for some years from the practice of his profession, is alive and well, and resides at present with his son-in-law, in London. He is said to have been much amused at the newspaper notices of his death, the errors in many of which considerably diminished his faith in the truth of history.

☞ A small child was rescued from drowning, in Newark, New Jersey, on Wednesday evening, by the sagacity of a Newfoundland dog, who directed the attention of a passer-by to the drowning child.

☞ Mr. Douglas has made $20,000 by his gift of land for a Baptist University at Chicago; the surrounding lots having been much increased in value by the location of the University.

NEW YORK, July 14, Afternoon.—The rioters of the 15th Ward are making extensive preparations for a renewal of the conflict to-night. An incendiary hand-bill is circulating, calling a mass meeting to put down the Metropolitan Police. A meeting has also been held at the German Theatre, in 4th street, to make arrangements for the attack. It is reported that the rioters have a field-piece, and plenty of muskets and ammunition.

The Police Commissioners are preparing for them at all points. A force of nearly 300 policemen is stationed in the Ward, and three regiments are ordered to report themselves at 5 o'clock.

This continued and increased violence calls for the most decisive measures. The rioters, many of them, are from countries where a military police is ever present; and they seem to have no regard for any law that has not bayonets behind it. They are led on by crafty, unscrupulous demagogues, and stimulated by 11,000 groggeriess.

The Traveller says: "Before the riot in New York, on Monday afternoon commenced, Coroner Perry tried to hold an inquest on the body of a German, when he met with great opposition, which, however, he eventually overcame. The following incident, which occurred in connection with this inquest, shows pretty conclusively, who Mayor Wood's partizans are, and to what political party they principally belong:"

"The mob resolved that Coroner Perry should not hold the inquest, and a messenger was sent to the Coroners' office to notify the Coroners of their determination. The messenger, on arriving at the office, was not a little excited, and asked for Coroner Gamble. He was informed that Coroner Perry had charge of the case, and would hold the inquest. The messenger stated that the Germans or mob had resolved that Coroner Perry should not hold the inquest, because he was a Black Republican. The messenger was informed that the Coroner was an American in politics. This, the excited messenger expressed as equally obnoxious, and that either Gamble or Connery must go up, as no others would be allowed in the vicinity."

☞ The New York papers mention that the great feature of the recent parade of the veterans of the war of 1812, was the presence of an old Revolutionary patriot, Mr. Isaac Daniels, 102 years of age. This ancient soldier served in the Revolutionary war, and also in the war of 1812. He lives in Bedford, Westchester county. The old man looked hearty, and likely to live many years yet; his hair is well preserved, though very white, the top of his head alone being bald. He has eight children living, four sons and four daughters. One of his sons, an old man of 70, was with him, and looked as old as the father.

FATAL RAILROAD ACCIDENT.—The Lowell Advertiser says that a young man by the name of Patrick McCormick was run over by the cars on Monday afternoon at the Middlesex street depot of the Lowell Railroad, in that city. He was standing on the platform, bidding good-bye to some of his friends, who were going to New York. As he was grasping his friend's hand, the train started, when he slipped from the platform and fell between the cars upon the track, the car passing over him, and almost completely severing his body in two.

SMART WORK.—Mr. Joseph Matthews, of Candia, an "old Vermont Whig," and familiarly known as "Uncle Joe," says that one day, in ten hours, while at work for Col. Patten, of Candia, he hoed 2536 hills of corn, and covered the same number of hills of potatoes. This may seem incredible; but when the fact is known, that the potatoes were dropped along between the rows of corn, so that with a little care, he could not help covering them, we think his story will be more generally believed.

☞ The watch and jewelry store of P. S. Batchelder, in Fitzwilliam, N. H., was entered on Thursday night, and some five hundred dollars' worth of property stolen. This store was robbed of a similar amount, some seven or eight years ago. At about the same time of the above robbery, a store in Francestown was entered, and goods to the amount of some $1000 carried off.

AMESBURY AND SALISBURY MILLS.—The Villager understands, from good authority, that the stock of the Salisbury Mills, $500,000, has all been subscribed, and that the prospect of an early resumption of business is good. The amount of subscriptions is made payable on the 15th inst.

THE MORNING STAR. The California steamer at New York brings intelligence of the arrival of the missionary brig "Morning Star," at the Sandwich Islands.

The Hog disease is increasing all around us. Several valuable hogs have died this week in our vicinity.—*Prov. Trans.*

"NAKED TRUTH"—WHY HE IS SO.

Truth and falsehood, one hot day,
In company jogged on their way;
The Sun poured down his melting rays,
Then in the middle of "dog-days;"
The beasts were lolling in the shade,
And Pat threw down his heated spade.

They travelled till they came beside
A quiet river's silver tide,
When meet to both it quick did seem
To bathe within the cooling stream,
So each soon doffed the garb he wore
And left it on the pebbly shore.

Then quick they plunged beneath the tide
And swam across from side to side,
Outstrip each other in the fray,
Like nimble boys let out to play;
And so they bathed from head to heel,
With all the joy that swimmers feel.

Soon Falsehood thought he'd swim no more,
And straiway struck out for the shore.
He saw Truth's garments shining bright,
While his were loathsome to the sight,
So caught them up without delay
And sped like lightning on his way.

Truth, unsuspecting, came ashore,
And saw the garments Falsehood wore;
But his were gone, nor could he find
A vestige of them left behind,
For light-foot Falsehood made his track
With stolen garments on his back.

Truth scorned to think that he should dress
In Falsehood's loathsome filthiness;
So naked he pursued the thief,
Now filled with rage, and now with grief,
But ne'er has caught him, strange to say,
And "Naked Truth" he's called to-day.

☞ The Putnam School exhibition took place in Newburyport on Tuesday.—Rev. Dr. Peabody, of this city, gave the address. It was upon the importance of little things—the lesser virtues and sins. It was a topic appropriate to the students, and treated with his usual ability. The Poem by Mr. Pike, is spoken of as manifesting much poetic talent.

THE AMERICAN HOUSE, BOSTON, one of largest and best arranged hotels in the United States, is now conducted on the European plan. We commend the house and its efficient and gentlemanly proprietor to the travelling public.

☞ Dr. Kane's volumes on the Arctic Expedition have paid $60,000 to the estate of the author, and the amount will probably soon be swollen by further sales to $100,000.

☞ A Washington letter states that several of the President's household are sick with intermittent fever, caused by the fogs arising from the Potomac, which make the White House damp and unhealthy.

SPECIAL NOTICES.

Important.— Lawrence's Carminative is the only child's medicine in this country, and is good in all cases of sickness.

Have you ever tried Dr. Wilson's Dysentery Powders? If not we assure you that they are the best medicine in the market for the cure of Dysentery, Diarrhea, and all kinds of Bowel Complaints. They are perfectly safe and effectual. For sale by J. H. Thacher and W. R. Preston, at 50 cents a Box. jy16 3w

☞ Mr. Asa S. Tilton at his Union Store, No. 12 Market street, sells the following Medicines at reduced prices:—Dr. Larookah's Indian Vegetable Pulmonic Syrup, warranted to cure coughs, colds, whooping-cough, asthma, bronchitis, croup, catarrh, consumption, and disease of the throat and lungs. Price 75 cents per bottle.

Also, Kennedy's Medical Discovery, Kennedy's Salve, and Holman's Nature's Restorative.

IF ALL OUR READERS

Who are troubled with liver complaint, Jaundice, or Dyspepsia, will read the advertisement in another column of Dr. Sanford's Invigorator, and then do as we have done—get a bottle, we should not see so many sickly, half-dead, despairing people as now meet our gaze at almost every corner, for certainly there never was a remedy invented of which so much is said, and that performs so nearly what its proprietors say it will do. It came to us so highly recommended that we could not fail to try it, and a trial has convinced us, without a doubt, that it is the best family medicine in use. We take it for Headache, Sour Stomach, Billiousness, and any of the little bodily ills that are common, and it does produce a pleasant state of feeling to the sick, and what is better, after using it a few times, these little ills grow less and less, and there is a prospect of being entirely free from them by a continuance in the use of the Invigorator. LADIES AND GENTLEMEN:—We would call your attention to Prof. O. S. Wood's Hair Restorative. From our long acquaintance with the proprietor, and with numerous individuals who have used his preparation with perfect success for the last two years, we feel no hesitation in recommending the article as superior to any of the preparations now in use for the same purpose, viz: for restoring gray hair to its original color, a sure and perfect cure for baldness, and a never-failing preventive for the falling of the hair.

It is decidedly the best and most popular in use for beautifying, preserving, restoring and strengthening the hair, relieving diseases of the skin, and removing scurf, dandruff, and all eruptions and feverish heat from the scalp.

We speak in relation to the above from what we know, having been personally acquainted with numerous persons who have used the Restorative for the above purposes, with the most gratifying results.

It is not often we notice a patent medicine.—Indeed, we think we have never puffed one before; but Professor Wood's "Hair Restorative" is something so superior to most of the preparations of the day, that we cannot forbear asking the attention of our readers to it.—[Catholic Vindicator.

AMERICAN HOUSE,
BOSTON.
Conducted on the European Plan.
LEWIS RICE, Proprietor, respectfully announces that in compliance with the very general preference expressed for the European system of hotel management, that the American House will hereafter be conducted solely on that plan. Well furnished parlor and sleeping apartments will be let by the day, or for longer periods. Meals served at the gentlemen's hall at all hours of the day and evening. The ladies' dining hall will be opened in like manner for ladies, and gentlemen accompanied by ladies. The accommodations and conveniences of the house are unsurpassed, and the recent improvements and alterations leave nothing to be desired. Suburban residents will find the arrangement specially convenient. Large or small parties provided with dinners, suppers, &c., at short notice.

LOCAL.

THE NEW POST OFFICE BUILDING.—We learn that orders have been received from the United States authorities, to have the buildings on the site to be occupied by the the new Custom House, vacated forthwith; and that these buildings have been sold for $1100, to the contractors for the construction of the new building. The work of demolition will doubtless commence early in August.

☞ The old and well-known Piscataqua House, in this city, which has been a home for the traveller for more than a generation, is a Hotel no longer. The veteran landlord, Gen. J. G. Hadley, who has been connected with the house for upwards of thirty years, and whose name has swung as proprietor, we think, since 1828, closed the doors of the Piscataqua as a public house, last week; and has removed to the fine house recently occupied by Mr. Wm. Plaisted, on the corner of Islington and Cass streets—which he has recently purchased for a private residence.

☞ Sanford & Fiske's Dramatic Troupe, now performing at the Temple, is decidedly the best company which has visited us for a long time. It is worth a quarter to see Fiske in his comic characters. The audiences, though not so large as they deserve, are highly respectable, so no one need be deterred on that account.

Sanford is an old favorite here, and will need no eulogium. The bill for to-night is a grand one, and should fill the house. S.

TO NEW SUBSCRIBERS.

The sixth year of the Daily Chronicle commences with the coming month of August. For $4, paid in advance, we will furnish the paper from this time and through the coming year, to August 1st., 1858.

We shall furnish no papers by the week, after August 1st.; and would invite those who have heretofore been on the weekly-paying list, to avail themselves of the offer above. Subscriptions will be received for three months—$1, in advance.

RETURNED.—We learn that Mr. Isaac Jenness, who left this city for Wisconsin in May last, has returned, having found business very dull out West.

Simon R. Marston, Civil Engineer and Surveyor, who has been out that way for two years, and Mr. Joseph O. Ham, who went out with Mr. Jenness, intend to return in August.

☞ For a rare chance to buy Furniture, or a good Horse or Carriage, and a variety of other articles, cheap,—attend the Auction at the Piscataqua House, this (Wednesday) forenoon at 10 o'clock.

NAVAL.—Capt. John C. Long has received preparatory orders for the command of the Pacific squadron. It will consist of the new steam frigate Merrimac, flag-ship; side wheel steam frigate Saranac; sloop-of-war St. Marys, Commander C. H. Davis; Falmouth, Commander Hoff; Decatur, Commander Thatcher; Massachusetts, steam store ship; and the Fredonia, at Valparaiso.

The U. S. squadron on the Chinese station will consist of seven vessels, viz:—the steamers Minnesota, (en route,) Mississippi and San Jacinto, and sailing ships Portsmouth, Germantown, (fitting at Gosport,) Levant and Vincennes.

☞ Peterson's National Magazine for August is a pleasant number, embellished with a frontispiece, "See-saw," Le Modes Parisiennes, &c. Chas. J. Peterson, publisher, Philadelphia.

TAKEN CARE OF.—The notorious Dave Sands, who has been a pest to Lowell for a long time, was sentenced by Judge Aiken at Concord, to three years in the House of Correction, for assaulting Philip Naun a while since with a slung-shot. James Jefferson got two years for robbing Huntoon & Dearborn's shop of a pair of shoes.—*Lowell News.*

OUTRAGEOUS ATTEMPT.—On Tuesday morning, Deputy Marshal Fuller of Lowell arrested John O'Neil and Patrick Donohoe, for an assault with intent, &c., on two school girls of some twelve years of age. The girls belonged to the Green Grammar School on Middle street, and on Monday afternoon, went to the pump in the shed connected with the stable on Shattuck street, where the defendants worked as hostlers, when they were seized by them and treated in a most outrageous manner. An attempt to drag them into the stable failed. In the Police Court on Tuesday, Judge Crosby sentenced the fellows to nine months in the House of Correction—altogether too light a sentence. From this, they appealed, and were ordered in $800 for trial. In going further for justice, they will probably fare worse. They certainly deserve it.—*Lowell Citizen.*

☞ A new reservoir is to be constructed in the Croton aqueduct in New York, which will cover 106 acres of land, and to 35 feet deep.

UTICA, N. Y., July 14.—The State Lunatic Asylum, in this city, was partially destroyed by fire, this morning. That part of the buildings occupied by the patients was but little damaged, and none of them were injured.

That part of the front of the Asylum, which was occupied by the resident physicians, and contained the Chapel, dining rooms, etc., was destroyed.

The fire broke out at eight o'clock, when flames were seen bursting from the cupola, ascending in a grand column, and then spreading downwards toward the wings on the West. They raged for four hours, and completely burned out the main building to the cellar, damaging the east wing, and somewhat injuring the west. The rear wings are uninjured. Five hundred patients were distributed in the Asylum at the time. They were removed to the rear wings, and a considerable number of them were taken, as the fire progressed, into a grove at the rear of the buildings, where they remained under guard of several military companies called out for the occasion.

The damage to the buildings can hardly amount to less than $200,000.

Dr. L. F. Rose was seriously, if not fatally burned.

WASHINGTON ITEMS.—A bounty land warrant for 160 acres was issued by the Commissioner of Pensions, to Hon. Robert M. Lane, for his services in the Florida war. This is the fifth warrant that has been issued to the Hon. Lewis McLane's family; one to himself for serving in the war of 1812, and one to each of his four sons, for services either in the Florida or Mexican wars.

The President has postponed his visit to the Springs. He will on Wednesday remove to the Soldier's Home, and transact business at the White House daily, between the hours of 12 and 4.

So the White House is not fit to live in,—as it is uncomfortable and unwholesome.

ANTIOCH COLLEGE.—In consequence of pecuniary embarrassments, Antioch College, Ohio, has been assigned to Mr. Palmer, President of the Broadway Bank, in New York, in order to save it from sale at auction. The scholarship system, under which it had at times four hundred students, has been abolished, and students will hereafter be required to pay fair tuition bills, in order that by this means the current expenses of the College can be met. The College will be kept open for the coming year. Hon. Horace Mann is re-elected as its President, and Rev. Dr. Bellows, of New York city, and Rev. Mr. Fay and Hon. Aaron Harlan, of Yellow Springs, have been appointed a committee to select the rest of the Faculty.

A HYPOCRITE AND AN IMPOSTOR.—Mrs. Olive Farr, a woman about 70 years of age, has been going the rounds of Lowell, representing that she was poor and had nothing, while in fact she had money and sought to add to her purse. She professes a great interest in religion, and is a passionate admirer of John Angell James; while, in the neighborhood where she lived, her tongue was a curse, and her temper revengeful. She has left Lowell, but will be visiting other cities.—*News.*

MONTREAL, June 14.—Douglas Brothers, saw mills, at the canal, were burnt last night. Loss $30,000. There was some rioting at and previous to the fire, between Orangemen and Catholics, several parties being injured.

Capt. Rudolf, of the steamer Montreal, was arrested at Quebec to-day, on a Coroner's warrant.

Now, farmers, into haying. To have the laborious work go on easily, avoid the use of intoxicating drinks. Plan so as to take supper at 5 o'clock; leave off in good season at night; bathe or wash in water not very cold; put on dry under clothes for the night; and then you will sleep sweetly, be refreshed and ready to begin early the next morning. Try it, and see if you do not find it charming.—*News-Letter.*

SAN FRANCISCO, June 20.—Probably at no period within several years past has there been a greater degree of dullness and depression in business circles than has existed in this month of June. Stagnation in trade is almost complete. A notable decline in rates, and two prominent failures among the mercantile fraternity are the leading features, and all this in the face of a large fleet of vessels over due, which may at any moment lay six or eight shiploads of merchandise on our docks, notwithstanding our bonded warehouses already cannot contain all the foreign tonnage forced into them, and that our private warehouses and store rooms are filled to repletion with domestic merchandise.—Auction sales have taken place of large quantities of flour, provisions, coffee, rice, liquors, &c., at greatly reduced rates.

"AS WELL AS CAN BE EXPECTED."—The room is darkened. The curtains of the bed are drawn. The fire burns clear and bright; and through a door that opens from the bed-room, one can discern another brighter fire; a towel-horse covered with small articles of delicate baby linen; a little coat, shaded with curtains of rose silk and white lace; and on the tiny pillow, a small head in a little many frilled and reeved white cambric cap, and a tiny, soft, velvet face, dusky red, the eyes so tightly closed as to form only two lines, the mouth the same, and the miniature fists, crimson as the face, tightly clenched, as if ready for the "battle of life." On a table close to the swing cot, was the *bassinette*—its central object and chief glory being a large, square, white satin pin cushion, frilled with lace, studded with pins enough to last a life, if ever pins did last, and encircled by a silver wreath of the bright heads of these "friends in need" the words "WELCOME, SWEET BABE!"

Coggswell's Medical Salt,
A PERFECT SUBSTITUTE
FOR THE
LANCET, LEECHES AND BLISTERS.

INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—has but ONE AIM—accomplishes but ONE THING, to wit: SEROUS INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. Every *form of inflammation* (but no other disease) is subdued, by it as easily as fire is extinguished by water. Is it asked, *how* it does this? simply by restoring the lost balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires only a trifle applied to the point of a quill dipped into a solution of it, to affect the entire system.

☞ *Of its intrinsic value, the enlightened community, and not the discoverer, must be the judge.*

Manny's Celebrated Mower
—AND—
MOWER AND REAPER.
IMPROVED.
Built expressly for the New England States.

THE MANNY MOWER has been extensively used for the past two years in New England, and more than six years at the West—its success is beyond that of any other Mower or Reaper ever constructed. Over 150 1st *Premiums* have been awarded it, including the *Grand Gold Class Silver Medal* at the WORLD'S FAIR, PARIS, 1856.

With the two past years' *experience*, we have been enabled to make a number of very *important improvements*. We find New England farmers require a different Machine from other sections;—the fields generally being small. It must be *light*, at the same time possess *great strength*; *operable*, with facilities to *raise* the *cutters* to *pass obstructions*, and to remove from field to field. A perfect cutting apparatus, to cut the fine grasses without clogging, and so constructed as to *stat* in the grass *without backing*, easily adjusted to cut high or low, and have a Reel to cut equally well with or against the wind, and to be worked with ease by a light team, and so easily managed and simple that any one of common ability may operate it successfully, and to be built in the most thorough manner.

With this knowledge of the farmers' requirements, and with the determination to build a *better* Machine than any ever before been constructed in this country, we offer the Manny Mower of 1857 with confidence, as combining the qualities enumerated above, and as one particularly adapted to meet the wants of New England farmers.

☞ We invite the farmers to call and examine Machines. Orders should be sent early. Circulars, with testimonials, forwarded FREE, on application.

Price of Mower, $110; with Reaper attachment, $15 Extra. Delivered on board the cars at Worcester, Mass. JOHN P. ADRIANCE & Co.,

SEC. 2. No school committee shall be permitted to expend any sum exceeding the amount appropriated to them.

Passed June 25, 1857.

JOHN BENNETT, *City Clerk.*

LAWS OF NEW-HAMPSHIRE.

Passed June Session, 1857.

AN ACT relating to voting by proxy.

Be it enacted by the Senate and House of Representatives in General Court convened:

Section 1.—No person shall, at any meeting of the stockholders of any railroad corporation in this State, vote by proxy on any share or shares in the capital stock of such corporation: *provided, however*, that this act shall not affect the right of female stockholders to vote at such meeting in the way and manner provided by existing laws; nor the right of any stockholder who is unable, by reason of sickness, infirmity or old age, to attend such meeting, providing such stockholder shall make, subscribe and attach to his proxy, a statement under oath, addressed to the presiding officer of such meeting, that he is unable to attend such meeting for the reason aforesaid.

Sec. 2.—All acts and parts of acts, inconsistent with the provisions of this act, are hereby repealed.

Sec. 3.—This act shall take effect and be in force from and after its passage.

Approved June 27, 1857.

AN ACT relating to the competency of witnesses.

Be it enacted, &c.—Sec. 1. No person shall be excused or excluded as a witness in any civil suit or proceeding at law or in equity, by reason of interest in the event of the same as a party or otherwise, except as is hereinafter provided; but such interest may be shown to affect the credit of a witness.

Sec. 2. Whenever the party to any such suit or proceeding shall call as a witness either the real or nominal adverse party, he may examine him in chief with the privileges of cross examination, and he shall not by so introducing such witness be deprived of the right of offering in evidence the statements or admissions of such party.

Sec. 3. Nothing in this act shall in any manner affect the law relating to the attestation of wills and and testaments or any other instrument required by law to be attested, or any suit or proceeding pending at the time of the passage of this act; nor shall either party be allowed to testify where the adverse party is an executor or administrator, without the consent of such adverse party.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FRANCIS & Co are the managers, are authorized by the State of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets sent, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket, and all Extraordinary and Ternary combination. Prizes vary in amount from $20 to $100 000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact, that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every day in the month of the year, and orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyers. Prizes vary from $40 to $50,000; every prize being drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the lottery with the amount of each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York *Weekly Day Book*. Write your address plainly, and direct to SWAN & Co., Atlanta, Georgia

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

All communications strictly confidential. m18 1y

American and Foreign Patents.

R. H. EDDY, solicitor of Patents.

(*Late Agent of U. S. Patent Office, Washington, under the Act of* 1837.)

No. 76 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States and in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed at short terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other opinions rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the validity or utility of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none MORE SUCCESSFUL AT THE PATENT OFFICE THAN the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has the ability he believes, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were very few persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed, and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,

Late Commissioner of Patents."

From the present Commissioner.

Account of Patents, 1856.—"For the time I have held the Office of Commissioner of Patents, R.H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,

BY WM. S. HADLEY.

THE SUBSCRIBER has the pleasure of announcing to his old patrons, and the traveling public generally, that he has leased this well-known, commodious and pleasant House, and would invite travellers and others to make "themselves at home" on the premises—promising to spare no reasonable effort which may conduce to the comfort and satisfaction of visitors.

While acknowledging the liberal patronage with which we have been so long favored, in our old quarters; we would solicit a continuance, now that our accommodations are so much increased and improved. WM. S. HADLEY.

Portsmouth, June 15, 1857.

Granite House,

No. 5 Pleasant Street, Portsmouth, N. H.,

By GRANT & LEWIS.

THE Subscribers having leased this well-known and popular establishment, long occupied by Col. Wm. S. Hadley, as an

EATING-HOUSE AND HOTEL,

would invite the patronage of the public, whether citizens or visitors from abroad.

The House has been refitted and newly furnished, and will be conducted as heretofore, Permanent Boarders or transient visitors accommodated

Portsmouth, July 4, 1857. tf

Atlantic House,

RYE BEACH,

IS now open for visitors. The reputation of this House is too well established to need any lengthy description of its advantages. The Proprietor will, as heretofore, devote himself to the comfort of his guests.

Passengers by the Eastern Railroad will stop at the North Hampton station.

Rye Beach, June 20. 6w J. C. PHILBRICK.

The Surf House,

ON RYE BEACH,

IS now open for the reception of Permanent and Transient visitors. This beautiful Hotel was formerly the UNION HOUSE,—and has been purchased by Mr. O. Dockum, one of the proprietors of the Ocean House, and will be conducted in connection with that popular establishment, by NATHAN P. STEBBINS,

Rye, July 5, 1857. 2w *Proprietor.*

SAGAMORE HOUSE,

FROST'S POINT, RYE, N.H.,

IS NOW OPEN FOR PUBLIC ACCOMMODATION.

TRANSIENT and permanent boarders accommodated on reasonable terms. Persons desirous of visiting this splendid retreat, and coming by Railroad, will stop at the Depot in Portsmouth—where MR. WILLIAM D. PERKINS' COACH will be in readiness to convey them to the House.

The SCHOONER SIBYL, commanded by CAPT. RUFUS A. PREBLE, will touch at the Point daily, to convey passengers to and from the Isle of Shoals.

Pleasure Boats in readiness for sailing or fishing parties. GEORGE W. TOWLE.

Rye, July 1, 1857.

Appledore House,

ISLES OF SHOALS,

IS now open for Public Accommodation.

The schooner SIBYL, (one of the beautiful yachts built by the late Geo. Steers,) will run daily to this island from Portsmouth, leaving immediately after the arriving of the morning train of cars from Boston, and return in the afternoon.

The Sibyl is commanded by Capt. RUFUS A. PREBLE, a thorough seaman, who will give every attention to the comfort and enjoyment of his passengers.

The Sibyl has a magnificent cabin, water closets, tanks, and every accommodation which a first class Packet requires.

The advantages this purely Ocean Retreat possesses over all others are well known. Resting on the broad bosom of the Atlantic—free from heat, dust and noise—it is peculiarly fitted to restore health to the invalid, and rest to the careworn and weary. j22 THOMAS B. LAIGHTON.

On hand for Rye Beach.

THE Subscriber respectfully informs the public, that he will run a coach in connection with the Cars on the Portsmouth & Concord Rail Road, to RYE BEACH, daily.

Passengers by taking Cars on the Boston & Maine, and Portsmouth & Concord Railroads, stopping at Greenland, will find this a pleasant and convenient route.

WM. BERRY, 2d., Proprietor.

JERROLDISMS.—The English papers are repeating many of the sharp and brilliant sayings of the late Douglas Jerrold.—Among the best of the number, may be included the following, which appeared in the notice of the deceased, in the London Athenæum. The article bears internal evidence that it is from Thackeray's pen:—

His wit was all steel points,—and his talk was like squadrons of lancers in evolution. Not one pun, we have heard, is to be found in his writings. His wit stood nearer to poetic fancy than to broad humor. The exquisite confusion of his tipsy gentleman, who, after scraping the door for an hour with his latch-key, leans back and exclaims, "By Jove! some scoundrel has stolen—stolen—the keyhole!" comes as near farce as any of his illustrations.—His celebrated definition of Dogmatism as "Puppyism comes to maturity" looks like a happy pun—but is something far more deep and philosophic. Between this, however, and such fancies as his description of Australia—"A land so fat, that if you tickle it with a straw, it laughs with a harvest"—the distance is not great.

One of those playwrights who occupied Old Drury, under the French, against whom he waged ceaseless war of epigram, was describing himself as suffering from fever of the brain. "Courage, my good fellow," says Jerrold, "there is no foundation for the fact." When the flight of Guizot and Louis Phillippe from Paris was the fresh talk of London, a writer of no great parts was abusing the revolution and pitying Guizot. "You see," he observed, "Guizot and I are both historians—we row in the same boat." "Aye, aye," says Jerrold, "but not with the same sculls."

He had a lending look, of which many took advantage. The first time he ever saw Tom Dibdin, that worthy gentleman and song writer said to him—"Youngster, have you sufficient confidence in me to lend me a guinea?" "Oh, yes," said the author of 'Black-Eyed Susan,' "I have all the confidence, but I haven't the guinea."

It appears to be the fashion in Virginia, for Sabbath-school teachers to go to Sabbath-school with revolvers in their pockets, and in the intervals of their teaching, to use them as occasion may require. Thus, on Sunday last, a young man named ed Austin, a student in an Episcopal Theological Seminary, went to a Sabbath School of which he was a teacher in Fairfax County, Va., not far from Washington, thus regularly armed and equipped. An attempt seems to have been made by two of his fellow-teachers, or perhaps his pupils, to prevent him from entering the school-house, and a third party having interfered, Austin drew his revolver, and fired three shots at this third party, one of which killed him instantly. Austin's friends insist that his life had been threatened, that he was brutally assaulted by the other parties, and that he fired in self-defence. However that may be, the whole affair is a sad illustration of the rapid barbarization of the South. What a strange idea must prevail of religion where such things happen at a Sunday School! This is the Church South with a vengeance!—*N. Y. Tribune.*

S. D. & H. W. Smith,

—MANUFACTURERS OF—

Melodeons, Organ Melodeons,

—and—

PEDAL BASS MELODEONS,

No. 511 Washington Street, Boston.

The first premium over all competitors, at the Fair of the Mass Charitable Mechanic Association, of the National Fair, Washington, D. C., also at the Ohio State Fair, held at Columbus, Ohio, was awarded to these Manufacturers.

By means of a new method of Voicing, known only to themselves, they have succeeded in removing the harsh and buzzing sound which formerly characterized the instrument, and rendering the tones full, clear and organ like. The action is prompt and reliable, enabling the performer to execute the most rapid music without blurring the tones. The swell is arranged to give great expression.

THE PEDAL BASS MELODEONS,

Are designed particularly for Churches, Lodges, Halls, &c. It is arranged with two manuals, or banks of Keys, the lower set running an octave higher than the other, and may be used separately, and thus got in one case two distinct instruments; or by use of the coupler, the two banks of keys may be played at the same time by use of the front set only. This connected with the Pedal Bass, will produce the effect of a large organ, and is sufficiently heavy to fill a house that seats from 1000 to 1500 persons.

THE ORGAN MELODEON

is designed for parlor and private use. The construction is similar to the Church Instrument, being arranged with two banks of Keys, and when used together, by means of the coupler, is capable of as great volume of power as the Church Instrument when used without the pedals. Also, every variety of MELODEONS for Parlor use.

Purchasers may rely upon instruments from our Manufactory, being made in the most complete and thorough manner. Having removed to the spacious Buildings

511 Washington Street,

We have every facility for manufacturing purposes, and employ none but the most experienced and skilful workmen. In short, we will promise our customers an instrument equal, if not superior, to any Manufacturer, and guarantee an entire satisfactory purchase.

Music Teachers, Leaders of Choirs, and others interested in musical matters, are respectfully invited to visit our Rooms at any time and examine or test the instruments on exhibition for sale at their pleasure.

As a still further guarantee to the public as to the excellence of the MELODEONS from our Manufactory, we beg leave to refer, by permission, to the following

Piano Forte Manufacturers of Boston,

who have examined our Instruments, and will give their opinion when called upon:

Chickering & Sons, Hallett & Cumston,
T. Gilbert & Co., Wm. P. Emerson,
Brown & Allen, A. M. Lodd & Co.,
George Hewes, Woodward & Brown,
Newhall & Co.

MELODEONS RENTED.

Persons who wish to hire Melodeons with a view of purchasing at the end of the year, can have the rent credited as part payment of the purchase money. This matter is worthy of special note, as persons who desire a fair test of the instruments before purchasing, to obtain it at the expense of the manufacturers, to the extent at least of a year.

Orders from any part of the country or world, sent direct to the manufactory in Boston, with cash, or satisfactory reference, will be promptly attended to, and as faithfully executed as if the parties were present, or employed an agent to select, and on as reasonable terms.

IMPORTANT DISCOVERY.

DR. CHEESEMAN'S PILLS FOR FEMALES.

Prepared by an old Physician of 40 years experience

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysteric, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." In no letter, should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. L. CHEESEMAN, Box No. 4,581, Post Office, New York City, can have them sent to their respective addresses by return of mail.

THE BEST

Planing, Tonguing & Grooving Machine

IN THE WORLD.

PATENTED Nov. 21, 1854, and Nov. 13, 1855.—These Patents were obtained for improvements upon the celebrated Woodworth Planing Machine, the Patent for which expired, Dec. 30th 1856. By the combination of these several inventions, a machine is produced of *unrivalled excellence.*

A GOLD MEDAL for the invention was awarded by the Mass. Char. Mech. Assoc., at their exhibition of 1856.

Machines of all kinds and sizes, from $150 to $2000.

ALL MACHINES WARRANTED to give entire satisfaction, and to be superior to any other machines now in use.

BURDEN'S

Pressed Boat. Ship, Brad & Countersunk Railroad Spikes

ARE well known in the United States, and are conspicuous for their *regularity* and finish, their unvarying uniformity of *size*, and for the excellent quality of iron from which they are made, to which may be attributed their rare strength. They are *everywhere* considered far superior to the hand-made spike of common English iron, and inferior to nothing of the kind yet introduced to the public.

Morning Chronicle.

FRIDAY, JULY 17, 1857.

The Supreme Court of New York, at the general term in the second district, Judge Strong presiding, has recently decided a case in which the selling of ale (lager beer included of course) in less quantities than five gallons, without a license, is declared not a violation of the Excise law.

We have no doubt this decision is correct. Nor have we any doubt that the exemption of cider from the prohibitory clause in the New Hampshire law, has really tended to make the law stronger here in public opinion. Some slight modifications, in other respects, might be made, which would doubtless remove some objections, strengthen the law, and thus make it more efficient for good, without damaging its principles in the least degree.

WHITTIER AND LONGFELLOW.—The New Orleans Picayune makes the following critical objection to the works of these two poets:

"The name of the most charming poet of New England is the synonym of Abolitionist, and disfiguring the pages of one of the most beautiful collection of poems in the language. The emanations of his pen are pieces that were in their place when in the Poet's Corner of the National Era or Liberator. Even the author of "Hiawatha" and "Evangeline" has made his published works a distasteful addition to a Southern library, by mingling with his pure gold the basest alloy."

Exactly so. Slavery can have no poetry, no eloquence. It is simply impossible in the nature of things.

COL. FORNEY.—The new Democratic paper announced by Col. Forney is not kindly received by his old paper, the Pennsylvanian, which receives his project with the following style of greeting. However, in the inevitable divisions of the Democratic party, there will be room for both papers:

"To Col. Forney we owe nothing. So long as our columns could be used for his own purposes, some time under the guise of serving the party, it was well. But now that his political fortunes are past help, we are coolly requested by him, through his friends, to resign the control of our paper to him, or to dispossess ourselves by an absolute sale, at a price which he knows to be less than one half its value, and which would involve our pecuniary ruin.

Our refusal to accept his proposition, brought the threat that a new organ would be commenced, and that a few months would be sufficient to blot us out of existence.

Whilst Mr. Buchanan, among the special friends of Col. Forney, is the subject of loud complaints and bitter revilings, does the President deserve to be branded as an ingrato? Has he not asked Col. Forney to take a position in his government, the best in his government for which Col. Forney is fitted, and worth, as tendered to to him, at least $15,000 per annum, besides from his friends an outfit in cash of $10,000? Does this look like ingratitude on the part of the President for services rendered?"

CONCORD.—A large number of additions, have recently been made to several churches in Concord, N. H.; vis. to the 1st Congregational church 12; to the South Congregational church 29, of whom 14 are young men. To the 1st Baptist Church 51, whose ages range from 13 to 40. Of this number 18 are young men, and 10 are heads of families. To the 2d Baptist church 37, of whom 12 were young men. To the Freewill Baptist 14, and to the Methodist Church 60, on probation, of whom 17 are young men.

Whole number, 201, of whom, about 70 are young men. 50 or 60 more are expected to unite with the several churches.

The Congregational Journal, from which we gather the above facts, offers the following remarks:

As to the genuineness of the work, we have had but little opportunity to form an opinion. We hope the future developments of its character will be far more favorable than our fears. The haste to increase church membership, the superficial instructions of the pulpit, the ease with which hopes are obtained, and the slight tests of conversion which characterize many of our modern revivals, justify us, we think, in the belief, that enumeration of converts should often be taken with much abatement. When, as many of our readers can testify from their own observation, a large proportion, often more than one-half of the hundreds pronounced "converted" in revivals, go back to the world in a few weeks or months, and become worse than before, it is inevitable that we should have our confidence more or less shaken in their purity. We now speak in general terms without any local reference. So far as we can judge, the late religious interest in Concord, has resulted in much good, but time must test the quantity and quality of its fruit. If any souls have been renewed in the Lord, and who will hereafter live for his glory, to him be all the praise.

ATLANTIC HOUSE, WELLS BEACH,
Wells, Me., July 16, 1857.

Messrs. Editors,—If you have never been here you can form no idea of what your correspondent enjoyed on his way here, and is now enjoying.

From the register of the hotel it appears that the Portsmouth people who visit this beach are like angels' visits; but now that its managers have concluded to make its merits known, it is to be hoped that more will avail themselves of the opportunity here presented to enjoy themselves. They will find the promises made in the advertisement more than fulfilled.

Those who go in carriages will find the road straight and good, better beyond York than in it, especially after passing the trap (some have the impudence to try to make passers think it a bridge,) over York river. It is said that York pays enough for damages occasioned by her bad roads to keep them in repair.

On our way we found the scenery greatly diversified; here a frowning crag covered with hardy shrubs, there a deep ravine overgrown with rank vegetation which nearly hides the stream, now a narrow thread, but after heavy rains raging fiercely down the gorge; then a view of the ocean, with boats and vessels dotting its surface and Boon Island Light standing guard, erect and motionless; now verdant fields, replete with promise of abundant harvests, and hay-makers busy in all phases of their avocation; on the left a tumble-down hovel, on the right a really elegant house; above us, on the stream we are crossing, a picturesque old mill, below us the ruins of another, the immense old-fashioned wheel of which still remains adding to the variety of the scenery.

And the fragrant scents, not to speak of the sounds, (as the lowing of cows, chirp of sparrows, twitter of swallows, warble of robins, whistle of plover, hiss of geese, barking of dogs, and chatter of squirrels,) they are preferable to the highly-vaunted Frangipani. As we go by this thicket, the balsamic odors of the fir, spruce and pine commingle, then from the lowlands the brake and kindred vegetation send up their peculiar fragrance, and anon comes the breeze laden with the perfume of new-mown hay, or of the sweet-brier growing along the walls, this changing quickly to the grateful incense of clover.

Arriving at the house two fine beaches are found, the one west of the house, four miles long, smooth and hard, a fine ride; the other stretching around a bay, two miles, is one of the finest beaches for bathing to be found anywhere. The visitor will have a comfortable apartment and be lulled to sleep by the washing of the surf directly under the windows.

Your perspiring friend SEAL.

EXPLOSIONS.—A Boston letter writer to the Newburyport Herald says:

The explosion of Rev. Mr. Alger's political gun at the Tremont Temple, and the explosion of the shell gun cast by Mr. Alger of South Boston, have been the town talk ever since the Fourth. The culpability of the Algers in the two cases is equal. The reverend Alger loaded his political gun, and thinking the charge too heavy, withdrew a portion of it, but at the moment of firing replaced it again, producing great confusion among the heroes and patriots of the City Council. Alger, the gun caster, found that his shell gun was defective, offered to condemn it, but finally patched up the defect and delivered it without subjecting it to the usual powder test, and the consequence was a catastrophe which threw a gloom over the festivities of the nation's birth-day, and carried deep sorrow into many homes. By the exercise of common prudence these sad results would have been avoided, and they should serve as a caution to those who are selected to furnish the oratorical and pyrotechnical displays of future anniversaries.

The city fathers of Boston rather donkeyized themselves, and lionized Mr. Alger, whose oration will now be read by ten, where it might otherwise have been read by one.

☞ Gentlemen or Ladies, who are in want of almost any article that can best be procured in New York, can hardly do better than to avail themselves of advantages offered by the advertisement of "Porter's Spirit of the Times." This new journal has proved itself at once one of the best literary as well as sporting papers in this country or the world; and the editors are thoroughly posted up in the prices and qualities of merchandise generally; and are entirely reliable.

THE CAPITOL BUILDING.—The Washington Star corrects the statement that the rotunda walls of the new capitol are too weak to bear the new iron dome. The force of workmen is to be increased as much as possible, in order to expedite the work. As to the weight, the new dome will be comparatively the lightest large structure in the world, and has supports ample enough to sustain many times its weight.

The Deseret News, Brigham Young's organ, is highly gratified with the decision in the Dred Scott case, and argues that the application of the same principles to the "peculiar institution" of Utah will secure that territory in the full and free exercise of the Mormon faith. The News says:

"The Supreme Court of the United States have decided that the act of Congress known as the Missouri Compromise, about which politicians have harped so much, is unconstitutional, and therefore null and void, and that Congress has no power over the question of slavery in the territories, and of course none over the question of polygamy. Those 'twin relics of barbarism' can now flourish wherever the people will it in any of the territories of the United States, and Uncle Sam can attend to his own legitimate business without troubling himself any further about them."

SUFFOCATED BY GAS.—At the Cattle Fair Hotel, in Brighton, on Wednesday, the gas pipe leaking in the cellar, two laborers who were sent to rectify the matter were suffocated by gas and fell senseless, and one of them has since died. Messrs. Atwood and Blaisdell going to their rescue, were also badly affected by the gas.

☞ Although they do not convict liquor sellers in Boston, such people catch it when they venture to extend their operations outside. Joseph Redding and Mary Brandall went out from Boston to Abington, on the Fourth, to sell liquor to the picnic folks. They were arrested and tried, found guilty, and sentenced to pay a fine of $10 and costs, and twenty days each in the House of Correction. They did not appeal, and were carted off to prison.

☞ Godey's Ladies' Book, for August, is on our table, with its usual promptness and beauty of engraving. Frontispiece, Autumn Flowers; the unrivalled Fashion Plate contains four elegant figures in summer fashions, besides a dog and a hoop.—The Frugal Housewife is a good story, with an obvious moral.

SPECIAL NOTICES.

Important.—Lawrence's Carminative is the only child's medicine in this country, and is good in all cases of sickness.

Have you ever tried Dr. Wilson's Dysentery Powders? If not we assure you that they are the best medicine in the market for the cure of Dysentery, Diarrhea, and all kinds of Bowel Complaints. They are perfectly safe and effectual. For sale by J. H. Thacher and W. R. Preston, at 50 cents a Box. jy16 3w

☞ Mr. Asa S. Tilton at his Union Store, No. 12 Market street, sells the following Medicines at reduced prices:—Dr. Larookah's Indian Vegetable Pulmonic Syrup, warranted to cure coughs, colds, whooping-cough, asthma, bronchitis, croup, catarrh, consumption, and disease of the throat and lungs. Price 75 cents per bottle.

Also, Kennedy's Medical Discovery, Kennedy's Salve, and Holman's Nature's Restorative.

IF ALL OUR READERS

Who are troubled with liver complaint, Jaundice, or Dyspepsia, will read the advertisement in another column of Dr. Sanford's Invigorator, and then do as we have done—get a bottle, we should not see so many sickly, half-dead, despairing people as now meet our gaze at almost every corner, for certainly there never was a remedy invented of which so much is said, and that performs so nearly what its proprietors say it will do. It came to us so highly recommended that we could not fail to try it, and a trial has convinced us, without a doubt, that it is the best family medicine in use. We take it for Headache, Sour Stomach, Billiousness, and any of the little bodily ills that are common, and it does produce a pleasant state of feeling to the sick, and what is better, after using it a few times, these little ills grow less and less, and there is a prospect of being entirely free from them by a continuance in the use of the Invigorator. LADIES AND GENTLEMEN:—We would call your attention to Prof. O. S. Wood's Hair Restorative. From our long acquaintance with the proprietor, and with numerous individuals who have used his preparation with perfect success for the last two years, we feel no hesitation in recommending the article as superior to any of the preparations now in use for the same purpose, viz: for restoring gray hair to its original color, a sure and perfect cure for baldness, and a never-failing preventive for the falling of the hair.

It is decidedly the best and most popular in use for beautifying, preserving, restoring and strengthening the hair, relieving diseases of the skin, and removing scurf, dandruff, and all eruptions and feverish heat from the scalp.

We speak in relation to the above from what we know, having been personally acquainted with numerous persons who have used the Restorative for the above purposes, with the most gratifying results.

It is not often we notice a patent medicine.—Indeed, we think we have never puffed one before; but Professor Wood's "Hair Restorative" is something so superior to most of the preparations of the day, that we cannot forbear asking the attention of our readers to it.—[Catholic Vindicator.

LOCAL.

MUNICIPAL.—*Thursday Evening, July 16.*—In Board of Aldermen, Geo. Dennett asked permission to open a drain in Dennett street. Granted.

A petition was presented to raise the sidewalk on State st., in front of the Sheafe house. Referred to Committee on Streets, Roads and Bridges.

An application was made for blinds to be placed on the school house in School st. Referred.

An application was made for repairs on the staircase to the old South Church clock. Referred to the Committee on Buildings.

A petition was presented from Mr. John K. Pickering, at the last meeting of the Board, requesting a definition of the boundary line between his land and the street, said land being situate on Wibird's Hill, Middle street—which was referred to the Committee on Streets. The subject requiring some further investigation, it was laid on the table.

☞ The U. S. sloop-of-war Vandalia was launched from the Floating Dock at the Portsmouth Naval Station on Tuesday morning. The repairs, which are nearly completed, have been quite extensive.—When finished and rigged, she will immediately be sent to sea.

The men lately employed on her are being discharged as fast as practicable. Thirty were dismissed on Wednesday.

☞ Prof. Fabin's Great Museum of Wax Statuary,—of noted criminals, &c., is to be exhibited at Store No. 3 Congress Block, Portsmouth, for a few days, commencing to-day, Friday.

☞ We were presented, last evening, with several bottles of Spruce Beer, by Capt. Clark—which refreshed us much after a hard day's work. Success to the Captain and his beer. C.

STRONG AND HEARTY.—Mr. Noah Noyes, the oldest man in Newbury, now in his 87th year, made his annual journey, on foot, to Boston, last week. He went over the old road, tramping off like a lad of sixteen, and returned on Friday, not so much wearied but that he could attend church all day Sunday, walking some two miles from his home.—*Newburyport Her.*

THUNDER AND HAIL STORMS.—A thunder shower passed over Milford, N. H., on Monday, during which the barn of Mr. Jeremiah Hood was set on fire by lightning and destroyed. Loss $300.

The Manchester American says a hailstorm, accompanied by a heavy wind, passed over Keene on Monday, prostrating crops, tearing up trees, and doing great damages to the fruit.

DROWNED.—The Lancaster (N. H.) Democrat reports that Reuben and William, the two youngest sons of Mr. Fielding Smith, of that town, were drowned in a mill pond near their father's house on the 13th inst. The eldest went to bathe, but getting beyond his depth, called for help, when the youngest started to his assistance.

Neither of them could swim, and they both sank together. They were 15 and 18 years of age, respectively.

ENIGMA.

I am of middling stature,
When quite erect I stand.
With one leg in the ocean deep,
The other on dry land.

My legs are not related,
Tho' side by side they stand;
One is of iron constitution,
The other that of man.

For free trade and sailors' rights,
O'er the ocean I have cruised,
Over craggy hills and mountains,
Yet never have on shoes.

But now the war is over,
And the victory is won,
If you think I've done my duty,
I will say my name is DUNN.

☞ Rev. Mr. Mann, or Rev. Mr. Cummings, of Exeter, is expected to preach at Newington, next Sunday.

THREE DAYS LATER FROM EUROPE.

HALIFAX, July 15.

The steamship America, from Liverpool July 4, arrived at this port this afternoon.

GREAT BRITAIN.—Parliamentary proceedings are very dull and uninteresting. A bill has been introduced as an antidote to the new divorce bill, its object being to exempt the clergy from the duty of marrying persons divorced on the ground of adultery. It was *rejected* by 62 to 23. The House of Commons is engaged mainly in debating the supply bills.

The Daily News is authorized to state that the Earl of Shaftesbury is decidedly opposed to the importation of free blacks into the West Indies, regarding it as perilous in the extreme.

The new screw steamer Fox, Capt. McClintock, fitted out by Lady Franklin, sailed on the 1st for the Arctic regions, in search of the remains of Sir John Franklin and his crew.

The Duke of Marlborough is dead.

At a meeting of the company owning the mammoth steamship Great Eastern, it was announced that the vessel may be launched in September, but the trial trip to Portland is deferred to next August.—Her total value is to be £597,000, or nearly $3,000,000.

The American merchants in Liverpool had invited Capt. Hudson and officers of the United States steamship Niagara, to a banquet, on the day of the sailing of the America, in honor of the Fourth of July. On the following Thursday the officers were to dine with the Mayor of Liverpool.

The King of Belgium is on a visit to Queen Victoria.

FRANCE.—Gen. Cavaignac is officially announced as one of the opposition candidates for the new election in Paris. The government candidates are the same as before.

LIVERPOOL, July 3.—The Cotton market is generally unchanged, with the exception of a slight advance on some descriptions.

Breadstuffs generally are quiet and steady. Richardson, Spence & Co. report Flour dull, with a declining tendency; Wheat firm, and Corn quiet and steady; but Brokers' Circular quotes Corn dull, at a decline of 6d per bush.

NEW YORK, July 15.—This morning, the police station houses were handed over by the Mayor to the new Commissioners, who immediately took possession.

Superintendent Tallmadge has doubled the force in the 17th ward. He has positive information that the recent German riots were incited by disbanded policemen.

There were no further attempts at rioting last night in the 17th Ward. The military were under arms during the evening, but there was no occasion for their services. The police remained in their station houses, and did not attempt to patrol the ward, fearing their presence would be the signal for a renewal of the rioting of the previous day.

The funeral of Muller, who was killed in the riot on Sunday, took place at 4 o'clock. There was an immense attendance of Germans, and a large body of policemen were in reserve, in the result of the excitement leading to a further breach of the peace. The procession took for part of its route the Bowery, and in passing the station house, exhibited a banner with the words "Killed by the Metropolitan Police!" inscribed thereon. The Germans, five abreast, and about 3000 in number, halted as they passed, and hooted and shouted at the police, but no assault was attempted.

At the indignation meeting in the evening about 5000 were present. The speakers all violently denounced the police, but advised the people to remain quiet, and to appeal to the ballot-box for redress.

WASHINGTON, July 15.—According to the despatches received at the Navy Department from Aspinwall, the Saratoga was ordered to sail for San Juan del Norte, on the 20th, and the Cyane sailed about the 5th for Boston. Capt. Montgomery, of the Roanoke, says that unless some provision be made for the transportation of the sick of Walker's men on board the vessel, he shall be compelled to proceed to the Balize, in order if possible to land them at New Orleans The well men from the Northern States will be sent home in the barque Release.

CENTRAL AMERICA.—*Panama, June 4.*—A report reached here yesterday, from Carthagena, that the President of the Republic had at length been invested with full power to settle the claims of the United States against New Granada, arising out of the 15th of April massacre.

THE REAPERS AND MOWERS AT SYRACUSE. *Syracuse, July 15.*—The National Reapers and Mowers' Trial was formally opened yesterday. The ceremonies included a procession, &c., and the introduction of Governors King of New York, and Morehead of Kentucky, and the various delegations, to the President, speeches, &c.

Twenty mowing machines were set at work for the first trial.

THE LIQUOR TRAFFIC IN LOWELL.—A communication from high official authority, states that it was ascertained on the 23rd of March last, through the efforts of the City Marshal, that there were at that time two hundred and seventy-eight liquor shops in the city. On the 23rd of May, the Marshal reported that 142 shops had been closed, and that many of the proprietors had relinquished the business entirely, and had left the city. The Marshal states that there can be no doubt that over one hundred liquor shops have actually been closed. The police are now canvassing the city, and the work of prosecuting all violations of the liquor law is in daily progress, and will be, as long as the courts will convict on reasonable testimony. Mayor Mansur seems determined that no efforts shall be spared to rid the city of the traffic in strong drink.—*Trav.*

AMERICAN HOUSE,
BOSTON.
Conducted on the European Plan.

LEWIS RICE, Proprietor, respectfully announces that in compliance with the very general preference expressed for the European system of hotel management, that the American House will hereafter be conducted solely on that plan. Well furnished parlor and sleeping apartments will be let by the day, or for longer periods. Meals served at the gentlemen's hall at all hours of the day and evening. The ladies' dining hall will be opened in like manner for ladies, and gentlemen accompanied by ladies. The accommodations and conveniences of the house are unsurpassed, and the recent improvements and alterations leave nothing to be desired. Suburban residents will find the arrangement specially convenient. Large or small parties provided with dinners, suppers, &c., at short notice.

Costiveness Cured by Injections.
The Best Family Self-Injecting Syringe in the World.

DR. MATTSON'S Patent Elastic Syringe—for the relief and permanent cure of Costiveness and its attendant evils.

These superior instruments (and no family should be without one of them) are for sale at the Apothecary Store of WM. K. PRESTON. They are neatly put up in boxes, and can almost be carried in the vest pocket. Accompanying them is a manual of directions, for the employment of injections in various diseases; with remarks upon the nature and treatment of habitual constipation. They are highly recommended by the medical faculty of Boston and Portsmouth, as they are sure to remove Costiveness, and render the taking of medicines entirely unnecessary. 4t

Manny's Celebrated Mower
—AND—
MOWER AND REAPER.
IMPROVED.
Built expressly for the New England States.

THE MANNY MOWER has been extensively used for the past two years in New England, and more than six years at the West.—Its success is beyond that of any other Mower or Reaper ever constructed. Over 150 1st *Premiums* have been awarded it, including the *Grand 1st Class Silver Medal* at the WORLD'S FAIR, PARIS, 1855.

With the two past years' *experience*, we have been enabled to make a number of very *important improvements*. We find New England farmers require a different Machine from other sections;—the fields generally being small. It must be *light*, at the same time possess *great strength*; *portable*, with facilities to *raise the cutters to pass obstructions*, and to remove from field to field. A perfect cutting apparatus, to cut the fine grass—without clogging, and so constructed as to *start* in the grass *without backing*, easily adjusted to cut high or low, and have a lead to cut equally well with, or against the wind, and to be worked with ease by a light team, and so easily managed and simple that any one of common ability may operate it successfully, and to be built in the most thorough manner.

With this knowledge of the farmers' requirements, and with the determination to build a *better* Machine than has ever before been constructed in this country, we offer the **Manny Mower** of 1857 with confidence, as combining the qualities enumerated above and as our particulars are adapted to meet the wants of New England farmers.

☞ We invite the farmers to call and examine Machines. Orders should be sent early. Circulars, with testimonials, forwarded FREE, on application.

Price of Mower, $110; with Reaper attachment, $15 Extra. Delivered on board the cars at Worcester, Mass. JOHN P. ADRIANCE & Co., *Manufacturers.*

Coggswell's Medical Salt,
A PERFECT SUBSTITUTE
FOR THE
LANCET, LEECHES AND BLISTERS.

INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—has but ONE AIM—accomplishes but ONE THING, viz: REDUCES INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. Every form of *inflammation* (but no other disease) is subdued, by it as easily as fire is extinguished by water. Is it asked, *how* it does this?—simply by restoring the lost balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires merely what adheres to the point of a quill dipped into a solution of it, to affect the entire system.

LAWS OF NEW-HAMPSHIRE.

Passed June Session, 1857.

AN ACT in amendment of chapter 176 of the Revised Statutes.

Be it enacted, &c.—Sec. 1. That in making the list of jurors as provided in said act, the number shall not be less than one half the number fixed as the highest number for the several descriptions of towns specified in the second section of said act.

Sec. 2. Whenever, from any cause, the number of names in the jury box of any town shall be reduced below the number specified as the smallest number in the preceding section of this act, the selectmen of such town before the day appointed for drawing such jurors, may proceed to revise the jury box of such town in the same way and manner as is now provided to be done in the month of December.

Sec. 3. All acts and parts of acts, inconsistent with the provisions of this act, are hereby repealed.

Approved, June 27, 1857.

—

An Act in amendment of chapter 241 of the Compiled Statutes.

SEC. 1. *Be it enacted, &c.*, That whenever any prisoner, under conviction for any criminal offence, shall be confined in jail for inability to pay any fine or costs, or to procure sureties, the court of common pleas in the county where such prisoner was committed, or the county commissioners, or a majority of the same, in vacation, upon satisfactory evidence of such inability, may remit such fine and costs, and discharge him from confinement, upon such terms as they may think proper and expedient.

SEC. 2. Section 12 of chapter 241, and all other acts inconsistent herewith, are hereby repealed.

Approved, June 27, 1857.

—

An Act relating to minors and married women.

Be it enacted, &c., SEC. 1. The trustees or directors of any savings bank or other institution for savings, may, at their discretion, pay to any minor or married woman, such sum as may have been deposited to his or her credit, and may be due to him or her, as if such minor was of age, and such married woman unmarried; and the check, receipt, or acquittance of such minor or married woman shall be a full discharge for the amount for which it is given.

SEC. 2. No savings bank or other institution for savings shall be chargeable as trustee on account of any funds deposited to the credit of any minor or married woman—*provided* such funds are earned by or belong to such minor or married woman in her own right.

SEC. 3. All acts and parts of acts, inconsistent with the provisions of this act, are hereby repealed.

SEC. 4. This act shall take effect on its passage.

Approved, June 27, 1857.

—

An Act entitled an act in amendment of an act prescribing the duties of cashiers of banks.

SEC. 1. *Be it enacted, &c.*, That the cashier of each bank in this State, shall, on the first Monday of each and every month in each year, make a statement of the condition of such bank on said day, in the same way and manner as they are now required by law to do; and such statement, signed, as is now required, with the certificate of the oath of the cashier, shall be returned to the secretary of state, on or before the next Wednesday following said first Monday of each and every month; and sections 43, 44, 45, 46, 47, 48 and 49 of chapter 148 of the compiled laws of the State be and hereby are repealed.

SEC. 2. All acts and parts of acts, inconsistent with the provisions of this act, are hereby repealed.

SEC. 3. This act shall take effect and be in force on and after the first Monday of September next.

Approved, June 27, 1857.

An Act relating to banking incorporations.

Be it enacted, &c, SEC. 1. No bank shall hereafter be allowed to go into operation till after the filing of a certificate of the bank commissioners in the office of the secretary of state, and the publishing in one or more newspapers printed in the county in which said bank is located, that all the capital stock has been paid in in cash, agreeably to the true intent of the charter thereof, and the laws of the state.

SEC. 2. All acts and parts of acts, inconsistent with the provisions of this act, are hereby repealed.

SEC. 3. This act shall take effect from and after its passage. Approved, June 27, 1857.

An Act relating to proceedings against stockholders in corporations.

Be it enacted, &c., SEC. 1 That all legal proceedings, hereafter commenced against any individual stockholder in any corporation in this State for the collection of a debt against said corporation, shall be by a bill in chancery, and not otherwise.

SEC. 2 All acts and parts of acts, inconsistent with this bill, are hereby repealed.

SEC. 3. This act shall take effect and be in force from the time of its passage.

Approved, June 27, 1857.

An Act in relation to administrators, and guardians of minor children.

Be it enacted, &c., SEC. 1. Whenever there shall be bonds, stocks or other written evidences of debt in the hands of an administrator of a solvent estate and there are minor heirs, and it shall appear to the judge of probate for the county in which the administrator received his appointment, that it would be for the interest of such minor heirs that such property should not be sold by the administrator but be transferred to the heirs, the judge of probate may order such bonds, stocks or other written evidences of debt to be transferred to the heirs or the guardians of the heirs respectively in their fair and just proportions, and the said guardians shall be authorized to receive and hold the same so long as they may deem it safe and prudent so to do.

SEC. 2. The guardian of such minor heirs shall be held accountable for such bonds, stocks or other written evidences of debt, and the income thereof, in the same manner as he is now by law accountable for the real estate of his wards; or he may, at any time whenever the sale shall be necessary for the support of his wards, or would be conducive to their interest, be authorized to sell the said property, or any part thereof, in the same way as guardians may sell the real estate of their wards.

SEC. 3. Every administrator and guardian shall be authorized to sell by license of the court of probate any shares in any corporation, or bonds or securities, payable at a distant day, in such place where such stocks, bonds or securities are usually sold, as the judge of probate may designate, and the administrator or guardian shall be held responsible only for the proceeds of such sale, made agreeably to the decree of the court of probate.

SEC. 4. This act shall not be construed to authorize any administrator or guardian to invest any funds in his hands in any manner not heretofore authorized by law.

SEC. 5. This act shall take effect and be in force from and after its passage.

Approved, June 27, 1857.

An Act to enable contiguous school districts to unite and form a single district.

Be it enacted, &c., SEC. 1. That any two or more adjoining school districts in this State, may, by a two-thirds vote of the legal voters in each of said districts present at an any legal meeting thereof duly notified and holden for that purpose, unite and form a single district, and such new district, so constituted, shall have all the powers and privileges and be subject to all the liabilities of other school districts in the State.

SEC. 2. Chapter 1855 of the Pamphlet Laws and all other acts and parts of acts, inconsistent with the provisions of this act, are hereby repealed.

SEC. 3. This act shall take effect upon its passage. Approved, June 26, 1857.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FRANCE & Co are the managers, are chartered by the state of Maryland, and a commission issued to them by the State, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled from the class next to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Tertary combinations, where any 3 numbers come, pay $100 00. All orders for tickets or packages will receive prompt attention, and the drawing mailed to purchasers immediately after it is over.

☞ The drawings are under the supervision of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D. C.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received are filled from the class next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are: Whole, $5; halves, $2.50; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so arranged that one ticket will do to every Maryland Lottery. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $30,000; every one being drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Day Book*. Write your address plainly, and direct to S. SWAN & Co., Atlanta, Georgia

Prizes paid in full—no percentage deducted from prizes as other lotteries.

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,

(*Late Agent of U. S. Patent Office, Washington, under the Act of* 1837.)

No. 76 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries; also, Reissues, Extensions, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American and Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the Specifications and Drawings of any patent, remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, those which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that no other office in the United States the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full models of all patents granted in the United States and Europe, render him able, on any question, to offer superior facilities for obtaining patents.

All necessary of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the most informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner:

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MAGUIRE,
Commissioner of Patents.

THE EMPEROR'S DREAM.—The Emperor Napoleon III, has something of the superstitious in his nature, being an admirer of Hume's "spiritual" jugglerie, a believer in ghosts to some extent, and an ardent seeker for interpretations of all mysterious dreams. The Paris correspondent of the New York Tribune, tells of him the following story:—

His Majesty dreamed the other night, as he lay "on his downy couch recumbent," that three long-tailed rats marched gravely about his bed. They marched and marched and marched, the shrewd knowing eyes of two of them, winking at him all night long. There was a stout, rakish, fat rat, and a thin, melancholy, lean rat, and a stone-blind rat. The vision had such an effect on the Emperor, that he sent next day for a medium to interpret its meaning. "Sire," said the interpreter, "the meaning is clear, but I dare not tell it; you would be angry, and I should be punished." "My good fellow (*mon brave homme*)" answered the Emperor, with the friendly smile and pleasant manner which have become celebrated for their charm since 1852, "I give you my word that no harm shall come to you from the interpretation." "Je vous demande mille pardons, Sire, but you recollect that your word in '51—" "No more of that; here are ten napoleons. Now tell me the meaning of those rats. Confiding in the golden napoleons, which the soothsayer incontinently pocketed, he interpreted as follows: "The fat rat, Sire, symbolizes your courtiers and intimate adherents, who have accumulated swollen fortunes at the Bourse, and have made rich marriages, and have built fine hotels, and wear fine linen, and drive blood horses out to the Bois de Boulogne these last four or five years. The lean rat symbolizes the people, who lack food for its dearness, and instead of increasing and multiplying, are threatening to decrease. The blind rat, Sire—" and here the interpreter stopped, evidently in great embarassment. Now, the blind rat had excited the dreamer's curiosity more than all the others; for, notwithstanding his blindness, he marched with upraised tail, an easy confidence and a something almost swaggering in his air, as if he were the luckiest in his species. "Eh bien! the blind rat?" quoth the Emperor impatiently. "Ah, the blind rat, Sire, the blind rat—you remember that you promised me I should not go to Cayenne—well, the blind rat—mille fois pardon!—the blind one, Sire, is yourself!"

A REMEDY FOR DYSPEPSIA.—The Oxygenated Bitters have been tested by scientific men, and proved to combine the most valuable tonic properties. Being free from alcohol, no reaction is suffered by the most delicate constitutions.

AMERICAN HOUSE,
BOSTON.
Conducted on the European Plan.

LEWIS RICE, Proprietor, respectfully announces that in compliance with the very general preference expressed for the European system of hotel management, that the American House will hereafter be conducted solely on that plan. Well furnished parlor and sleeping apartments will be let by the day, or for longer periods. Meals served at the gentlemen's hall at all hours of the day and evening. The ladies' dining hall will be opened in like manner for ladies, and gentlemen accompanied by ladies. The accommodations and conveniences of the house are unsurpassed, and the recent improvements and alterations leave nothing to be desired. Suburban residents will find the arrangement specially convenient. Large or small parties provided with dinners, suppers, &c., at short notice.

Manny's Celebrated Mower
—AND—
MOWER AND REAPER.
IMPROVED.
Built expressly for the New England States.

THE MANNY MOWER has been extensively used for the past two years in New England, and more than six years at the West. Its success is beyond that of any other Mower or Reaper ever constructed. Over 150 *1st Premiums* have been awarded it, including the *Grand 1st Class Silver Medal* at the World's Fair, Paris, 1856.

With the two past years' *experience*, we have been enabled to make a number of very important *improvements*. We find New England farmers require a different Machine from other sections;—the fields generally being small. It must be light, at the same time possess *great strength; portable*, with facilities to *raise the cutter to pass obstructions*, and to remove from field to field. A perfect cutting apparatus, to cut the fine grasses without clogging, and so constructed as to *stand* in the grass *without backing*, easily adjusted to cut high or low, and have a lightness to draw equally well on or against the wind, and to be worked with ease by a light team, and so easily managed and simple that any one of common ability may operate it successfully, and to be built in the most thorough manner.

With this knowledge of the farmers' requirements, and with the experience in attempt to build a *better* Machine than has ever before been constructed in this country, we offer the **Manny Mower** of 1857 with confidence, as combining the qualities enumerated above, and as one particularly adapted to meet the wants of New England farmers.

☞ We invite the farmers to call and examine Machines. Orders should be sent early. Circulars, with testimonials, forwarded FREE, on application.

Price of Mower, $110; with Reaper attachment, $15 Extra. Delivered on board the cars at Worcester, Mass. JOHN P. ADRIANCE & Co., *Manufacturers.*

IMPORTANT DISCOVERY.
DR. CHEESEMAN'S PILLS FOR FEMALES.
Prepared by an old Physician of 40 years experience.

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health and strength of the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhoea, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. L. CHEESEMAN, Box No. 4581, Post Office, New York City, can have them sent to their respective addresses by return of mail.

MAP OF AUBURN STREET CEMETERY.—It is a wise arrangement so to invest the place where the dead repose with attractions as to make it a pleasure, melancholy though it may be, to resort there. The beauty of the scenery at some seasons of the year draws many to the above Cemetery.—Hundreds, on some days, may be seen walking in the various paths—now standing over the resting place of some relative or acquaintance, and then looking upon the yet unoccupied spots which many now in health and busy life have selected for their final resting place. It would be well to have names to designate the principal avenues of the ground—a matter which has been long neglected. It would be well also to have a Map of the Cemetery, that those who are desirous of finding any particular lot, may have a guide ever at hand.

The latter suggestion is about being acted upon. A plan has been taken of the Cemetery, embracing all that part usually called "the Proprietors' Burying Ground," showing the position and number of every lot, with the owner's name. This plan will be published as soon as warranted by subscriptions from those who have any interest in the premises.

The price will be 30 cents per copy—four copies for $1. Subscription papers may be found at the stores of Mr. J. F. Shores, jr. and Mr. J. H. Foster.

"*Harmony Grove Cemetery*," in the rear of the above, is not yet complete in its arrangement, therefore correct plans of it cannot at present be made—but probably will be ere long.—*Journal.*

NEWELL'S SAFETY LAMP.—"On Friday evening July 3d, the wife of Charles Spaulding of Lowell, was so severely burnt by the explosion of a fluid lamp, which she dropped, that she died on Sunday." Such are the accounts which almost daily reach us in the papers. The public ought to know that there is but one sort of safety lamp for fluid. M. P. Parish, Esq. editor of the Plow, Loom and Anvil, says—"We have used Newell's safety lamp, for burning fluid, for years, having previously tested it in various ways, trying its efficacy in every mode our ingenuity could contrive, but we could never get an explosion; although doing the same things with implements not thus provided, we have often obtained reports as loud as those of a pistol."

These lamps, which are the only things for burning fluid in safety, are for sale by Mr. R. N. Bodge, in this city.

MEMORIAL STONE TO WHITFIELD.—The Committee, appointed by the General Association of Congregational Ministers in New-Hampshire, to procure subscriptions, determine the position, plan and legend, and to erect a Memorial Stone on the spot where Rev. George Whitefield preached his last sermon, are now ready to erect the stone as the funds can be gathered. They wish none to give above one dollar. A leaden box will be sealed in the base of the monument, in which the name of every contributor will be deposited, together with other documents. The committee are Lyman Whiting, Nathaniel Bouton, Asa Mann, Amos Tuck, Wm. Perry, J. G. Hoyt; and the gentleman to whom subscriptions may be sent, givers' names fully and legibly written, is Hon. Amos Tuck, Exeter, N. H.

Whitefield preached his last sermon at Exeter, on the afternoon of Saturday, 29th of September, 1770, having preached four times at Portsmouth the same week. He then rode to Newburyport, expecting to preach there on the Sabbath, but was taken with asthma and died early on that day.

It is proposed to complete and inaugurate the memorial on the 29th of September, the anniversary of his death.

SAD ACCIDENT TO DR. LORING OF SALEM.—Dr. Loring, of Salem, met with a sad accident yesterday afternoon, at his residence on the Pickering farm. He was viewing the workings of a new mowing machine, and while standing in front of the same, the horses attached to the machine started up, and one of the cutting blades came in contact with his right foot, nearly severing it from the leg. Dr. Loring was taken up insensible and removed to his house, suffering greatly with pain during the night.

We learn from the Salem Gazette that a very thick and stout boot which the Doctor wore probably prevented the instantaneous amputation of the whole foot. The attendance of Drs. Cox and Pierson was soon obtained, and under their skillful care all was done that the nature of the case admitted.

The anatomical knowledge and presence of mind of Dr. Loring probaly saved his life.—By pressing his hand upon the main artery in the upper part of his leg, he was able to check, somewhat, until the arrival of the physician, the great flow of blood, which would otherwise have been very dangerous. At present it is not expected that amputation will be necessary.

THE LATE JUDGE LIVERMORE was eminently a man of ready wit and a good deal of irrepressible humor. Those who remember him and thought it no harm for a Judge to laugh and afford occasion for others to do likewise may be amused with the recital of a story which is strictly true. The following was a long standing tradition among the stage drivers. One of those gentlemen had the gratification of driving the judge over a somewhat rough, hilly or stony road on part of his judicial circuit. The judge being the only passenger, and withal an honored one, the driver thought to make good time, and at the same time to testify his respect for his passenger by adopting a rate of progress quite inconsistent with the comfort of the insider. There was little in the scenery to cause him to lengthen the solitary ride, so that he was inclined at first to partake in the driver's love of speed. But the coach was like a kite's bob at the tails of the four flying horses, and seemed to touch the earth only in places where a stump or a stone particularly invited contact. The lawlord found that the gravity of office would not answer the purposes of gravitation to keep him upon the seat, nor with such aids as the inside of the coach afforded could he keep himself from being pounded to pieces. He cried out at length with a thundering voice to the driver to stop. The tone carried authority, and the horses were brought up in a rapid movement down a long hill. The driver dismounted, trigged the wheels, and opening the coach door, respectfully asked what was the judge's pleasure. Said the judge—"There is a large stone in the road some rods back that you did *not* drive over; you had better turn about and try *once more* to hit it, for I am sure it is the first you have missed since you left DOVER."—*Post.*

SATURDAY, JULY 18, 1857.

HAVE WE MADE ANY PROGRESS?

Persons who desire to see any reform in morals or manners, are very apt to be impatient. Some persons go so far in this direction, as utterly to despise the day of small things, and to conclude, if we cannot accomplish our purpose fully, it were hardly worth while to have done or suffered anything in making the effort, and by no means worth while to do anything more.

Some such feelings we have seen exhibited by friends of temperance, by lovers of liberty, by advocates of good order; and it is by no means impossible that more of them may be felt than are expressed.

Many more expressions have we seen of *concern* for one good cause, and of *fear* that the professed friends of temperance would ruin their own cause, or "put it back twenty years"—and these abundant expressions of concern and fear have usually appeared in papers which have steadily *opposed* every movement of the cause for whose safety they are now professedly so anxious.

Their concern, in itself considered, is simply ludicrous. But as it is expressed so often, so gravely, and with such an air of suffering innocence, that some persons who know no better may believe it; therefore it may be well to look at a few facts in relation to this reform.

How is it with the sale and use of intoxicating liquors now, compared with 30 or 40 years ago?

In one respect, we can show a few exact figures, and these figures, carefully considered, indicate a great change for the better. We refer now to Temperance Stores, or more properly, to grocery stores where no intoxicating drinks are sold. We mentioned, some time ago, 22 such stores or shops in Portsmouth; and we omitted two, viz: the store of Mr. Walter B. Laskey, at the corner of Penhallow and Bow streets, which is free from any such drinks,—and one other, since closed. One other besides has also closed,—leaving 22 at the present time, several of which do a large business.

Our object, in noticing these stores, at that time, was not merely (as some seemed to suppose) to show where groceries could be found free from the company of topers, and free from the temptation of drinks, but chiefly to show that progress had been made in the cause of temperance, of which these stores are a certain mark.

We renew our notice of them at this time, for a similar purpose, viz: to compare the present with forty years ago.

Forty years ago, and thirty years ago, no such store existed here: none was thought of; and we suppose no such one existed anywhere. There was no such store in Boston in 1820; no such store in Newburyport in 1818—22. There had been, in a few instances, dry goods and variety stores, which kept what were called *dry groceries*, i. e., tea and coffee, and in some cases nice sugars and spices, without molasses, butter, wines, or liquors. But a grocery store proper, without rum, could never have been found in Portsmouth, prior to 1827—and indeed was a thing unthought of—though there were about 200 stores and shops where liquors could be had, in 150 of them by the glass; and more or less groceries were kept in three-quarters of them, up to 1827.

At the present time there are in this city about 70 places where liquors are sold;—perhaps 30 of them are mere bars or groggeries, where, besides liquors, not much is sold beyond cigars, pipes and confectionery. The other 40 are grocery stores, large and small. So that more than one-third of the groceries here sell no spirits.

Can any one tell us what has made this change? It is the change of public opinion; the change of custom and fashion in this community. The keepers of the 22 stores and shops abstain from the sale of an article in their line that pays a large profit.—Why do they not sell? Because they either deem it wrong in itself, or bad in its effects on the buyer and the public, disreputable and uncomfortable to themselves,—or lastly, unlawful.

These are about all the motives we think of just now; and for our present purpose it is no matter which of them is taken. The important fact in the case is, that the change has taken place, and such a fact cannot very easily be winked or lied out of sight. This change in trade is at once a mark and an effect of the change in favor of temperance; exactly as the 70 remaining rum places are a tide mark to show how high the flood of intemperance rises now-a-days.

The fact that such a change has been wrought, is encouraging evidence that more good may be done in the same direction, by the use of proper means, under the divine blessing.

We shall consider the subject further.

☞ The superstition of the Parisians is curiously illustrated by an item of statistics in the French papers. It is observed that on Fridays the omnibus travel of Paris diminishes in the proportion of twenty-five per cent. It is also further remarked that when Friday happens to fall on the 13th of the month, which has occurred twice this year, the omnibus receipts decrease at the rate of fifty per cent.

☞ During the last three weeks twenty-four fugitive slaves passed through Syracuse, N. Y., on the underground railroad. One man, it is said, sent his wife on ahead in a box, directed to the "superintendent," J. W. Lognen, of Syracuse. The box and its contents arrived safe and sound.

COMMENCEMENT AT DARTMOUTH COLLEGE. The anniversary exercises of this venerable Institution will take place July 28, 29 and 30. Tuesday afternoon, July 28, has been allotted for the class-day exercises of the graduating class, a comparatively new feature of "Old Dartmouth," having been instituted only a year or two.

SPECIAL NOTICES.

Important.—Lawrence's Carminative is the only child's medicine in this country, and is good in all cases of sickness.

☞ Mr. Asa S. Tilton at his Union Store, No. 12 Market street, sells the following Medicines at reduced prices:—Dr. Larookah's Indian Vegetable Pulmonic Syrup, warranted to cure coughs, colds, whooping-cough, asthma, bronchitis, croup, catarrh, consumption, and disease of the throat and lungs. Price 75 cents per bottle.

Also, Kennedy's Medical Discovery, Kennedy's Salve, and Holman's Nature's Restorative.

Have you ever tried Dr. Wilson's Dysentery Powders? If not we assure you that they are the best medicine in the market for the cure of Dysentery, Diarrhea, and all kinds of Bowel Complaints. They are perfectly safe and effectual. For sale by J. H. Thacher and W. R. Preston, at 50 cents a Box. jy16 3w

IF ALL OUR READERS

Who are troubled with liver complaint, Jaundice, or Dyspepsia, will read the advertisement in another column of Dr. Sanford's Invigorator, and then do as we have done—get a bottle, we should not see so many sickly, half-dead, despairing people as now meet our gaze at almost every corner, for certainly there never was a remedy invented of which so much is said, and that performs so nearly what its proprietors say it will do. It came to us so highly recommended that we could not fail to try it, and a trial has convinced us, without a doubt, that it is the best family medicine in use. We take it for Headache, Sour Stomach, Billiousness, and any of the little bodily ills that are common, and it does produce a pleasant state of feeling to the sick, and what is better, after using it a few times, these little ills come and go less, and there is a prospect of being entirely free from them by a continuance in the use of the Invigorator. LADIES AND GENTLEMEN:—We would call your attention to Prof. O. S. Wood's Hair Restorative. From our long acquaintance with the proprietor, and with numerous individuals who have used his preparation with perfect success for the last two years, we feel no hesitation in recommending the article as superior to any of the preparations now in use for the same purpose, viz: for restoring gray hair to its original color, a sure and perfect cure for baldness, and a never-failing preventive for the falling of the hair.

It is decidedly the best and most popular in use for beautifying, preserving, restoring and strengthening hair; relieving diseases of the skin, and removing scurf, dandruff, and all eruptions and feverish heat from the scalp.

We speak in relation to the above from what we know, having been personally acquainted with numerous persons who have used the Restorative for the above purposes, with the most gratifying results.

It is not often we notice a patent medicine.—Indeed, we think we have never puffed one before; but Professor Wood's "Hair Restorative" is something so superior to most of them, that we feel it our duty, at the moment forbear asking the attention of our readers to it.—[Catholic Vindicator.

Prepared from a prescription of Sir Jas. Clarke, M.D., Physician Extraordinary to the Queen.

THIS invaluable Medicine is unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject. It moderates all excess, removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES

It is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

Each bottle, Price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.

CAUTION.

These Pills should not be taken by females that are pregnant, during the first three months, as they are sure to bring on a miscarriage, but at every other time and in every other case they are perfectly safe.

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Fatigue on slight exertion, Palpitation of the Heart, Hysterics, and Whites, these Pills will effect a cure when all other means have failed, and although a powerful remedy, do not contain Iron, Calomel, antimony, or any thing hurtful to the constitution.

Full directions accompany each package.

Sole Agent for the United States and Canada, JOB MOSES,
(late I. C. BALWDIN & CO.,) Rochester, N.Y.

N. B.—'91 and 6 postage stamps enclosed to any authorized Agent, will insure a bottle of the Pills by return mail.

For sale, wholesale and retail, by W. R. PRESTON, Portsmouth, and by Druggists in every town in the United States.

OLD TESTAMENT.—The Boston Courier says:—"One of the most remarkable results of modern research is the confirmation of the accuracy of the historical books of the Old Testament. The ruins of Babylon and Nineveh shed a light on those books which no scepticism can invalidate. The thing which surprises us most is their marvellous accuracy in minute details, which are now substantiated by recent discoveries. The fact seems to be that when writing was laboriously performed on stone, men had a superstitious conscientiousness in making their records true, and had not learned the modern indifference to truth our facile modes of communicating thought have encouraged. A statement to be chiseled on rock must be correct; a statement which can be written in five minutes is likely to embody only first impressions, which may be amended in any five minutes hereafter. Hence it comes to pass that we know more exactly many things which took place in the wars between Sennacherib and Hezekiah, than we know what is the precise truth with regard to some of the occurrences in the battle of Bunker Hill. Sir Henry Rawlinson, in speaking of his researches at Babylon, states that the name and situation of every town of note in ancient Assyria, mentioned in the Bible, can be substantiated by the ruins of that city. The visit of the Queen of Sheba to Solomon is perfectly verified. The prosecution of these researches will be regarded with great interest as corroborating the truth of scripture."

☞ Putnam's Monthly for August is a prime number, and goes ahead with pictures now, like some other magazines, only more so. Another Glimpse at my Hotel, is a capital story, with pictures to match, especially that of the six black waiters, as they march in with the dinners, in true New York style. Lake George, is another beautiful sketch, finely illustrated. India Ink, is a charcoal sketch.

NEW MEDICAL SALT, *A perfect substitute for the Lancet, Leeches and Blisters!*—"All who have used the Salt have derived the most beneficial effects from it."—*Norway Advertiser, Me.*

The Agent in Portsmouth is JOS. H. Thacher. See advertisement.

☞ The Patent office has received from California a new brandy, which is called California grape brandy. This liquor is said to possess an excellent flavor, and to be far more palatable than the best brandy imported from France.

TOM HYER BEATEN.—Tom Hyer was whipped on Monday morning at Washington by Tom Hunter of Georgetown, D. C. It was said to have been a fair fight, and a contemporary says it is a pity that they had not killed each other.

MARRIED.

PUBLIC CONCERTS.—We understand that an effort is being made to raise by subscription, money enough to engage our Cornet Band to give a series of Public Concerts, once a week, on Market Square or some other eligible situation, during the summer months. We have no doubt but that all our appreciative citizens will take great pleasure in contributing to so worthy an object, and thus, while administering to their own pleasure, also relieve the Band from its pecuniary embarrassment. A subscription paper may be found at the bookstore of Chas. C. Harvey, No 7 Exchange Buildings.

☞ The Alabama Slaves—now slaves no longer, as they have met with success sufficient to purchase their liberty—are to give another concert at the Temple on Tuesday evening. Their music is without doubt a fair sample of the negro performances of the South; and besides the novelty, there will be found many a gem in their entertainment richly worth a ticket. Their whistling is wonderful; some of their melodies are deliciously plaintive, and others sufficiently of the "Jim Crack Corn" order to satisfy anybody. Go and hear 'em.

☞ If you want to buy Clothing cheap—if you want to procure Furniture at low rates—if you would like to purchase a good-toned Chickering Piano-Forte, for a small price—if you wish to buy a new and warranted Phæton, at less than the cost of manufacture; attend Wendell's Auction, at his Sales Rooms, this (Saturday) forenoon, at 10 o'clock.

☞ Rev. Mr. Beebe will preach at the Hanover Street Chapel, to-morrow.

The British Minister at Washington, Lord Napier, sets a good example as to keeping the Sabbath—steadfastly refusing to receive any visitors on that day. The Presbyterian understands that a Commodore in our Navy not long since, called at Lord Napier's residence on the Sabbath. The servant who came to the door, informed him that his lordship did not receive visitors on Sunday. "But I am Commodore ——" replied the visitor. "It makes no difference, sir," said the servant, "he will not receive you." "But go and tell him Commodore —— has called." "I'll do so, sir, if you insist upon it; but I know he'll not receive visitors on Sunday." The finale was, that the Commodore had to depart without seeing the minister.

DON'T BE HINDERED.—Two men started from the same place, one morning, to make a journey, occupying a day. They separated. The one reached his destination, while the sun was yet visible in the west. He leisurely stabled his horse, took his evening meal, and made himself comfortable at the inn. His only trouble was concern for his laggard companion. He thought 'some evil must have befallen him.' Long after dark, his fellow traveler arrived. Being asked the cause of his delay, he said: 'I was obliged to stop at every other house to whip off the dogs that barked at me. Did they not bark at you, also?'

'Yes,' replied the other, 'but I did not stop to whip them. I told them they were unmannerly curs, and drove on.'

MR. NUTE'S CHURCH IN KANSAS.—Finding their vestry too small, Mr. Nute's parish at Lawrence, Kansas, have concluded to occupy the church itself in its rude unfinished condition. At the opening services of the church, Mr. Nute writes that he had the largest worshipping congregation that he had ever seen in Kansas.—Gov. Walker and other dignitaries were present, and nearly every State in the Union was represented in the congregation. The Orthodox Congregationalists occupied the church in the afternoon, and the Methodists in the evening. It was thus used by three denominations in one Sunday. The Orthodox church at Lawrence is about finished, so that the parish have taken possession. The Unitarian church is now used half the day each Sunday by the Methodists. The Boston contributors to this edifice will generally rejoice that it has not been strictly a sectarian church. The walls were used as a fort, by the Free State party, when Lawrence was attacked. The church will be sacred in the annals of Kansas.—*Trans.*

Edward Stanly, formerly a Whig member of Congress from North Carolina, but of late years a Republican lawyer in California, and the candidate of that party for the U. S. Senatorship, last winter, has determined to retire from the bar, and enter the ministry.

A CHURCH TO BE ORGANIZED.—A council is called to meet at Great Falls on Monday, July 20, to organize, if deemed best, a new Congregational Church in that place. The public services will be held in the evening. Rev. L. Whiting of this city, is expected to preach the sermon.

UTICA, July 16. —Dr. Rose, who was burned at the fire, at the State Lunatic Asiyum, in this city, on Tuesay, died this afternoon, from the effects of his injuries.

To be angry with a weak man is a proof that you are not very strong yourself.

RUTLAND, VT., July 15.—The Democratic State Convention, at this place to-day, was fully attended, every County in the State being represented, and at least 400 persons were present.

Resolutions were passed, fully endorsing the policy of James Buchanan and Gov. Walker, in Kansas, and sustaining the recent decisions of the Supreme Court. Also, resolutions of confidence in the nominations made; and in reference to the death of Wm. L. Marcy; for the repeal of the present prohibitory laws; and instructing the State Committee to prepare an Address to the people of Vermont.

NEW YORK, July 16.—A temporary injunction, on the application of J. Fitzpatrick, was granted this noon, in the Court of Common Pleas, by Judge Ingraham, to restrain the Mayor, Comptroller and Clerk of the Common Council from paying the Metropolitan Police out of the city funds.

It was proved to-day, on the Coroner's inquest into the death of the German Muller, that he was a ringleader in the riot of Sunday.

HEAVY FORGERIES.—*Louisville, July* 16. A correspondent of the Louisville, (Ky.) Courier, states that James H. Shousy, of Marseilles, in that state, has failed and absconded, leaving forged paper to the amount of $200,000, in the possession of the citizens of Woodford, Franklin, and adjacent counties.

WASHINGTON, July 15.—General Walker, who is now at New Orleans, is making preparations for an immediate return to Nicaragua. His officers are requested to report immediately and to hold themselves in readiness to recruit for the services.

Major Parke G. Howle, of the Marine corps, died to-day.

Robert Cross, another of the election rioters, was to-day found guilty of attempting to kill the policeman who arrested him, and was sentenced to eight years' imprisonment in the Penitentiary, the utmost extent of the law.

WASHINGTON, July 16.—The Secretary of War contemplates sending Col. Johnson, who now is in command in Texas, to Utah, instead of Gen. Harney. This change is deemed necessary, owing to the troubles that are apprehended in Kansas, in case he should leave the territory.

BOGUS LOTTERIES IN LOWELL.—An Indiana correspondent of the New York Tribune writes that the firm of "Weston, Bell & Co." of Lowell, are riling certain sections of the West of considerable sums of money in the sale of lottery tickets.—They pretend to distribute a lottery of $100,000 every month, and to have been in business for some time. A remark dropped by a gentleman of this city the other day leads us to the belief that "Weston, Bell & Co." have a local habitation, through other names here.—*Lowell News.*

DISADVANTAGES OF AN APPEAL.—Two or three months ago, Andy McEvoy, of "brown coat" notoriety, was convicted in the Lowell Police Court of being a common drunkard, and sentenced to the Lowell Work House for two months. Andy thought he could do better, and appealed. He laid out his two months in jail, went up to the Court of Common Pleas, and this week Judge Aiken gave him six months in the House of Correction!—*Lowell News.*

The Auburn (N. Y.) American says that "miles and scores of miles within the fenced track of the Central Railroad are planted with potatoes by the employees of that great road." These 'railroad farms' are attended to mostly by the wives of the employees.

MONTREAL, July 17.—The Coroner's Jury last evening, at Quebec, returned a verdict of manslaughter against Wilson, the owner of the steamer Montreal, Captain Rudolf, Dorval, the pilot, and Roberge, the mate, and strongly censuring Wilson, the senior controlling Agent.—The verdict also recommends a stringent enforcement of the steamboat law. The parties implicated will be indicted at the present session of the Court of Queen's Bench.

ACCIDENT.—Mr. Jonathan Keniston of Salisbury Point, who is about 75 years old, on Tuesday night, took an unfortunate step by which he fell from the top to the bottom of a long flight of stairs. He was bruised considerably, but not dangerously. Upon being taken up the old gentleman was fearful that a doctor might be called and his accident thus prove fatal.—*Newburyport Herald.*

A boy, named Narcisse Lontagne, aged thirteen years, saved eight children from the wreck of the Montreal. It was by seizing the door of a state-room, and, pushing it before him while he swam, that at different trips he succeeded in landing on a dry rock, or on the beach, eight of the survivors, who would have otherwise met, with hundreds of others on board of her, a watery grave.

Prof. Mitchell, State Geologist of North Carolina, recently met his death while on an exploring trip among the Black Mountains. He started alone from the Mountain House, intending to cross the mountains to Caney River. He did not arrive there, and search having been made for him, his body was found, last week, in the Cattail Fork of the River. It is supposed that he was walking on the edge of a precipice, when his foot slipped and he fell to the earth, forty feet below.

Hope is the best medicine, and fortunately it is in the power of every doctor to dispense it.

Mined by the Trevorton Coal & Railroad Company,
NORTHUMBERLAND COUNTY, PENNSYLVANIA.
Office 13 Trinity Building, New York.

THIS Coal is a FREE-BURNING, semi-anthracite, adapted peculiarly for *family purposes*—having such properties as will at once upon trial satisfy the most exacting. Invalids who have used it say that it is the least offensive of any coal now in use, particularly those affected with LUNG DISEASE. As a Summer Coal,

It Cannot be Excelled.

Costiveness Cured by Injections.

The Best Family Self-Injecting Syringe in the World.

DR. MATTSON'S Patent Elastic Syringe—for the relief and permanent cure of Costiveness and its attendant evils.

These superior instruments (and no family should be without one of them) are for sale at the Apothecary Store of WM. R. PRESTON. They are neatly put up in boxes, and can almost be carried in the vest pocket. Accompanying them is a manual of directions, for the employment of injections in various diseases; with remarks upon the nature and treatment of habitual constipation. They are highly recommended by the medical faculty of Boston and Portsmouth, as they are sure to remove Costiveness, and render the taking of medicines entirely unnecessary. 4t

Coggswell's Medical Salt,

A PERFECT SUBSTITUTE
FOR THE
LANCET, LEECHES AND BLISTERS.

INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—but ONE AIM accomplishes but ONE THING, to wit: SUBDUES INFLAMMATORY DISEASE—whatever be its form or locality—whether in the lungs, throat, chest, abdomen, extremities or skin. Every *form of inflammation* (but no other disease) is subdued, by it as easily as fire is extinguished by water. Is it asked, *how* it does this?—simply by restoring the lost balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires merely what adheres to the point of a pin dipped into a solution of it, to affect the entire system.

LAWS OF NEW-HAMPSHIRE.

Passed June Session, 1857.

An Act relating to the redemption of lands set off upon execution.

SEC. 1. *Be it enacted, &c.,* That when lands are taken and set off to a creditor upon execution, the debtor, or any person interested, may redeem the same at any time within one year from the return day of the execution, by paying or tendering to the creditor or person having his estate the sum for which the premises were set off, with interest thereon from the time of the levy, all sums paid for lawful taxes and assessments, and such reasonable expenses as shall have been incurred in repairing and improving the premises; deducting from the amount of said debt, interest and expenses, the rents and profits received by the creditor or person having his estate, or the rents and profits which he might have received and with which he is justly chargeable; and the creditor or person having his estate, having his reasonable charges therefor paid or tendered to him, shall thereupon execute, acknowledge and deliver to said debtor, or other person interested, a good and sufficient deed of release of the estate taken in execution.

SEC. 2. In case the parties cannot agree as to the amount due for such redemption, the same proceedings may be had as in the case of the redemption of real estate under mortgage; or the debtor may pay the creditor the amount due without any deduction, and maintain an action of assumpsit against him for the rents and profits, as he shall elect.

SEC. 3. All acts and parts of acts and all provisions of law, inconsistent with the provisions of this act, are hereby repealed, and this act shall take effect from its passage. Approved, June 27, 1857.

An Act to perpetuate the evidence of notice of the sale of real estate.

Be it enacted, &c., SEC. 1. That every person, duly licensed by the judge of probate in any county in this State to make sale of any real estate, shall within one year after such sale, return, with said license, to the probate court, a copy of the original notice of such sale, with an affidavit of the times, places and manner of giving such notice, subscribed and sworn to by himself or any agent he may have employed to give such notice; and if approved as sufficient by the judge, said notice and affidavit shall be recorded, and such record or a certified copy thereof shall be prima facie evidence that such notice was duly given.

SEC. 1. All acts and parts of acts, inconsistent with the foregoing provisions, are hereby repealed. Approved, June 27, 1857.

An Act entitled "an act in addition to chapter 82 of the Compiled Statutes."

Be it enacted, &c., SEC. 1. The commissioners of common schools shall report to the legislature annually, during the first week of its session, the sums of money received by them from each and every town in their respective counties for the support of teachers' institutes, and the manner in which they have expended the same, specifying to whom paid and for what purposes, and the balance remaining in their hands, and this report shall be incorporated with their annual report and published with the same.

SEC. 2. No such money shall be appropriated by said commissioners for their own compensation for taking charge of said institute or teaching in the same.

SEC. 3. Each of said commissioners shall pay over to his successor, or deposit with the county treasurer, to be paid to the new commissioner on demand, the balance of all money received by him for the support of institutes remaining in his hands unappropriated.

SEC. 4. This act shall take effect from and after its passage. Approved, June 26, 1857.

An Act to attach new duties to the office of deputy secretary of state.

SEC. 1. *Be it enacted, &c.,* That, in addition to the duties now incumbent on the deputy secretary of state, he shall perform the duties of deputy librarian, as prescribed in chapter 6, sections 2, 3 and 4 of the Compiled Statutes, and shall procure supplies of such materials as are needed for the use of the legislative department of the State, and keep proper accounts of the same. The deputy secretary shall also act as clerk to the secretary of state in performing the duties of the office, and be removable at his pleasure.

SEC. 2. The deputy secretary shall be appointed by the secretary, and before entering upon the duties of his office, shall take the usual oaths of office, and file a bond to the same amount as that of the secretary, for the faithful discharge of his duties.

SEC. 3. The deputy secretary shall receive, in addition to the fees arising from the office of deputy secretary, a salary of two hundred dollars per annum.

SEC. 4. All acts and parts of acts, inconsistent with the provisions of this act, are hereby repealed. Approved, June 27, 1857.

An Act in amendment of the charter of the city of Concord.

Be it enacted, &c., SEC. 1. Upon the petition of ten or more legal voters, inhabitants of the compact part of the City of Concord, the city council of said city are authorized to fix by suitable boundaries, a city precinct for the purposes hereinafter mentioned, including therein such portion of said city as may seem to them convenient, appoint the necessary officers, and make a record thereof.

SEC. 2. The city council of said city of Concord may provide for the erection, maintenance and regulation of lamp posts, and for supplying the same with gas, in the streets and commons of said precinct for the purpose of lighting said precinct, and may vote to raise money for said purposes, which shall be assessed upon the taxable inhabitants and property of said precinct, in the same manner which is provided by law in case of building schoolhouses in school districts—*provided* that this section shall not go into effect until the inhabitants of said precinct, at a meeting of the legal voters thereof, duly called for that purpose by the mayor and aldermen, in a manner provided for calling ward meetings in said city, shall have voted to adopt its provisions.

SEC. 3. The sixteenth section of said charter of the city of Concord shall be so altered and amended that the compensation to be paid annually to the justice and special justice of the police court of said city may be fixed and established by the city council of said city at such sum as they may determine, and all courts may be holden, and all matters, prosecutions and suits in said courts may be tried and determined before either said justices.

SEC. 4. This act shall take effect from and after its passage. Approved, June 27, 1857.

AN ACT to secure freedom and the rights of citizenship to persons in this State.

SEC. 1. *Be it enacted &c.,* That neither descent, near or remote, from a person of Africa's blood, whether such person is or may have been a slave, nor color of skin, shall disqualify any person from becoming a citizen of this State, and every such person of the full rights and privileges of a citizen thereof.

SEC. 2. Any slave who shall come or be brought into, or be in this State, with the consent of his master or mistress, or who shall come or be brought into or be in this State involuntarily, shall be free.

SEC. 3. Every person who shall hold or attempt to hold in this State, in slavery, or sell or transfer any person, of whatever color, cause or condition, in any form, or under any pretence, or for any length of time, shall be deemed guilty of felony, and, on conviction thereof, shall be confined to hard labor for a term of not less than one nor more than

LOTTERIES.

The well-known Maryland Consolidated Lotteries of which Ex. Governor Bowie is the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. The lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $2 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combination. Prizes vary in amount from $20 to $100 '00. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. All Managers would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. The drawing will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There be no combination of numbers to mystify the buyer. Prizes vary from $20 to $50,000; every prize being drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Mercury*, Louisville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Day Book*. Write your address plainly, and direct to SWAN & Co., Atlanta, Georgia.

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

All communications strictly confidential. m18 1y

American and Foreign Patents.

R. H. EDDY, solicitor of patents,
(*Late Agent of U. S. Patent Office, Washington, under the Act of 1837.*)

No. 76 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of any Patent or Invention, and legal or mechanical advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by transmitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages in obtaining patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that more than ONE THOUSAND OF THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ITS VALUE, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The subscriber would respectfully request the twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. Also, besides his extensive library of legal and mechanical works and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity and despatch. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

Boston, Mass., Nov. 1, 1855.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,

PHILANTHROPHY.—Numerous attempts have been made to explore the polar seas, and discover a passage from the Atlantic ocean to the Pacific. Conspicuous among them, was the expedition of Sir John Franklin, who, with a large crew well furnished, engaged in the enterprise some years ago, and all doubtless have perished. Several expeditions have since been undertaken for their recovery, among which is the one so justly celebrated, of Dr. Kane. The expense attending the various expeditins in search of Franklin, is estimated at $3,562,949.

Now of the necessity or policy of these various expenditures, we have nothing here to say. Compared with many other expenditures, they were eminently wise and good. For instance, it is stated, that more than $1,500,000 are annually appropriated to the use of theatres in the city of New York; and that the laboring classes of Great Britain expend every year $250,000,000 for alcoholic liquors and cigars. The comparison might be easily extended farther. In view of such facts, we have no disposition to complain, if a portion of the vast wealth of this world is devoted to purposes of commercial enterprise and private liberality. Even if all could not be justified on the score of economy and prudence, yet where the design is clearly philanthropic, few would criticise the bounty.

The annual contributions of all denominations in the United States to Foreign Missions is about $800,000.

The real and personal property of this country is estimated at $7,133,369,725, more than $7,000,000,000; more than $3,000,000,000 in the possession of professed Christians. The agricultural products of but four articles in one year amount to $358,423,323. The annual profits of our manufacturing establishments are more than $250,000,000. Of the profits of our commerce we have seen no estimate.—*Morning Star.*

A MISSOURIAN'S TRAVELLING BAG.—During the session of the Democratic National Convention in this city, a delegate (whether an insider or outsider, we do not remember—which fact we are particular to state, as the story is "most veritable,") having taken breakfast at the St. Charles, walked up to the counter, and demanded his bill. He was asked what he had had, and the reply was—"Six brandy cocktails and tea and toast." This, so far as breakfast is concerned, is without a parallel.

But an incident recently came under our observation, well worthy to go down to immortality with it. A gentleman from Missouri was in attendance at Lexington, at the laying of the Clay monument, on the Fourth, and his baggage undergoing investigation, was found to consist of a carpet sack containing four bottles of whisky and two revolvers, one shirt and two collars. One of his travelling companions said that the shirt had been put in simply to keep the bottles from breaking.—*Cincinnati Commercial.*

The sunshine of life is made up of very little beams, that are bright all the time.

FEMALE COLEGIANS.—The annual commencement of Antioch College, at Yellow Springs, Ohio, of which Hon. Horace Mann is President, took place last week. There were 14 graduates, among them 4 ladies. Dr. Bellows delivered an address on Education. In his audience were fifteen young women sitting apart from the rest, dressed in deep mourning, and with a very downcast look. The people sympatized with these mourners, but found that there was more food for mirth than for melancholy in the funeral array.—These young women were students in the College, who had applied to the President for the use of the College chapel one evening, for the purpose of displaying their oratorical talents to the public. The request was denied by Mr. Mann, who is known not to acquiesce in the ultra notions of woman's rights advocates; and the young women accordingly exhibited their chagrin in the significant manner stated. One of the speakers, at the dinner following commencement, said he had come from Boston to see how girlish men and manly women would conduct themselves, and had only found that they were here as everywhere else, and had quite as much of the "old Adam" in them as other people.

A LADY-LIKE IRISHMAN.—In a railroad car the seats were full except one which was occupied by a pleasant looking Irishman—and at one of the stations a couple of evidently well bred and intelligent young ladies came in to procure seats; but seeing no vacant ones, were about to go into a back car—when Patrick rose hastily and offered them his seat with evident pleasure. "But you will have no seat for yourself," responded one of the young ladies with a smile—hesitating with true politeness as to accepting it.—"Never ye'r mind *that!*" said the gallant Hibernian, "ye'r welcome to 't! I'd rather ride on the *cow-catcher* to New York any time for a smile from such *jintlemanly* ladies!" and he retreated hastily into the next car, amid the cheers of his fellow passengers.

Jones, the Hampden county murderer, escaped from the Springfield jail on Tuesday afternoon; being seen as he went out of the door, was vigorously pursued, and soon treed by a big dog that joined in the chase, and recaptured.

IMPORTANT DISCOVERY.

DR. CHEESEMAN'S PILLS FOR FEMALES.

Prepared by an old Physician of 40 years experience

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. L. Cheeseman, Box No. 4,531, Post Office, New York City, can have them sent to their respective addresses by return of mail.

THE BEST

Planing, Tonguing & Grooving Machine

IN THE WORLD.

PATENTED Nov. 21, 1854, and Nov. 13, 1855.—These Patents were obtained for improvements upon the celebrated Woodworth Planing Machine, the Patent for which expired, Dec. 26, 1856. By the combination of these several inventions, a machine is produced of *unrivalled excellence.*

A GOLD MEDAL for the invention was awarded by the Mass. Char. Mech. Asso., at their exhibition of 1856.

Machines of all kinds and sizes, from $150 to $2000.

ALL MACHINES WARRANTED to give entire satisfaction, and to be superior to any other machines now in use.

BURDEN'S

Pressed Boat, Ship, Brad & Countersunk Railroad Spikes

ARE well known in the United States, and are conspicuous for their regularity and finish, their unvarying uniformity of size, and for the excellent quality of iron from which they are made, to which may be attributed their great strength. Morning Chronicle.

MONDAY, JULY 20, 1857.

HAVE WE MADE ANY PROGRESS?

In a former number we showed a great change for the better, giving Temperance Groceries as a mark of the change.

It is now worth while to look into some particulars of the change, and especially to ask:—

What have been the means of the change? Direct effort, chiefly of a moral, persuasive, argumentative kind, applied generally by a few persons in each place, and steadily pursued for thirty years.—Prominent among these means may be classed "the foolishness of preaching," and the influence of ministers. A sneer of incredulity may be thrown at this assertion, by those who know little or nothing of the matter; nevertheless, the statement is true. In this place, the settled ministers, Rev. Dr. Parker, Rev. Messrs. Burroughs and Putnam, with other ministers then resident here, and a very few laymen, held several preparatory meetings for consultation, before the Portsmouth Temperance Society was formed; and it was mainly through their influence that it was formed at all. This was the beginning of temperance *pledges* here, and it enjoined and promised abstinence from distilled spirits, and discountenanced their sale and use.

This measure, moderate and tame as it now appears, was then opposed and denounced as earnestly as any subsequent measure has been or can be. A very respectable laboring man, who lived comfortably many years afterwards without rum, said to the writer of these lines, next morning, "Well, you made a Temperance Society last night."

"Yes, we did," was the answer.

"It is well enough for them to do without rum, who have wine enough; but what are laboring men to do: you drink wine, I suppose?"

"No, I do not."

"Well, cider then?"

"No, not a drop."

The man was dumbfounded. He had no idea that any man among us lived without drinking some intoxicating beverage, to make him feel better. And indeed there were very few who did so. But the abstaining from distilled liquors and the good effects of this abstinence, soon caused many persons to go farther, and become teetotallers.

Before we proceed any further in this direction, we will go back a few steps, and see how some other things stood forty years ago.

Forty years ago, every joiner, mason, tender, every man who helped build a house; every carpenter, caulker, rigger, sailmaker, blacksmith, stevedore and lumper, every man who helped build or load a ship, was expected to drink, and commonly did drink, his half pint of West India rum per day. This quantity was regularly furnished for all such men by their employers, as a part of their daily compensation.

Boys then went to trades at 14 years of age, and each of these boys had his half allowance, that is a gill of rum per day, until he was 18 years old, and then "he drank his half pint like a man," as people used to say. The boy that did not do this was supposed to be deficient in manliness, and was treated accordingly. As a matter of course, very few made themselves singular,—and in this way, thousands were made drunkards.

Out-door laborers of all sorts, as gardeners, haymakers, harvesters, and many kinds of in-door mechanics, indeed all who wrought by the day, had their half pint of rum as a part of their daily pay. In Boston, for many years, the bell on the old North Meeting House, in Hanover street (Dr. Lothrop's) was rung every day at 11 o'clock, that everybody might drink grog in concert.

This bell-ringing has gone—and the custom has gone with it. Is not this a change for the better? Truly it is, and what has made the change? Answer, the talking and pledging of temperance men.

Some one may say, as some have said, "there is a great deal of drinking among such people now, in grog shops and saloons, though they do not drink at their work, nor at their employers' grog shops;—they drink elsewhere, and on Sundays;—there is more drinking now than ever." This is not true; it *is* true that many of them do drink now, and become drunkards,—but not to the extent they did then.

Forty years ago, *besides* the regular half pint per man, there was more grog shop drinking in Portsmouth than there is now, and ten times more Sunday and family drinking than there is now among American born citizens.

This family drinking may be mentioned in another chapter. In this, we have certainly shown a change for the better, and a reason why temperance stores have become an institution.

N. H. State Teachers' Association.—The Fourth Annual Meeting of this Association will be held in Concord, on the 4th and 5th days of August. The exercises have been arranged in the following order:

On Tuesday, the 4th, the meeting will be organized at 11 o'clock A. M., for the transaction of business.

At 2½ o'clock P. M., election of officers and reports of committees.

At 3 o'clock P. M., a paper by Harry Brickett of Reed's Ferry. Subject:—"The Motive Power for the School Room."

At 4 o'clock P. M., a discussion. Subject:—"The means and modes of Self-culture and of Recreation most useful to Teachers."

At 8 o'clock P. M., a lecture by Rev. Lyman Whiting, of Portsmouth.

On Wednesday, the 5th, at 9 o'clock A. M., a discussion. Subject:—"School Examinations; their objects, and the right mode of conducting them."

At 10 o'clock A. M., a lecture by E. Knight, Esq., of New London.

At 11 o'clock A. M., a discussion. Subject:—"The kind of parental co-operation needed for the success of schools, and the means of securing it."

At 2 o'clock P. M., a discussion. Subject:—"The best means of interesting and instructing the youngest classes of scholars."

At 3 o'clock P. M., a paper by M. C. Stebbins, of Nashua. Subject:—"Religious Instruction in Schools."

Honorary members and delegates from educational associations are invited to take part in the exercises.

Ladies who are members of the Association will be welcomed to the hospitalities of the citizens of Concord.

We should judge from the arrangements as indicated above, that the meeting must be one of much interest to the teachers of this State and to the friends of education generally, who may be able to attend. It seems to us that it is the *duty*, as well as privilege, of all who are *now*, or are expecting to *become*, professional teachers, to be present—and to take part in the exercises and business of the Association, if they are members; and if not, to put their names on the list immediately.

☞ A very respectable man, so far as has been known hitherto, was before the Police Court, Boston, last week, for the larceny of a marble statue of a lamb, which he conveyed to the cemetery where the remains of his child were deposited, and placed it upon the grave. The owner of the piece of sculpture discovered it a few days after it was missed from his yard, the person who took it was arraigned for the larceny, plead guilty, and was fined $5 and costs. This is a case of singular infatuation.

Slavery to be "Bought Out" in Kentucky.—The Newport (Ky.) News states that a proposition is in contemplation to buy land and negroes owned by slaveholders in Kentucky at their present valuation; and if three-fourths of the slaveholders in the State will agree to sell, the proposed company will advance a sum of money, and in one year after, pay the whole balance. The slaves will be set free and the land sold at an advanced price, in view of the State becoming free in one year after the first payment to the masters, and the State become settled with real industrious, enterprising free people."

Mormons Returning to the States.—The Quindaro Chindowan of the 4th inst., reports that a party of several hundred Mormons, just from Utah, and *en route* for the southern part of Kansas, where they propose to settle, passed Fort Leavenworth on Tuesday. They are heartily sick of the tyrannical rule of the Mormon leaders, and were fearful if they remain, of suffering violence during the anticipated conflict between the U. S. government and the Brigham Young oligarchy.

☞ A party of 500 Mormons from England, who have arrived at Peoria, Illinois, are most of them greatly disgusted with the reports they hear from Salt Lake, and will probably scatter and settle wherever they can buy homesteads.

A New Counterfeit — Arrests for Passing.—A new counterfeit of the denomination of three dollars upon the Bank of Commerce, Boston, has lately made its appearance. It is well executed, and likely to deceive. At Manchester, N. H., last week, City Marshal Lowell arrested two well-known young men, named C. Kenney and C. Pierce, charged with passing a number of those counterfeits at various places in that city, and they were committed for trial.

☞ Mr. Burr, Surveyor-General of Utah, thinks one thousand United States troops could deal with the Mormons.

Col. Titus Going Back to Kansas.—The New Orleans Delta learns by private letters that the notorious Captain and coward, Col. Titus, who, in addition to his ruffianly acts in Kansas, deserted to the enemy in Nicaragua, is again going to Kansas. He complains bitterly of the injustice done him by Nicaraguan correspondents, and declares his intention to make good his reputation, if occasion arises, in that territory. "Northern abolition papers," he says, "will have enough to do to keep track of me." It is quite likely that such will be the case, as the Col. has a propensity for running away.

☞ The wife of Rev. Jonas Colburn, of Amherst, Mass., aged 70 years, was found dead in her bed chamber, partially dressed, on Thursday morning, and is supposed to have died from heart disease, as did John Baggs of the same town, a few days previous.

☞ The water employed in the christening of the new royal baby was brought from the river Jordan, and presented Her Majesty by Capt. Geoffrey Nightingale for the occasion.

New York, July 17.—Simeon Draper, Chairman of the Board of Police Commissioners, resigned his seat this forenoon.

SPECIAL NOTICES.

Lawrence's Carminative is the only child's medicine in this country, and is good in all cases of sickness.

☞ Mr. Asa S. Tilton at his Union Store, No. 12 Market street, sells the following Medicines at reduced prices:—Dr. Larookah's Indian Vegetable Pulmonic Syrup, warranted to cure coughs, colds, whooping-cough, asthma, bronchitis, croup, catarrh, consumption, and disease of the throat and lungs. Price 75 cents per bottle.

Also, Kennedy's Medical Discovery, Kennedy's Salve, and Holman's Nature's Restorative.

Have you ever tried Dr. Wilson's Dysentery Powders? If not we assure you that they are the best medicine in the market for the cure of Dysentery, Diarrhea, and all kinds of Bowel Complaints. They are perfectly safe and effectual. For sale by J. H. Thacher and W. B. Preston, at 50 cents a Box. jy16 3w

IF ALL OUR READERS

Who are troubled with liver complaint, Jaundice, or Dyspepsia, will read the advertisement in another column of Dr. Sanford's Invigorator, and then do as we have done—get a bottle, we should not see so many sickly, half-dead, despairing people as now meet our gaze at almost every corner, for certainly there never was a remedy invented of which so much is said, and that performs so nearly what its proprietors say it will do. It came to us so highly recommended that we could not fail to try it, and a trial has convinced us, without a doubt, that it is the best family medicine in use. We take it for Headache, Sour Stomach, Biliousness, and any of the little bodily ills that are common, and it does produce a pleasant state of feeling to the sick, and what is better, after using it a few times, these little ills grow less and less, and there is a prospect of being entirely free from them by a continuance in the use of the Invigorator. LADIES AND GENTLEMEN:—We would call your attention to Prof. O. S. Wood's Hair Restorative. From our long acquaintance with the proprietor, and with numerous individuals who have used his preparation with perfect success for the last two years, we feel no hesitation in recommending the article as superior to any of the preparations now in use for the same purpose, viz: for restoring gray hair to its original color, a sure and perfect cure for baldness, and a never-failing preventive for the falling of the hair.

It is decidedly the best and most popular in use for beautifying, preserving, restoring and strengthening the hair; relieving diseases of the skin, and removing scurf, dandruff, and all eruptions and feverish heat from the scalp.

We speak in relation to the above from what we know, having been personally acquainted with numerous persons who have used the Restorative for the above purposes, with the most gratifying results.

It is not often we notice a patent medicine.—Indeed, we think we have never puffed one before; but Professor Wood's "Hair Restorative" is something so superior to most of the preparations of the day, that we cannot forbear asking the attention of our readers to it.—[Catholic Vindicator.

The Great English Remedy.

SIR JAMES CLARKE'S

Celebrated Female Pills.

Prepared from a prescription of Sir Jas. Clarke, M.D., Physician Extraordinary to the Queen.

THIS invaluable Medicine is unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject. It moderates all excess, removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES

It is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

Each bottle, Price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.

CAUTION.

These Pills should not be taken by females that are pregnant, during the first twelve weeks, as they are sure to bring on a Miscarriage, but at every other time and in every other case they are perfectly safe.

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Fatigue on slight exertion, Palpitation of the Heart, Hysterics, and Whites, these Pills will effect a cure when all other means have failed, and although a powerful remedy, do not contain iron, calomel, antimony, or any thing hurtful to the constitution.

Full directions accompany each package.

Sole Agent for the United States and Canada,

JOB MOSES,

(late I. C. BALWDIN & CO.,) Rochester, N. Y.

N. B.—$1 and 6 postage stamps enclosed to any authorized Agent, will insure a bottle of the Pills by return mail.

☞ A correspondent of the Tribune closes a communication on "flowing sleeves," with the exclamation, "O, that the fair would think of these things;" to which the Tribune rejoins, "O, that people, fair and unfair, would think less on these things. ☞ The waterfalls which surround the valley of Zo Hamite, in California, are described by the editor of Hutchins' Magazine, a California periodical, as the highest in the world. One of them he estimates at 2000 feet.

An Irish girl who had recently landed in New York, and had been hired in a splendid mansion of the Fifth avenue, was observed by the lady of the house to come down the staircase *backwards*. Upon being asked the reason of this mode of retrogression, Biddy answered, "Lor' bless you mum, we always came down that way aboard ship."

A gentleman, advertising for a wife, says: "It were well if the lady were possessed of a competence, sufficient to secure her against excessive grief, in case of an accident occurring to her companion."

Woodbury Kittridge, six years old, son of H. B. Kittridge, was drowned in the Nashua river, at Shirley, on Saturday last, while in swimming. He got upon a stone and slipped off into the water over his head. His comrades became frightened, and instead of trying to save him ran away and left him.

Infinite toil would enable you to sweep away a mist —but by ascending a little you may often look over it altogether. So it is with our moral improvement; we wrestle fiercely with a vicious habit, which would have no hold upon us if we ascended into a higher moral atmosphere.

A Stretch of Charity.—One of our Southern religious exchanges "*hopes*" that "God, peradventure, will give repentance" to the better class of northern ministers who "preach against slavery." What a stretch of charity!—*Morning Star.*

The Richmond Religious Herald remarks that "*reformation in family religion is the great want of the Christian world, in all its divisions.*"

They are earnestly agitating in Cincinnati, a plan to purchase Burnett's woods and Riddle's woods, embracing together some three hundred and thirty acres, on the hills immediately north of the city, and make a splendid public park of them.

New Medical Salt, *A perfect substitute for the Lancet, Leeches and Blisters!*—"We can say from experience, it is an excellent remedy for Headache, Neuralgia, Ague and Palpitation of the Heart—indeed, we are sure it will do all it professes, and we say, God speed the new medicine."—*Piketown Journal, O.*

POLICE COURT.

SATURDAY, July 18.

Before Justice Odell,—The city marshal complained of John Davidson, that on the 17th of July, he assaulted Paul Morrison, and stabbed him in the back with a knife. Plea not guilty. Considered guilty, and ordered to give $300 bail for his appearance at the S. J. Court in October; for want of sureties he went to jail.

Davidson employed no counsel, made no effort to procure bail, and said he had no means, yet claimed to be a working man. He has a family in England.—The assault was committed in the evening, at the house of Mrs. Fairservice, where Davidson and Morrison boarded.

Some time in this evening, Davidson was found under a bed which Mrs. F. and a young woman boarding there were about to occupy. Morrison and the women reproached him, and he went out, but afterwards in another room, during some altercation, Davidson went behind M. and stabbed him three times in the back with a knife. Dr. Oliver dressed the wounds,—the man was badly hurt.

"OLD IRONSIDES."—The old United States Frigate Constitution, which has been lying here at the Portsmouth Navy Yard for a couple of years,—we learn is to be remodelled and rebuilt forthwith. Orders were received on Friday, to take the ship into the Dry Dock for that purpose; which will give our mechanics a good job. Well, they merit it.

☞ The first step in the demolition of the buildings on the site of the new Post Office building, was commenced on Saturday, by the moving of the shed in the rear of the Rockingham Bank.

☞ The Piscataqua Association is to meet at Hampton on Tuesday, at 10 A. M.

NEW MUSIC.—Among the heap of new pieces, vocal and instrumental, constantly issuing from the extensive establishment of Russell & Richardson, Boston—we have received from Mr. Chas. C. Harvey, their agent in this city, "Nellie May," a Song; "Minnie Brown," a simple, pleasing Song and Chorus; and "Thoughts of Home;" a Galop composed for the Piano-Forte, by Mr. H. P. Crane of this city,—a fine piece, which his friends will do well to add to their portfolios.

☞ The box which Gen. Jackson left for the bravest soldier in New York, is of pure gold and cost $1000, besides the workmanship. The committee of the common council are to meet next Thursday, to take an inquest on courage and conduct. Why the brave and wise old general made this disposition of the box, is because it was presented to him by the city of New York, on his first visit there after he was elected President.

☞ A sad death from fluid occurred in Cohoes, N. Y., last week. Mrs. Sylvester was mixing some burning fluid with water, a lamp was near, the fluid took fire, she attempted to smother the flame with her apron, her clothes caught, her body was burned, and she died the next day after severe suffering.

WHAT LIFE IS.—The mere lapse of years is not life. To eat, drink and sleep; to be exposed to darkness and light, to pace around in the mill of habit, and turn the mill of wealth; to make reason our bookkeeper, and thought our employment or trade; this is not life! In all this but a poor fraction of the unconsciousness of life is awakened; and sanctities still slumber which make it worth while to live. Knowledge, truth, love, beauty, goodness, faith, alone can give vitality to the mechanism of existence; the laugh of mirth which vibrates through the heart—the tear which freshens the dry waste within—the music which brings childhood back—the prayer that calls the future near—the death which startles us with mystery—the hardship which forces us to struggle—the anxiety that ends in trust—are the true nourishment that ends in being.

THE BETTER LAND.—Our relatives in eternity outnumber our relatives in time.—The catalogue of the living we love becomes less, and in anticipation we see the perpetual lengthening train of the departed; and by their flight, our affections grow gradually less glued to earth, and more allied to heaven. It is not in vain that the images of our departed children, and near and dear ones, are laid up in memory as in a picture gallery, from which the ceaseless surge of this world's cares cannot obliterate them.—They wait there for the light of the resurrection day, to stand forth holy, beautiful and happy—our fellow-worshippers forever.—*Morning Star.*

If you wish to keep mind clear and body healthy, abstain from all fermented liquors.—*Sidney Smith.*

If you desire the common people to treat you as a gentleman, you must conduct yourself as a gentleman should do to them.

IMPORTANT FROM KANSAS.

WASHINGTON, July 17.—The President received a telegraphic dispatch this morning, dated at Leavenworth yesterday, from Gov. Walker, stating that a serious insurrection had broken out at Lawrence, and that he had called out the United States troops to suppress it. The cause of the outbreak is not known, but it is supposed to have originated from opposition to some of the territorial laws, probably the tax law.

The Cabinet were in session till a late hour this morning, and no doubt this subject was before them.

ST. LOUIS, July 17.—The Democrat has advices from Kansas stating that Gov. Walker has issued a proclamation declaring that his laws must be enforced, and censuring the citizens of Lawrence and warning them not to organize under the Topeka charter.

Rumor says that 700 troops are to march against Lawrence, and that it is the design of Walker to retain the army in Kansas, and break up the Utah expedition.

THE MONTREAL DISASTER.—Not only have the dead bodies of some of the ill-fated passengers in the steamer Montreal been robbed of their money and valuables, by thieves and ruffians, who have prowled around the wreck, since the disaster, raising bodies, plundering them, and then sinking them with weights; but the relatives of the deceased persons have been fleeced about as badly in Quebec, on proceeding there to perform the last sad offices of affection. One man was charged ten dollars for laying out the bodies of his two brothers, and then one hundred and twenty dollars for their coffins and conveyance to the boat! Such actions are a disgrace to human nature.—*Boston Journal.*

THE DESTRUCTIVE FIRE AT NEW ORLEANS. The New Orleans papers of the 8th inst. give the particulars of the destructive fire in that city, on the 8th inst., before noticed by telegraph. The total loss was over a quarter of a million. It commenced in the wholesale liquor store of Lusk & Co., in consequence, according to some accounts, of the bursting of a cask of liquor.

FROM THE WEST INDIES.—We have files from Bermuda to the 30th ult., but the papers contain no local news. Later advices from the other West Islands had been received there. A planter in Barbadoes calculates the excess of the value of the sugar crop of that island, this year, over that of last, owing to the advance in the price, at not less than £750,000. There were disturbances at Dominica, arising out of public dissatisfaction at the legislation on the subject of the rum duty. The Governor had been requested to dissolve the Assembly, but declined. Riots ensued, and some blood was spilt. In Granada, a colored man had been elected to the House of Assembly. At St. Vincent the cane crop, already reaped, reached ten thousand hogsheads.

WASHINGTON, July 17.—The Grand Jury found true bills to day, against a number of the alleged participants in the Election Riots, also in several cases of assault with intent to kill. Fourteen of the accused parties were arrested on bench warrants, and officers are in pursuit of the remainder of them.

The Grand Jury in their report, say the exciting cause of the riot, and the subsequent bloodshed in the Fourth Ward, may be ascribed mainly to the presence of certain Baltimoreans, joined by a large number of disorderly persons of Washington, at or near the polls.

FAULT FINDING.—Having in my youth notions of severe piety, says a celebrated Persian writer, I used to rise in the night, to watch, pray, and read the Koran. One night as I was engaged in these exercises, my father, a man of practical virtue, awoke while I was reading.

"Behold," said I to him, "thy other children are lost in irreligious slumber, while I alone awake to praise God."

"Son of my soul," said he, "it is better to sleep than wake to mark the faults of thy brethren."

Do not attempt to frighten children and interiors by passion; it does more harm to your own character than it does good to them; the same thing is better done by firmness and persuasion.

☞ An Irishman by the name of Thomas Kelly, belonging in Rockland, died on Sunday last, in Thomaston, with delirium tremens.

Joe Jinks was fishing, and Sally Squares was sitting on a log beside him. "Sally," said he, "I wish I was a fish, and you was a bait—how I'd bite."

The State House for South Carolina, commenced at Columbia, is to be of pure white marble, and to cost two millions of dollars.

The eldest son of Gov. Wise of Virginia, is studying divinity at the Episcopal School in Alexandria County, Va., and will probably be ordained next year.

Against general fears, remember how very precarious life is, take what care you will; how short it is, last as long as it ever does.

Passion gets less and less powerful after every defeat. Husband energy for the real demand which the dangers of life make upon it.

Remember that every person, however low, has *rights* and *feelings*. In all contentions, let peace be rather your object, than triumph: value triumph only as the means of peace.

Porter's Spirit of the Times'
GENERAL PURCHASING AGENCY.

THE CONSTANTLY increasing demand upon us to execute commissions for the purchase of all kinds of articles, both for residents and non-residents of the city, has induced us to establish, in connection with our newspaper enterprise, a

PURCHASING BUREAU,

under the immediate supervision of one of our firm, assisted by the most accomplished experts, *for supplying any article in the world.*

Particular attention will be paid to the selection, purchase, and sale of thorough bred Cattle and Horse Stock, Trained Dogs, Ferrets and Fancy Fowls, Carriage, Buggy, and Saddle Horses, Carriages, Harness and Saddles, Time Watches, every description of Fire Arms, Sporting Articles, Fishing Rods and Tackle, Music and Musical Instruments, Yachts, Sail and Row Boats, Furniture, Fine Wines, Liquors and Segars;—Cricket and Ball Bats, Pads, &c., &c.

AGRICULTURAL IMPLEMENTS,

of the latest and most improved kinds; Seeds, Plants, Fruit, Forest and Shade Trees, and all kinds of Books treating on subjects of importance to the Farmer, Horticulturist, and Florist.

STATE ROOMS ENGAGED

in advance, on Steamers and Packets to leave for Europe, California, the West Indies, or any part of the world. This will obviate the necessity to residents of inland towns, and places where no steamer agencies exist, of coming to New York two or three weeks in advance—as they are now frequently required to do—either to obtain passage, or to secure eligible accommodations. In this department, we will be ready to secure

ROOMS AT HOTELS

at favorable rates, so as to protect the stranger from imposition as well as inconvenience; and, in short, to perform any description or commission that would require the presence of the party himself.

Gentlemen who desire to form Libraries, or who may wish to procure the

CHOICE LITERATURE OF THE DAY,

can always rely upon our judgment and selection. Also, Blank Books and Stationery, and Book and News Paper, for Printers.

FOR THE LADIES,

we will procure the latest Fashion Plates, styles of Bonnets, samples of the newest varieties of goods, Cosmetics, Perfumes, and Fancy Articles, and we shall always be pleased to furnish everything connected with their wants.

In short, for any service which may be required, the public may rely upon us, with the most perfect confidence, fidelity, and dispatch. Apply to

Coggswell's Medical Salt,
A PERFECT SUBSTITUTE

FOR THE

LANCET, LEECHES AND BLISTERS.

INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—has but ONE AIM—accomplishes but ONE THING, to wit: subdue INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. *Every form of inflammation* (but no other disease) is subdued, by it as easily as fire is extinguished by water. Is it asked, *how* it does this?—simply by restoring the lost balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires merely what adheres to the point of a pin dipped into a solution of it, to affect the entire system.

☞ *Of its intrinsic value, the enlightened community, and not the discoverer, must be the judge.*

Manny's Celebrated Mower
—AND—
MOWER AND REAPER.
IMPROVED.

Built expressly for the New England States.

THE MANNY MOWER has been extensively used for the past two years in New England, and more than six years at the West.—Its success is beyond that of any other Mower or Reaper ever constructed. Over 150 in *1st Premium* at the Agricultural Fairs, including the *Grand 1st Class Silver Medal* at the WORLD'S FAIR, PARIS, 1856.

With the two past years' *experience*, we have been enabled to make a number of very *important improvements*. We find New England farmers require a different Machine from other sections—the fields generally being small. It must be light, at the same time possess *great strength; portable*, with facilities to *raise the cutters to pass obstructions*, and to remove from field to field. A perfect cutting apparatus, to cut the fine grasses without clogging, and so constructed as to *start* in the *grass without backing*, easily adjusted to cut high or low, and have a Reel to cut equally well with or against the wind, and to be worked with ease by a light team, and so easily managed and simple that any one of common ability may operate it successfully, and to be built in the most thorough manner.

With this knowledge of the farmers' requirements, and with the determination to build a *better* Machine than has ever before been constructed in this country, we offer the **Manny Mower of 1857** with confidence, as combining the qualities mentioned above, and as one particularly adapted to meet the wants of New England farmers.

Price of Mower, $110; with Reaper attachment, $145 Extra. Delivered on board the cars at Worcester, Mass. JOHN F. ADRIANCE & Co.,

AYER'S Cathartic Pills,
(SUGAR COATED,)
SEE WHAT IS

CLEANSE THE BLOOD AND CURE THE SICK
Invalids, Fathers, Mothers, Physicians Philanthropists, read their Effects, and judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach

PITTSBURG, PA., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a close or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once. If they will do others as they do me, the fact is worth knowing.

Yours with great respect, ED. W. PREBLE,
Clerk of Steamer Clarion.

Bilious Disorders and Liver Complaints

DEPARTMENT OF THE INTERIOR, WASHINGTON, D. C., 7 Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of the organ. Indeed, I have seldom found a case of *bilious disease* so obstinate that it did not readily yield to them.

Fraternally yours, R. ROBERTS, M. D.,
Physician of the Marine Hospital.

Dysentery, Relax, and Worms.

POST OFFICE, HARTLAND, LIV. CO., MICH., NOV. 16, 1855

DR. AYER: Your Pills are the perfection of medicine they have done my wife more good than I can tell you. She had been sick and pining away for months. Went off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her, by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of bloody dysentery. One of our neighbors had it bad, and my wife cured him with two doses of your Pills, while others around us paid from five to twenty dollars doctors' bills, and lost much time, without being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be prized here.

GEO. J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood they are the very best remedy I have ever known, and I can confidently recommend them to my friends.

Yours, J. V. HIMES.

WARSAW, WYOMING CO., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little girl of a case of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long afflicted with a humor and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her. ASA MORGRIDGE.

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Bascom, of the Methodist Episc. Church.

PULASKI HOUSE, SAVANNAH, GA., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for such relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which could no shake themselves off. Notwithstanding I had the best of physicians, the disease grew worse and worse, until, by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effect was slow, but sure. By persevering in the use of them I am now entirely well.

SENATE CHAMBER, BATON ROUGE, LA., 5 Dec., 1854.

DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease that had afflicted me for years. VINCENT SLIDELL.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Costipation, and as **a Dinner Pill**, they are agreeable and effectual.

Fits, Suppression, Paralysis, Inflammation, and even **Deafness**, and **Partial Blindness**, have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skillful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL
FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, IN CIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it steadily known. Nay, few are the families in any civilized country on this continent without some personal experience of its powers, or that of some communities any where which have not among them some living trophy of its victory over the subtile and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest of remedies that can be employed for infants and young persons, and they should have it in store against the insidious enemy that stealts upon them unprepared. We have abundant grounds to believe the CHERRY PECTORAL has saved more lives by the consumptions it prevents than those it cures. Keep it by you, and cure your colds while they are curable, for neglect them until no human skill can reach the deep-seated rankler that, fastened on the vitals, sets up its away. All know the dreadful fatality of lung disorders, and we they know too the virtues of this remedy. We seek not to deceive, but to secure them the good which made the fame of the. We spare no cost, no care, no toil to produce it the most perfect possible, and thus afford those who rely on it the best agent which our skill can furnish for their cure.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FLANEY & Co are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular lottery is named, orders are filled in the first drawing to take place after the communication comes to hand. The price of tickets ranges from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combination. Prizes vary in amount from $20 to $100'000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers: The Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the number of tickets in every, all must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the operation. Prizes vary from $50 to $50,000; every prize being drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Day Book*. Write your address plainly, and direct to S. SWAN & Co., Atlanta, Georgia.

Prizes paid in full, no percentage deducted from prizes as in other lotteries.

All communications strictly confidential. m18 1y

American and Foreign Patents.
R. H. EDDY, solicitor of Patents,
(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)

No. 76 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on the shortest terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters appertaining thereto. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unexcelled by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL. AT THE PATENT OFFICE THE MERITS, and SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY. he would add that he has always been ready to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of English and American works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents, more than any other persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the most learned and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. E. S. WOODWORTH,
Commissioner of Patents.

S. D. & H. W. Smith,
—MANUFACTURERS OF—
Melodeons, Organ Melodeons,
—and—
PEDAL BASS MELODEONS,
No. 511 Washington Street, Boston.

The first premium over all competitors, at the Fair of the Mass. Charitable Mechanic Association, of the National Fair, Washington, D. C., also at the Ohio State Fair, held at Columbus, Ohio, were awarded to these Manufacturers.

By means of a new method of Voicing, known only to themselves, they have succeeded in removing the harsh and buzzing sound which formerly characterized the instrument, and rendering the tones mil, clear and organ like. The action is prompt and reliable, enabling the performer, to execute the most rapid music without blurring the tones. The swell is arranged to give great expression.

THE PEDAL BASS MELODEONS,

Are designed particularly for Churches, Lodges, Halls, &c. It is arranged with two manuals, or banks of Keys, the lower set running an octave higher than the other, and may be used separately, and thus get in one case two distinct instruments; or by use of the coupler, the two banks of keys may be played at the same time by use of the front set only. This connected with the Pedal Bass, will produce the effect of a large organ, and is sufficiently heavy to fill a house that seats from 1000 to 1500 persons.

THE ORGAN MELODEON

is designed for parlor and private use. The construction is similar to the Church Instrument, being arranged with two banks of Keys, and when used together, by means of the coupler, is capable of as great volume of power as the Church Instrument, and may be used without the pedals. Also, every variety of MELODEONS for Parlor use.

Purchasers may rely upon instruments from our Manufactory, being made in the most complete and thorough manner. Having removed to the spacious Buildings

511 Washington Street,

We have every facility for manufacturing purposes, and employ none but the most experienced and skilful workmen. In short, we will promise our customers an instrument equal, if not superior, to any Manufacturer, and guarantee satisfaction and give satisfaction.

Music Teachers, Leaders of Choirs, and others interested in musical matters, are respectfully invited to call at Rooms whenever they may time to examine or test the instruments on exhibition for sale at their pleasure.

As a still further guarantee to the public as to the excellence of the MELODEONS from our Manufactory, we beg leave to refer, by permission, to the following

Piano Forte Manufacturers of Boston,
who have examined our Instruments, and will give their opinion when called upon:

Chickering & Sons, Hallett & Cumston,
F. Gilbert & Co., Wm. P. Emerson,
Brown & Allen, A. W. Ladd & Co.,
George Hewes, Woodward & Brown,
Newhall & Co.

MELODEONS RENTED.

Persons who wish to hire Melodeons with a view of purchasing at the end of the year, can have the rent credited as part payment of the purchase money. This matter is worthy of special note, as it enables those who desire a fair test of the instruments before purchasing, to obtain it at the expense of the manufacturers, to the extent at least of a year's rent.

Orders from any part of the country or world, sent direct to the manufactory in Boston, with cash, or satisfactory reference, will be promptly attended, or satisfactorily executed, and as if the parties were present, or employed an agent to select, and on as reasonable terms.

IMPORTANT DISCOVERY.
DR. CHEESEMAN'S PILLS FOR FEMALES,
Prepared by an old Physician of 40 years experience
THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In one instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, when by health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called "The Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.
These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. L. CHEESEMAN, Box No. 4,581, Post Office, New York City, can have them sent to their respective addresses by return of mail.

BURDEN'S
Pressed Boat, Ship, Brad & Countersunk Railroad Spikes
ARE well known in the United States, and are conspicuous for their regularity and finish, their unvarying uniformity of size, and for the excellent quality of iron from which they are made, to which may be attributed their rare strength. They are everywhere considered far superior to the hand-made spike of common English iron, and inferior to nothing of the kind yet introduced to the public.

HAVE WE MADE ANY PROGRESS?

NO. III.

In our second number, we closed with an allusion to family drinking.

Forty or fifty years ago, there was ten times more family drinking in Portsmouth and vicinity than there is now.

We have in our possession the account books of a mechanic who died just 44 years ago, during the war with Great Britain.—These books contain accounts against 40 or 50 mechanics and laborers, who were employed by him on various jobs. To every one of these, in his bill of supplies, is charged more or less rum, usually on Saturday; and several of them would commonly have 2 qts. or 1 gallon at a time. These charges did not include their daily half pint; these men were not called drunkards; yet they, or somebody, consumed all this liquor at their homes.

We are quite inclined to the opinion, that as much liquor was consumed in this way, 40 or 50 years ago, as is now sold in this city in the whole.

But, says the young reader, this is incredible! what could they do with all of it?

Wait a little, and we shall see. The washerwoman expected her gill of rum to aid her in the labor of her day; and she commonly had it; often without being measured. The wet nurse drank milk punch to make her give more and better milk; the mother drank wine, gin, rum, brandy, or cordial, or all of them, to strengthen her hands and gladden her heart. The matron offered toddy to her female callers; it was often accepted; and some old ladies used to carry small nutmeg graters in their pockets, probably for safety; but it was as common to borrow the nutmeg to flavor the toddy, as it was to pass round the snuff box to tickle the nose.

We find little or none of this now, among these people or such as these, being Americans born. How much of it there may be among Irish or other new comers, we know not exactly; but it abounds there and is the source of a vast amount of disturbance, crime, pauperism and misery. But among the families of native American mechanics and laborers, such things are rare indeed. It is as rare to find a drinking family now among them, as it was to find a non-drinking family 45 years ago.

But the women did not drink it all! did they?

No, not half of it. Every man who called into his neighbor's house was commonly met with the question, "What will you drink?" The man of the house would not often say, "Will you, or won't you, have something to drink?" because this form might look *mean*, as if he did not wish to bestow the precious gift. The man in comfortable circumstances would have been ashamed, if he could not set two or three kinds of liquors on his board; and he felt slighted if his accidental guest did not take something.

The social party, large or small, to take tea or spend the evening, must drink abundantly of wines or spirits; and no entertainment of this social kind was complete or even decent without them. In several such parties, over 40 years ago, we well remember drinking was the principal business of the men during a long evening—in cases where other employments were principal, the drinking was frequent and abundant. This custom, in these classes of people, is now extremely rare, and the change surely for the better.

When the minister called at the house, some of the choicest liquors were set before him—but the chapter is getting long, and we will put the minister into the next.

Affairs in Kansas are assuming a decidedly unpleasant aspect. The rumor in reference to concentrating the entire Utah military expedition in Kansas will awaken a feeling of intense anxiety in the bosom of every friend of free institutions in the country; and should three thousand bayonets be finally employed, under a false pretext, to fasten pro-slaveryism on Kansas, it will surprise no one who is familiar with the scenes of the past two years in that territory.—*Traveller.*

No: we can be surprised at nothing there, unless she should come in quietly as a free State. We have never yet seen a good chance for this since President Pierce suffered Douglas to tie a mill-stone about his neck.

☞ Conover, the appointee of Gov. King, has obtained possession of the New York Street Commissioner's office, by virtue of a judicial decision, and ejected the old deputy on Saturday, *vi et armis.*

☞ Colonel Fremont has so far recovered from his illness as to be able to receive visitors.

EXETERIANA.

EXETER, Monday, July 20th.

Dear Chronicle:—Like New York (baring the riots,) Boston and other large cities Exeter is at present comparatively quiet. One would not suppose on viewing its streets, now so noiseless and deserted, that ere long it will resume the bustling, jarring din of a large and populous community. Whether the business men have all fled to the sea shore, or what is the reason we know not, but they are not to be found in very large numbers about town. Perhaps it may be accounted for by the fact that A. Thurston, who claims to furnish 'good accommodations and a careful driver,' has just commenced running a stage from here to Hampton Beach.—Did 'Seal' see any of our townsmen at Boar's Head, when he was there?

The Fourth passed off quietly in this law-and-order town. Last year after two months of "blowing" on the exciting question of the expediency of having a grand celebration here on the Fourth, the committee determined that they would have one; but the determination was worth as much as the enterprising business resolutions of Southern Conventions, for the day came and went, and the procession, etc., was even poorer than the late fizzle at Boston in the shape of a great celebration of our country's birth-day. But this year, beyond the spasmodic patriotism of a few young gentlemen, as evinced by their perseverance in ringing the church bell all night long, and the snapping of a select number of fire-crackers, no one without a 'Leavitt's,'a 'Thomas,' or a 'Portsmouth,' would have known that said day was the anniversary of the Declaration &c.

The examination at Phillips' Academy was held on Tuesday the 8th inst., when the customary number of other gentlemen were present as examiners. About a dozen students graduated at that time to enter college, a majority of them as Sophomores. Among the graduates were two Portsmouth boys, one of whom goes to Harvard, the other to Bowdoin.

On the succeeding Friday the annual examination of the Exeter Female Academy took place. This is not one of those institutions where a young lady is sent forth with her "education completed" when she can thump bad music on the piano, scold her mamma in bad French, and murder the King's English when she condescends to speak it;—but a good, substantial school as the satisfactory examination fully testified. Under the care of Professor E. G. Dalton and Miss Ambler, this Academy bids fair to flourish for many a year.

It is no doubt well known that we are to have, as an offset to your Custom House and Post Office, it may be, a new Jail built here. Though we cannot speak from experience, we know that we are not wrong in asserting the present "stone-jug" of the County situate here, is nothing to boast of, either in external architectural beauty or internal convenience of arrangement.—Mr. Leavitt, however, as far as he is able, takes most excellent care of the poor fellows under his charge. Yet we think a witness in a case tried last winter at the court here, went a little too far, when he thought a man might have grown a foot or more in a few months, so that he could not recognize him. The old jail lot, with the buildings theron, are advertised to be sold on Saturday next. Yours, F. O.

☞ The crops in Greece and Ionian Islands are in a very prosperous condition. The currant crop is estimated as follows: Zante sixteen millions of pounds, Cephalonia eighteen millions, Morea (Greece) sixty millions. There will also be an abundant crop of olive oil.

☞ Some of the Newburyport boys caught a "whopper" of a frog in their beautiful frog pond, a day or two ago. He is said to be 14 inches long from the end of his nose to the tip of his great toe, (on the hind foot we presume,) and would make a splendid fricasee, *a la Francaise*, for a large party. His music is grand, excelsior; in short, he was the very sub-base of the band, and the great, great, great grandfather of all the frogs.

☞ George Patten, clerk in a store in St. Louis, having applied opprobious epithets to a seamstress named Rebecca McCord, living in another part of the house in which he resides, the enraged needle-woman gave him a most energetic and effective cowhiding, after which Patten got a knife, and challenged her to renew the conflict, and as she was actively complying, stabbed her near the heart, it is thought fatally.

☞ A man on Friday last, in St. Louis, was fined fifty dollars for using obscene language in the street, while ladies were passing.

MEN DROWNED.—During Friday night, or early on Saturday, May 30, fourteen persons were drowned on the sands between Lancaster and Ulverstone, England. On Saturday morning, from the sands which skirt Morecambe bay, there were seen floating in the water a number of men's hats, some boxes and other things, and it was at once conjectured that these hats, boxes, &c., were the property of persons who, in crossing the sands, had either been overtaken by the tide or had left the proper track, and so got into the water. A number of men went out in a boat and recovered the hats and boxes, and a further search revealed the bodies of eight men floating as nearly together as possible.

A party of more than a dozen persons, who had been living in service at Poulton, Heysham, and other places on the Ulverstone end of the sands, had left Kent's-bank on Friday night, intending to be present at the Whitsuntide hirings at Lancaster on Saturday. Their route was along the sands by the edge of the bay, being the same that is taken by the over-sands coach between Ulverstone and Lancaster. The party spent some time *drinking* at Wilcock's Kents-bank Hotel, and they started in two light one-horse carts.

According to the tide-table it was high-water at Ulverstone on Saturday morning at ten minutes past four o'clock, and in order to cross the sands in safety and avoid the tide the journey should have been commenced at either end at 41 minutes past nine o'clock on Friday night; but besides being intoxicated, this party are understood to have started later by an hour or more. Some who intended to have crossed with them declined to do so, because of the time they started, and so saved their lives. Nothing more is known of the party until some of the bodies were washed ashore, as already described. The appearance of some of the bodies has led to the supposition that suffocation took place during sleep.

At the inquest, Thos. Bald said that he managed the hotel at Kent's-bank for Mr. W. Wilcock. He remembered seeing Ashburner and Bell at the house on Friday night. He could not say whether Ashburner was sober. Bell was quite sober. To the best of his knowledge the deceased came to the house about half-past nine o'clock, or twenty minutes to ten, and went away about ten. John Pedder said that he knew Sawyer and Haughton, two of the deceased. He saw them in the Kents-bank public-house on Friday night. Some who were at the same end of the room as he was, did not drink. They stayed from twenty minutes to half an hour.

All then got into the cart again. He went to the door and saw them drive over the railway and upon the sands-road. He knew the driver by sight, not by name;—*he was not drunk; he was what is called "sharp-fresh."* He was worse than the rest that way. The witness asked the driver if he was going to take the party over the channel, and he replied that he had agreed to take them to Lancaster; and nothing more passed between them.

NEW MEDICAL SALT; *A perfect substitute for the Lancet, Leeches and Blisters!*—"It has cured several cases of Rheumatism, Bronchitis, Erysipelas and Canker."—*Jeffersonville Democrat, Ind.*

The Agent in Portsmouth is Jos. H. Thacher. See advertisement.

☞ A school teacher named A. L. Morrion, who was married at Tipton, Ind., on the 7th inst., was arrested on the same evening at Kokomo on a charge of bigamy. He is said to have eight wives.

LOUISIANA SUGAR.—The Franklin (St. Mary) Republican says the cane looks splendidly everywhere throughout the parish, and the West Baton Rouge Sugar Planter of the 4th gives cheering accounts of the prospects of the planters in that parish.

☞ The wheat crop of Indiana, last year, was estimated at 13,000,000 bushels. A farmer, who professes to be acquainted with the principal wheat districts in the State, says this year's crop will exceed 18,000,000 bushels.

FRANCONIA NOTCH, N. H., July 20.—The Flume House was struck by lightning on Saturday afternoon, and two persons killed—Mr. W. H. Smith, of the firm of Davis, Wright & Co., Boston, and Mr. Blandon, clerk of the house. All the other visitors are safe.

NEW YORK, July 20.—The drop-bridge at the Hoboken ferry broke down last night, precipitating 100 persons into the water. One person only was drowned, and several injured.

WASHINGTON, July 18.—Despatches have gone West directing Gen. Harney to throw the entire Utah expeditionary force upon Kansas, if necessary, to quell the insurrection, and preserve order.

WASHINGTON, July 17.—Authentic accounts show the safety of Colonel Sumner's command, and that the robbery of emigrant trains was not committed by the Indians, but by South Carolinians, and Col. Buford's banditti, roving along the Western frontier.

The fillibuster managers here deny the reports from the South, of another expedition against Central America.

OUTRAGEOUS WILLS—TYRANNY AFTER DEATH.—There is a good deal of just complaint of the ill-treatment of wives during the lifetime of their husbands, but the greatest hardships seem to be imposed upon the poor widow, whose "dear departed" makes it a condition in his "last will and testament" that if she marries again, it must be at the sacrifice of all the worldly goods she inherits. This is a species of conjugal cruelty extending beyond the grave, which although it may not be punished by law, cannot be too severly reprobated by public opinion.

There is a young, healthy, handsome widow in this city, who has an income of $15,000 a year, and who wants to marry a man who has not the slightest objection to the union. But her late husband, whose jealousy, it seems, did not end with his life, left a wicked will giving all his property to a collateral relative, if his widow should wed a second husband. We understand the victim of this outrage has offered $10,000 a year out of her income of $15,000 to have the cruel condition cancelled, but the party to whom the property would revert is inexorable. And this is by no means a solitary case of the wrongs and cruelties perpetrated and perpetuated by the diabolical wills of the dead. We know of several cases similar to the one alluded to, and it is time to denounce this sort of tyranny in the language which it merits. The poor dying imbecile who defrauds his widow of her subsistence if she marries again, simply offers her a premium for incontinency, and imposes a refinement of cruelty more outrageous than the barbaric code that condemns the widow to the funeal pyre of her husband.—*N. Y. Mirror.*

HAIR RESTORATIVE.—Every one will, we think, agree with us in the opinion that the human hair is the greatest natural ornament that is possessed either by a gentleman or a lady.—Just meet an apparently good looking man, for instance, in the street; you admire his features, whiskers, and general bearing; but lo! he lifts his hat in recognition of your bow, and the charm has vanished, for Ichabod is written on his bald head, and the glory has departed with the flowing locks that once flourished luxuriantly there. In the case of a lady, the matter is, if possible, worse—such cases reminding one of the circumstances on which the following epigram is founded:

'O! give me, fair Emma, a lock of your hair,'
A bashful young lover took courage and sighed:
"'Twas a sin to refuse such a modest request,
So take the whole wig,' the dear creature replied.

Now, to prevent such a catastrophe, is within the power of every lady and gentleman; for, by using Prof. O. S. Wood's Hair Restorative, hair is not only prevented from falling off or turning gray, but the article will restore hair to bald places; and even if it has changed color and become gray, it will bring it back to its pristine beauty and luxuriance. Those who are acquainted with the anatomy, physiology and pathology of the hair, must be well aware that certain substances have a specific action upon it; and it is by a judicious combination of these that Professor Wood has succeeded in compounding a mixture possessed of remarkable virtues.—[Waverly Magazine and Literary Gaz.

IF ALL OUR READERS

Who are troubled with liver complaint, Jaundice, or Dyspepsia, will read the advertisement in another column of Dr. Sanford's Invigorator, and then do as we have done—get a bottle, we should not see so many sickly, half-dead, despairing people as now meet our gaze at almost every corner, for certainly there never was a remedy invented of which so much is said, and that performs so nearly what its proprietors say it will do. It came to us so highly recommended that we could not fail to try it, and a trial has convinced us, without a doubt, that it is the best family medicine in use. We take it for Headache, Sour Stomach, Billiousness, and any of the little bodily ills that are common, and it does produce a pleasant state of feeling to the sick, and what is better, after using it a few times, these little ills grow less and less, and there is a prospect of being entirely free from them by a continuance in the use of the Invigorator.

LOCAL.

☞ "The Alabama Slaves" are to give another of their Concerts this (Tuesday) evening, at the Temple, with a new programme. They gave us some music worth hearing, when they were here before; and we have no doubt they have more of the same sort left for to-night. It has been denied in some hunker and interested quarters, that this troupe are really Slaves, as they claim—but we have seen no evidence that there is any false pretension in the matter. And, in fact, we don't see that it makes much odds—"by their works ye shall know them"—and if the darkies give us a good Concert, why not go and hear them?

☞ We have received a notice, not at all commendatory, in a moral point of view, of the Museum of Wax Figures, &c., now on exhibition at Store No. 3 Congress Block—for which we have not room today, but which we shall publish to-morrow.—In the meantime, people will have an opportunity of seeing for themselves and forming their own opinions. As at present advised, we don't understand how the holding up the physiognomy and physiology of bad men and women to the public gaze and consideration, can have an injurious effect.

PUGILISTIC.—*Young America and Ould Ireland.*—Quite a set-to came off, impromptu, a few days since, on one of the roads leading out of the city, the principals in which were an Irish man and an American boy. Victory perched on the representative of the stars and stripes, the shirt of the Irishman being entirely torn from his body.

☞ On Monday evening, as our reporter was crossing Fleet street, near the Franklin House stable, he saw a man rolling in the mud, in a state of intoxication, with his face covered with blood, eyes filled with mud, and his clothes blooded and bedaubed from head to foot. On inquiring the cause of his wretched appearance, he learned that the man had been drinking, and being rather pugnacious, he essayed to fight with a quiet and peaceable man, but the latter pushed him off, whereupon he attempted to stab him, but was prevented by some bystanders. Being thus thwarted, he 'pitched into' the man before mentioned, and tore his shirt almost entirely off his back; which treatment being a *leetle* too rough, he concluded the performance by knocking him into a pile of bricks, causing the blood to flow quite freely.

The drunken assaulter was an entire stranger to the man assaulted, and had not the least provocation for striking him.

☞ Dinsmore's American Railroad and Steam Navigation Guide contains many valuable tables of railroad connexions, routes, times, &c. It says of the city of Portsmouth, that it "has a large foreign and country trade."

NEW YORK, July 18.—This afternoon there was great excitement along shore, and a threatening riot among the sailors, growing out of the "no advance" movement. An attempt was made by a sailor landlord to prevent the crew of the E. P. Stringer going on board that ship, and the mate was badly beaten. The aid of the police has been invoked. Trouble is threatened in the street Commissioner's office.—A large force has been detailed to guard the premises.

The Daily Times hints that Archbishop Hughes is about to be deposed, and that either Bishop McCloskey of Albany, or O'Connor of Pittsburg, will probably succeed him.

"I've just come from seeing old Mr. Sprat," said Mrs. Sled, dropping in upon Mrs. Partington suddenly, and sinking into a seat as she spoke: "poor creatur, he does look miser'ble—he's got one foot in the grave, you may depend." "Has he, indeed," said the sympathetic dame, "well I noticed the other day he walked rather limpid as he went along." Mrs. Partington sniffed as if she smelt something. "It seems to be cotton a burning," said she, drawing a long breath, "don't you smell anything?" Mrs. Sled informed her that she had a bad cold in her head, and could not be exactly said to possess any of her five senses, Mrs. Partington sniffed again. "I declare," said the lady whose five senses were blunted by the cold, "I declare I feel something," which showed that the sense of feeling was not wanting, and jumping to her feet disclosed her dress on fire behind. "Get off my matchrope," said Ike, dashing in with half a bunch of crackers in his hand. The intimation was unnecessary, and as Mrs. Sled extinguished herself in the sink, she breathed an inward prayer for the hope of the house of Partington.—*Boston Sat. Eve. Gaz.*

SEVEN DAYS LATER FROM EUROPE.

NEW YORK, July 19.—The steamship Vanderbilt, Captain Wilcox, from Havre, and from Southampton at 8 P. M., of the 8th inst., with 120 passengers, and $200,000 in specie and 1000 tons merchanise, arrived at quarantine this forenoon.

The Collins steamship Atlantic, from Liverpool, 8th inst., arrived at New York, this evening.

Breadstuffs.—Richardson, Spence & Co. report a dull market generally, with a decline of 2d. on red, inferior wheat, and slightly lower prices for white corn. Western Canal flour is called 30s. 6d. a 31s. 6d; red wheat, 8s. 6d. a 9s. 6d.: mixed and yellow corn, 36s. a 36s.6d. The Corn Association publish their estimate of stock on hand, showing 78,895 quarters wheat 127,901 barrels and 18,341 sacks of flour, 49,958 quarters of corn. The quantities of flour and meal were more than anticipated, and caused a depression in the market.

Great Britain.—In the House of Lords, on Monday, Lord Brougham inquired whether the Ministers had taken any steps to induce the French government to abandon the importation of Africans, into the West Indies. Lord Clarendon replied, that the attention of the French government had been called to the subject.

In the House of Commons, the government was twice defeated upon motions to amend the pending probate bill.

In reply to an enquiry, Lord Palmerston announced the opposition of the government to the projected Suez Canal.

Mr. Roebuck's motion for the abolition of the Lord Lieutenancy of Ireland, was rejected by the House of Commons, on the 7th inst., by 266 votes against 151. The Times of the subsequent day, in a leading editorial, denounces the Court at Dublin as a spurious thing, a bad imitation and a downright imposture.

During a horticultural fete at Shrewsbury, a bridge, supported on boats, by means of which the grounds were reached, gave way, and a dozen or more persons were drowned.

The work of shipping the submarine telegraph cable was going briskly forward, both on board the Niagara and the Agamemnon.

The Earl of Mornington had died very suddenly, but a coroner's jury found that it was from natural causes. The Earl's life was insured for a quarter million sterling.

France.—The Moniteur announces that the Emperor and Empress will shortly visit Queen Victoria at Osborne, confining their stay in England, to that locality, and maintaining the strictest incognito.

The poet Beranger is said to be in a dying state.

The three Republican candidates were elected in Paris, on the 5th and 6th, notwithstanding all the efforts of the government. The following is the definite result: Third electoral district—Cavaignanc, 10,950; Thibaut, 9952. Fourth electoral district—Ollivier, 11,500; Zoïen, 10,600. Seventh district—Darimon, 12,078; Laugetin, 11,038.

Trade was quiet in Paris. Accurate information as to the silk crop states the result at half a crop in the South of France. Some localities will give even 75 per cent. A decline in the prices of corn and wine is becoming apparent. The harvests in France and Italy are most promising. At Paris, flour has declined 1 a 2 francs per sack of 157 kilogrammes for superior quality, and 3 a 4 for inferior.

RUSSIA. The Berlin correspondent of the London Times says the most prominent feature of the new Russian tariff is the admission of iron of almost all kinds at a duty which will not quite exclude it, while formerly it was altogether prohibited; cotton goods are all reduced considerably, and in some cases to one fourth of the former duty; linen, however, only to about one-half. The duty on raw sugar is lowered, and refined sugar, formerly prohibited, now enters at 5 roubles and 4 roubles per pood. Tobacco in leaves is reduced from 12 to 6 roubles.

INDIA.—There are no later advices from India. The London Times publishes a letter from an Army officer, dated Lahore, May 14, in which it is stated that the 45th Native Infantry at Ferozepore, having refused to lay down their arms, were cut to pieces by the Cavalry, and shot by the Europeans, and orders were issued to kill every man of the regiment, wherever he may be found. They have burnt nine bungalows and the church there. All Europeans are safe. The 300 Sepoys who got away from here yesterday, have been well punished by the Punjavese. Report says nearly all were killed.

The Great English Remedy.
SIR JAMES CLARKE'S
Celebrated Female Pills.

Prepared from a prescription of Sir Jas. Clarke, M.D., Physician Extraordinary to the Queen.

THIS invaluable Medicine is unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject. It moderates all excessive, painful or obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES

It is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

Each bottle, Price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.

CAUTION.

Porter's Spirit of the Times'
GENERAL PURCHASING AGENCY.

THE CONSTANTLY increasing demand upon us to execute the commission for the purchase of all kinds of articles, both for residents and non-residents of the city, has induced us to establish, in connection with our newspaper enterprise, a

PURCHASING BUREAU,

under the immediate supervision of one of our firm, assisted by the most accomplished experts, *for supplying any article in the world.*

Particular attention will be paid to the selection, purchase, and sale of thorough-bred Cattle and Horse Stock, Trained Dogs, Ferrets and Fancy Fowls, Carriage, Buggy, and Saddle Horses, Carriages, Harness and Saddles, Fine Watches, every description of Fire Arms, Sporting Articles, Fishing Rods and Tackle, Music and Musical Instruments, Yachts, Sail and Row Boats, Furniture, Fine Wines, Liquors and Segars; Cricket and Ball Bats, Pads, &c., &c.

AGRICULTURAL IMPLEMENTS,

of the latest and most improved kinds; Seeds, Plants, Fruit, Forest and Shade Trees, and all kinds of Books treating on subjects of importance to the Farmer, Horticulturist, and Florist.

STATE ROOMS ENGAGED

in advance, on Steamers and Packets to leave for Europe, California, the West Indies, or any part of the world. This will obviate the necessity of residents of inland towns, and places where no steamer agencies exist, of coming to New York two or three weeks in advance—as they are now frequently required to do—either to secure a passage, or to secure eligible accommodations. In this department, we will be ready to secure

ROOMS AT HOTELS

at favorable rates, so as to protect the stranger from imposition on his arrival in the metropolis; and in short, to perform any description or commission that would require the presence of the party himself.

Gentlemen who desire to form Libraries, or who may wish to procure the

CHOICE LITERATURE OF THE DAY,

can always rely upon our judgment and selection. Also, Blank Books and Stationery, and Book and News Paper, for Printers.

FOR THE LADIES,

we will procure the latest Fashion Plates, styles of Bonnets, samples of the newest varieties of goods, Cosmetics, Perfumes, and Fancy Articles, and we shall always be pleased to furnish everything connected with their wants.

In short, for any service which may be required, the public may rely upon us, with the most perfect confidence, fidelity, and dispatch. Apply to

Coggswell's Medical Salt,
A PERFECT SUBSTITUTE
FOR THE
LANCET, LEECHES AND BLISTERS.

INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—but ONE AIM—accomplishes but ONE THING, to wit: SUBDUES INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. Every *form of inflammation* (but no other disease) is subdued, by it as easily as fire is extinguished by water. It is a fact, not a dream, this!—simply by restoring the lost balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires merely what adheres to the point of a pill dipped into a solution of it, to affect the entire system.

Manny's Celebrated Mower
—AND—
MOWER AND REAPER.
IMPROVED.

Built expressly for the New England States.

THE MANNY MOWER has been extensively used for the past two years in New England, and more than five years at the West. Its success is beyond that of any other Mower or Reaper ever constructed. Over 150 1st *Premiums* have been awarded it, including the *Grand* 1st *Class Silver Medal* at the WORLD'S FAIR, PARIS, 1856.

With the two past years' *experience*, we have been enabled to make a number of very *important improvements*. With New England farmers require a different Machine from other sections;—the fields generally being small. It must be *light*, at the same time possess *great strength* & *portable*, with facilities to work the entire to pass *obstructions*, and to remove from field to field. A perfect cutting apparatus, to cut the fine grasses without clogging, and so constructed as to *follow* the grass *without backing*, easily adjusted to cut high or low, and have a Reel to cut equally well with or against the wind, and to be worked with ease by a light team, and so easily managed and simple that any one of common ability may operate it successfully, and to be built in the most thorough manner.

With this knowledge of the farmers' requirements, and with the determination to build a *better* Machine than has ever before been constructed in this country, we offer the Manny Mower of 1857 with confidence, as combining the qualities enumerated above, and as one particularly adapted to meet the wants of New England farmers.

Price of Mower, $110; with Reaper attachment, $15 Extra. Delivered on board the cars at Worcester, Mass. JOHN P. ADRIANCE'S Sons & Co., *Manufacturers.*

One of the above Machines can be seen at the store of the Subscriber.

AYER'S Cathartic Pills,
(SUGAR COATED,)
ARE MADE TO

CLEANSE THE BLOOD AND CURE THE SICK
Invalids, Fathers, Mothers, Physicians
Philanthropists, read their Effects,
and judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach

PORTSMOUTH, N. H., May 1, 1856.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to relieve from a foul stomach, which they cleanse at once. If they will do others as they do me, the fact is worth knowing.

Yours with great respect,
ED. W. PREBLE,
Clerk of Steamer Clarion.

Bilious Disorders and Liver Complaints

DEPARTMENT OF THE INTERIOR,
WASHINGTON, D. C., 7 Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of the organs. Indeed, I have seldom found a case of *bilious disease* so obstinate that it did not readily yield to them.

Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Relax, and Worms.

POST OFFICE, HAVELOCK, LV. CO., MINN., Nov. 10, 1854.

DR. AYER: Your Pills are the perfection of medicine They have done my wife more good than I can tell you She had been sick and pining away for months. Well off to be doctored at great expense, and got no better. She then commenced taking your Pills, which soon cured her by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of bloody dysentery. One of our neighbors had it bad, and my wife cured him with two doses of your Pills, while others around us paid from five to twenty dollars doctors bills, and were much time, without being cured or relieved even then. Such a medicine as yours, which is actually good and honest, will be prized here.

GEO. J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood they are the very best cathartic we have ever known, and I can confidently recommend them to my friends.

Yours, J. V. HIMES.

WARSAW, WYOMING CO., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Pills in my family and in practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous humors upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills and they have cured her. ASA MORGRIDGE

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawkes, of the Methodist Episc. Church.

PULASKI HOUSE, SAVANNAH, GA., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not record my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until, by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them I am now entirely well.

SENATOR CRAWFORD, RAYON HOUSE, LA., 5 Dec., 1855.

DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease that had afflicted me for years.

VINCENT SLIDELL.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a Dinner Pill, they are agreeable and effectual.

Fits, Suppression, Paralysis, Inflammation, and even Deafness, are Frequent Results of Costiveness, have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL
FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, IN CIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American Union, its wonderful cures of pulmonary complaints have made it universally known. Nay, few are the families in any civilized country on this continent without some personal experience of its effects; and fewer yet the communities any where, which have not among them some living trophy of its victory over the subtle and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the sudden croup or cough that steals upon them unprepared. We have abundant grounds to believe the CHERRY PECTORAL saves more lives by the consumption it prevents than it cures. Keep it by you, and cure your colds while they are curable, nor neglect them until no human skill can master the inexorable ranker that, fastened on the lungs, will not let your life away. All know the dreadful fatality of lung disease, and as they know too the virtues of this remedy, we need not procure than to assure them it is still made the best it can be. We spare no cost, nor care nor toil to render it the most perfect possible, and thus afford those who rely on it the best agent which our skill can furnish for their cure.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FRENCH & Co are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combination. Prizes vary in amount from $20 to $100 for the same. Orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The Schemes being filled for the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union of Washington, D.C.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with them is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all the tickets being filled before the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $20; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that even a child can understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $60,000; every prize being drawn, and result of drawing published in the next following paper.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published before every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Dog Book*. Write your orders plainly, and direct to S. SWAN & Co., Atlanta, Georgia

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

All communications strictly confidential. m18 1y

American and Foreign Patents.
R. H. EDDY, solicitor of Patents,
(Late Agent of U. S. Patent Office, Washington, under the act of 1837.)

No. 76 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through connections here have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered these parties. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as the Patent Office is the FIRST FIELD OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of decisions and official documents relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business despatched at the Patent office, or those who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the laws, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,

AMERICAN HOUSE,
BOSTON.
Conducted on the European Plan.

LEWIS RICE, Proprietor, respectfully announces that in compliance with the very general preference expressed for the European system of hotel management, that the American House will hereafter be conducted solely on that plan. Well furnished parlor and sleeping apartments will be let by the day, or for longer periods. Meals served at the gentlemen's hall at all hours of the day and evening. The ladies' dining hall will be opened in like manner for ladies, and gentlemen accompanied by ladies. The accommodations and convenience of the house are unsurpassed, and the recent improvements and alterations leave nothing to be desired. Suburban residents will find the arrangement specially convenient. Large or small parties provided with dinners, suppers, &c., at short notice.

A MOTHER'S INFLUENCE.—The following touching and felicitous illustration was given by Wendell Phillips the other day, in a public speech at New York:

"I was told to-day a story so touching in reference to this that you must let me tell it. It is a temperance case, but it will illustrate this just as well. It is the story of a mother, on the green hills of Vermont, holding by the right hand a son, sixteen years old, mad with love of the sea. And, as she stood by the garden gate, a sunny morning, she said: "Edward, they tell me—for I never saw the ocean—that the great temptation of the seaman's life is drink. Promise me, before you quit your mother's hand, that you will never drink." And, said he (for he told the story) I gave her the promise, and I went the broad globe over—Calcutta, the Mediterranean, San Francisco, the Cape of Good Hope, the North Pole and the South—I saw them all in forty years, and I never saw a glass filled with sparkling liquor that my mother's form by the garden gate, on that hillside of Vermont, did not rise up before me; and to-day at sixty, my lips are innocent of the taste of liquor. (Applause.) Was not that sweet evidence of the power of a single word? Yet that was not half.—For, said he, yesterday there came into my counting-room a young man of forty, and asked me "Do you know me?" "No." "Well," said he, "I was once brought drunk into your presence on shipboard; you were a passenger; the captain kicked me aside; you took me to your berth and kept me there until I had slept off the intoxication; you then asked me if I had a mother; I said I never knew a word from her lips; you told of yours at the garden gate, and to day, I am the master of one of the finest packets in New York, and I come to ask you to call and see me." How far that little candle throws its beams. That mother's word, on the green hillside of Vermont! Oh, God be thanked for the mighty power of a single word! (Applause.)"

ADVICE GRATIS.—It should be the aim of a newspaper to become acquainted with the improvements and discoveries of the day, and to call the attention of its readers to all such as will be interesting and useful to them. In all such cases, its conductors should feel as strictly bound in honor to speak in a candid and truthful manner as if conversing with an intimate friend. We have therefore recommended Mrs. Winslow's Soothing Syrup for children teething, and we now take occasion to repeat that we believe it of more importance to mothers and their children than any other discovery made by the profession during the last hundred years. A very large percentage of children annually die during the process of teething, and a very much larger number of those who survive, are greatly debilitated or diseased, so that they grow up weak, both physically and mentally, and incapacitated both for study and labor. Now, we appeal with perfect confidence, to thousands of mothers who will read this article, to corroborate our statement when we say that no such fatal consequences as those we have alluded to, ever occur from teething, when Mrs. Winslow's Soothing Syrup is used *in time*.

We are pleased to know that thousands of ladies have acted upon our suggestion, and have thanked us for it. Still there are many thousands of mothers who read the Visitor, who, from prejudice against the flood of worthless nostrums that deluge the country, or from neglect, have not availed themselves of the benefits of this most invaluable remedy. To such,—we wish to say—this syrup is the result of thirty years' experience of one of the best female physicians the world ever produced; and is just *the remedy needed* by every mother who has a child teething. It softens the gums, reduces inflammation, allays all pain and spasmodic action, corrects acidity of the stomach, and regulates the bowels. Moreover, we assure every mother it is *perfectly safe*—no possible harm can come of its use, according to the directions which accompany each bottle. We speak thus confidently, from the fact that very many of our most valued friends have made use of it for many years, and we have witnessed the most happy results from its use, in hundreds of cases. If you never before had faith in a female physician, our word for it, you will have, after using the Soothing Syrup. Try it. Twenty-five cents will purchase a bottle. It is, therefore, within reach of the poor as well as the rich.—*N. Y. Ladies Visitor.*

IMPORTANT DISCOVERY.

DR. CHEESEMAN'S PILLS FOR FEMALES.

Prepared by an old Physician of 40 years experience

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, thereby restoring health and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to DR. C. L. CHEESEMAN, Box No. 4,631, Post Office, New York City, can have them sent to their respective addresses by return of mail.

Morning Chronicle.

WEDNESDAY, JULY 22, 1857.

Rev. Joy H. Fairchild, whose Society at present is in the most flourishing condition, proposes to retire from the ministry, being now upwards of 70 years of age, and his church will probably form a union with the Phillips church in South Boston, from which Rev. Mr. Porter has lately been dismissed.—*Exeter News Letter.*

Not exactly so.—As soon as Mr. Porter was dismissed, 60 members asked to be dismissed also, which request was granted; and these 60 seceders formed themselves into a new church, which, it is said, is to be united with Mr. Fairchild's flock, build a new house, and settle a new minister, probably Mr. Porter. The present ruling powers in the Phillips church, being some of the same which dismissed Mr. Fairchild, will not be likely to unite with his adherents.

DROLL DOINGS IN MICHIGAN.—The Free Will Baptist Church at Alpino, Michigan, have recently expelled Mr. Stebbins, a deacon, from the church, for voting for Mr. Buchanan for President, on the plea that he thereby voted for slavery.

That church has stultified itself, and shown that it does not understand the first principles of christian liberty and liberality.

MUTINY ON BOARD OF A WHALE SHIP.—*New Bedford, July* 20.—Bark Huntress, Capt. Wm. Allen, arrived here yesterday, after an absence of eleven months and eight days. Fourteen of her crew refused to do duty when nine months out, in consequence of ill treatment to one of the men, by the Captain, who thrust into his mouth a piece of iron a foot and a half long, knocking out some of his teeth, &c. The iron was kept in his mouth two or three minutes.

The crew ordered the captain to put back to St. Helena to see the American consul, who advised the captain to put to sea, and make them do duty, but the other officers refused to sign papers, and the ship was, therefore, sent home. The crew will be taken to Boston by U. S. Deputy Marshal Wm. Russel, for examination. The men were twenty-two days in irons at St. Helena, where they lay four weeks, and were six weeks coming home.

The men are probably in the right: and have been sufferers by this long imprisonment;—yet better thus than to go on with a brutal captain.

UTICA, July 20.— William Spoers has been arrested on suspicion of setting fire to the State Lunatic Asylum, in this city.—He was sent to the Asylum in 1850, from New York, where he had fired several buildings. He was discharged from the Asylum last fall, but was afterwards employed there in a subordinate capacity. It is believed he set fire to the Asylum, and also to the barn belonging to it, which was burned last Saturday.

This poor man is doubtless possessed of a fire-devil. And he could be best exercised by going to the States Prison, in some department which is fire proof.

SEVERE THUNDER STORM.—A correspondent at Stewartstown, N. H., writes to the Newburyport Herald: "On the 13th inst. the northern part of this county was visited by an unusual thunder storm. During the whole of the day thunder could be heard in some direction, and in the afternoon the storm was terrific in Clarkville, Pittsburg, and that region. A great amount of rain fell, accompanied with wind and almost incessant flashes of lightning. A school teacher in Clarkville said it seemed as if the world was on fire. I have heard of five cows being killed by lightning in Colebrook, Stewartson and Columbia; one man lost three, all he had. The barn of Mr. Otis Parker, in Pittsburg, was struck, and consumed—with about twenty tons of hay, lumber, &c. The house of Mr. Cyrus Coolidge, in Clarkville, was struck, instantly killing John Roby 2d, aged 22, an industrious and respectable young man, and slightly injuring others who recovered."

RESIGNATION OF SIMEON DRAPER.—The New York Express attributes the resignation of Hon. Simeon Draper, chairman of the Board of Police Commissioners, to dissensions among the Commissioners.

LACONIA AND MOUNT BELKNAP.

LACONIA, N. H., July 20, 1857.

Messrs. Editors:—Laconia, comprising what was once known as Meredith Bridge, forms with Gilford, on the opposite side of the Winnipisaukee River, one of the prettiest and most flourishing villages of the Granite State. The inhabitants are for the most part engaged in manufactures, or are the possessors of well-cultivated farms. Here is the well-known manufactory of Platform Freight-Cars; hence are sent out also immense numbers of Shoe Pegs, made by machinery which was invented and patented by the proprietor of this factory.—Besides these, several other establishments furnish employment to a large number of hands.

I write you this letter particularly to give a description (an imperfect one it is most likely to prove) of my ascent of Mt. Belknap, while in this vicinity. Mount B. is the highest of the Belknap Mountains, which are situated partly in Gilford and partly in Gilmanton. The westerly peak is Gunstock—so called because one of a party, who once encamped on it, accidentally broke the stock of his gun there; while to the south-east stretches a long, steep eminence, very appropriately named Saddle Back,—Mount Major, or Belknap being between the two. With a party of ladies and gentlemen, about fifty in number, I set out early on Saturday morning last, in a not *very*-easy-riding wagon, for the scene of action.

After riding nine miles over a hilly, rocky, jolt-producing road, we committed our teams to the careful keeping of some good folks living near the base of the mountain. The next part of the programme was for us to proceed the remaining distance as fast as that well-known animal, shanks' mare, could carry us. I once heard of a promising student of Latin, who translated a sentence, where Hannibal is represented to have crossed the Alps '*diligentia*' (by dint of great effort),—'in a diligence.' That he so traversed them may, perhaps, be a supposable case, but we should like to see that persevering general or any one else, accomplish any such feats as that on the steep sides of old Belknap. However, using all our diligence, we arrived about noon, on the much-wished for summit, 2447 feet above the level of the ocean. The day was not a perfectly clear one; during the morning, it was quite hazy, the summit itself being enveloped in clouds which left their decay coolness, to refresh us when we would otherwise have been unable to withstand the powerful effects of old Phœbus, who came forth early in the forenoon in all his blazing splendor.

Whatever pains and aches might have been sustained, climbing the tiresome steep, the view that broke upon us from its top amply repaid for all our exertions. It seems as though one could easily recall the points of the compass without a guide anywhere, if he had made himself familiar with them at home; but I must confess that I got most awfully twisted about or else our compass did, for to hit a single point right was next to impossible. But having very difficultly swallowed the fact that north was just about opposite where I had imagined, (indeed I was by no means sectional at first, knowing 'no North, no South, no East, no West,') I began to look at the panorama spread before me. From the southwest, stretching far around to the southeast, lay the Lake Winnepisoogee, so beautifully shining with its silvery waters, and thickly dotted with its thousand islands of living green. The steamers ploughing her waters could be plainly discerned by means of a glass, but to the naked eye they appeared like little cockle shells scarce an inch in length. An island at the base of the mountain, which I had estimated at about half a mile in length, was said to be fully three miles long. Laconia, Guilford, Wolfboro' and Centre Harbor villages were easily recognized. Unfortunately the day was not sufficiently clear to admit of our seeing the White Mountains, Concord, Portsmouth, and the ocean, all of which have been observed from here.

A signal used in the coast survey was once erected on this hill, but is not now standing. The ruins of an old building near the top showed that a house had formerly been put up here. It was used, I believe, as an observatory. A vein of iron ore was once opened at Gunstock, but was abandoned, since the vein was found to be too narrow to furnish enough ore for the purpose needed.

About three o'clock our party commenced the descent, which, though less laborious than the ascent, required much more care. We arrived safely at our 'hotel,' and soon were jogging along towards home. In the expressive language which invariably forms a finis to all those imaginary and highly romantic expeditions of school-boy writers, I might add: 'I was very much pleased with my excursion.'

The crops hereabouts are in a pretty good condition, and the farmers are confidently expecting a full harvest. Haying is about at its meridian. A heavy thunder shower on Monday, of last week, was just what was needed (except by those who had their hay down) and must have been the source of a deal of benefit. The lightning struck in various places in this vicinity, but did not, to my knowledge, do any material injury.

Hailing from Laconia, I ought to be laconic, so I will hem in this hastily-written article with a full. CYMON.

DEATH BY LIGHTNING.

We have already published a dispatch from Franconia, barely mentioning the death of two persons by lightning, at the Flume House, last Saturday. From the Traveller it appears that the lightning struck a flag-staff, erected upon the top of the house on the Fourth of July last.—It shattered the pole, entered the house, and reaching the bell-wires followed them in different directions over the house, tearing away the plastering, making holes in the floor, with much other damage.

At the time of the stroke, Mr. W. H. Smith, of Cambridge, was sitting upon the portico, with his chair on the hind legs, and the back of his head against the outside blinds of a window. He was, apparently, watching with admiration the storm, his eyes being towards the clouds. The powerful fluid descended by the bell-wires to the window, through which it passed into the back part of the head of Mr. Smith. After the shock had passed he was still sitting in his chair, and apparently watching the clouds with his eyes half closed; but those who looked upon him knew that death was there. For two or three hours attempts were made, by applying cold water and by other means, to restore life, but in vain,—the vital spark had fled. The only mark that could be found was a hole in the back of the hat and of the head, about as large as a small shot. There was, also, discoloration of the abdomen, where the fluid probably departed.

At the time of the shock, the Rev. Theodore B. Romeyn, of New Jersey, was conversing with Mr. Smith. He was throwned to the floor and stunned, but shortly recovered and was able to leave the hotel soon after.

Mr. Blandon, of Bethlehem, N. H., the clerk of the house, was standing at the desk, perhaps twelve feet distant from Mr. Smith. One shoulder was against the wall, and received the fatal fluid as it descended the bell-wire. It passed through the body and out at the foot, shattering the foot and setting the stocking on fire, so that it was burning when he was reached. He was killed instantly.

Mr. Fredrick A. Tyler, the keeper of the house, was standing near the counter, in such a position that the fluid passed very near him as it left the room. He was thrown down and rendered insensible to such an extent, that it was only after an hour's labor with cold water and other appliances, that he was recovered. One eye remained blind, and it was feared that he might not again recover its sight. Otherwise he was uninjured.

Three other persons, two ladies and a gentleman, who were at a corner of the building, some fifty feet distant from the place occupied by Mr. Smith, were thrown down by the shock, but soon recovered. Others felt the shock severely, but received no personal injury. A lad of ten years, a waiter in the house, was standing near Mr. Blandon, and was thrown down. He jumped up again, however, and ran out of the house in a bewildered state. Mrs. W. H. Smith, just before the accident, was sitting near the bell wires, but had lain down. Various articles in her room, were thrown down and broken by the shock. She is an invalid, and was taken to the mountains by her husband, for the benefit of her health. They reached the Flume about three quarters of an hour before the accident occurred, and Mrs. Smith left on her return home, on Sunday, her thirtieth birth-day, with her dead husband, who was twenty-nine years and nine months of age.

FROM KANSAS.—*St. Louis, July* 21.—A gentleman from Kansas states that at a public meeting on Thursday, 16th, it was determined to resist the U. S. troops, if an attempt was made to collect the taxes under the territorial law. A gentleman had met Gov. Walker ten miles from Lawrence, with seven companies of infantry, and he would arrange matters peaceably if possible, but would use force if necessary. The free State men were hurrying to Lawrence and Lane had been sent for.

TOPEKA, July 16.—The Convention just adjourned was one of the largest ever held. A strong position has been taken in favor of the Topeka Constitution.

It was determined that Congress must admit Kansas under it. The old State officers were re-nominated. The census returns show nearly 30,000 voters.

It was determined to submit the Topeka Constitution to the people in August.

WASHINGTON, July 19.—[Correspondence of the Times.]—The news is confirmed that the President has received a despatch from Gov. Walker, of Kansas, that he had issued a proclamation, commanding peace, and had sent a large military force to Lawrence, to quell disturbances. In accordance with the express wishes of Gov. Walker, Gen. Harney and a sufficient force of the dragoons and light artillery will be detained at Fort Leavenworth, till after the October elections.

Col. Albert S. Johnson, of the Second Cavalry now in Texas, will be ordered to proceed in command of the troops to Utah.

Secretary Cass has not yet taken up the Venezuela question. The report of Mr. Eames is before him.

The U. S. government require the island of Tobago, in the bay of Panama, as indemnity for the past and security for the future. The British government then propose to acquire Isla del Key.

[New York Tribune Correspondence.]—The President expects the early return of Mr. Belmont. Knowing ones believe there is an intrigue maturing for the purchase of Cuba, through the agency of Mr. Slidell as Minister to Paris, and Mr. Belmont at Madrid. Governor Walker has not proclaimed the Free State men of Kansas insurgents, but has summoned the *military* to *collect taxes* under the *territorial* laws.

WALPOLE, N. H., July 21.—Hollis Gates and his brother, from Gilsum, employed by Geo. Kingsbury of this place, were struck by lightning last night, Hollis being instantly killed, and his brother seriously injured. A young lady was also struck, but not seriously injured.

COL. FREMONT FOR CALIFORNIA.—*New York, July* 20.—The steamer Central America sailed this afternoon, for Aspinwall, with a full complement of passengers for California, including Col. John C. Fremont.

SPECIAL NOTICES.

John L. Avery, Esq., of Wolfborough, sells more of Lawrence's Carminative than any other medicine; and says he has almost daily calls for it, and that it gives the best satisfaction.

HAIR RESTORATIVE.—Every one will, we think, agree with us in the opinion that the human hair is the greatest natural ornament that is possessed either by a gentleman or a lady.—Just meet an apparently good looking man, for instance, in the street; you admire his features, whiskers, and general bearing; but lo! he lifts his hat in recognition of your bow, and the charm has vanished, for Ichabod is written on his bald head, and the glory has departed with the flowing locks that once flourished luxuriantly there. In the case of a lady, the matter is, if possible, worse—such cases reminding one of the circumstances on which the following epigram is founded:

'O! give me, fair Emma, a lock of your hair,'
A bashful young lover took courage and sighed:
''Twas a sin to refuse such a modest request,
So take the whole wig,' the dear creature replied.

Now, to prevent such a catastrophe, is within the power of every lady and gentleman; for, by using Prof. O. S. Wood's Hair Restorative, hair is not only prevented from falling off or turning gray, but the article will restore hair to bald places; and even if it has changed color and become gray, it will bring it back to its pristine beauty and luxuriancy. Those who are acquainted with the anatomy, physiology and pathology of the hair, must be well aware that certain substances have a specific action upon it; and it is by judicious combination of these that Professor Wood has succeeded in compounding a mixture possessed of remarkable virtues.—[Waverly Magazine and Literary Gaz.

IF ALL OUR READERS

Who are troubled with liver complaint, Jaundice, or Dyspepsia, will read the advertisement in another column of Dr. Sanford's Invigorator, and then do as we have done—get a bottle, we should not see so many sickly, half-dead, despairing people as now meet our gaze at almost every corner, for certainly there never was a remedy invented of which so much is said, and that performs so nearly what its proprietors say it will do. It came to us so highly recommended that we could not fail to try it, and a trial has convinced us, without a doubt, that it is the best family medicine in use. We take it for Headache, Sour Stomach, Billiousness, and any of the little bodily ills that are common, and it does produce a pleasant state of feeling to the sick, and what is better, after using it a few times, these little ills grow less and less, and there is a prospect of being entirely free from them by a continuance in the use of the Invigorator. LOCAL.

LIGHTNING.

Between 3 and 4 o'clock, on Tuesday morning, a very heavy thunder shower passed over this city, drenching the streets, and giving everything a thorough wetting down. The rain continued till breakfast time, and more or less throughout the day.

About 20 minutes before 4, the house on the corner of Pearl and Hanover streets, occupied by Mr. Brown as a boarding house, was struck by lightning, which descended by the chimney, tore off the plastering and did other slight damage to the house, and set fire to an umbrella. The house was pervaded by the subtle fluid, and all the inmates, 15 in number, were more or less shocked; but, providentially, none were killed.

In Rye, about 4 o'clock on the same morning, the house of J. T. Walker, Esq., was struck by lightning. The fluid apparently entered the roof over a spar about three feet from the ridgepole, along which a rod passed, and about eight feet from the chimney to which the rod is affixed. The spar was split to the head and the splinters thrown to the end of the attic. A stove funnel passes along the attic about 3 feet from the roof, to the chimney, held by a wire attached to a spar near where the fluid entered the roof. Mr. Walker arose and looked out to see if the lightning had struck in the vicinity, believing his own house to be perfectly safe. No other trace of the fluid has been discovered in that house.

Otis' patent lightning conductors were put upon the two chimneys last Thursday, July 16, by Mr. Day, and he said they were the most perfect rods in use.—He or some other person acquainted with the business of putting up those rods, will please come and examine them and see if there is any defect in the rods, or in the manner of putting them up.

In the same shower, and at about the same time, Capt. J. S. Rand, living 30 rods from Mr. Walker's, had a cow killed in his barn yard; the lightning passing down an elm standing by the yard fence, leaving the tree about seven feet from the ground, and striking the cow between the horns, running along the neck and to her side, where it spread, singeing the hair in its course.

THE PROFESSOR "CUTS A FIGURE,"

AND WE CUT THE PROFESSOR.

An individual who flatters himself with the title of "Professor," is exhibiting at No. 3 Congress Block, twelve or thirteen miserable wax figures which represent, or are supposed to represent, Dr. Harvey Burdell, Mrs. Cunningham, Eckel, and several others whose names, of late, have been rendered infamously popular in connection with a brutal and mysterious murder. Attached to this intellectual treat is a diminutive, and diseased hand-organ, which, while vacillating between weak lungs and croup, makes night hideous, and yet brings forth something sufficiently like music to soothe the savage breasts of six or seven melancholy urchins who, like the poet's Indian at the cathedral door, stand outside, staring at the absurd play-cards with which the "Professor" has decorated the exterior of his museum. We have too much respect for our reader to take him across the threshold; but for further particulars we refer him to the small bills—a very ungrammatical programme printed on atrociously yellow paper.

We could laugh at this pitiful exhibition, if its influences were not more pernicious than they at first seem: we might smile at the silly people who would visit the place, if we could think of them in any other light than objects of charity; but their very morbidity supplicates us like out-stretched hands. "Professor Fabin," however, deserves no kind of mercy. We place him below the level of the men whom he slanders in effigy. *They* only killed the body: *he* kills the mind. Theirs was physical, his is exquisite mental murder. If such things must be, we beg leave to venture a mild suggestion. We like to see everything complete of its kind, even if the kind be bad. A thoroughly mean man somehow touches our respect: and though we cannot exactly analyze it, we understand the feeling that prompted Johnson to love a good hater. Therefore we suggest that the "Professor" include a beeswax figure of himself among his inanimate villains. *That* would make his collection disgustingly perfect.

Among those waxen parodies is one figure meant to resemble young Cater, who is now lying in jail under sentence of death. God knows how far ignorance and misfortune went to place Cater where he is; but however corrupt he may be, his sister, who resides in this city, should be spared the pain and disgrace which this vile exhibition must inflict upon her. If the good people of our country who prate so much about "humanity" and are constantly sending articles of doubtful utility to little Hindoo children—if those pleasant folk would occasionally look to the salvation of such *hombrezuelos* as this itinerant "Professor," one might think they had a claim to the name of philanthropists, and believe somewhat in their "cry for the human." But, alas! humanity, like charity and several other things, doesn't (though it should) always begin at home.

Why will not our efficient city marshal visit this agreeable show? If he have a taste for "works of art," he would be delighted, "carried away," as it were,—he or the "Professor." Q.

We publish the above well-written but (as the author himself remarked to us) rather impudent communication, for the reason that we like a free expression of opinion, whether it agree with our own or not. As we stated yesterday, we don't adopt the views of "Q.;" for we can conceive of a spectator's receiving a favorable warning lesson from this exhibition, rather than being injured or contaminated. Vice, "to be hated, needs but to be seen;" and evil-doers bear on their face the impress of every bad act, as certainly as does the plant, or tree, or flower testify to the influence of the sun's rays.—the difficulty is, to read these signs.

As to "the Professor," he is only the *maker* of these figures, we presume—the proprietors of this show being two gentlemen, with whose appearance we have not been at all displeased. F.

OLD SOUTH MEETING HOUSE.

The City of Portsmouth can have the whole of the lower part of the South Meeting House, with the exception of an entry-way, and by adding on an entry-way sufficient to pass up and down stairs as they now do, suitable for a House of worship, to hold and to be theirs forever.

For the following considerations. To keep all of the said House above the eaves in good repair, either with or without a steeple, not interfering with the clock, which ought to be kept in good repair for the benefit of the South part of the town, and pay, in cash and note, a sum of two thousand dollars, not exceeding half in Cash, interest on the note semi-annually.

On the part of the Freewill Baptists, they will place themselves under a forfeiture of the House; To keep the sides of the House, together with the ends and all parts of it, except the part previously set apart for the City to keep, in good repair, and are to be kept well painted, under a set of trustees chosen equally from each party, to see that neither party shall be allowed to neglect the same, without a forfeiture of their part of the property, after being duly notified of the same. Manny's Celebrated Mower

—AND—

MOWER AND REAPER.

IMPROVED.

Built expressly for the New England States.

THE MANNY MOWER has been extensively used for the past two years in New England, and more than six years at the Western, its success is beyond that of any other Mower or Reaper ever constructed. Over 150 1st *Premiums* have been awarded it, including the *Grand* or *Gold Silver Medal* at the WORLD'S FAIR, PARIS, 1856.

With the two past years' *experience*, we have been enabled to make a number of very *important improvements*. We find New England farmers require a different Machine from other sections;—the fields generally being small. It must be *light*, at the same time possess *great strength*; *portable*, with facilities to *raise* the *cutters* to *pass obstructions*, and to remove from field to field. A perfect cutting apparatus, to cut the fine grasses without clogging; and so constructed as to *steal* in the grass *without backing*, easily adjusted to cut high or low, and have a Reel to cut equally well with or against the wind, and to be worked with ease by a light team, and so easily managed and simple that any one of common ability may operate it successfully, and to be built in the most thorough manner.

With this knowledge of the farmers' requirements, and with the determination to build a *better* Machine than has ever before been constructed in this country, we offer the **Manny Mower** of 1857 with confidence, as combining the qualities enumerated above, and as one particularly adapted to meet the wants of New England farmers.

Price of Mower, $110; with Reaper attachment, $15 Extra. Delivered on board the cars at Worcester, Mass. JOHN P. ADRIANCE & Co., *Manufacturers.*

One of the above Machines can be seen at the store of the Subscriber.

of the latest and most improved kinds; Seeds, Plants, Fruit, Forest and Shade Trees, and all kinds of Books treating on subjects of importance to the Farmer, Horticulturist, and Florist.

STATE ROOMS ENGAGED

in advance, on Steamers and Packets to leave for Europe, California, the West Indies, or any part of the world. This will obviate the necessity to residents of the city, and places where no steamer agencies exist, of coming to New York two or three weeks in advance—as they are now frequently required to do—either to obtain passage, or to secure eligible accommodations in this department, we will be ready to secure

ROOMS AT HOTELS

at favorable rates, so as to protect the stranger from imposition as well as inconvenience; and, in short, to perform any description or commission that would require the presence of the party himself.

Gentlemen who desire to form Libraries, or who may wish to procure the

CHOICE LITERATURE OF THE DAY,

can always rely upon our judgment and selection. Also, Blank Books and Stationery, and Book and News Paper, for Printers.

FOR THE LADIES,

we will procure the latest Fashion Plates, styles of Bonnets, samples of the newest varieties of goods, Cosmetics, and Fancy Articles, and we shall always be pleased to furnish everything connected with their wants.

In short, for any service which may be required, the public may rely upon us, with the most perfect confidence, fidelity, and dispatch. Apply to

A PERFECT SUBSTITUTE

FOR THE

LANCET, LEECHES AND BLISTERS.

INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—but but ONE AIM—accomplishes ONE THING, to wit: subdues INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. *Every form of inflammation* (but no other disease) is subdued, by it as easily as fire is extinguished by water. Is it asked, *how it does this?*—simply by restoring the lost balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires merely what adheres to the point of a pin dipped into a solution of it, to affect the entire system.

☞ *Of its intrinsic value, the enlightened community, and not the discoverer, must be the judge.*

Manny's Celebrated Mower

—AND—

MOWER AND REAPER.

IMPROVED.

Built expressly for the New England States.

THE MANNY MOWER has been extensively used for the past two years in New England, and more than six years at the West.—Its success is beyond that of any other Mower or Reaper ever constructed. Over 250 1st *Premiums* have been awarded. Received the *Grand 1st Class Silver Medal* at the WORLD'S FAIR, PARIS, 1856.

With the two past years' *experience*, we have been enabled to make a number of very *important improvements*. We find New England farmers require a different Machine from other sections;—the land is generally being small, it must be light, at the same time possess *great strength*; *portable*, with facilities to *raise* the *cutters* to *pass obstructions*, and to remove from field to field. A perfect cutting apparatus, to cut the fine grasses without clogging, and so constructed as to *stand* in the grass *without backing*, easily adjusted to cut high or low, and have a Reel to cut equally well with or against the wind, and to be worked with ease by a light team, and so easily managed and simple that any one of common ability may operate it successfully, and to be built in the most thorough manner.

With this knowledge of the farmers' requirements, and with the determination to build a *better* Machine than has ever before been constructed in this country, we offer the **Manny Mower of 1857** with confidence, as combining the qualities enumerated above, and as one particularly adapted to meet the wants of New England farmers.

Price of Mower, $110; with Reaper attachment, $15 Extra. Delivered on board the cars at Worcester, Mass. JOHN P. ADRIANCE & Co., *Manufacturers.*

One of the above Machines can be seen at the store of the Subscriber.

AYER'S Cathartic Pills,

(SUGAR COATED,)

ARE MADE TO

CLEANSE THE BLOOD AND CURE THE SICK
wealthy, Fathers, Mothers, Physicians Philanthropists, read their Effects, and judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach

PITTSBURG, PA., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to act from a foul stomach, which they cleanse at once. If they will do to others as they do me, the fact is worth knowing.

Yours with great respect, RO. W. PREBLE,
Clerk of Steamer Clarion.

Bilious Disorders and Liver Complaints

DEPARTMENT OF THE INTERIOR,
WASHINGTON, D. C., 7 Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of the organ. Indeed, I have seldom found a case of *bilious disease* so obstinate that it did not readily yield to them.

Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Relax, and Worms.

POST OFFICE, HARTLAND, LIV. CO., MICH., Nov. 16, 1855

DR. AYER: Your Pills are the perfection of medicine they have done my wife more good than I can tell you She had been sick and unable to work for six months. Nothing seemed to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her, by expelling large quantities of worms (dead) from her body. They afterwards cured her sister and two children of bloody dysentery; one of our neighbors had it bad, and my wife cured him with two doses of your Pills, while others around had to pay from five to twenty dollars doctor bills, and lost much time, without being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be prized here.

OZO. J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in the ministry. To regulate the system and purify the blood they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WARREN, Trumbull Co., N. Y., Dec. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN W. GRAHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her head and neck that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her. ASA MONGRIDGE

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawkes, of the Methodist Episc. Church.

RICHMOND HILL, SAVANNAH, GA., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Medicine failing I had the best of physicians, the disease grew worse and worse, until, by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. Experiencing in the use of them I am now entirely well.

SENATE CHAMBER, BATON ROUGE, LA., 5 Dec., 1855.

DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease that had afflicted me for years. VINCENT MODELL.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a Gentle Pill, they are agreeable and efficacious.

Fits, Suppression, Paralysis, Inflammation, and even **Deafness,** and **Partial Blindness,** have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skillful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, IN INCIPIENT CONSUMPTION,

and for relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it already known. Nay, few are the families in any civilized country on this continent without some personal experience of its effects; and fewer yet the communities any where without some living trophy of its victory over the subtile and dangerous diseases of the throat and lungs. While it is the most powerful antidote, we have known it to stay the formidable and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the sudden attack of croup that seizes upon them unprepared. We have abundant grounds to believe the CHERRY PECTORAL saves more lives by this consumption it prevents than by those it cures. It may keep it by you, and cure your colds while they are curable, not neglect them until no human skill can master the inexorable malady that, fastened on the affected lungs, sets your life away. All know the dreadful fatality of long neglected coughs, and they know too the virtues of this remedy, we need not dwell more than to assure them it is still the same as the best it can be. We spare no cost, no care, no research to put it in the most perfect possible, and thus afford those who rely on it the best agent which our skill can furnish for their cure.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FRANCIS & CO are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the *same* is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combination. Prizes vary in amount from $20 to $100 000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ Prizes drawn in the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2 50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $50,000; every prize being drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published in every drawing, in the following papers:—*New Orleans Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Day Book*. Write your orders for tickets direct to S. SWAN & Co., Atlanta, Georgia

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

All communications strictly confidential. m18 1y

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,

(Late Agent of U. S. Patent Office, Washington, under the Act of 1836.)

No. 76 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by transmitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it more patents are secured, and more advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The facilities for obtaining given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS PROOF OF SKILL AND ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges of professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, enable him, as he can safely question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure patents, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any, persons acting in that capacity, who had so much business before the Patent office, and those who knew his conduct with it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in recommending inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in the form to secure them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From Hon. Governor Commissioner.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most competent and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

ON THE DEATH OF MR. ALBERT B. LOWD.
affectionately inscribed to one who loved him,
by F. L. H.

Joys will vanish, sorrows darken,
When our hopes the brightest seem,
As in summer storm clouds gather,
And the vivid lightnings gleam!
Death's dread blast is ever sweeping
O'er our human flowers, while weeping,
Plead we unto God—
Plead His strength for our heart-weakness,
Plead that we may bow in meekness,
'Neath the chastening rod.

Dear Eliza thou art draining
Deep the bitter cup of grief;
Hopes that once thy fond heart cherished,
Perished like the autumn leaf!
Earnest love to thee was given,
But by death that tie was riven,
And the flowers of Spring
Bloom above thy loved one, sleeping,
'Neath the grassy sod, while sweeping,
Breezes perfume bring.

Thou hast known the bliss of loving.
Thou hast felt "love's mystic spell"
And thy pure heart cherished gladly
Love too deep for pen to tell!
Hopes were in thy bosom glowing,
That when June's sweet flowers were blowing,
By that loved one's side,
Thou should'st stand with trustful seeming,
While their friends, their warm smile beaming,
Greet thee as a "bride."

Oh! the change that time hath brought thee,
Now thy heart is sad and lone,
Vainly now thou'lt stand and listen,
For "dear Albert's" step and tone;
And when evening's shadow falleth
O'er the earth, thy spirit calleth,
Calleth evermore
To thy loved! In darkness groping,
For a happy meeting hoping,
On the "fadeless shore."

God hath called him, when the brightest
Seemed his path with hopes of youth—
And his noble spirit cherished,
Dreams of virtue, dreams of truth!
Friends who loved him wept around him
E'en as thy their lows bound him
To this world of care—
But in vain were tears and sorrow,
And their hearts true faith must borrow
This great grief to bear.

And dear friend, may angel teachings
Whisper to your heart of peace—
May the faith and hope you cherish,
Bring to you a sweet release
From the grief thy heart groaning;
May each burden prove a blessing
By a Father given,
Who in wisdom watcheth o'er thee,
E'en when dark thy way before thee,
Leading thee to Heaven.

Rumney, N. H. June, 1857.

CHARGE OF OUTRAGE UPON A SHIP'S PASSENGER.—The case of George Conway, captain of the ship Switzerland, charged with committing a rape upon a steerage passenger named Jane Haggard, on the voyage from Liverpool to New York, where the vessel arrived on the 22d of May, is on trial in New York. Capt. Conway is a red-faced sailor, about forty years of age, and unmarried. Miss Haggard appears to be a modest and exceedingly lady-like person, very good looking, of refined address, about 21 years old, and every way an object of Sympathy. On her testimony it appears that on the second day out, being sea-sick, the captain took her into the cabin, administered medicine to her in a spoon, then forced her into his state-room, and accomplished his object, at the same time promising to marry her. There were but two cabin passengers, both of whom were on deck, but one, a Mr. Peachy, came into the cabin before the state-room door was again unlocked. The girl's testimony at this point seems to refer to another and even more horrible crime than that alluded to. She says:

"The captain kept me in his room about an hour before he opened the door; I remonstrated, and told him I should expose him; he replied, I need not be alarmed, he would marry me as soon as he arrived; I made no reply; he then opened his door; Mr. Peachy was sitting alone close by; I said, 'Mr. Peachy, the Captain has locked me into his room and treated me very improperly, and has also promised to marry me on the day of his arrival.' Mr. Peachy said 'I am very sorry to find the Captain has treated you so improperly. I also heard him promise you marriage.' I called on Mr. Peachy to be witness of this promise. He said he would see me righted; I made Mr. Peachy's acquaintance on board ship; I saw the Captain prepare some medicine for Peachy; he passed near where I was, and I heard him say—'Peachy is a fool, and I'll give him something that will do him much good.' Mr. Peachy died at 4 1-2 o'clock in the morning; the cabin boy announced it to the Captain, who said, 'I expected it; I thought as much.' The Doctor wished to open Peachy, to try to ascertain the cause of his death, but the Captain refused to have it done: on the night on which I was taken into the Captain's cabin, I sat on the trunk all night; I did not sleep; I did not go out of the room after I was taken in that night; on the next night I slep in the Captain's bed; I was perfectly exausted, and obliged to do so. I relied on his promise of marriage; once when I tried to get away into the steerage he prevented it; on arriving at New York, I was furnished with money which I did not want, and had to go to my friends in Orleans county."

IMPORTANT DISCOVERY.
DR. CHEESEMAN'S PILLS FOR FEMALES.
Prepared by an old Physician of 40 years experience.
THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restore nature to its proper channel. In every instance have the Pills been successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.
These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to DR. C. L. CHEESEMAN, Box No. 4,581, Post Office, New York City, can have them sent to their respective addresses by return of mail.

ARE well known in the United States, and are conspicuous for their regularity and finish, their unvarying uniformity of size, and for the excellent quality of iron from which they are made, to which may be attributed their rare strength. THURSDAY, JULY 23, 1857.

THE FIVE POINTS.—The following paragraph from the New York Express gives an idea of the fearful accretion of vice and squalor in the field of labor occupied by the Five Points Mission:

In attending to his duties recently, Mr. Pease found a dying woman in a foul apartment in Cow Bay, occupied also by eight other women and one man, all drunken and debased and infamous in the last extreme. In the upper end of the same pestilent court or close, were found in fifteen rooms, twenty-three families, making an aggregate of one hundred and seventy-nine persons, or twelve to a room! In five of these fifteen rooms intoxicating liquors were kept for sale! Indescribable filth, privation, disease and indecency reigned through them all. Yet seventeen children from these rooms attend the schools of the House of Industry. In eleven other rooms were eighteen families, and in nearly *half* of these rooms *ardent spirits were sold*. In one of the garrets lived two negroes with eleven abandoned white women. In twelve other rooms were found twenty-four families, consisting of 104 persons. Here were two blind women, two just past the peril of child-birth, and seventy-one were children, only eight of whom attended any school.

Now let us look away from this den of filth and misery, with its dozen of domestic groggeries, which have not been touched by law or gospel, but which exist in all their native loveliness,—and let us look at Lowell, Massachusetts, where the City Marshal reports 142 groggeries closed by the law, and 100 of them as remaining closed. And we will append to it, a little item, which we find in a paper of this city.

The Lowell Courier expresses the opinion that no great benefit to the cause of temperance is or will be derived from the present movement of the Mayor of that city. The tendency of these prosecutions is rather to change the traffic and drive it into the hands of irresponsible persons, than to exterminate it.

We suppose we are to infer from this, that the business of keeping groggeries will remain in the hands of *responsible persons*, if the fanatics and sheriffs will let it alone.

And if we will go back a moment to New York City, we shall see how reponsible and how respectable the groggery keepers are, in that Ward which shuts out the fanatics and defies the laws.—What sort of people could be found less *responsible*, should these be broken up?

AN ELECTION FRAUD.—At the last election of District Attorney in Eastern Pennsylvania, the two candidates were Cassidy, dem. and Mann, opposition. Cassidy was declared elected, as Mann said, upon fraudulent returns, and he contested the case. The legislature, to avoid the issue, passed an act creating an additional Attorneyship, to which Mann was appointed, and he then withdrew his protest to the election of Cassidy; but the Court went on to consider the case, saying that the case was of more moment than a mere contest between two individuals for office—that it affected the purity of popular elections, the sanctity of the ballot-box and the right of a majority of the legal voters to have their will expressed and enforced. After a thorough examination, they decided that the election of Louis C. Cassidy as District Attorney is false, fraudulent and untrue, and that William B. Mann received the highest number of votes for said office, and should have been so returned.

We copy the above from the Newburyport Herald, and add, that this very district, where the fraud was proved, was the district which gave the majority of votes in the Pennsylvania *State* Election to the democratic party, and by its *moral* effect, carried Mr. Buchanan to the White House. This success, thus achieved, was the work of Mr. Forney. Yet the Legislature then chosen in part, did not send Forney to the U. S. Senate,—and now the Court stamps "*fraud*" on the transaction, in which Mr. Forney's management was so able and so successful.

CREW IN JAIL.—We have already mentioned that Capt. Allen, of the whaling bark Huntress of New Bedford, had trouble with his men, who were angry with him for cruelty to a seaman. At St. Helena, the U. S. Consul advised the Captain to put to sea again, and compel the men to do duty. It was found impracticable, however, the officers declining to serve under such circumstances, and the vessel was ordered home.

The men were brought to Boston, and taken before U. S. Commissioner Loring, who postponed the examination, and in default of bonds for their appearance, they were committed to jail. One of them is said to be a son of a former member of Congress in Ohio.

☞ The Chicago Democrat states that eight hundred persons and firms in that city have paid the liquor license of $50 each, making a revenue of $40,000.

A SWEET SET.—Fifty-two of the political parsons of New England have been convicted of seduction or adultery within the past two years. The whole gang will soon be caught at this rate—one every fortnight.

We find the above paragraph in the Portsmouth, Virginia, Transcript of July 16, where it appears among the paragraphs of selected news, copied from other papers, and was doubtless placed there by the editor as an item of reliable news. We have no idea that he would intentionally deceive his readers,—and yet he publishes this unmitigated falsehood, which somebody must have made with intent to deceive.

For the benefit of that editor, and through him of the cause of truth, we will say that our facilities for tracing the course, and knowing the the character of the parsons (ministers of *all denominations*) of New England, whether political or not, are perhaps as good as those of any person in the six states; that we have annually access to the published documents of each church, and the weekly papers of most of them; that we keep a daily watch over the records of crime, arrest and conviction;—and that as the result of this watch for the last two years, instead of *fifty-two* such *convictions*, we do not recollect half a dozen. In New Hampshire, within this time, not one. Somebody has lied dreadfully, that's all. And it is a malicious partizan lie.

Will the Transcript please to take notice.

SOUTH SIDE VIEW OF KANSAS.—The following extract (says the Portsmouth, Va., Transcript) is from a letter written by a disinterested and intelligent gentleman to the editor of the Columbus (Ga.) Enquirer. It is dated June 12th, and there is not the least doubt, gives a truthful picture, for it is in direct confirmation of what we have before learned from reliable sources:

The climate is cold, windy and variable, unsuited for a Southern population, white or black. The emigration from the North is immense, from the Southern and Middle States comparatively none—they have 5 to 1, some say; I think, more than 10 to 1. Gov. Walker's presence has had no influence on them for good, but, on the contrary, they are more determined to resist his measures, and all law and order—they are insulting to him and his officers—holding meetings to pass sentence on his messages—refuse to pay their taxes—in fine, they are traitors to the government of the United States.

In reference to the above, the Columbia (S. C.) Times remarks:

What will be the result of it, time only can develope—much difficulty is apprehended. It will never be a slave State, only at the point of the bayonet, and not then. Missouri will then have to lower her broad crest, and her adjoining sisters will have to bow their heads to the stroke, and the spirit of the South crouch lower and lower. The people of the South have been humbugged—the whole country is a humbug—it is a mighty gambling saloon, a speculating bazaar—the almighty dollar reigns supreme.

ECCLESIASTICAL.—In accordance with a recommendation of the N. H. State Convention of Universalists, recently held in Portsmouth, a convention of Universalist clergymen was held in Concord, (says the Patriot,) on the 14th and 15th instant, to devise a more systematic and effective concert of action among their members. This call was responded to by a full attendance; great harmony prevailed in their councils, and all were of the mind that the denomination needed—

1st, More missionary labor within the State;

2d, A re-organization of their Sabbath School Association; and

3d. More attention to the organization of churches within this State.

These subjects were all carefully and candidly discussed, and the result was the appointment of Rev. T. Barron, formerly of Concord, as a State Missionary, with instructions to labor throughout the State for the promotion of the objects named. This selection will be regarded, by members of the denomination, as a very fortunate one. Mr. Barron held a high rank among their clergy, when he resided in this State, and his experience in the West has undoubtedly served to fit him for the labors to which he has been assigned.

DEATH OF A VENERABLE EDITOR.—Richard Boylston, editor of the Farmer's Cabinet, Amherst, N. H., died on Sunday evening, at Amherst, of paralysis, after a lingering illness of three months. Mr. Boylston had been a member of the editorial fraternity for about half a century, and was probably the oldest editor in New England, if not in the United States. He was a graduate of the Columbian Centinel office, Boston, but a native of Springfield. His age was 75.

There is but one passage in the Bible where girls are commanded to kiss the men, and that is the golden rule, "whatsoever ye would that men should do unto you, do you even so unto them."

CATER, THE CONVICT.—The Boston Traveller says, Cater, who is now serving out in the Charles street Jail his year of probation, previous to the execution upon him of the sentence of death, has not been remarkably well behaved since his conviction, though nothing of a serious character has, until within a short time, occurred. From the sheriff, Mr. Clark, and the jailor, Mr. Bartlett, he undoubtedly will receive every accommodation during his brief space of life, compatible with his safe keeping and the safety of the inmates of the institution in which he is incarcerated.

Last week, Cater began to exhibit some signs of insubordination. He complained of his food, as he formerly did in the House of Correction and the State Prison, and told the steward if he did not bring him better he would break his head. The steward reported the threat to the jailor and sheriff, who, after consultation, deemed it best to take precautionary measures. Accordingly, as the time arrived for the shaving of Cater, his hands were handcuffed, and as his threatning, defiant manner still continued, he was put upon a short allowance of food. At last, on Saturday, he expressed his sorrow for what had occurred, and promised better conduct in future, and was in consequence restored to his usual food with the liberty of the cell in which he is incarcerated.

McGee, who is serving out a similar term of probation, previous to execution for the murder of Deputy Warden Walker, is quiet, but is evidently depressed in mind, in view of his terrible position.

DAMAGE BY LIGHTNING.—During the thunder storms on Monday and Tuesday afternoon, considerable damage was done by lightning in various parts of New England. At Newton Lower Falls, the barn of a Mr. Parker was struck, the lightning passing through the building and tearing the handles from a number of tools. At Petersham, Mr. Wm. W. Loring had five sheep killed, and Wm. Merry a cow. At Warner, N. H., a horse, a yoke of steers and a cow were killed in pasture. They were standing apart at the time, and it is a little singular how they could all have been killed at once. The Wentworth (N. H.) correspondent of the Manchester Mirror says that on the afternoon of the 16th, the house of Mr. Harry Chapman, in Rumney Village, was struck, and Mr. Chapman so much injured that his recovery is doubtful. The same correspondent reports that eighty-three sheep belonging to Mr. Uri Chandler, of Piermont, were killed by lightning, on Sunday evening last, forty of which were under a single tree, and the remainder under trees in the immediate vicinity.

DEATHS BY LIGHTNING.—The Cleveland Plaindealer says that "the lightning of last week was alarmingly destructive to human life. Some fifteen deaths have reached us in Ohio alone. A lady in this county, Mrs. Dille, a young man in Geauga county, James Hall in Shelby county, Mr. Ridgeway of Washington county, and many others, all found an untimely end by this death-dealing fluid."

KILLED BY LIGHTNING.—The dwelling house of Mr. Yeaton, in Belgrade, was struck by lightning on Monday night and seriously damaged, and sad to relate, Mr. Yeaton was instantly killed by the shock.

DEATH BY LIGHTNING.—*Providence, July* 21.—The house of Ezra Taft, in Uxbridge, was struck by lightning, to-day, and his daughter, 19 years of age, killed. Mr. Taft was seriously injured, but it was thought he would recover.

LAWRENCE VIA ST. LOUIS, July 21.—Gov. Walker entered Lawrence yesterday, with eight companies of dragoons, under command of Col. Cooke. He has camped close to the town in a threatening attitude. His proclamation, issued at Leavenworth, and dated the 15th inst., declares that he will not allow the people to adopt a city charter.

The people are determined to pay no attention to him, and will not negotiate with him. The town officers, who were elected last Monday, have not even been sworn in.

Gov. Walker has warrants for the arrest of those who were voted for, and for many others, prominent citizens of Lawrence. The design is to stop the August election, when the Topeka constitution is to be submitted to the people. The people will not offer any opposition to the federal troops, unless they fire on them, or commit some other outrage, when civil war will at once be declared. They are resolved not to tolerate any more such villainy.

KANSAS.—Gov. Walker was encamped outside of Lawrence, with eight companies of Dragoons, on the 17th. The citizens had decided not to negotiate with him. They will not resist the troops unless fired upon, when civil war will be declared. Gov. Walker has warrants for the arrest of eighty officers and other citizens of Kansas.

DESTROYING HOUSES OF ILL-FAME.—The fire companies and a number of other citizens of Indianapolis "washed out" a number of houses of ill-fame, a few evenings since, and drove off the inmates, much to the relief of the citizens of the neighborhood. About $2000 worth of furniture and bedding was piled in the street and destroyed by fire. One woman vainly defended her door with a revolver, but did not injure any one. She expressed her astonishment that a principal mover in the affair was one of her best patrons.

In St. Louis, respectable citizens, living near Morgan and Eleventh streets, have performed a similar service for a noted assignation house, the furniture of which was worth $6000 or $8000; due notice to quit had been given, and the police were present, but did not interfere.

BRIGHT FELLOWS.—In the distillery of John Glanders, near Alexandria, Ohio, two individuals, having a lighted candle, were getting whiskey, when the steam from liquor coming in contact with the light, communicated fire to the flowing contents. The sapient fellows undertook to put it out by pouring a barrel of cold whisky on the fire in great haste, which of course flamed up gloriously, and made them run for their lives, the whole establishment being instantly in a light blaze. Had it not been for their extraordinary exertions, the building would have been saved.

A Friend in Need, is the Balsam of Wild Cherry, to all who are afflicted with bronchial troubles or Asthma. Its singular power over these diseases has rendered Dr. Wistar famous wherever pulmonary complaints are known.

HAIR RESTORATIVE.—Every one will, we think, agree with us in the opinion that the human hair is the greatest natural ornament that is possessed either by a gentleman or a lady.—Just meet an apparently good looking man, for instance, in the street; you admire his features, whiskers, and general bearing; but lo! he lifts his hat in recognition of your bow, and the charm has vanished, for Ichabod is written on his bald head, and the glory has departed with the flowing locks that once flourished luxuriantly there. In the case of a lady, the matter is, if possible, worse—such cases reminding one of the circumstances on which the following epigram is founded:

'O! give me, fair Emma, a lock of your hair,'
A bashful young lover took courage and sighed;
'Twas a sin to refuse such a modest request,
So take the whole wig,' the dear creature replied.

Now, to prevent such a catastrophe, is within the power of every lady and gentleman; for, by using Prof. O. S. Wood's Hair Restorative, hair is not only prevented from falling off or turning gray, but the article will restore hair to bald places; and even if it has actually fallen and become gray, it will bring it back to its pristine beauty and luxuriance. Those who are acquainted with the anatomy, physiology and pathology of the hair, must be well aware that certain substances have a specific action upon it; and it is by judicious combination of these that Professor Wood has succeeded in compounding a mixture possessed of remarkable virtues.—[Waverly Magazine and Literary Gaz.

IF ALL OUR READERS

Who are troubled with liver complaint, Jaundice, or Dyspepsia, will read the advertisement in another column of Dr. Sanford's Invigorator, and then do as we have done—get a bottle, we should not see so many sickly, half-dead, despairing people as now meet our gaze at almost every corner, for certainly there never was a remedy invented of which so much is said, and that performs so nearly what its proprietors say it will do. It cannot do us highly recommended that we could not fail to try it, and a trial has convinced us, without a doubt, that it is the best family medicine in use. We take it for Headache, Sour Stomach, Billiousness, and any of the little bodily ills that are common, and it does produce a pleasant state of feeling to the sick, and what is better, after using it a few times, these little ills grow less and less, and there is a prospect of being entirely free from them by a continuance in the use of the Invigorator. CINCINNATI, July 21.—This morning, a German named Kohler, strangled to death his wife, and afterwards proceeded to the house of Nicholas T. Horton, a respectable and influential citizen, of the firm of Horton & Macey, set fire to his dwelling, and then stabbed Mr. H., killing him instantly. Kohler then cut his own throat. He had been in the employ of Mr. Horton, and it is supposed his reason for killing Mr. Horton was because he had been reprimanded for abusing his (K.'s) wife. At last accounts, Kohler was not expected to live.

NEW YORK, July 21.—Judge Ingraham, this morning, dissolved the injunction, restraining the payment of $100,000 of the Police fund of the city, for the Metropolitan Police.

Eugene Anderson, a Policeman, was shot dead this morning by a burglar, whom he was attempting to arrest. The burglar was subsequently arrested, and proved to be an Italian, named Polissier. Anderson was formerly a butcher, and his murder caused a terrible excitement among the butchers of Centre Market, near which the assassination was committed. The prisoner was surrounded by a mob, who attempted to wrest him from the hands of the officers with the intention of hanging him to a lamp-post.

NEW YORK, July 22.—Captain Barr, in command of the detachment of marines at Fort Hamilton, has received orders to hold himself in readiness to throw his entire force into the city in the event of any further disturbances.

For the Chronicle.

A WORD *FOR* "THE PROFESSOR."

Messrs. Editors:—The anonymous scribbler in the Chronicle of Wednesday morning, who, over the signature of Q. (and whether this Q stands for Quirk or Quarrel we can't say) comments on our Exhibition of Wax Statuary, attempts to be rather severe, we think. As to the merits of the show, all who have visited it can judge for themselves. We purchased the figures of Prof. Fabin, of Boston, and exhibit them as his work of art—and he is considered the best artist of the kind in the United States. We have been travelling since the 1st of May, and have been visited by all classes of people, and this is the first time we have heard or known of any fault-finding—either on the score of good taste, or the getting up or moral effect of the exhibition.

As to the statue of the young murderer who belongs in Portsmouth, to the exhibition of which Q. so particularly objects—we were not aware of the place of his nativity until informed of it here—though we can't see that this makes much difference, for we don't understand how this exhibition can inflict further disgrace upon his relatives—who we trust are in no ways answerable for his short-comings.

To make our exhibition complete, as Q. suggests, we will add our statue in beeswax to the collection, provided Q. will consent to a putty cast of himself to go with it.

As to the music, we have usually provided a piano-forte and a good player, but deemed it not advisable here, as pianos were so numerous in private houses.

The worthy and excellent City Marshal, to whom Q. refers, visited our exhibition several times, and we presume would have notified us, had he seen any occasion for so doing.

While we trust we are not ungrateful to Q. for thus kindly noticing us, we would return sincere thanks to the public for their liberal patronage.

GUILD & NEVINS,
Proprietors Wax Statuary.
Portsmouth, July 22.

☞ On Monday last, an Irishman living in Hanover street, came home crazy drunk, and beat his wife in such a manner, as to prevent her from fulfilling an engagement to wash for a neighboring family the next day.

The Irishman with the battered face, of whom we spoke a day or two since, had beaten his wife on Sunday, been in the lock-up on her complaint over Sunday night, and taken out at his wife's entreaty on Monday morning. He was drunk again Monday P. M., as stated, and carried to the lock-up again at his wife's call in the evening, again taken out by her, and being ugly on Tuesday morning, she desired the marshal to take him again, but he declined.

These drunken wife-beaters make much work for the police—when the police would arrest them, the wives will sometimes fight—and when the time comes for trial, the parties complaining will beg off, or testify falsely.

About 50 such men, stimulated by the low groggeries, make nine-tenths of our police expenses. To choke off the groggery, and make the idlers work, is the cure for this evil.

SHORT LOCALS.—The crew of a schooner about to leave this port, a few days since, mutinied and refused to do duty. The vessel finally left without them.——Some nights since an entrance was effected into the house of one of our citizens, but nothing worse than terrifying some of the inmates was the result.——Some complaint is made by those living near the Creek, because the boys bathe at Hale's Point in broad daylight, nearly fifty being there at once on some occasions. This is not the only place so infested. Send them to the Bath House.

☞ Our notice of the damage by lightning to the house on the corner of Pearl street, contained an error in the name of the occupant. The house is occupied by Mr. Bickford L. Rand.

Another house was struck in the same neighborhood.

BODY DISCOVERED.—On Sunday last, the body of Mr. Chandler, of Wilmington, Delaware, was discovered near the summit of Mt. Washington. It was found under the shelter of a rock, the clothes all on, and his property, consisting of money, watch, &c., upon his person. One of his legs and both of his hands, had been devoured by some wild beast.

Mr. Chandler was missed last August, and subsequently, a reward of $500 was offered for the recovery of his body. He had gone up the mountain from the Glen House, with the intention of going over to the Gibbs House. He left the Summit House against the earnest persuasion of the landlord, and the last that was seen of him alive, was by a person he met on his way down, of whom he inquired the route to Gibbs', which was pointed out to him. During the night, Mr. Gibbs was alarmed by hearing, as he thought, cries for help, and he turned out his whole house in search, but could discover nothing. It is now supposed that Mr. Chandler had lost his way and endeavored to retrace his steps to the Summit House; and he had got within forty rods of it, when, from exhaustion, he was unable to proceed further.

The reason why the body was not discovered before, was, that Mr. Chandler had placed himself beneath the shelter of a large rock, and although hundreds of persons had passed within a very short distance of it, no one ever thought of looking there for the body; and it was only by the simple circumstance of a gentleman having sat down upon the rock to rest himself, that the body was discovered.

His remains were found within a short distance from where Miss Bourne perished last year. On his person were found $400 in gold and bills on a Maryland bank, and a gold watch.

The Portland Argus says:

We like the suggestion of Rev. T. S. King, in the Boston Transcript, that dogs of St. Bernard species should be kept upon the mountain. It would undoubtedly be the means of saving the lives of those who may get bewildered by the fogs which are liable to settle down upon the mountain at any time.

These continued occurrences of death and disaster should be a warning to people never to go up the mountains without the protection of a guide.

Manny's Celebrated Mower
—AND—
MOWER AND REAPER.
IMPROVED.

Built expressly for the New England States.

THE MANNY MOWER has been extensively used for the past two years in New England, and more than six years at the West.—Its success is beyond that of any other Mower or Reaper ever constructed. Over 150 1st *Premiums* have been awarded it, including the *Grand 1st Class Silver Medal* at the WORLD'S FAIR, PARIS, 1855.

With the two past years' *experience*, we have been enabled to make a number of very *important improvements*. We find New England farmers require a different Machine from other sections;—the fields generally being small. It must be *light*, at the same time possess *great strength*; *portable*, with facilities to *raise* the *cutters* to *pass obstructions*, and to remove from field to field. A perfect cutting apparatus, to cut the fine grasses without clogging, and so constructed as to *start* in the grass *without backing*, easily adjusted to cut high or low, and have a Reel to cut equally well with or against the wind, and to be worked with ease by a light team, and so easily managed and simple that any one of common ability may operate it successfully, and to be built in the most thorough manner.

With this knowledge of the farmers' requirements, and with the determination to build a *better* Machine than has ever before been constructed in this country, we offer the **Manny Mower** of 1857 with confidence, as combining the qualities enumerated above, and as one particularly adapted to meet the wants of New England farmers.

Price of Mower, $110; with Reaper attachment, $15 Extra. Delivered on board the cars at Worcester, Mass. JOHN P. ADRIANCE & Co., *Manufacturers.*

Coggswell's Medical Salt,
A PERFECT SUBSTITUTE
FOR THE
LANCET, LEECHES AND BLISTERS.

INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—but but ONE AIM—accomplishes but ONE THING, to wit: SUBDUES INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. Kr. *very form of inflammation* (but no other disease) is subdued, by it as easily as fire is extinguished by water. Is it asked, *how* it does this?—simply by restoring the lost balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires merely what adheres to the point of a pin dipped into a solution of it, to affect the entire system.

AYER'S Cathartic Pills,

(SUGAR COATED,)
ARE HERE TO

**CLEANSE THE BLOOD AND CURE THE SICK
Invalids, Fathers, Mothers, Physicians
Philanthropists, and their Effects,
and Judge of their Virtues.**

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach

PITTSBURG, PA., May 1, 1855.

DR. J. C. AYER. SIR: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once. If they will do others as they do me, the fact is worth knowing.

Yours with great respect, ED. W. FEEBLE,
Clerk of Steamer Clarion.

Bilious Disorders and Liver Complaints

DEPARTMENT OF THE INTERIOR, WASHINGTON, D. C., 7 Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of the organ. Indeed, I have seldom found a case of *bilious disease* so obstinate that it did not readily yield to them.

Fraternally yours,
Physician of the Marine Hospital.

Dysentery, Relax, and Worms.

POST OFFICE, HAVELOCK, LIV. CO., MICH., NOV. 16, 1855.

DR. AYER: Your Pills are the perfection of medicine they have done my wife more good than I can tell you. She had been sick and pining away for months. Went off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of bloody dysentery. One of our neighbors had it bad, and my wife cured him with two doses of your Pills, while others around us paid from five to twenty dollars doctors' bills, and lost much time, without being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be prized here.

GEO. J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours,
J. V. HIMES.

WARSAW, WYOMING CO., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of life.
JOHN G. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her. ASA MORGHINDR.

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawkes, of the Methodist Episc. Church.

PULASKI HOUSE, SAVANNAH, GA., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which could not be dislodged or ameliorated. Notwithstanding I had the best of physicians, the disease grew worse and worse, until, by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them I am now entirely well.

SENATOR CHASTEEN, BATON ROUGE, LA., 5 Dec., 1855.

DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease that had defied me for years. VINCENT SLIDELL.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a **Dinner Pill,** they are agreeable and effectual.

Fits, Suppression, Paralysis, Inflammation, and even **Deafness,** and **Partial Blindness,** have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, IN CIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of dangerous complaints have made it already known. Nay, few are the families in any civilized country on this continent without some personal experience of its effects; and fewer yet the communities any where which have not among them some living trophy of its victory over the subtle and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the sudden attacks that steals upon them unprepared. We have abundant grounds to believe the CHERRY PECTORAL has saved more lives by the consumption it prevents than these it cures. Keep it by you, and cure your colds while they are curable, nor neglect them until no human skill can master the incurable malady that, fastened on the vitals, sets your life away. All know the dreadful fatality of lung disorders, and as they know too the virtues of this remedy, we need not do more than to assure them it is still made the best it can be. We spare no cost, nor will we fail to produce it the most perfect possible, and thus afford those who rely on it the best agent which our skill can furnish for their cure.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FRANCK & Co are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication is received in hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combination. Prizes vary in amount from $20 to $100,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published in the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with them is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The undersigned respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the order is received. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50 tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $50,000; every prize being drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers: the Baltimore Sun, Philadelphia Register, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Day Book*. Write your address plainly, and direct to SWAN & Co., Atlanta, Georgia

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,
(Late Agent of U. S. Patent Office, Washington, under act of 1836.)

No. 76 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered elsewhere. Inquiry is respectfully invited, given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. He has besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able beyond doubt, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States and have no hesitation in recommending inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure them as large and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and trustworthy practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

REMARKABLE EVENT.—We are pleased to learn by the following extract from the New York Times, that last Sunday was a quiet day in that city. District Attorney Hall, however, in previously issuing his notice to close the liquor shops for the day, deemed it necessary to say that it was in accordance with a law which had existed thirty years, and not a recent prohibitory law enactment:

"Yesterday was a model Sunday in all the wards of the city except the Seventeenth, in which the riotous disposition was not altogether quelled, though there was no actual outbreak. The observance of the law enforcing the closing of liquor saloons on Sunday was pretty general, the violations being principally on the part of keepers of lager-beer cellars of the lower class. After dark, however, most of the drinking places on Broadway, of the most pretentious order, were busied in vending potations that were not confined to lemonade, lemon soda, sarsaparilla, or even cider.—In the Bowery and William street lager-beer flowed freely after 9 o'clock, and in Avenue A there was no pretence of observing the law after 3 o'clock P. M. or thereabouts. Still in defiance of lager-beer, weiss-beer, and the more potent draughts, yesterday was the most quiet Sunday our city has enjoyed for a long time."

The Mayor and Aldermen of Charlestown, Mass., on Monday, passed the following order:

"That the City Marshal be directed to use all legal measures for the enforcement of the law in relation to the sale of intoxicating liquors, and the suppression of grog-shops, within the limits of the city; and also that he be directed to enforce the laws in relation to the violation of the Sabbath."

☞ The report is that Bishop Hughes of New York will be succeeded by Bishop McCloskey of Albany, or Archbishop O'Connor of Pittsburg, and that a main reason of the dissatisfaction of the Pope with him is that he has not formally recognized and celebrated the new dogma of the immaculate conception.

The democrats of New York are making an effort to raise $100,000 to endow their organ, the Daily News. With the aid of government advertising it cannot pay expenses. It is a significant fact that while the independent papers are all doing well, the strictly party papers find it difficult to live, and impossible without extraordinary exertions. We put this down as a favorable indication of the times.—*Newburyport Herald.*

THEY DID NOT ADVERTISE.—One of the Councilmen of the City of Bangor having resigned, a new election was ordered by the City Government to fill the vacancy. The time appointed for the election was Monday, the 20th inst., but as the City Council, in order probably to save a dollar or two, did not advertise the meeting in the newspapers, no one appeared to vote on the day appointed, and consequently nobody was elected. The City Government will probably learn that there is *nothing like advertising.—Port. Argus.*

SUICIDE BY INTOXICATION.—A man named William Harper, a tailor, who left Portland, Maine, about six weeks ago, and went to Cincinnati, immediately on his arrival at the latter city declared his intention of ending his existence by the excessive use of intoxicating liquors. The Cincinnati Gazette says that he drank desperately, and was in the most degrading state of intoxication, morning, noon, and night; that he thought of nothing but alcohol, and did nothing but swallow it in large quantities at all hours. He accomplished his purpose of self-destruction on Thursday evening, and the coroner held an inquest upon the body in a house in Vine street below Race, and returned a verdict in accordance with the facts above stated.

OLD BUT SMART.—A trader in Boston, named Buffum, on Wednesday last, swam across the Mystic river, from Charlestown to Chelsea, a distance of one mile and a quarter, and after resting himself, swam back. The feat is somewhat remarkable when it is taken into consideration that the swimmer has attained the age of seventy-five years. So says the Charlestown Advertiser.

DEADLY ASSAULT UPON AN OFFICER.—At East Randolph, last week, an Irishman named McCarty, got drunk and assaulted his wife. Constable Jordan was sent for, to arrest McCarty, but was himself assaulted by the infatuated man with a bayonet, which he lashed upon a stick. After inflicting several wounds upon the officer with this formidable weapon, McCarty was overpowered, and in default of bail in $1000, committed to Dedham Jail for trial.

☞ On Sunday last, an Irishman at North Adams knocked down his wife with a boot-jack, because she would not buy liquor for him, severing an artery, so that the poor woman came near bleeding to death.

People who indulge in rum and tobacco, are in a dangerous way. What with strychnine in their whiskey, and prussic acid in their cigars, their chance of reaching old age is quite slim.

IMPORTANT DISCOVERY.
DR. CHEESEMAN'S PILLS FOR FEMALES.
Prepared by an old Physician of 40 years experience
THE combination of ingredients in these Pills, is the result of a long and careful study, and they are mild in their operation, and certain to restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance again put on a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysteria, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.
These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. L. CHEESEMAN, Box No. 4,581, Post Office, New York City, can have them sent to their respective addresses by return of mail.

FRIDAY, JULY 24, 1857.

THE SCHOOLMASTER ABROAD.

In New York City, it has recently been discovered that Mr. Hazeltine, the principal of the Normal School—the school in which teachers are manufactured—is a most illiterate man, so far, at least, as regards English Grammar, and even ordinary orthography.

We have reason to congratulate ourselves, (says the Portland Advertiser,) that in New England, a better state of things prevails, and that we would not readily find a schoolboy who would spell democratic, like Mr. Hazeltine, with two m's, two k's and two t's, "demmokrattick."

We suppose this is so,—yet we have seen it stated and not denied, that a late school commissioner in New Hampshire, in writing the word Night on a blackboard, at an Institute, began it with a K.

This, in New Hampshire, however, is a mere accident. In New York, it is part of a system. A correspondent of the Tribune thus shows it up.

"You seem not to be aware that the school teachers of this city are appointed, not because they have proved themselves to be qualified, but simply by *favoritism*. There is no public *examination* whatever, but each man gets his place by political or personal influence. Thus it happens that they are most ignorant and incompetent, as you will readily believe, when I tell you that Mr. Hazeltine is one of the best educated among them. And yet this establishment with its vast apparatus of teachers and Boards and what not, costs the city of New York, as you tell us, over a million of dollars a year."

RETURNING REASON.—W. A Fogg, of Eliot, Me., an abolition editor, who went to the South for his health, carrying all his sectional ill-feeling, writes from Florida, giving such cheering evidence of improvement in mind and manners, as to lead to the hope that he may return a sound man. He says:

Seven months ago, on a cold and stormy day, I left my home at the North, dear to me from every sacred association which clusters round a youth of happiness. I was feeble, sick and sad; going more than a thousand miles from any familiar face, and going among a people for whom I had conceived a dislike.—Seven months have I been with them ere I have spoken of them; and my opinion is now founded. Since I came here, I have constantly associated with them, and from the first to the present time I have met with nothing but kindnesses from their hands. These have been showered upon me from all sides. No Southerner has ever attacked my section of the country, or ruffled the placid stream of love which connects my heart to the dear scenes of home. They have made my time pass as pleasantly as the hours of a sick visit can. For it all, I can but render the just tribute of my poor thanks, although it may only meet the eye of strangers, and know that they will forgive me for whatever may seem a breach of propriety in speaking of them, when they know that I do it that those who are strangers unto them may know more of them.

The above extract is going the rounds. Mr. Fogg's letters are written to the American Ballot, and the introductory heading may have been added by some democratic paper. Mr. Fogg seems to have discovered the Southern people to be kind and hospitable to a sick white man; as truly they are. He discovers them also to be forbearing in regard to sectional prejudices, as nine-tenths of them doubtless would be, if left to their own impulses. If Mr. F. ever supposed them all to be ogres or tyrants, or propagandists of slavery, he certainly needed to be undeceived, as much as Mr. Wheeler's little negroes did, whom he had taught to believe that the Abolitionists would eat them.

LOOK OUT.—Worthless bills on the old Woolfborough Bank are in circulation.—They are unworn, good looking bills, signed variously or not signed at all, and said to have been taken from the house of the former President of that Bank, Daniel Pickering, Esq., of Wolfborough, now deceased, by a boy, in quite a quantity, and distributed among men and boys till we have seen a number of them in the hands of those who took them for good money. All persons who will destroy such bills will thereby counter a favor on the ignorant and careless, and take from the depraved an incentive to crime.

We are told, says the Dover Inquirer, that a number of these bills have been passed in Dover. The name of the present Bank at Wolfborough, it should be remembered, is "Lake Bank."

☞ A full and splendid set of silver service was recently presented to Miss Caroline R. Seabury, of Southbridge, Mass., by the citizens of Columbus, Miss., as a testimonial of their appreciation of the noble and self-sacrificing spirit evinced by her in the service which she gratuitously rendered as a nurse, in a case of small-pox, from which friends and acquaintances fled in terror.

For the Chronicle.

RAMBLING NOTES OF A RAMBLER.

PLYMOUTH, N. H., July 19.

I am sojourning for a few weeks, during the "heated term," among the mountains. This, as you well know, is one of the routes to the "Crystal Hills." On the banks of the far-famed Pemigewassett river, surrounded by the "everlasting hills," is Plymouth; one of the most beautiful towns in the Granite State—visited by tourists from all parts of the world. Here, too, is the Pemigewassett House, delightfully situated, second to none else, conducted by that prince of landlords, D. R. Burnham. * * *

Riding on horseback is a common and fashionable manner of travelling by the young ladies of this village; and allow me to say, they do justice to their training.—Those visiting the mountains should spend at least one day here.

The sun is fast sinking in the west, among the mountains, and the weary are anticipating the coming "Sabbath rest." My mind is attracted from my pen to the occasional promenade, dance and waltz, upon one of Hallet, Davis & Co's. splendid grand pianos, in the large parlor; and vocal duetts, prettily sung and performed by the daughters of "mine host." To-morrow I'll attend church, and should I add more to this, it may be a 'criticism' (?) on the services.

P. S.—"The thunder rolls;" a shower is near. We have had several violent showers this week, accompanied by thunder and lightning such as I have never before witnessed, and doing much damage to the roads especially. The weather is now cool and delightful. The corn has grown more than half this week, is short on the intervales, but on the rising ground looks well. As to grass, there is an abundance, and of all else.

CRITICISM.—Well, I have been to church; the Methodist Episcopal. Just before the bell ceased tolling, "the Proprietor" called into all of the lower rooms, and notified his visitors that "he was going to church, and would be particularly pleased to conduct a large crowd thither, and show them seats." The invitation was accepted by all; and after we were seated, I missed my "host," nor did I again see him until in the opening hymn, I discovered his form towering above the singers, backed by his son (and assistant in the house, a perfect "fac-simile" of himself,) his daughters leading in the treble and alto. Probably some of your readers will recollect the Hon. Representative from Plymouth, in the recent assemblage of the "wisdom of the State." He is not only "host" and head in his own family, but a kind of general "regulator" in this locality. Every body knows "Burnham." [Dinner.]

Having "discussed the dinner fixings," I proceed to add that the music was more than respectable and appropriate; sustained by a melodeon.

It being a warm day, quite a number yielded to the influences of "somnus;" and might have so remained, but for a little incident. The preacher touched upon that trite subject, slavery; and a full response from some pious soul to the sentiment by Wesley, that "slavery is the sum of all villainies," scared up a "dead rabbit;" in the person of a new lawyer, fresh from Concord, who in a very decided manner took himself off.

At dinner our host, who participated with us, was "very gracious," and seemed much pleased, either with his dinner, the sermon, or the "dead rabbit;" and from certain remarks I inferred that it was this last. It was well the "dead rabbit" did not dine with our company, for the remarks would not have aided his digestion. The political friends of the "dead rabbit" agreed that John Wesley was an honest man, and a Christian, and that the minister had committed no sin in quoting him.

N. B.—I have just finished listening to a discourse by Rev. Mr. Sargent of Gilmanton: Congregational. The music here was also very good; and I opine that church music is cultivated in the country with more regard to its design, than in the larger towns. Yours, W. P. I.

FILIBUSTERS ENCOURAGED.—The National Intelligencer of Tuesday morning contained a letter from Gen. Wool, explaining his conduct in not interfering with Gen. Walker in his expedition to Central America, called out by Walker's letter to the President. It seems that Secretary Davis had countermanded previous orders relative to violations of the neutrality law, and instructed Gen. Wool not to interfere in cases of civil misdemeanor.

☞ Col. Fremont did not sail for California, in the steamer of Monday, as reported; he had engaged passage, but was detained by ill health and business, and will start on the 6th of August.

DAMAGE BY LIGHTNING.—In a heavy thunder shower, on Friday morning, the lightning struck the house of Capt. Archelaus Tretethen on the Turnpike, in Dover, and shattered it in various places. The inmates were somewhat stunned, but fortunately none of them were injured. The lightning also struck in one or two other places in the city. During the day, on Friday, upwards of four inches of rain fell. During the same shower, the lightning struck in various places at Great Falls. One of the Mills of the Manufacturing Co., was struck, but not damaged, and a cow was killed in a pasture near the village.

Two barns belonging to Capt. James Wentworth, in Dover, just above the ruins of the Piscataqua Bridge, were 'struck by lightning during the heavy shower on Monday night.

☞ In Manchester, N. H., on Monday, many buildings were struck, and several persons were severely injured. At B. F. Martin's paper mill, a boy named Charles Wilkins, was knocked down and badly blistered, but not dangerously injured. At the house of Willard Merrill, the fluid struck Miss Clara Heath on the neck, passed down her arm to her body, and down her left leg. Both her shoes were torn to pieces, leaving large holes where the fluid escaped. Yet she was not dangerously wounded, and will soon recover. The house was torn to pieces, and a large number of other buildings in the town, were much damaged.

☞ An unknown man, supposed to be insane, or suffering from delirium tremens, leaped from the steamer Connecticut during her passage last Saturday night from Allyn's Point to New York, and was drowned. The officers of the boat spent an hour endeavoring to recover him, but without avail.

☞ In New York, a man named Savage, buried his wife on Saturday, and wanted to marry another on Monday, but the priest objected. The neighbors ascertained the fact, and pelted his house with stones, breaking the windows and smashing the doors. Some hundreds soon gathered round, when Under-Sheriff Stryker appeared and arrested one of the most disorderly. The Deputy Superintendent of Police went down with a posse, and soon scattered the crowd.

☞ A cancer weighing four and a half pounds, and measuring eight inches in diameter, was last Thursday removed from the breast of a lady in Natick by Dr. Walter Burnham of Lowell.

☞ A woman lately eloped from Ohio to Wheeling, Va., with her child and a cork legged paramour. Her husband overtook her, and told her she might follow her cork leg to the end of the earth.

CHURCH ORGANIZED AT GREAT FALLS.—After a year's trial of separate worship, a portion of the First Church in that place, called a council on Monday last, and were by it formed a Second Congregational Church. Rev. Mr. Wells began the services. Rev. Mr. Atwater, of Salmon Falls, read and proposed the articles of faith and covenant and offered the prayer of Organization. Rev. Mr. Cummings of Exeter, recognized by a charge of the church.—Rev. Mr. Anthony, of the First Church, presented the right hand; and Rev. Mr. Whiting, of Portsmouth, preached the sermon.

DROWNED.—On Wednesday, 15th inst., (says the Dover Enquirer,) an Irishman named Patrick Foley, in the employ of Mr. James Butler of Durham, was drowned near Dover Point. He was going down the river with two other men on a raft, and when nearly opposite the Point, he accidentally fell into the river. The body was recovered on Wednesday. Foley was about 35 years of age, and has lived in Dover.

HAIR RESTORATIVE.—Every one will, we think, agree with us in the opinion that the human hair is the greatest natural ornament that is possessed either by a gentleman or a lady.—Just meet an apparently good looking man, for instance, in the street; you admire his features, whiskers, and general bearing; but lo! he lifts his hat in recognition of your bow, and the charm has vanished, for Ichabod is written on his bald head, and the glory has departed with the flowing locks that once flourished luxuriantly there. In the case of a lady, the matter is, if possible, worse—such cases reminding one of the circumstances on which the following epigram is founded:

'O! give me, fair Emma, a lock of your hair,'
A bashful young lover took courage and sighed:
"Twas a sin to refuse such a modest request,
So take the whole wig,' the dear creature replied.

Now, to prevent such a catastrophe, is within the power of every lady and gentleman; for, by using Prof. O. S. Wood's Hair Restorative, hair is not only prevented from falling off or turning gray, but the article will restore hair to bald places; and even if it has changed color and become gray, it will bring it back to its pristine beauty and luxuriance. Those who are acquainted with the anatomy, physiology and pathology of the hair, must be well aware that certain substances have a specific action upon it; and it is by judicious combination of these that Professor Wood has succeeded in compounding a mixture possessed of remarkable virtues.—[Waverly Magazine and Literary Gaz.

IF ALL OUR READERS
Who are troubled with liver complaint, Jaundice, or Dyspepsia, will read the advertisement in another column of Dr. Sanford's Invigorator, and then do as we have done—get a bottle, we should not see so many sickly, half-dead, despairing people as now meet our gaze at almost every corner, for certainly there never was a remedy invented of which so much is said, and that performs so nearly what its proprietors say it will do. It came to us so highly recommended that we could not fail to try it, and a trial has convinced us, without a doubt, that it is the best family medicine in use. We take it for Headache, Sour Stomach, Billiousness, and any of the little bodily ills that are common, and it does produce a pleasant state of feeling to the sick, and what is better, after using it a few times, these little ills grow less and less, and there is a prospect of being entirely free from them by a continuance in the use of the Invigorator. STABBING AFFAIR.—On Saturday even ing last, (says the Dover Enquirer) a par el of young rowdies got into a fight wit some Irishmen on the Landing, in th course of which one Peter Hughes wa stabbed in the arm, with a dirk or knife receiving a gash some six inches long Others were severely beaten and bruised About a dozen of those engaged in the figh were arrested by the City Marshal and hi Assistants. On Monday, they were brough before Judge Kimball of the Police Court, when pleading guilty, they were let off with a fine and costs amounting to about $8 each.

A CHILD DROWNED BY AN INSANE GIRL. A sad tragedy occurred at the Poor House, Tamworth, N. H., on Sunday, as we learn from the Manchester Mirror. The superintendent of the farm, Mr. Whiting, was absent; Mrs. Whiting, after getting her infant to sleep in the cradle, fell asleep herself. When she awoke, an insane girl, an inmate of the house, was in the room, crying. Noticing that her clothes were wet, she thought of her child, and looking in the cradle found her darling gone. On searching, the child was found in a brook near the house, with its face downward and life extinct,—the crazy girl having piled wood upon the child, to accomplish her horrid purpose.

FEMALE PRISONERS ESCAPED.—Margaret Terrence, the New Hampshire State Prison convict who was arrested a few weeks ago in this city, and returned—having escaped last fall—is out again. She made her escape again from prison one night last week in company with Gove, who was sent to prison last March from Strafford County for receiving stolen goods. It is thought that they were assisted in their escape from the outside.—*Lowell News.*

The Bank of France returns show a loss of specie.

At the second election in France, Madenez and some opposition candidates were returned.

Disturbances have occurred at Ureria, Spain, but were suppressed.

The Spanish Cortes have passed a "gag law" on the press.

There have been no further demonstrations at Naples. The details of the outbreak show a considerable loss of life.

Mazzini has escaped from Italy.

The King of Prussia is on a visit to the Emperor of Austria.

INDIAN OUTRAGE.—*Chicago, July* 22.—The removal of the United States troops from Fort Ripley has embolden the Chippewa Indians, and they have driven the entire missionary staff from the Missouri, at Lake Leech.

NEW YORK, July 22.—Mayor Wood met with the Police Commissioners to-day. The Board now stands three Republicans, to two Democrats, and one Know Nothing, believed to be in the interest of the Mayor. Trouble is anticipated in filling the vacancy.

The steamer Arabia took out 100 passengers, and upwards of $1,400,000 in specie.

The jury in the case of Muller, killed in the German riot, have rendered two verdicts, the majority verdict finding that he was shot by a policeman, the other that he was shot by some person unknown.

11 P. M.—The roof of the Merchants' Exchange is on fire.

On Tuesday, the first Judge of the New York Court of Common Pleas, Ingraham, passed an order calling upon D. D. Conover, the Governor's Street Commissioner, to appear yesterday and show cause why an attachment should not be issued against him for contempt of that court, in disobeying the injunction served upon him.

The attempt to enforce the no-advance wages system in New York, has been abandoned. Yesterday, the leading shipowners sent word to their shipping agents to pay the usual advance, and thus terminated the first great movement towards meliorating the condition of the sailor.—*Exchange.*

POLICE COURT, CONCORD.—The last week has been one of considerable excitement in the Police Court, growing out of the arraignment and trial of parties surprised by the police in acts of adultery and fornication, at the Union Hotel in Concord, on Tuesday evening last. The details of the proceedings have been very effectually placed before the pulic by other prints, and moreover, as they are not of such a nature that public morals will be promoted by their publication, we refrain from giving more extended particulars than the following:

WEDNESDAY, July 15.—John T. Weeks was arraigned and bound over for adulter. with Lucy A. Warner, at the Union Hotel.

July 16.—George E. Burnham and Lucy A. Squires plead guilty to the charge of fornication, and were bound over in the sum of $100 each. Burnham found bail.

Dudley S. Folsom was arraigned and tried for keeping a disorderly house at the Union Hotel. On Saturday, His Honor Judge Pillsbury decided that although one or two specific acts of disorder had been proved to have been committed about the house, yet that this was not sufficieut to give the house the characteristics of a common disorderly house or a house of ill-fame. Respondent discharged.—*Independent Democrat.*

We believe the keepers of the Union House is not a "temperance fanatic," nor a "Maine Law hypocrite." The search clause, applied there, might be useful.

WASHINGTON, July 22.—The President and Cabinet endorse Gov. Walker's proclamation. A despatch received to-day says a collision between the troops and "rebels" is inevitable.

Gov. Cummings of Utah had an interview to-day with the President and Cabinet. He does not regard the crisis in Kansas as serious, and believes that most of the troops will go to Utah.

Maj. Ben. McCulloch, who left Lawrence on the 15th, expresses his opinion that no conflict will take place.

The instructions to Gov. Wright, Minister to Prussia, have been prepared. He will probably sail on the 1st of August.

Porter's Spirit of the Times'
GENERAL PURCHASING AGENCY.

THE CONSTANTLY increasing demand upon us to execute commissions for the purchase of all kinds of articles, both for residents and non-residents of the city, has induced us to establish, in connection with our newspaper enterprise, a

PURCHASING BUREAU,

under the immediate supervision of one of our firm, assisted by the most accomplished experts, *for supplying any article in the world.*

Particular attention will be paid to the selection, purchase, and sale of thorough bred Cattle and Horse Stock, Trained Dogs, Ferrets and Fancy Fowls, Carriage, Riding, and Saddle Horses, Carriages, Harness and Saddles, Time Watches, every description of Fire Arms, Sporting Articles, Fishing Rods and Tackle, Music and Musical Instruments, Yachts, Sail and Row Boats, Furniture, Fine Wines, Liquors and Segars;—Cricket and Ball Bats, Pads, &c., &c.

AGRICULTURAL IMPLEMENTS,

of the latest and most improved kinds; Seeds, Plants, Fruit, Forest and Shade Trees, and all kinds of Books treating on subjects of importance to the Farmer, Horticulturist, and Florist.

STATE ROOMS ENGAGED

in advance, on Steamers and Packets to leave for Europe, California, the West Indies, or any part of the world. This will obviate the necessity to residents of inland towns, and places where no steamer agencies exist, of coming to New York two or three weeks in advance—as they are now frequently required to do—either to obtain passage, or to secure eligible accommodations. In this department, we will be ready to secure

ROOMS AT HOTELS

at favorable rates, so as to protect the stranger from imposition as well as inconvenience; and, in short, to perform any description or commission that would require the presence of the party himself.

Gentlemen who desire to form Libraries, or who may wish to procure the

CHOICE LITERATURE OF THE DAY,

can always rely upon our judgment and selection. Also, Blank Books and Stationery, and Book and New Paper, for Printers.

FOR THE LADIES,

we will procure the latest Fashion Plates, styles of Bonnets, samples of the newest varieties of goods, Cosmetics, Perfumes, and Fancy Articles, and we shall always be pleased to furnish everything connected with their wants.

In short, for any service which may be required, the public may rely upon us, with the most perfect confidence, fidelity, and dispatch. Apply to

Coggswell's Medical Salt,
A PERFECT SUBSTITUTE
FOR THE
LANCET, LEECHES AND BLISTERS.

INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—but but ONE AIM—accomplishes but ONE THING, to wit: REMOVE INFLAMMATORY DISEASES—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. Every *form of inflammation* (but no other disease) is subdued, by it as easily as fire is extinguished by water. Is it asked, *how* it does this?—simply by restoring the lost balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires merely what adheres to the point of a pin dipped into a solution of it, to affect the entire system.

☞ *Of its intrinsic value, the enlightened community, and not the discoverer, must be the judge.*

WIRE DISH COVERS.

A LARGE assortment for sale by

RIGHT OF SUFFRAGE.—The following is too good to be lost. It is often made a subject of complaint that ministers of the gospel participate in political matters.

An anecdote of a Mr. Field, who lived in Vermont, several years ago, contains a good reply :—

As the reverend gentleman went, at a time, to deposit his vote, the officer who received, being a friend, but of opposite politics, remarked,—

"I am sorry, Mr. Field, to see a minister here."

"Why?" asked Mr. Field.

"Because," said the officer, "Christ said his kingdom was not of this world."

"Has no one a right to vote," said Mr. Field, "unless he belongs to the kingdom of satan?"

This at once let in a ray of light to the darkened chambers of the officer's cranium, which he had never been accustomed to think of before.

THE MORMON ELDER OF THE CONNECTICUT VALLEY.—"Elder William Walker," who appeared at Holyoke on the Fourth of July in Indian costume, and afterwards did not baptize the Holyoke girls, if a letter in the Mirror is to be believed, is rather a singular genius, his principal peculiarities being—his faith, which he preaches constantly wherever he may be, and at Greenfield on the Sabbath; a remarkably curly "head of hair," and a fund of tough anecdotes of his own prowess and hair-breadth escapes, which can be relied on whenever they are repeated. He is an Englisman by birth, and a grinder by trade, and works for Lamson, Goodnow & Co., at Shelburne Falls. He came to this country some years since, bringing an English wife with him, whom he took to Utah, where she died. He had previously worked for J. Russell & Co., at Greenfield. In Utah he lost what little property he had, and after—according to his own account—having acted as guide across the plains for some time, he returned East, and arrived in New York penniless. Here he was furnished with money to take him to Greenfield, where he again went to work at the Green River Works. He afterwards married one of his Yankee converts, for William is a very zealous elder, and after a time went to Shelburne Falls. He has now almost entirely given up labor, his means of subsistence being the fees, &c., that he receives from believers. He already has quite a church at Greenfield, with branches in other towns, his great forte lying, it is said, amongst the Scotch girls, many of whom in various of the factory towns have joined the church.—*Springfield Republican.*

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FRENCH & Co are the managers, authorized by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the misers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $30. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Tertans combination. Prizes vary in amount from $20 to $100 '20. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers: Baltimore Clipper, Sun, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

Address Y. B. HUBBARD & CO.,

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, and the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, and orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $20; halves, $10; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $500. All orders for tickets, with the result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer* and New York *Weekly Day Book*. Write your address plainly, and direct to S. SWAN & Co., Atlanta, Georgia.

Prizes paid in full—no percentage deducted from prizes in order lottery.

All communications strictly confidential. m18ly

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,
[*Late Agent of U. S. Patent Office, Washington, under the Act of 1837.*]

No. 76 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Research made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Claims of claims of rejected Patents prosecuted, commencing One Dollar. Assignments recorded at Washington.

This agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immediate access to, any other agency, can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that other offices of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and the accounts of DR. YOUNG, No. 112 SPRUCE street, above Fourth, Philadelphia.

MURDER OF A NEW YORK POLICEMAN.—About half-past four o'clock on Tuesday morning, Eugene Anderson, a recently appointed patrolman of the 14th Ward, heard the cry of "stop thief" from the corner of Centre and Grand streets, and hurrying to the spot, saw a man aiming a pistol at the occupants of the store of Nelson Sammis. Anderson sprang and caught him by the neck, and as he was in the act of raising his club, the prisoner suddenly turned and discharged his pistol, the ball of which went through the arm of Anderson and into his neck, causing almost instant death. Pursuit was instantly given by the other policemen, and the murderer was secured, after a struggle, just as he had entered his own house in Worth street. While taking him to the station house the officers had much trouble to prevent the crowd from lynching him on the spot, so universally popular was the murdered policeman. The prisoner is an Italian named Michael Cangerni.

He occupies rooms upon the second floor of 120 Worth street, an old three-story building. An Italian woman was the only person found upon the premises, and she was at once arrested and taken into custody. The rooms were then searched. The officer making the arrest had reason to congratulate himself that he captured him before he entered his apartments, for the probability is, that had he succeded in getting in he would have killed both Webb and Willoughby.

Two muskets, several pistols, four pounds of balls, a keg and canister of powder, with a quantity of shot, bowie knives, dirks, &c., were found in his room. It had the look of an arsenal; and judging from the appearance, the presumption is that the man has played the most desperate part in the most terrible crimes.

Not only was a large quantity of arms and amunition found, but a great amount of costly and valuable property. Several hundred dollars' worth of diamonds, two splendid gold watches and a great amount of jewelry were discovered. There was also much costly wearing apparel for men and women. No less than thirty-five silk dresses, with garments to match, were found in the woman's room.

The furniture of the room is plain and cheap. A number of cheap Italian prints, of a religious or military order, hung upon the walls; while razors and deadly implements were seen everywhere among the crockery.

☞ At St. Louis, on the 17th inst., the coroner was summoned to hold inquests on the bodies of thirteen persons who had died from exposure to the sun.

ROBERT J. WALKER, AS A PRIVATE FINANCIER.—Of Gov. Walker's ability and success as a public financier, their is a difference of opinion; his friends claiming that his administration of the treasury department under Mr. Polk, showed more power and brilliancy than were ever exhibited in that office, save by Hamilton; while, on the other hand, this reputation is severely questioned, and gross errors claim to have been discovered in his figures and in his policy. Without settling disputes on this point, we may certainly characterize the following revelation by the Richmond (Virginia) South,—one of the southern Democratic journals, that is disaffected with his course in Kansas,—as a very sharp bit of practice in private financiering:—

"When Robert J. Walker was U. S. Senator from Mississippi, he ascertained that an old gentleman in Middlesex county in this State, was disposed to sell a large estate of negroes. Accordingly in company with a colleague in the House of Representatives, Walker made the old man a visit, and after a protracted negociation succeeded in purchasing the slaves. And he got them on good terms, for the old gentleman—a devoted Democrat—was charmed by the graceful condescension of the distinguished Senator. The aggregate price of the negroes was something more than forty thousand dollars, for which Walker gave a note or draft payable in New Orleans. But the old gentleman would not sell his slaves except on condition that they were to be kept together on a plantation in the South. Well, the slaves were taken to New Orleans, were put upon the block and dispersed to the four winds—the purchaser realizing a considerable profit by the 'transaction.' The note or draft matured, was presented for payment, was protested, and from that day to the present time not a cent has been received, either by the old gentleman or his heirs, for fifty thousand dollars' worth of negroes! Meanwhile, Mr. Walker has lived in affluence, and is believed now to be a millionaire."

Lola Montez astonished the employees of the railroad between Niagara Falls and Buffalo, last Friday, by insisting upon riding in the baggage cars and smoking. A gentle hint was conveyed to the Countess that her presence was contrary to the rule, but her very free allusion to a cowhide, in reply, dashed all opposition, and she was permitted to enjoy her situation and her weed throughout the trip.

IMPORTANT DISCOVERY.
DR. CHEESEMAN'S PILLS FOR FEMALES.
Prepared by an old Physician of 40 years experience
THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain in restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open the obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular: and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.
These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. L. CHEESEMAN, Box No. 4,581, Post Office, New York City, can have them sent to their respective addresses by return of mail.

Morning Chronicle.

SATURDAY, JULY 25, 1857.

☞ Brig Flora, of Newcastle, Me., has been seized by the United States Marshal, for bringing to New York, a native Kroonman from the coast of Africa, in violation of law, and the Captain is also subject to arrest. The object in bringing natives to the United States is said to be for the purpose of teaching them enough of the English language to enable them to act as interpreters for the slavers, for which purpose large prices are paid by the slave traders. Hosts of slaves are sacrificed in the middle passage from random medical treatment, while a native could explain the nature of the disease each is suffering, and thus furnish data for correct doctoring.

ADVANCE WAGES AT PHILADELPHIA.—The Philadelphia North American thinks the attempt to put an end to the system of advance wages, ought to be carried out in a different way from that which has been proposed, and relates the following incident in proof that the merchants have been disappointed in their hopes of success:

We are sorry to say that the triumph of the handful of boarding-house keepers over the intelligence of the shipping firms and the best interests of the unfortunate sailors, is almost fully completed. The spectacle presented Tuesday afternoon, at the Spruce street dock, from which the packet ship Westmoreland was just hauling out, would have satisfied any one, that if the sailor is to be disenthralled from his present fealty to the boarding house keeper, other means than those yet tried must be put into requisition. The crew upon the ship had all received the customary advance previous to sailing.

The ship hauled out at 1 1-2 o'clock. The crew were brought down by their masters just as a drove of sheep would be driven into a cattle-truck on a railroad. Any tardiness or show of a disposition to escape, was met with a cuff or blow by way of foretaste of what might be expected in case of more refractory conduct. Those who were too drunk to climb the ship's side were hoisted up by a hight of a rope passed under their arms. One poor fellow, who was just sufficiently sober to realize his position, attempted to bolt from the lines. His movement was anticipated by the man who had shipped him. He was seized by the nape of the neck, and with such violence that his woolen shirt was torn from his back as though it was made of paper. A hearty kick by way of seconding this forcible remonstrance, entirely subdued him, and a moment after, we saw him on a spar letting on the main yard.

We fancy that if Jack received his advance the moment the ship was in blue water, he would be as well satisfied as though he received it ashore. But this 'working out a dead horse, laboring for money which has passed into the landlord's hands, and for which the sailor feels that he has not received a substantial equivalent—this is the principal reason why his services are often so valueless and so reluctantly rendered.

Harriet Livermore, the venerable Second Advent enthusiast, still lives, and is lecturing in Philadelphia, to raise money for a third tour to the Holy Land. She is the lady who preached that the end of the world was at hand in 1847, and who went to Jerusalem to be gathered up with the chosen people of Israel on that occasion.

Harriet was (30 years ago) one of the strong-minded and zealous, with a slight dash of the virago in her composition—a woman of rare energy, and a hard customer to those who opposed her in anything.

☞ A number of students at Williams College were bathing in the Hoosick, when one of the number, a native of the Sandwich Islands, and a very expert swimmer, undertook to cross the river under water, a feat that had been repeatedly and successfully performed before. He was taken with cramp while beneath the surface, and fell, unable to help himself, in only two feet of water on the opposite shore. His companions, thinking he was "playing possum," let him lie for some little time, and when he was at length lifted out he was so nearly drowned that it was some eight or ten minutes before he could be brought to consciousness.

LIQUOR CASES IN PLYMOUTH COUNTY, MA. Upon complaint of the Selectmen of East Bridgewater, Levi Lucas of that town was sentenced last week, by Justice Chamberlain, to twenty days in the House of Correction, with a fine of ten dollars and costs, for breach of the liquor law. Peleg Osborne, on the same charge, received a similar sentence. Osborne was committed, but Lucas appealed. It is stated that sixty of the citizens of Joppa, (a village of East Bridgewater,) have signed a paper binding them to withhold their patronage from the express between that place and Boston, as long as liquor is conveyed by it.

☞ The cost of the contest between the rival powers in New York city will add $150,000 to the taxes, besides the disturbances of peace and loss of life.

PORTLAND POLICE.—The Portland Argus contains the following items.

There was quite a row in front of Mr. A. McGlinchey's store, between Washington and North streets, on Tuesday evening. The Marshal, on his way home, discovered two men fighting, and endeavored to put a stop to it. No sooner had he made the attempt than he was set upon by more than fifty persons, besides two bull dogs. He however maintained his ground and succeeded in making some arrests, one of which, for simple assault only, was disposed of in the Municipal Court.

John McGee was brought up on a charge of assaulting Daniel Randall, the Marshal of the city, while in the discharge of his official duty. McGee said he was present during the disturbance, but did not do any thing and said only a few words. Mr. Randall testified that McGee came up while he was endeavoring to stop the fight and used menacing language, but could not say whether or not he was struck by McGee.—The Court ordered McGee to pay a fine of five dollars and costs, stating at the same time that if the Marshal had alleged a battery in his complaint, the case would have been sent up to a higher court.

McGlinchey was a noted name during Neal Dow's Mayoralty—and now, under the license law's shelter, the traffic which makes fights and rows, thrives again: and the row happens to break out just in front of his shop. What responsible men are in the business of making rows!

☞ On Monday afternoon, 13th inst., a horse, yoke of steers and a cow were killed by lightning, in a pasture in the neighborhood of Mink Hills, in Warren, N. H.

On the afternoon of the same day, the electric fluid entered the house of S. J. Fitts, of Rochester, N. H., at one corner, and crossed the room to the opposite corner, when it threw off the head of an old-fashioned tall clock. The current then divided. One part descended the pendulum of the clock, breaking it into ten or twelve pieces, and passing out at the underpinning of the house. The machinery of the clock was damaged, but not scattered, the hands being set back upon the dial precisely two hours. The other portion of the current followed the course of the timbers of the house into the shed and piggery, killing the hog. In the sitting-room were five persons at the time, none of whom were injured. Mr. Fitts was sitting at the time, leaning back against the clock. Mrs. Fitts, in an adjoining room, was struck senseless for a short time.

There were no marks of fire left, but the whole house, even to the cellar, was filled with a sulphurous smoke.

A BURGLAR SHOT BY A GIRL.—On Monday night, the grocery store of P. Fingler, of York Avenue, Staten Island, was entered by a burglar, who was about carrying off a large amount of property, when Miss Jane Wilcox, a seamstress, who slept in the rear of the store, was awakened by the noise of the burglar, rummaging among the goods. She opened a glass door which separated the apartments, and called out, "Who is there?" when the person started to run. The young lady, at this instant, with unparallelled presence of mind and bravery, caught up a loaded pistol which was hanging in the store and fired at the retreating burglar, who finally made his escape. The lady then aroused Mr. Fingler, who slept overhead, and with his assistance, closed the store. The Times says nothing more was heard of the affair until Wednesday afternoon, when the body of a man 30 years of age, was found floating in the bay, near Clifton. In one of his pockets was found a small crowbar and keys. His face was perforated in two places by pistol-shots, sufficient to cause death. The Coroner's Jury found that the man came to his death, by pistol shots, fired by Miss Wilcox, while he was burglariously employed in the above store, and commended the heroic conduct of the lady in defending the property of her friend at the risk of her own life. The man probably had confederates, who, after he died, threw his body overboard.

SUNCOOK.—A Pembroke correspondent of the Manchester Mirror says:

Suncook village is decidedly a "fast" place, and some of it inhabitants are faster than the place itself. But they are rapidly becoming civilized through the influence of the gospel, and also through the extreme retentive qualities of its one liquor agent. Although any quantity of persons were "unwell" on the night before the Fourth, not a drop could in any way be procured, and on that glorious day the establishment was closed. Suncook, on that memorable occasion, witnessed a sight it had not seen for a long time: there was not a drunken man seen in the streets during the whole day.

This is high praise for the agent, select men and leading people of that place.

☞ The price of a passage to Europe in the Vanderbilt has been reduced to $100 in the first cabin, and $50 in the second. This is owing to competition, and reduces the cost of a European trip to low figures.

SUN-STROKES.—We learn from the Nashua Granite State Register, that John Mahan was found lying sun-struck in Main Street of that city, on Wednesday, the 15th inst. He was taken to his residence, where he died on Thursday forenoon. He was about 50 years of age.

The Manchester American learns that on Thursday, the 16th inst., a man from Orange, N. H. while haying about two miles from Messer's Landing, received a fatal sun stroke. The body was enclosed in a box and sent to Orange; no one knowing the man, farther than he said he was from Orange.

MARRYING A CRIPPLE TO ROB HER.—The Chicago Journal of the 10th says:

On Monday evening, Peter H. Williams and wife arrived in this city from Boston, and took lodgings in a tavern in Jackson street. Yesterday morning Williams had his own and his wife's baggage sent to the depot, and left the city without his wife. They were married but a short time ago in Boston, and at the time of the marriage, Mrs. Williams had about $800 in money, a legacy from her father. She is a cripple from birth, unable to support herself, and it is believed that Williams married her for the purpose of getting possession of her money, and has now deserted her. She is without friends in a large city, and is penniless, and is a worthy object of charity.

☞ An Italian who called at the New York prison to see the murderer of the butcher and policeman, Anderson, was searched, and a book found on him containing a list of all the receivers of stolen goods from Boston to New Orleans, written in Italian.

☞ In Baltimore, on Monday evening, a desperate encounter occurred between several parties of rowdies—the "Rough Skins," the "Double Pumps" and the "Five Points,"—during which firearms were freely discharged, and several persons were shot, though none killed.

☞ The city fathers of Worcester have widened the distances between the posts at the entrance of the common, for the accomodation of the hoop-wearers, who have been unable to get thereupon since the lately increased breadths of their skirts beyond the diameter of four feet, by reason of that modern invention, "ye hoops."

☞ Lucy Squires, the girl arrested for fornication with George E. Burnham, at the Union Hotel, Concord, was discharged from jail on bail, and was immediately married to George E. Burnham, by Col. Wm. E. Chandler. Mr. Burnham and wife took the 10 o'clock train for the North.

MRS. PARTINGTON'S LAST.—"Licentious preachers," said Mrs. Partington, as she heard some one read of the confirmation of a licentiate in the church; "I want to know if there wasn't licentious preachers enough before, and confirmed ones too, without having any more of 'em." She took an immense pinch of snuff as the idea crossed her mind, and her spectacles assumed an air of oracular wisdom as she looked at the ceiling and three spit-balls like had thrown there. "Some of 'em" continued she, "count their rosemaries, and with the cloaks of apocrypha in their mouth, go on for a while, but depend upon it, they get found out at last." She subsided with a gentle sigh, that sounded like a sneeze.—*Sat. Eve. Gaz.*

ANDERSON AND HIS MURDERER.—Anderson, the policman murdered by the burglar, is to have a grand funeral in New York on Sunday, in which the order of United Americans, and military and other bodies will take part. It is said that when the prisoner, Cancerni, was removed from one jail to another for safety, Tuesday night, some thirty persons chased the carriage which contained the burglar, and their knives could be seen flashing in the gas light; and only by rapid driving was the prisoner saved from their vengeance. A Mrs. Augustine Merwin, of St. Mark's Place, an aristocratic quarter, has recognized the wretch as having entered her house and stolen several hundred dollars' worth of jewelry. It seems, says the Sun, that on the 25th of last May, she was awakened at 3 o'clock in the morning by hearing some noise in her parlor, and getting up, entered it; when she confronted a burglar, whom she at once seized, with intention of holding until help was procured. She is a fine looking but strong and resolute woman, and held the burglar some seconds before he broke loose and effected his escape. This he did before Mr. Merwin, whom his wife had called, reached the room. The gas light in the parlor had been lighted, and she saw the burglar so distinctly that she was certain she would recognize him if she again saw him, and thinking from the description, that the man who murdered Anderson, might be the same, called to see Cancerni in prison, and at once beheld in him the man who had robbed her house.—*Traveller.*

PHILADELPHIA, July 23.—Hon. David Wilmot, Union candidate for Governor of this State, has addressed a letter to the American State Council, in answer to certain interrogatories propounded to him by a committee appointed for the purpose. He takes ground substantially upon the American platform, expressing himself in favor of the election of natives to office; of the protection of native mechanics; of protecting the ballot-box from desecration; of Free Schools with the Bible in them, and of the separation of Church and State; and is particularly earnest in a remonstrance against the shipment of foreign paupers and criminals to these shores.

It is said that the captain of the steamer Montreal was drunk at the time of its burning.

HAIR RESTORATIVE.—Every one will, we think, agree with us in the opinion that the human hair is the greatest natural ornament that is possessed either by a gentleman or a lady.—Just meet an apparently good looking man, for instance, in the street; you admire his features, whiskers, and general bearing; but lo! he lifts his hat in recognition of your bow, and the charm has vanished, for Ichabod is written on his bald head, and the glory has departed with the flowing locks that once flourished luxuriantly there. In the case of a lady, the matter is, if possible, worse—such cases reminding one of the circumstances on which the following epigram is founded:

"O! give me, fair Emma, a lock of your hair,
A bashful young lover took courage and sighed;
"'Twas a sin to refuse such a modest request,
So take the whole wig,' the dear creature replied.

Now, to prevent such a catastrophe, is within the power of every lady and gentleman; for, by using Prof. O. S. Wood's Hair Restorative, hair is not only prevented from falling off or turning gray, but the article will restore hair to bald places; and even if it has changed color and become gray, it will bring it back to its pristine beauty and luxuriance. Those who are acquainted with the anatomy, physiology and pathology of the hair, must be well aware that certain substances have a specific action upon it; and it is by judicious combination of these that Professor Wood has succeeded in compounding a mixture possessed of remarkable virtues.—[Waverly Magazine and Literary Gaz.

IF ALL OUR READERS

Who are troubled with liver complaint, Jaundice, or Dyspepsia, will read the advertisement in another column of Dr. Sanford's Invigorator, and then do as we have done—get a bottle, we should not see so many sickly, half-dead, despairing people as now meet our gaze at almost every corner, for certainly there never was a remedy invented of which so much is said, and that performs so nearly what its proprietors say it will do. It came to us so highly recommended that we could not fail to try it, and a trial has convinced us, without a doubt, that it is the best family medicine in use. We take it for Headache, Sour Stomach, Billiousness, and any of the little bodily ills that are common, and it does produce a pleasant state of feeling to the sick, and what is better, after using it a few times, these ills grow less and less, and there is a prospect of being entirely free from them by a continuance in the use of the Invigorator. Lawrence's Carminative,

—OR—

CHILD'S PAIN-KILLER.

THIS invaluable preparation is a favorite scientific prescription of one of the most eminent of the Medical Faculty in New England, and one who has been successful as any other in the treating of

DISEASES OF CHILDREN,

and has been used with never-failing success.

The Carminative is emphatically

A CHILD'S MEDICINE,

and is the *only* Child's Medicine in this country; intended to do away with the excessive and injurious use of *Paregoric*, a remedy sure to be followed by a "dose of physic."

The ingredients of which the *Carminative* is compounded, are known to the Medical Faculty, and it is now extensively used, and approbated by the physicians living in the vicinity of the Laboratory, where opportunity has been had to test its virtues.

The *Carminative* is offered in full confidence for the rapid cure of

Colic, Pain in the Bowels, Wind in the Stomach and Bowels, Green Stools, Diarrhœa, Nervous Affections, Sore Mouth, Restlessness,

and other disorders incident to Weaning and Teething; sure to regulate derangements of the Stomach and Bowels, which often afflict young children; correct debilitated and sour Stomachs, relieve pain and give tone, energy and strength to the whole system.

Due regard has been taken to have the price of the Carminative so low as to be within the reach of all. Price *only* 25 *cents.*

Parents who value rest should not fail to buy a bottle, as they may depend upon its giving relief to "worrisome children."

Sold by country traders and all Apothecaries throughout the United States and Canada.

☞ One of Uncle Toby's nephews has just told the old gentleman some startling stories, and put some questions.

The nephew says that a certain man, Mr. A. B. of this city, was arraigned for a criminal offence, and gave the usual bonds (in a small sum, $50,) to appear at court, and abide the issue, &c. The court came, and so did A. B. Trial was had. The jury went out,—and everybody, including A. B., supposed they would bring in a verdict of guilty. A. B. disappeared, and when the jury came in, the prisoner was missing. No verdict was pronounced.

Three or four months have passed. In the meantime A. B.'s wife has committed similar crimes, has been arraigned, and is now under heavy bonds.

Now A. B. comes back, and is daily committing the same offence.

The questions are: Have his bonds been paid? If not, why is he not re-arrested and held to account?

☞ Rev. J. B. Davis, of Lowell, Mass., formerly settled in this city, is expected to preach at the Hanover Street Chapel to-Sunday, July 26th. His old friends are morrow invited to hear him.

RYE BEACH.—A visit to the Atlantic House during the past week has convinced us that summer travel is by no means abandoned the present season, notwithstanding the hard times. Mr. Philbrick's well-ordered hotel wo found filled with permanent boarders, while his transient or occasional visitors equal in number those of any previous year.—*N. H. Gazette.*

And no wonder—for the Atlantic is one of the very best Houses on the whole coast, or off it either. Without having the fare too high, visitors will certainly "fare high" enough for anybody; and the location is admirable—for you can be on the beach and in the woods almost at once.

☞ Many of our readers will be glad to learn that Highland Cottage is to remain open as a public house, during the season. The ride thither is one of the most pleasant in this region; while the Cottage and surroundings are very beautiful, and the whole conducted in the most agreeable manner for visitors.

THE BRIG MOLLY STARK.—A letter from Capt. Cushman, of the brig Molly Stark, dated at Cork, Ireland, July 2d, where the brig arrived on the 29th ult., from Boston May 24th, bound for Melbourne, states that on Sunday, the 31st of May, in lat. 39 40 North, long. 50 West, wind S. S. W. to W. with rain, the brig going before the wind under reefed foretopsails, she was struck by a southerly sea, abaft the mainchains, and capsized. The captain was carried overboard, but managed to get on deck. The brig righted in five or six hours, full of water, but the deck was completely swept, the cabin gutted, mainmast carried away, and chains and anchors lost. The cooking utensils, nautical instruments and officers' clothing were minus. On the 3d of June they were kindly supplied with a chart, quadrant and cooking utensils by the bark Robert Hastie of Yarmouth, and rigged jurymasts, and sailed for Cork, where the brig will undergo repairs, and proceed on her passage to Melbourne.

FREDERICKTON BANK ROBBERY.—It seems the man calling himself Savage, now under arrest for robbing the Central Bank of Fredericton, New Brunswick of a large amount, is the celebrated bank robber, John W. Rand, who escaped from Concord jail last year, after having robbed the Savings Bank of $1000. Several years ago he committed a most extensive bank robbery in Virginia.

☞ Mr. James H. Shonse, of Woodford county, Kentucky, heretofore considered one of the most wealthy and respectable men of the place, failed last week for several hundred thousand dollars, since which some $200,000 of paper money forged by him has come to light. The Merchants of Louisville suffer heavily by his operations.

POWDER MILL BLOWN UP.—*Two Men Killed.*—The powder mill belonging to Mr. George Matthewson, at New Durham, N. H., blew up at 2 o'clock yesterday afternoon instantly killing two young men employed on the premises, named Joseph Edgerly and Moses Wentworth. The body of one was blown some 50 feet from the building, and the other, 30 feet, and both were much mutilated. The deceased belonged in Dover. It is supposed there were about 30 kegs of powder in the mill when the explosion occurred, but as the two killed were the only persons in the building at the time, nothing can with certainty be known as to the cause of the fatality. At the time of the catastrophe Mr. Matthewson was absent in Boston.—*Ledger.*

FIRE IN ST. LOUIS.—*St. Louis, July* 22. Last night a fire broke out in Keep & Co.'s planting mill, on Second street in this city, which extended to Morton's furniture manufactory, and Brotherton & Sturgeon's saw mill, also consuming several brick dwellings and frame tenements adjoining. Loss estimated at from one to two hundred thousand dollars. Insurance not ascertained.

LET IT OUT.—A vast deal of genial humor, says Mrs. Stowe, is conscientiously strangled in religious people, which might illuminate and warm the way of life. Wit and gaiety answer the same purpose that a fire does in a damp house: dispersing chills and drying up mould, and making all wholesome and cheerful.

PRECOCIOUS LOVE FOR THE BEAUTIFUL.—A little fellow from four to five years old, having perforated the knees of his trousers, was intensely delighted with a patch his grandmamma had applied. He would sit and gaze upon it in a state of remarkable admiration, and in one of these moods suddenly exclaimed:—"Grandma must put another knee and *two behind*, like Eddy Smith's."

CINCINNATI, July 22.—Twenty children on Buckeye street, a densely populated German neighborhood, were poisoned last evening, by eating lozenges, which had been scattered along the street by a man and two boys unknown. Two children are dead, and many others are not expected to live. The lozenges were found to contain equal parts of arsenic, sugar and flour. The man had been previously seen offering packages of these lozenges to persons in the street. The poisoners have thus far eluded arrest.

CINCINNATI, July 24. — The man who scattered the poisoned lozenges along Buckeye street, proves to be a drunken German, who pursues the vocation of selling poisoned lozenges for the destruction of rats. Only one child has died, and the rest will probably recover.

Like a bell that's hung for fire; like a ceaseless auction crier; like ofttimes a raccous liar; mischief making tattlers go: stopping you with quaking fear, whispering as you lend an ear, "Mercy on us, did you hear? Betsey Bean has got a beau!"

ELISHA KENT KANE.
A BIOGRAPHY.
BY WILLIAM ELDER.

IN announcing the LIFE OF DR. KANE, we are but anticipating the wishes of thousands and tens of thousands of the admirers of that great man.

Having been a personal friend of the deceased, and enjoying a large share of his confidence, Dr. Elder is well qualified to do justice to the subject.

This work will be issued in one handsome octavo volume, and will equal in every respect the superb volumes of "Arctic Explorations," recently published.—It will contain a new full-face portrait, executed on steel, as well as engravings of his residence, tomb, medals, &c.

In order to give this work a large circulation it will be sold at the low price of $1 50.

More than $300,000 Sold within 9 Months.

DR. KANE'S GREAT WORK,
ARCTIC EXPLORATIONS.

is now being read by more than two hundred thousand persons, old and young, learned and unlearned. It is just the book which should be owned and read by every American.

500 NEWSPAPERS

have each pronounced it THE MOST REMARKABLE AND MARVELLOUS WORK EVER PENNED.

THE FOREIGN JOURNALS

and the most distinguished *savans* of Europe are extravagant in its praise.

It is more interesting than

ROBINSON CRUSOE;

being a faithful account of privations and hardships, the narrative of which never fails to chill the reader with shudder.

OUR MOST EMINENT MEN

have vied with each other in extolling its merits.

Two vols., octavo. Superbly Illustrated.

THREE HUNDRED ENGRAVINGS. Price $5 00.

Dr. Kane's First Narrative.
The United States Grinnell Expedition in Search of Sir John Franklin,
During the years 1850—51.

A Personal Narrative, by ELISHA KENT KANE, M. D., U. S. N. One volume 8 vo., upwards of 550 pages, containing 200 Steel Plates and Wood Engravings, including a fine Steel Portrait of Sir John Franklin, being the only one ever engraved in America. Also, a BIOGRAPHY OF FRANKLIN, by S. AUSTIN ALLIBONE Esq. $3 00.

This work is totally distinct from the second Arctic Expedition, and embraces much valuable and interesting matter never before published. It should be owned by all who have purchased the last Expedition, as it makes DR. KANE'S works complete.

A PHOTOGRAPH OF DR. KANE,
TAKEN FROM LIFE BY BRADY OF NEW YORK.
Price $5.00.

IN PRESS.

COL. J. C. FREMONT'S EXPLORATIONS.
PREPARED BY THE AUTHOR.
And Embracing all his Expeditions.

Superbly Illustrated with Steel Plates and Wood Cuts, engraved under the immediate superintendence of COL. FREMONT, mostly from Daguerreotypes taken on the spot, and will be issued in a style to match Dr. Kane's work. It will also contain a new Steel Portrait, being the only correct likenesse of the author ever published.

Two Volumes, Octavo—$5.00.

Brazil and the Brazilians.
By Rev. D. P. KIDDER,
OF THE METHODIST EPISCOPAL CHURCH.
By Rev. J. C. FLETCHER,
OF THE PRESBYTERIAN CHURCH.

This new and splendidly illustrated work (one large volume octavo, in uniform style with the superb volumes of Dr. Kane's *Arctic Explorations*,) is the joint effort of the above named gentlemen, who, as travellers and as missionaries, (and one in official position as Acting Secretary of the United Seamen's Legation at Rio,) having had a long and varied experience in a land full of interest, whether we regard it in a natural, commercial, political or moral point of view. Price $3.00.

Porter's Spirit of the Times'
GENERAL PURCHASING AGENCY.

THE CONSTANTLY increasing demand upon us to execute commissions for the purchase of all kinds of articles, both for residents and non-residents of the city, has induced us to establish, in connection with our newspaper enterprise, a

PURCHASING BUREAU,

under the immediate supervision of one of our firm, assisted by the most accomplished experts, *for supplying any article in the world.*

Particular attention will be paid to the selection, purchase, and sale of thoroughbred Cattle and Horse Stock, Trained Dogs, Ferrets and Fancy Fowls, Carriage, Buggy, and Saddle Horses, Carriages, Harness and Saddles, Time Watches, every description of Fire Arms, Sporting Articles, Fishing Rods and Tackle, Music and Musical Instruments, Yachts, Sail and Row Boats, Furniture, Liquors and Segars;—Cricket and Ball Bats, Pads, &c., &c.

AGRICULTURAL IMPLEMENTS,

of the latest and most improved kinds; Seeds, Plants, Fruit, Forest and Shade Trees, and all kinds of Books treating on subjects of importance to the Farmer, Horticulturist, and Florist.

STATE ROOMS ENGAGED

in advance, on Steamers and Packets to leave for Europe, California, the West Indies, or any part of the world. This will obviate the necessity to residents of inland towns, and places where no steamer agencies exist, of coming to New York two or three weeks in advance—as they are now frequently required to do—either to obtain passage, or to secure eligible accommodations. In this department, we will be ready to secure

ROOMS AT HOTELS

at favorable rates, so as to protect the stranger from imposition as well as inconvenience; and, in short, to perform any description or commission that would require the presence of the party himself.

Gentlemen who desire to form Libraries, or who may wish to procure the

CHOICE LITERATURE OF THE DAY,

can always rely upon our judgment and selection. Also, Blank Books and Stationery, and Book and News Paper, for Printers.

FOR THE LADIES,

we will procure the latest Fashion Plates, styles of Bonnets, samples of the newest varieties of goods, Cosmetics, Perfumes, and Fancy Articles, and we shall always be pleased to furnish everything connected with their wants.

In short, for any service which may be required, the public may rely upon us, with the most perfect confidence, fidelity, and dispatch. Apply to

Coggswell's Medical Salt,
A PERFECT SUBSTITUTE
FOR THE
LANCET, LEECHES AND BLISTERS.

INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—but that ONE MALADY accomplishes but ONE THING, to wit: SURDUS INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. Ex-*ternal* or *internal inflammation* (but no other disease) is subdued, by it as easily as fire is extinguished by water. Is it asked, *how* it does this?—simply by restoring the lost balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires merely what adheres to the point of a pin dipped into a solution of it, to affect the entire system.

THIS Coal is a FREE-BURNING, semi-anthracite, adapted peculiarly for family purposes—having such properties as will at once upon trial satisfy the most exacting. Invalids who have used it say that it is the least offensive of any coal now in use, particularly those affected with LUNG DISEASE. As a Summer Coal, *It Cannot be Excelled.*

MYSTERIOUS DISEASE. — The "National Hotel disease" has suddenly made its appearance in the capital of Russia. A letter from St. Petersburg, June 15th, in the Independence, of Brussels, says:

"Several families have, during the last few days, been thrown into mourning in a very melancholy and distressing manner. After a dinner, which took place at the Institution of St. Catharine, a large educational establishment for the daughters of the nobility, under the patronage of the Empress, a number of the young persons who were present on the occasion were taken suddenly ill. Five of them died within four-and-twenty hours, and yesterday the sixth was in the greatest danger. The Countess de Morny, who had been educated at St. Catherine, was present at the dinner, and has since been seriously indisposed. The Emperor afterward visited the establishment, and ordered a most searching investigation to be instituted; but nothing has yet been discovered to throw light on the subject.

FAMILY FATALITY.—Wednesday, the first of this month, Henry and Frank Bullard, sons of Dr. Talbot Bullard of Indianapolis, Indiana, formerly of this county, were precipitated, with all their fellow passengers in a railroad car, from the top of a bridge, to the ground fifty feet below. One had just exclaimed, 'Oh! in a few moments more and we shall be at home.' His words were truer than he thought. One died instantly and the other in the evening.—Their maternal grandfather, a lineal descendant of John Cotton, of Puritanic memory, was choked at the age of 105. Their paternal grandfather, Dr. Artemas Bullard, of West Sutton in this county, father-in-law of Judge Barton, fell from a hay loft in 1842, when he was 74 years of age, and broke his neck. One of their uncles, Dr. Jesse Bullard, went down with his shipmenta just off San Francisco, in a sudden squall in 1851. In 1855, another uncle, the Rev. Dr. Artemas Bullard, of St. Louis, formerly of Fitchburg, was killed at the railroad disaster at Gasconade Bridge, Mo.—*Worcester Trans.*

A FOOLISH SON IS A GRIEF TO HIS FATHER. The sad tendency of a course of dissipation was exhibited on the Lexington train on Thursday afternoon. A young man of respectable position, who had become crazed with liquor, conducted himself in so violent a manner that it was found necessary to confine him in the baggage car to take him home. The knowledge of this public exposure—together with the real condition of his son—so affected his father that he fell in a fit, and fatal consequences were apprehended.—*Cambridge Chronicle.*

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FRENCH & Co are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combination. Prizes vary in amount from $20 to $100,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published in the Baltimore Commercial, in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The managers of these lotteries call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the order comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to verify the payment of prizes from $40 to $50,000; every prize being drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers which have been drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—*New Orleans Delta, Mobile Register, Charleston Mercury, Nashville Gazette, Atlanta Intelligencer*, and New York Weekly *Day Book*. Write your address plainly, and direct to SAM'L SWAN & Co., Atlanta, Georgia.

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

All communications strictly confidential. m13ly

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,
(*Late Agent of U. S. Patent Office, Washington, under the Act of 1837.*)

No. 70 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents, or Inventions; and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that since the Office of Mr. EDDY has AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANCED ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense property involved in the number during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of Mechanical and Scientific works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved to inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were then many persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill and fidelity than Mr. Eddy. Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot do better than employ a competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

APPOINTMENTS SINCE MY TIME. I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

City Hotel, Portsmouth, N. H.

BY WM. S. HADLEY.

THE SUBSCRIBER has the pleasure of announcing to his old patrons, and the travelling public generally, that he has leased this well-known, commodious and pleasant House, and would invite travellers and others to make "themselves at home" in the premises—promising to spare no reasonable effort which may conduce to the comfort and satisfaction of visitors.

While acknowledging the liberal patronage with which we have been so long favored by our old quarters; we would solicit a continuance, now that our accommodations are so much improved and improving. WM. S. HADLEY.
Portsmouth, June 15, 1857.

Granite House,

No. 5 Pleasant Street, Portsmouth, N. H.,

By GRANT & LEWIS.

THE Subscribers having leased this well-known and popular establishment, long occupied by Col. WM. H. PHILBRICK, as an

EATING-HOUSE AND HOTEL,

would invite the patronage of the public, whether citizens or visitors from abroad.

The House has been refitted and newly furnished, and will be conducted as heretofore—Permanent Boarders or transient visitors accommodated.

B. H. GRANT. L. B. LEWIS.
Portsmouth, July 4, 1857. tf

That Favorite Summer Resort and Watering Place.

The Gerrish House,

KITTERY POINT, ME., NEAR PORTSMOUTH,

HAS recently been put in thorough order, and newly furnished throughout; and the subscriber having taken a lease of the same for several years, will hereafter have it open to the public *at all seasons of the year.*

Coaches leave the House *twice daily*, for the cars at Portsmouth and Kittery Depots.
July17 2m ANDREW AMEE, Kittery, Me.

Atlantic House,

RYE BEACH,

IS now open for visitors. The reputation of this House is too well established to need any lengthy description of its advantages. The Proprietor will, as heretofore, devote himself to the comfort of his guests.

Passengers by the Eastern Railroad will stop at the North Hampton station.
Rye Beach, June 20. 6w J. C. PHILBRICK.

SAGAMORE HOUSE,

FROST'S POINT, RYE, N.H.,

IS NOW OPEN FOR PUBLIC ACCOMMODATION.

TRANSIENT and permanent boarders will be accommodated on reasonable terms. Persons desirous of visiting this splendid retreat, and coming by Railroad, will stop at the Depot in Portsmouth—where MR. WILLIAM D. PERKINS' COACH will be in readiness to convey them to the House.

The SCHOONER SIBYL, commanded by CAPT. RUFUS A. PIERLE, will touch at the Point daily, to convey passengers to and from the Isle of Shoals.

Pleasure Boats in readiness for sailing or fishing parties. GEORGE W. ROWLE.
Rye, July 1, 1857.

Appledore House,

ISLES OF SHOALS,

IS now open for Public Accommodation.

The schooner SIBYL, (one of the beautiful yachts built by the late Geo. Steers,) will run daily to this Island from Pier Wharf, in Portsmouth, immediately after the arrival of the morning train of cars from Boston, and return in the afternoon.

The Sibyl is commanded by Capt. RUFUS A. PIERLE, a thorough seaman, who will give every attention to the comfort and enjoyment of his passengers.

The Sibyl has a magnificent cabin, water closets, tanks, and every accommodation which a first class Packet requires.

The advantages this purely Ocean Retreat possesses over all others are well known. Resting on the broad bosom of the Atlantic—free from heat, dust and noise—it is peculiarly fitted to restore health to the invalid, and rest to the careworn and weary. j22 THOMAS B. LAIGHTON.

ATLANTIC HOUSE,

Wells Beach, Me.

AS THE season for summer travel and recreation approaches, we would allow to suggest this Beach, as one which for boldness, beauty and variety of scenery, is unrivalled on the New England Coast.

This House, located on its most prominent and picturesque part, has been thoroughly refitted and furnished, and is now open for the reception of Visitors. Rare inducements are offered for GUNNING and FISHING, and the best of Horses, Carriages and Boats are subject to order. Visitors may be assured that nothing shall be wanting on our part to make their stay agreeable and satisfactory.

A Coach running from the House will connect at Wells Depot, with every train on the Portsmouth, Saco and Portland Railroad. Room can be engaged for any length of time by letter addressed to either of us at *Wells Depot Post Office.*

AMERICAN HOUSE,

BOSTON.

Conducted on the European Plan.

LEWIS RICE, Proprietor, respectfully announces that in compliance with the universal preference expressed for the European system of hotel management, that the American House will hereafter be conducted solely on that plan. Well furnished parlor and sleeping apartments will be let by the day, or for longer periods. Meals served at the gentlemen's hall at all hours of the day and evening. The ladies' dining hall will be open, as in the manner for ladies, and gentlemen accompanied by ladies. The accommodations and conveniences of the house are unsurpassed, and the recent improvements and alterations leave nothing to be desired. Suburban residents will find the arrangement specially convenient. Large or small parties provided with dinners, suppers, &c., at short notice.

SUICIDE OF A LYNCHER CAUSED BY REMORSE.—In Cedar County, Iowa, a young man named Finch, son of a church deacon, and a member of a vigilance committee, led away by evil companions and the counsels of men who should have set a better example, was present when the life or death of two horse thieves, one named Kelso, was hanging in the balance. The lynchers took a vote on the subject, and when the fatal hat came round Finch dropped into it his ballot, inscribed with the word "Death." On counting the ballots, a majority were found to have declared that the culprits should die, and Kelso and his comrade were accordingly hung to a neighboring tree. Young Finch after witnessing their dying struggles, went home, when his Christian mother anxiously asked him if the thieves had been caught. "Yes," he told her, "an I he had voted to hang them." His mother sadly and solemnly told him he had no right unlawfully to take that which he could not give—the life of a fellow being—and continued for a few moments speaking of the enormity of the act. He then left her, and went out to plough, but after ploughing a few furrows, he tied his horse, took off one of the reins, and with it hung himself to the lower limb of a tree. When found his knees almost touched the ground, and he evidently could have arisen to his feet at pleasure had he changed his purpose before insensibility supervened. All attempts to restore the unhappy youth to life proved useless. The affair produced considerable feeling among the members of the vigilance committee.—*Traveller.*

BODY IDENTIFIED.—The body of the woman found a few days since in a pond on the farm of Leonard Childs, Waltham, supposed to be that of a Canadian, was exhumed on Saturday, by order of Coroner William Hobbs, of that town, when it was identified as the wife of Patrick Donnell, an Irishman, living in Cambridge.—The identification was mainly by the dress (calico) worn by the deceased, which was compared with a dress worn by one of Mr. Donnell's children, made from the same piece of goods. It appears that the woman had not lived with her husband for some eighteen months or two years on account of domestic troubles. She was at times partially insane, and doubtless committed suicide while laboring under one of these attacks. She was about 45 years old, was somewhat dissipated, and has given her husband, who is a respectable and industrious man, not a little trouble.

Rest in peace!

Nathaniel H. Stiles has been convicted in Vermont of attempting to poison Charles L. Fairbrother. It appeared by the evidence that Fairbrother swallowed the extraordinary quantity of a drachm and a half of strychnine, yet it merely "inconvenienced" him, and was removed by an emetic. Stiles was sentenced to the State Prison for seven years.

IMPORTANT DISCOVERY.

DR. CHEESEMAN'S PILLS FOR FEMALES.

Prepared by an old Physician of 40 years experience

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are a safe and sure remedy certain to restoring nature to its proper channel. In every instance have the Pills proved successful. They are found to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to DR. C. L. CHEESEMAN, Box No. 4,531, Post Office, New York City, can have them sent to their respective addresses by return of mail.

ARE well known in the United States, and are conspicuous for their regularity and finish, their unvarying uniformity of size, and for the excellent quality of iron from which they are made, to which *may* be attributed their rare strength. HAVE WE MADE ANY PROGRESS?

NO. IV.

Speaking of the minister's call on the family, 40 years ago, and of the certainty that he must be invited to drink, we promised to notice him in this chapter.

Forty years ago, we knew but one minister in this vicinity, who did not drink wines and liquors, viz. Rev. Josiah Webster of Hampton, who had come to the conclusion that they were useless; yet, according to the universal custom of that day, he provided them for his brethren of the cloth when they came to visit him, or held association at his house.

At a meeting of a clerical Association about 1821, in a farming town in this vicinity, after sermon in the morning, the association dined at the parsonage, and before dinner, liquors of three or four different sorts were exhibited, of which every minister partook, and every person except the writer of these lines. The drinking exacted no remark then, for it was the common custom in all such circles; and only remembered by the writer, being his first visit of that sort, in contrast with all the others of the same kind for the last 20 years and more. It is mentioned now and here, only for the purpose of contrast. Not more than two of that little company, we think, are now among the living—and they both rejoice in the entire change of this custom; which change, we trust, makes no one sorrowful or sad. Where is the people now, who would wish their minister to be otherwise than pure from this folly, whatever their own practice may be?

But though ministers nearly all drank then, says a young man, surely *they* were not intemperate, were they?

Sad to say, some of them were, whose names and wretched stories are fresh in mind,—but will not be told here.

Instead of this, we will present the case of the late Rev. Dr. Justin Edwards, president of Andover Institution, in which he he gave a view of the young pastor in danger of becoming a drunkard, and told the manner of his own escape.

Mr. Edwards, at the commencement of his public ministry, was ordained pastor of a large parish in Andover, Massachusetts. With an earnest desire to become acquainted with all his people, he undertook to visit every family of the parish in regular course. Announcing his purpose on Sunday, he omitted Monday, (being washing day,) visiting only the sick, and those who sent in notes for prayers. But on Tuesday morning, he began in a neighborhood which he had designated, where he found, as he expected, every family prepared graciously to receive their new and young minister.

At the first house, he was invited to drink, and did so, spent his half-hour, and passed on. At the next house, was invited to drink again, but declined, saying he had just drank; the host seemed hurt, and pressed him to drink: he barely sipped the liquor, and leaving the most of it, gave deeper offence perhaps, than by the first declining. He did not finish the liquor, however; but he did finish the visit, and he went through the day, nearly in the same manner, rather lengthening the visits and drinking as lightly as possible. The next day, he began again, and encountered the same kind of invitations, which he met with refusals in some cases, and sips in others,—giving offence in both; not in every case, to be sure, but in so many, that on Wednesday noon, he gave up the visiting business for that week, and took refuge in his study.

On Sunday, he stated the case to his people, plainly and kind: Not suggesting that it was a bad or even useless practice to drink rum or other spirits, or to offer such refreshments and civilities to visiters, for of all this he had no idea: But he told them that if he took only a little at every house, he must really drink a great deal when he made many calls; and that if he drank but that little, he should certainly offend those who offered it, as it was then supposed that if any one left liquor in his glass, he did not like it, or meant to put a slight on the giver. Moreover, if he drank in one place and refused in another, he would give great offence in the latter.

For these reasons, he added, he should ask the liberty to decline drinking anywhere, as he made calls, and hoped the people would excuse him. They had never heard the like, and some hardly knew what to make of it;—but the proposal looked reasonable to the better portion; their preacher was young and popular, and the people submitted to the change. He went through his parish without any further difficulty on this point: and though he, like everybody else in that day, had been trained to occasional drinking, yet as he declined it on *all visits*, he began to think he felt better for it than when he drank. He therefore declined it even at funerals.

THE DOUBLE MURDER AT CINCINNATI.—Joseph Loefner, the German who murdered his wife and Mr. Horton, at Cincinnati, and then attempted suicide, was employed by the latter as gardener and hostler. Mrs. Horton having been confined recently, the German's wife, Francisca, had been employed in the house, but resided in a neighboring street. She is described as a beautiful and extremely amiable young girl of twenty, who had been married to her murderer but eight months. Several of the Ohio papers called him Koehler, but do so by a mistake. That was his wife's maiden name, by which, however, he was sometimes known. Loefner, after his attempted suicide, was conveyed to the hospital in a speechless though perfectly sensible condition, and during the day and evening endured excruciating agony from the wound in his throat. At night, however, he made a confession, and charged his victims with criminal intercourse, as will be seen by the following extract from the Cincinnati Commercial:

At a late hour last night, we visited the Commercial Hospital, where we learned that the murderer had confessed to the attending physician and to others, a short time previous, by writing upon a slate, that he had committed the murders with which he was charged.

He said he "was inspired by jealousy.—He had seen Mr. Horton in bed with his (the murderer's) wife, and had then threatened to kill him. He did kill him, and was glad of it. The night he killed his wife he called to see her at their room, when she offered him a piece of bread and butter. He suspected that it was poisoned, and told her she must eat of it first.—She refused. He told her she must or he would kill her. She persisted in her refusal, and he did kill her." He also made a similar statement to a priest called at his request to receive his confession.

Persons living adjacent to the room occupied by Mrs. Loefner, state that they heard L. charge her with infidelity, and she denied it earnestly and persistently.

At nine o'clock last night a reaction took place in the murderer's system, and some time after he fell into an easy slumber, and at midnight slept soundly. The physician stated that not only was the case not hopeless, but that he might get well. If the æsophagus is uninjured, a fact not determined, he will probably recover;—otherwise he will die.

He is said to have, on several occasions, exhibited a violent and ungovernable disposition. He was engaged by Mr. Horton as a gardener, and to take care of the horses, and it is said that upon one occasion, when the harness became entangled, he seized a knife and cut it to pieces, after which he turned and served his coat which was hanging in the stable in the same manner. The evening previous to the tragedy, he had been reprimanded by Mr. Horton for exercising undue cruelty to the horses, and it is said that at that time he had muttered dark and malignant threats. He was a German by birth, but has lived in this country for years.

Mr. Horton was fifty years of age, a large manufacturer of grates and marble-lized iron, and leaves a wife and six children.

THE NEW YORK POLICE TROUBLES.—There is a momentary lull in New York city, but matters in regard to the police have not yet been placed on a safe and stable basis.—The Metropolitan Commissioners have received the following letter from William Wilson, Alderman of the First Ward:

Gentlemen—On behalf of the residents of the 1st Ward, I ask you either to send a proper Police force that is willing and able to protect them, or withdraw the few men you have sent there. Robberies and rapes are nightly committed around the Battery. If you do not take immediate action, the citizens will organize a protective force, and then your few men must vacate the premises.

WILLIAM WILSON, Alderman 1st Ward.

THE SCOTCH POISONING CASE—ACQUITTAL OF MISS SMITH.—The steamer Circassian, arrived at St. Johns, N. F., from Europe, brings the intelligence that Miss Madeline Smith, of Glasgow, on trial on the charge of having poisoned her lover, M. L'Angelier, has been acquitted. Miss Smith took passage for New York in the steamship Asia, which left Liverpool the same day with the Circassian.

In this connection it may be stated that young Anglier was the son of the cultivator in the Isle of Jersey, of the famous pear of that name, now so well known in this country.

☞ Joseph Morrison, a school teacher, aged 50, was drowned near Mace's Bay, N. B., while crossing the river in a wagon. The water was too high, and the wagon parted.

☞ Six hundred cords of wood, worth $1000, belonging to the Lenox Furnace Company, was destroyed by fire on Washington Mountain, Berkshire, on Sunday.

ARRIVAL OF THE ASIA.

NEW YORK, July 24.

The Cunard Steamer Asia, Capt. Lott, from Liverpool 11th instant, arrived at this port, this evening. Her news is but a few hours later than that by the Circassian.

The Advertiser says there will be an election for the city of London, Baron Rothschild having pledged himself to resign in the event of the failure of the bill for the removal of the Jewish disabilities.

At Oxford, Lord Monck is the opponent of Thackeray.

The ships engaged by the East India Company for the transport of troops, comprised, on the 10th, six steamers and eleven sailing vessels.

FRANCE.—The Moniteur publishes an article on the elections, saying that during eight years, the number of dissentients, instead of increasing, has diminished; but France, which has now judged them five times, has not changed her opinion. The article does not, however, conclude without a general warning to the press, saying *limit* must now be put to discussions which can now have no other object than the useless *agitation* of public feeling.

PERSIA.—The Persians were strengthening the fortifications of Herat, though by the treaty of peace, they were bound to evacuate the place.

LATEST FROM KANSAS.—*St. Louis, July 21.*—Latest advices from Kansas, report all quiet. Gov. Walker was still at Lawrence, with 400 dragoons, awaiting some further action of the people before resorting to decisive measures. He would attempt the collection of taxes in a few days.

FIRE.—An alarm about half past 12 o'clock Friday afternoon was caused by the explosion of a still in the distillery of the Messrs. Trull, on Merrimac street, Boston. The explosion was followed by the ignition of a quantity of rum, and such was its force that it knocked over two or three persons in the doorway of an adjoining building, and the steam badly burnt three or four men. The fire burnt through the roof and caused considerable damage to the interior of the building. The loss is about $1000 or $1200, which is covered by insurance.

A girl ten years old, named Anna Harkins, whose parents reside on Andover street, was so badly burnt by the flames of the burning liquor that she died.

HOW CLOSE THEY VOTE.—A correspondent of the Boston Traveller sends to that paper the following:

"A striking illustration of the truth of your remark that 'New Hampshire beats everything,' in the proportion of her voters, was given me on Tuesday, while stopping at a small town in the interior of that State. At the last election for Representatives to the General Court in the town referred to, the voting list bore the names of 114 voters. One voter had declared quite publicly to the friends of the rival candidates that he should not cast a vote against them, and kept his word with all by abstaining from the polls. The two candidates, though at the polls, and voting for other officers, withheld their votes for Representatives, leaving 111 voters. On the 1st ballot, each candidate received 55 votes, and the same result followed the second ballot; the only outstanding voter being a clergyman, who thought it well, while he voted for the other officers, to keep aloof from the strife of a town Representative. Under the pressing demand made upon him, his vote was given on the third ballot, electing the Republican candidate by a vote of 56 to 55. This was in a town where the population is sparse, and many of the voters over 70 years of age, and one of whom, aged 86, it was my pleasure to meet, as he was taking his accustomed ride on horseback, looking as hale and hearty as many at 60."

INSTALLATION AT MANCHESTER, N. H.—Rev. Aaron C. Adams, formerly of Malden, Mass., was installed as pastor of the Franklin street Church on Wednesday evening. The sermon on the occasion was by Rev. Mr. Dexter, of the Pine street Church of Boston, his theme being "Irresistible Preaching," which was not, he said, pretty preaching, or inoffensive preaching, or secular preaching, nor the dry doctrinal preaching, even of the truest possible truth; but irresistible preaching was wise and spiritual preaching. The Mirror calls it an able production, written in elegant style, and abounding in many good points. The installing prayer was by Rev. William Savage, of Franklin; charge to the pastor by Rev. George E. Adams, of Brunswick; address to the church by Rev. R. T. Robinson, of Winchester, Mass.

☞ Dartmouth College (Hanover, N. H.) Class Day takes place on Tuesday, 28th. The oration will be delivered by E. C. Brabble, of Plymouth, N. H., and the poem by Henry Fuller, of Concord. The parting address at the house of the President will be made by Royal S. Crane, of Lowell, Mass. The customary festivities around the "Old Pine Tree" will follow, and then the class will separate. George W. Curtis gives his new oration before the literary societies on the next day, 29th.—Commencement day occurs on Thursday, July 30.

☞ The Salem Gazette makes rather a *strong* statement. It says that an array of forty skunks was seen in a pasture in North Salem, Thursday morning. Six of the number were killed. The laurels upon the brow of "Dake," a dog that attacked the force, were found to have a peculiar and rather unpleasant odor.

☞ Harper's Monthly Magazine for August, just received by A. Williams & Co., Boston, and J. F. Shores, jr., Portsmouth, has four richly illustrated articles, on North Carolina, Wheat, Java, and the States General. We have never seen a better number of Harper.

HAIR RESTORATIVE.—Every one will, we think, agree with us in the opinion that the human hair is the greatest natural ornament that is possessed either by a gentleman or a lady.—Just meet an apparently good looking man, for instance, in the street; you admire his features, whiskers, and general bearing; but lo! he lifts his hat in recognition of your bow, and the charm has vanished, for Ichabod is written on his bald head, and the glory has departed with the flowing locks that once flourished luxuriantly there. In the case of a lady, the matter is, if possible, worse—such cases reminding one of the circumstances on which the following epigram is founded:

'O! give me, fair Emma, a lock of your hair,'
A bashful young lover took courage and sighed:
'Twas a sin to refuse such a modest request,
So take the whole wig,' the dear creature replied.

Now, to prevent such a catastrophe, is within the power of every lady and gentleman; for, by using Prof. O. S. Wood's Hair Restorative, hair is not only prevented from falling off or turning gray, but the article will restore hair to bald places; and even if it has changed color and become gray, it will bring it back to its pristine beauty and luxuriance. Those who are unacquainted with the anatomy, physiology and pathology of the hair, must be well aware that certain substances have a specific action upon it; and it is by judicious combination of these that Professor Wood has succeeded in compounding a mixture possessing the above virtues.—[Waverly Magazine and Literary Gaz.

IF ALL OUR READERS

Who are troubled with liver complaint, Jaundice, or Dyspepsia, will read the advertisement in another column of Dr. Sanford's Invigorator, and then do as we have done—get a bottle, we should not see so many sickly, half-dead, despairing people as now meet our gaze at almost every corner, for certainly there never was a remedy invented of which so much is said, and that performs so nearly what its proprietors say it will do. It came to us so highly recommended that we could not fail to try it, and a trial has convinced us, without a doubt, that it is the best family medicine in use. We take it for Headache, Sour Stomach, Billiousness, and any of the little bodily ills that are common, and it does produce a pleasant state of feeling to the sick, and what is better, after using it a few times, these little ills grow less and less, and there is a prospect of being entirely free from them by a continuance in the use of the Invigorator. LOCAL.

☞ Dinks was on the street Saturday morning, and seeing a friend from the country, remarked that it was fine weather. "Yes," said he from the rural districts, "fine weather for hayin'." Dinks exactly coincided in this opinion, and ventured an observation to the effect that he thought it was "much finer weather for hay-in than for hay *out*."

☞ Uncle Toby acknowledges with thanks, the present of a basket of red cherries, ripe and rosy, from the garden of Mr. Robert Shillaber. They had only one fault, viz: they wouldn't keep.

Also, several days ago, a basket of excellent new Potatoes, from Mr. James F. Pickering, of Newington—the largest and finest we had seen up to that date.

THREE PERSONS TOMAHAWKED BY A MADMAN IN MICHIGAN.—On Sunday last, a man by the name of Phillips, who resides on Sashaba plains, above twelve miles from Pontiac, had been at Corunna under the charge of a physician, his mind having become temporarily disordered from *intemperance* and other causes. He returned home on Saturday night last, apparently in his right mind, without any signs of mental aberration visible. The first symptoms of his returning malady were on Sunday morning. When the wife was milking, she heard a large stone whiz past her head and looking around to see whence it came, saw her husband rushing towards her with an axe raised to strike her. Before she could get out of his way, he struck her a severe blow in the back, between the shoulder blades, inflicting a deep and frightful wound. She screamed for help, and a hired man being near, sprang to her assistance, when Phillips turned upon him, striking him with the axe, breaking his right arm, and inflicting some other serious wounds.

A son of Mr. Phillips, some nine or ten years of age, here interposed to save the hired man, when the maniac father turned upon his son, striking him a heavy blow upon the head with an axe, breaking in his skull frightfully. After these demonstrations, he calmed down somewhat, and was confined so as to prevent his doing any further injury, but is now a raving and hopeless maniac. On Monday morning, Mrs. Phillips, the hired man and the son were all alive, but were in a dangerous situation, and it was not expected they would survive.

☞ Monsieur Godard went up from Philadelphia on Wednesday, with a jackass appended to his balloon. On being cited from the ground by the balloon, the jackass tried the old trick of planting his legs at an angle of about fifty degrees, with his hoofs ahead of his body, in the orthodox style of resisting jackasses; but that movement proving a lamentable failure, he now up his legs, as if to get them out of the way, as useless appendages. He then looked sagely around, first at the up-turned faces of the crowd, then at the house-tops, and finally, finding all things else falling from view, he turned his exclusive attention to the inflated mass over his head. Jack was astonished, if ever a donkey was this world.

FATAL SUN-STROKE.—On last Wednesday, in Salem, N. H., Reuben Rich, formerly of Oxford, Me., was sun-struck, and after lingering in extreme agony for two hours, expired.

A decision has been given in the case of Jas Haggard, who charged Capt. Conway, of the ship Switzerland, with compelling a rape upon her person, during a voyage from Liverpool to New York. The commissioner argued from her silence while on board, and for so long a time after her arrival here, that no violence had been used, so he dismissed the complaint and discharged the defendant.

The Great English Remedy.

SIR JAMES CLARKE'S

Celebrated Female Pills.

Prepared from a prescription of Sir Jas. Clarke, M.D., Physician Extraordinary to the Queen. This invaluable Medicine is unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject. Moderates all excess, removes all obstructions, a speedy cure may be relied on.

TO MARRIED LADIES

It peculiarly suited. It will, in a short time, come on the monthly period with regularity. Each bottle, Price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.

CAUTION.

These Pills should not be taken by females that are pregnant, during the FIRST THREE MONTHS, as they are apt to bring on Miscarriage, but at every other time in every other case they are perfectly safe.

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Fatigue on slight exertion, Palpitation of the Heart, Hysterics, and Fits, these Pills will effect a cure when all other means have failed, and although a powerful remedy, do not contain iron, calomel, antimony, or any thing hurtful to the constitution. Full directions accompany each package.

Sole Agent for the United States and Canada, JOB MOSES,

No. I. C. BALWDIN & CO.,) Rochester, N.Y.

LYNCHING IN IOWA.—On a farm three miles west of Montezuma, Iowa, last fall, two bodies were found under a couple of corn-shocks, in a corn-field, which proved to be those of a young man and woman.—They had been shot and stabbed, and, when found, were in a state of decomposition.—They were subsequently identified as the bodies of a young married couple from Indiana, who were passing through Mahaska county north, to make a settlement. They had a wagon, in which was contained their household goods, and four horses, amounting in value, it is supposed, to about $800. A correspondent of the New York Tribune, thus speaks of the arrest of the supposed murderer:

"A man in Polk County was soon after arrested on suspicion of having committed the murder. Some of the property was found in his possession; he was identified (as having followed) them, without any ostensible object, and against their wishes; traced to the place where the murder was committed, where several shots had been heard in quick succession, &c. This old man was called Cumquick, but gave his real name as William B. Thomas. He had never sustained any character; was universally detested; had no known occupation; would often be absent for weeks, no one could tell why or for what purpose; was addicted to drinking, and all his occupation appeared to be gambling. He was examined, and all were satisfied of his guilt (additional evidence has subsequently been obtained,) and he was confined in Davenport jail, to await the next session of the Court."

His trial was postponed and postponed, till at last some came to the conclusion that he would not be tried at all. On the 14th of July, in consequence of the excited state of the community, the Court granted a change of venue, by which he was ordered to be tried next fall at a town distant one hundred miles. The people had formed themselves into a vigilance committee, to prevent the removal of Cumquick, and the jail had been guarded for a week, the authorities fearing an attempt to capture the prisoner. The decision of the Court in favor of a change of venue settled the affair:

"The news flew. A man arose in the crowd; stated with gushing tears, that he had several times traveled hundreds of miles, at a great expense, to see the murderer of his sister have a fair trial: again he was disappointed, and the consequence would be that he would escape.—Immediately a rush was made for the prisoner, the officers overpowered but not hurt, and the prisoner borne away to the woods, half a mile from town. There he was hung upon a branch of the nearest tree, and let down insensible. An opportunity was given him, and he was urged to confess. That he would not do, and this was repeated three times—the prisoner still protesting his innocence. The fourth time the rope was tied fast, and in a few minutes he was *dead*. Scores and hundreds came out from town to witness the spectacle, but no regret or sorrow was felt by any. All seemed to rejoice, and congratulated each other that earth was rid of a monster. The best citizens, most wealthy and most pious, moral and intelligent, ministers and laymen, all approved of the act, and thought a duty performed.

Not a person was intoxicated, none excited; it was done coolly and deliberately, without any disorder, very little noise, and no hurry or quarrelling."

LOUISVILLE, 22d.—Mr. Prentice of the Journal, and Mr. Durett of the Courier, were arrested this evening, and held in $3000 each to keep the peace.

Manny's Celebrated Mower

—AND—

MOWER AND REAPER.

IMPROVED.

Built expressly for the New England States.

THE MANNY MOWER has been extensively used for the past two years in New England, and more than six years at the West.—Its success is beyond that of any other Mower or Reaper ever constructed. The 150 *1st Premiums* have been awarded it, including the *Grand 1st Class Silver Medal* at the WORLD'S FAIR, PARIS, 1856.

With the two past years' *experience*, we have been enabled to make a number of very *important improvements*. We find New England farmers require a different Machine from other sections;—the fields generally being small. It must be *light*, at the same time possess *great strength; portable*, with facilities to *raise the cutter to pass obstructions*, and to remove from field to field. A perfect cutting apparatus, to cut the fine grasses without clogging, and so constructed as to *start* in the grass *without backing*, easily adjusted to cut high or low, and have a Reel to cut equally well with or against the wind, and to be worked with ease by a light team, and so easily managed and simple that any one of common ability may operate it successfully, and to be built in the most thorough manner.

With this knowledge of the farmers' requirements, and with the determination to build a *better* Machine than has ever before been constructed in this country, we offer the **Manny Mower of 1857** with confidence, as combining the qualities enumerated above, and as one particularly adapted to meet the wants of New England farmers.

Price of Mower, $110; with Reaper attachment, $15 Extra. Delivered on board the cars at Worcester, Mass. JOHN P. ADRIANCE & Co.,

Lawrence's Carminative,

—OR—

CHILD'S PAIN-KILLER.

THIS invaluable preparation is a favorite scientific prescription of one of the most eminent of the Medical Faculty in New England, and one who has been successful as any other in the treating of

DISEASES OF CHILDREN,

and has been used with never-failing success. The Carminative is emphatically

A CHILD'S MEDICINE,

and is the *only* Child's Medicine in this country; intended to do away with the excessive and injurious use of *Paregoric*, a remedy sure to be followed by a "dose of physic."

The ingredients of which the *Carminative* is compounded, are known to the Medical Faculty, and it is now extensively used, and approbated by the physicians living in the vicinity of the Laboratory, where opportunity has been had to test its virtues.

The *Carminative* is offered in full confidence for the rapid cure of

Colic, Pain in the Bowels, Wind in the Stomach and Bowels, Green Stools, Diarrhœa, Nervous Affections, Sore Mouth, Restlessness,

and other disorders incident to Weaning and Teething; sure to regulate derangements of the Stomach and Bowels, which often afflict young children; correct debilitated and sour Stomachs, relieve pain and give tone, energy and strength to the whole system.

Due regard has been taken to have the price of the Carminative so low as to be within the reach of all. Price only 25 *cents*.

Parents who value rest should not fail to buy a bottle, as they may depend upon its giving relief to worrisome children!!

Coggswell's Medical Salt,

A PERFECT SUBSTITUTE

FOR THE

LANCET, LEECHES AND BLISTERS.

INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—but but ONE AIM—accomplishes but ONE THING, namely, to remove inflammatory disease—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. Every *form of inflammation* (but no other disease) is subdued, by it as easily as fire is extinguished by water. Is it asked, *how* it does this?—simply by restoring the lost balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires merely what adheres to the point of a pin till dipped into a solution of it, to affect the entire system.

PHILADELPHIA FRAUDS.

The late Presidential Election was virtually decided, and the election of Buchanan secured, by the result of the State Election in Pennsylvania on the second Tuesday in October last. The result was produced by money contributed in this City and expended in Pennsylvania just before the election. Had the vote been taken two weeks earlier, Buchanan would have lost the State by from five to ten thousand majority. His leading supporters knew it was against them when they came here and pressed our Pro-Slavery bankers, brokers and office-holders into giving them the requisite money wherewith to reverse the popular verdict. And they know now that Mr. Buchanan was made president by that levy.

At that election Philadelphia was made to give a Buchanan majority of 3,435—the vote for Canal Commissioner standing, Scott (Buch.) 36,038; (Cochrane, (Union Opps.) 32,603. And thus Buchanan majority in the City was more than the ticket obtained in the State: the total vote standing—Scott, 212,835; Cochrane, 210,111: Scott's majority, 2,775. Thus outside of Philadelphia, in spite of the universality of the frauds whereof that city was the focus, Cochrane had a clear majority of 660 votes.

The frauds in Philadelphia were so gross that William B. Mann, the Opposition candidate for District Attorney, who was beaten in the vote polled by Lewis C. Cassidy, the Buchanan candidate, resolved to contest the return before the higher Courts of that city. The case has at length been brought to issue, and on Saturday Judge Thompson delivered the unanimous opinion of the Court, ousting Mr. Cassidy and affirming the election of Mr. Mann.

The investigation on which this decision was based, was extended to but eight of the hundred or more polls held throughout the city, these sufficing to prove Mr. Mann's election, but the defense were at perfect liberty to extend the scrutiny to any or all other polls. These polls returned 2,320 for Cassidy to 805 for Mann, while the whole number of taxables (synonymous with legal voters) in the districts in which these polls were held was but 1,717, or 903 less than Cassidy's vote alone! Of the illegal vote, it was proved on the trial that at least 1,168 must have been cast for Cassidy, reducing his returned vote from 34,475 to 33,307, and electing Mr. Mann by 518 majority. This being practically as good as ten thousand, Mr. Mann had no motive for increasing the expense of the contest by going further, or he might doubtless have proved thousands more of his opponent's votes as bad as these 1,168.—*New York Tribune.*

THE BRITISH STEAM MARINE.—The New-York Journal of Commerce, in noticing the published statement that there are no less than three hundred steam propellers, ranging from one thousand to fifteen hundred tons, now building on the Clyde, and in ports of Great Britain, comments as follows:

England and Scotland were fully occupied in constructing steam propellers for foreign and domestic service, and Napier was taking contracts three years in advance. Side wheel steamers were spoken of as likely to be wholly superseded,—no vessels of that description being constructed.—Meanwhile our ship-yards are deserted, and scarcely a single steamship of any size is building in the United States.

England, without doubt, is playing a high game, and is determined to win. It has already been shown that two-fifths of the gross value of importations from England and France into the port of New-York is by ocean steamers, mostly foreign,—and more recently, Mr. Kennedy, Superintendent of the emigrant depot at Castle Garden, showed that of 86,080 passengers arriving here during the last six months, 18,460 were brought on steamers, and that of 37 steamers bringing passengers during the last one month, only 2 were under the U. S. flag, against 35 under the British. As another sign of the times, it is stated that the packet ship Columbia has been detained since the 1st inst. "on account of her inability to complete her engagements for a full cargo, the first instance in thirty years that any ship of the line to which she belongs, has had to lay over for so long a time after her regular day of sailing."

These fact are at once interesting and startling.

Health Regulations.

THE BOARD OF HEALTH of the City of Portsmouth call the attention of the public to the following sections of Ordinances, viz: Sec. 4, and invite all interested in the preservation of health in the City to aid them in the execution of their duty.

SEC. 3.—All waste water of houses, yards, cellars, sinks, pumps, &c. shall be conveyed by their owners or occupiers into the common sewers, or to such places as the Health Officers may direct.

SEC. 4. No person shall be allowed to throw any vegetable or dead animal substance, or any other matter capable of producing infection, into any street, lane, alley or dock, or upon any wharf, but shall carry them or throw them into the river below low-water mark.

SEC. 5. The contents of vaults and privies shall not be permitted to rise within one foot of the surface of the earth. And all owners or occupiers of buildings having such vaults or privies as may require it, shall cause them to be emptied within ten days from the promulgation of this ordinance, and in future on or before the first day of May in each year. And any such owner or occupier neglecting so to do, shall forfeit and pay for every such neglect a sum not less than three nor more than twenty dollars, and a like sum for every week's neglect after the time above specified.

SEC. 11. The health officers may give written notice to the owner or occupier of any building, vessel or enclosure, to remove or destroy any nuisance or other thing deemed by them, on examination, to be injurious to the public health, within a certain time limited therein; and in case such owner or occupier—the said notice having been given to him, or left at his usual place of abode—shall neglect to comply therewith, the said health officers may, by direction of the mayor and accompanied by the city marshal, forcibly enter such building, vessel, or enclosure, and cause the said nuisance or other thing aforesaid to be removed or destroyed.

SEC. 14. The owner or occupier of any building, vessel or enclosure shall be liable to pay the expense of the removal or destruction of any such nuisance or other thing, as aforesaid, including fees of the health officers who order or secure the same to be removed; and the same may be recovered by action to be brought in the name of the city.

SEC. 16. And whenever any person or persons shall violate any rule or regulation, or commit any act forbidden in any section of this ordinance, to which no special penalty is annexed, shall forfeit and pay a sum not less than one dollar nor more than twenty dollars, to be recovered by complaint before the police court of this city.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FRANCIS & Co are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets and packages in the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Whole tickets, $5; halves, $2½; quarters, $1.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $50,000, being drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York *Weekly Sun Book*. Write your address plainly, and direct to S. SWAN & Co., Atlanta, Georgia.

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

American and Foreign Patents.
R. H. EDDY, solicitor of Patents,
(*Late Agent of U. S. Patent Office, Washington, under the Act of 1837.*)
No. 76 State st, opp. Kilby st, Boston,
AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Also, Reissues, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American and Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent issued, by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, what can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IN PATENT PROCEEDINGS OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that no other office of the kind are the charges for professional services so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him, on any point, question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in this capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most faithful Patent Solicitors with the Patent Office, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in form to secure them the early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

ABCOT 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

DEACON THROPE'S PIGEONS.

Several years ago, when the mast and crops in some of the Western States were about to be destroyed by the large number of wild pigeons that came about, Deacon Thrope and several of his friends were sitting outside the log meeting-house one fine Sunday morning, waiting for the minister to arrive, and, as a matter of course, talking about the prospect of having 'nothing to feed on' through the coming winter.

'It's orful!' said one of the company.—'I never see the pigeons so thick afore. My Bill and Ben went down to the roost last night, and killed a bagfull with clubs. I think they'll take all my corn.'

'Oh, yes, it's orful!' replied the others.

'That's nothing to what me and my boy Felix Joshua did, day before yesterday,' said the deacon. 'You know my bottom field there? Well, they come in it so thick you couldn't see the ground. I went down to scare 'em out, and peraduventure, they riz up like a cloud; you couldn't see the sky for 'em. I hollered and slapped my hands, and tore around till I was plum worried out, but it did no good. They just swarmed around over my head; and as fast as I went to one side of the field, they began to pour down in t'other. Felix Joshua had just got up to the crib with a load of corn, for he was a gatherin' the ridge field, and I went to whar he was and told him to go to the house and get his shot-gun and my shot-gun, and scare 'em off, for we couldn't drive them 'ar pigeons out'n the bottom field. So he goes and gets his shot-gun and my shot-gun and we goes down. He slipt along on one side of the field and I slipt along on t'other, till we got about middle ways, and up they flew like a whirlagust. I blazed away in the thickest of 'em, and what do you think? They were all gone in a second. Then me and Felix Joshua, we clem over the fence, and says he to me, "Father, this beats all creation!" Says I to him, 'Go fetch the steers and wagon;' and upon my word and honor, we picked up *ten bushels!*"

The good brothers stared wildly around them, and would probably have accused their deacon of lying had they not been interrupted by the arrival of the preacher, and the announcement that 'meetin' was a goin' to begin.'

After the services were over, little groups of the faithful might have been seen here and there, engaged in earnest conversation. Their subject was an exciting one, as you might have inferred from the length of their faces and the earnestness of their gestures. If you had listened to their conversation, you might have heard something about as follows:

'Did you hear what Brother Thrope said 'bout him and his Felix Joshua killin' ten bushels of pigeons at one shot?'

'Yes, it's orful, aint it?'

'It's a lie, as sure as shootin'. I don't know what's got into Brother Thrope.'

'What'll be done about it? It mustn't go so—it'll certainly ruin the name of the church.'

'We'd better fetch it up at the next meetin', and make him take it back, or church him.'

And so it would go on. Of course the good deacon heard a whisper of it, which gave him no little uneasiness. However, he had been into several scrapes before, and had come out clear, and he doubted not he should meet with the same good luck on this occasion. Until the meeting day arrived the entire settlement was in an uproar. Nothing was talked of but Dea. Thrope's ten bushels of pigeons. The good brothers said it was too bad to have the church disgraced by a deacon who would tell such unreasonable tales: while the pious old sisters wiped their spectacles, sighed, and said, "It is extremely hard telling the power which the evil one exerteth.'

At last the exciting day arrived. The preacher stated that the church was ready for the transaction of business; whereupon Brother Fingle rose and said:

'Brother Deacon Thrope says him and his Felix Joshua killed ten bushels of wild pigeons at one shot. The church don't believe it, and would love to hear what the brother has to say for himself.'

With much solemnity, the deacon arose, and after casting a very serious look over the congregation assembled, and elevating his eyes to the rafters a few times, spoke as follows:

'My brethering, there is a sad mistake out—I didn't say we picked up ten bushels of pigeons at one shot, but—'

'What did you say, then?' interrupted one of the brothers, who was present when the deacon first told about his pigeons.—'Didn't you say you and your Felix Joshua both blazed away?'

'Yes.'

'Didn't you say you both clem over the fence?'

'Yes, peraduventure.'

'Didn't you say that Felix Joshua said, 'father this beats all creation?'

'I did, brother.'

'Didn't you say Felix Joshua fetched the steers and wagon, and you picked up ten bushels of pigeons?'

'There is the mistake, my brother,' replied the deacon, again raising his eyes towards the rafters. 'I didn't say we picked up ten bushels of pigeons. Brother Fingle is mistaken; I said—'

'Yes, I know what you said!' interrupted several, 'you did say it, and we can prove it easy enough! You can't come that game over us, old hoss-fly.'

'Order, brethering,' said the minister—'let's hear Brother Thrope's own story, and then you can make any remarks you may wish.'

'Well, as I was saying,' resumed the deacon, 'I didn't say we picked up ten bushels of pigeons—Brother Fingle is mistaken—I said we picked up ten bushels of—corn that the pigeons had shattered off.'

'Amen,' went up from the congregation; and a rush was made at Deacon Thrope to shake him by the hand. It is needless to say he was restored to full fellowship and confidence.

IMPORTANT DISCOVERY.
DR. CHEESEMAN'S PILLS FOR FEMALES.
Prepared by an old Physician of 40 years experience
THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.
These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. L. CHEESEMAN, Box No. 4,591, Post Office, New York City, can have them sent to their respective addresses by return of mail.

HAVE WE MADE ANY PROGRESS?

NO. V.

This chapter is a continuation of the thoughts on ministers as connected with the temperance efforts and progress during the last thirty or forty years: and especially continue the remarks on Rev. Justin Edwards of Andover, Mass., who became an abstinent from liquors in consequence of his own observation and experience in pastoral visitation.

As he had publicly declined drinking socially for *such* reasons, those of *expediency*, he became almost a teetotaller without his knowing or intending it—for he used no *substitutes*, and had declined the *drinking*, without drawing a *hair-line* between wines and liquors.

He would no doubt, at first, have drank "a little wine for his stomach's sake, and his other infirmities," if he had been often infirm—but he wasn't; for his abstinence from these drinks did him good; and his stomach, as well as his courage, waxed stronger and stronger.

Moreover, his eyes were opened to the condition of his people: and he saw pretty plainly that their consumption of distilled liquors was enormous and pernicious. This revelation, for such it was to his mind, was the beginning of *one* of the first temperance abstinence pledges in New England. We say *one*, because another person began a pledge society in another place, not far from the same time, each without knowing the other.

Mr. Edwards's temperance society went well among his people, and has done good there which can be seen this day. And his temperance or abstinence thought, and other like thoughts, have been infused and diffused through the great body of the clergy throughout New England and New York and greatly in other parts of the country, extending generally to all sects and denominations.

Mr. Edwards, by his talents, position, and zeal for temperance, became a very popular and effective lecturer, and his connection with the great congregational denomination in New England gave him ready access to most of their pulpits.

Nor was he alone; Beecher, Hewitt and Root, Bouton, French and Merrill, among the orthodox congregationalists; Pierpont and Ware, unitarians; David J. Robinson, methodist; Stow, baptist; Marks, freewill bo.; Adams, Chapin and Thompson, universalists,—with many more, too many to enumerate, also labored much and well; and not a few of them are yet in the field. Even at a later period, when some persons begun to fancy that ministerial or clerical influence on temperance was superseded by the Washingtonian effort, it came out that Hawkins himself, one of the prime movers of that effort, was awakened to the subject by a rousing sermon from elder Knapp, in Baltimore.

Now we regard the general, the almost universal conversion of our clergymen to teetotalism, as one of the great marks and means of progress. Not merely because they can lecture, and preach and pray, on the subject,—though these are important means;—but also because they are men seen and watched beyond most others; and their example for good is powerful.

Let us say here, that when Mr. Edwards and the other early friends of temperance pledges *began* their efforts to induce men to abstain from rum, they had against them all the social, fraternal, political and religious usages, customs, and prejudices.

Liquore were then presented, and freely used, at weddings, funerals, huskings, town meetings for town business, ordinations, and almost every convocation of people, great or small.—Used, not occasionally or lightly, but never neglected, and used abundantly.

Well do we remember, that in 1813, the writer of these lines, with five other lads of like age, carried the body of a little child from a neighbor's house to its grave, by napkins round the coffin, and then returned, like older bearers, to the house of mourning. Nor shall we very soon forget, that the woman who presided over the simple ceremonies thanked us for our services, adding that she was sorry there was no rum in the house, but gave to each boy a tumbler of gin and water.

At raisings, it was not only customary for everybody to drink, but for all to drink *without stint*, (no measure of half a pint there,)—but it was a custom for some men who went to all raisings near them, to get all the boys drunk, if possible! And it was a common saying among working men, that it was a good thing to get a boy drunk once or twice when he was small, as he would not be near so apt to get drunk when he grew up.

We happen to have now before us, a copy of the N. H. Observer, April, 1830, in which we note the statement that the town of Newington had just voted, in town-meeting, *not* to furnish liquors at the town expense, to persons who came to do business with the Selectmen! This had been a common custom, not only in that town, but in many others.

The trainings—but let them train in another chapter.

JOHN C. CLUER.—The Charlestown Advertiser informs us, that in the case of John C. Cluer, arrested in Boston on Sunday, 19th, charged with violating a city ordinance by attempting to preach on the Common, Judge Rogers refused to make out a complaint, stating that the Supreme Court had already decided that what Cluer was charged with doing could not be punished as a disturbance; and so he was discharged.

Mr. Cluer took a very active part in reducing the hours of labor in New England, and was, as every body knows, greatly successful.

He was also concerned in the movement to banish flogging and drunkenness from the navy, which was only a partial success.

He has also been bail in many police cases in Boston, where persons charged with petty offences have been let off on probation, or promise of good behaviour. And he has also been considerably active and useful as a temperance lecturer.

Judge Rogers was right in not making out a complaint against a man trying to be useful.

A similar arrest was made last Sabbath.

EXETER, July 26, 1857.

Messrs. Editors. — Perhaps I am encroaching on the ground of your correspondent "F. G.," but if I am, I will say in answer to his query "Did Seal see any Exeter boys at Boar's Head?" "Yes he did, and he liked their appearance so well, as also that of others he had met at different places, that he came here to see more of them." While his anticipations were equalled in this respect, the society of the ladies was not found very disagreeble.

Exeter is somewhat stiller than usual, ("Impossible!" saith the reader,) the vacation at the Academy having allowed the students to leave the place.

The old Jail was sold on Saturday, for $1620, Joseph P. Morse of your city being the Auctioneer.

During the storm, a few days since, a whirlwind seized hold of a tree at the corner of the Squamscot House and wrenched the upper part short off.

Early this morning I had the pleasure of witnessing a beautiful example of the force of Irish argument, in which a man convinced a woman that he was in the right, by throwing her down in such a manner that her head struck the corner of a door-post.

The fair weather of to-day has induced many of the farmers to break the Sabbath, and on every hand they may be seen opening the hay, now of a dark brown color from its long exposure to the elements.

Taking a row a few miles up the river this morning, I perceived indubitable traces of the pearl-hunters, in the fact that every muscle on both sides of the river had been opened.

I saw a character to-day. A woman with bonnet and parasol, extravagantly short dress and blue denim pantaloons! This ridiculous attire she has worn nearly two years, at the instigation of the spirits. If this be one of its beauties, the Lord deliver us from Spiritualism.

Mr. Editor, I wish to ask if it is absolutely necessary that a sign painter should be ignorant of the use of the stops found in punctuation? If not, then I do hope those who do understand their use will be employed when our guide-boards are renewed. On several toll-boards, guide-boards, and other signs, the commas, hyphens, and periods seemed to be used indiscriminately.

Here is a short temperance sermon that I saw inscribed on an untenated house.

House to let, inquire within;
Folks turned out for drinking gin.

Yours, &c., SEAL.

Uncle Toby thinks the old lady has a right to wear bloomers if she pleases; only, if she or anybody else excite laughter at the oddity of apparel, it should be taken kindly.

☞ The estate of the late Richard Boylston, of Amherst, N. H., is appraised at $80,000; but lest any erroneous idea should be received as to the profit of country news papers, it should be added that the larger part of it came to him through his wife.

THE CINCINNATI TRAGEDY.—Joseph Loefner, the double murderer of his wife Francesca and Mr. Horton, is recovering from the effects of his attempt at self-destruction. The wounds he inflicted on himself were frightful. The trachea was entirely severed, and the esophagus slightly cut. The gash reaches from ear to ear, and remains undressed, as it is necessary that it should be left open in order that he should breathe, as well as for the discharge of the mucus. Loefner still persists, through the medium of a pencil and slate, that he had discovered Mr. Horton and his wife, in a criminal act, but he appears to express some regret at having murdered Mr. Horton. He insists that his wife deserved to die, because of her repeated infidelities, even after his expostulations with her upon the subject. He also says he detected his wife in an attempt to poison him, on the same day of the murder. In describing the fatal occurence, he states that he forced her to swallow poison, and afterwards strangled her with a pocket handkerchief.

The opinion is gaining ground (says the Boston Courier,) that Loefner is partially deranged. He received a severe blow on the head a few years ago, and was supposed to be killed, but recovered after a time. Since then, his conduct, it is said, has been such as to to warrant the belief in his insanity. He has frequently been heard muttering wildly to himself, and among other insane imaginings was a belief that Mr. Horton and his family held communion with witches who were continually flitting about the house, and through whose agency the affections of his wife had been alienated. Under these circumstances, it is highly probable the distorted brain of the unhappy man might have conceived the idea of his wife's infidelity, and a little further stress of imagination would impress him with the belief of having actually witnessed the crime. It certainly seems improbable that a man of so violent a temper as he is represented to possess, would delay the execution of his revenge for one moment; on the contrary, his every action indicates that he would take summary vengeance on the spot.

Of the two victims of this terrible tragedy, the Cincinnati Commercial says:—

Besides the reputation of Mr. Horton as a moral man and an affectionate husband and father, the character of the ill-fated wife of the murderer is said, by those who knew her intimately, to have been unsullied, and with Mrs. Horton she was an especial favorite. She was a mild, uncomplaining creature, and never divulged the brutal and unreasonable treatment which she almost daily experienced from her husband, whose jaundiced jealousy, acting upon a disordered intellect, conjured the bitter fancies in his mind, and finally led to the fulfilment of the bloody tragedy. The shock attendant on the *denouement* of the fearful tragedy has so affected Mrs. Horton that, in connection with her delicate state of health—she having so recently given birth to a child—serious fears are entertained that yet another victim may be added to the insatiate fury of the murderer.

All accounts describe the personal appearance of the murderer as the most repulsive and ferocious imaginable. The Commercial says: "He app ears to gloa with savage delight in the reminiscence of his crimes, and while giving his pencilled detail, a fiendish grin illumines his saturine countenance. He has a nervous, bilious temperament; a dark, swarthy complexion, more resembling that of a Spaniard than a German; and a powerful, well-developed frame.

☞ The Washington Union has made the remarkable discovery that the existing troubles in Kansas were got up for effect on the Massachusetts and Pennsylvania elections. "In Massachusetts, Banks' hopes of success were passing away, while those of the democracy were rising. In Pennsylvania the most confiding had lost all hope.—The election of Mr. Wilmot was given up in despair." "One hope only remained—disturbances in Kansas, renewed agitation and popular excitement."

The Boston Jonrnal remarks:

So there is some justice in the Southern denunciations of Gov. Walker! He is allied with the "black republicans" after all, and has marched the United States troops upon Lawrence to get up a renewed agitation and popular excitement, and help to elect Banks and Wilmot. It behooves the administration to remove this Republican plotter at once, and restore peace to the Union.

VERDICT ON THE MONTREAL DISASTER.—The Coroner's jury on Thursday evening, at Quebec, returned a verdict of manslaughter against Wilson, the owner of the steamer Montreal; Capt. Rudolf, Dorval, the pilot, and Roberge, the mate; and strongly censuring Wilson, the senior controlling agent. The verdict also recommends a stringent enforcement of the Steamboat Law. The parties implicated will be indicted at the present session of the Criminal Court.

☞ The Manchester Mirror's Concord correspondent of July 24 says:

William W. Eastman, Esq., Warden of the State Prison, arrived in Concord, Thursday morning, with Margaret Terrence, one of the girls who escaped from prison last Thursday night, and she is now confined in her former quarters. Clarissa Gove, who also made her escape at the same time, has not yet been captured, but we have no doubt that she will also soon find her way back to the Prison.

NEW MEDICAL SALT; *A perfect substitute for the Lancet, Leeches and Blisters!*—Another editor says:—"I have been a dyspeptic for 3 years—have taken the Salt four weeks, and am entirely cured."

The Agent in Portsmouth is Jos. H. Thacher. See advertisement.

SPECIAL NOTICES.

WARM WEATHER.—The weather was so warm yesterday, that the man who repudiates his Clothing Bill, was seen walking up Congress street, with an umbrella—to shade his head from the burning sun. We did not ask him if the umbrella was borrowed, but let him slide.

HAIR RESTORATIVE.—Every one will, we think, agree with us in the opinion that the human hair is the greatest natural ornament that is possessed, either by a gentleman or a lady.—Just meet an apparently good looking man, for instance, in the street; you admire his features, whiskers, and general bearing; but lo! he lifts his hat in recognition of your bow, and the charm has vanished, for Ichabod is written on his bald head, and the glory has departed with the flowing locks that once flourished luxuriantly there. In the case of a lady, the matter is, if possible, worse—such cases reminding one of the circumstances on which the following epigram is founded:

'O! give me, fair Emma, a lock of your hair,'
A bashful young lover took courage and sighed:
''Twas a sin to refuse such a modest request,
So take the whole wig,' the dear creature replied.

Now, to prevent such a catastrophe, is within the power of every lady and gentleman; for, by using Prof. O. S. Wood's Hair Restorative, hair is not only prevented from falling off or turning gray, but the article will restore hair to bald places; and even if it has changed color and become gray, it will bring it back to its pristine beauty and luxuriance. Those who are acquainted with the anatomy, physiology and pathology of the hair, must be well aware that certain substances have a specific action upon it; and it is by judicious combination of these that Professor Wood has succeeded in compounding a mixture possessed of remarkable virtues.—[Waverly Magazine & Literary Gaz.

IF ALL OUR READERS

Who are troubled with liver complaint, Jaundice, or Dyspepsia, will read the advertisement in another column of Dr. Sanford's Invigorator, and then do as we have done—get a bottle, we should not see so many sickly, half-dead, despairing people as now meet our gaze at almost every corner, for certainly there never was a remedy invented of which so much is said, and that performs so nearly what its proprietors say it will do. It came to us so highly recommended that we could not fail to try it, and a trial has convinced us, without a doubt, that it is the best family medicine in use. We take it for Headache, Sour Stomach, Billiousness, and any of the little bodily ills that are common, and it does produce a pleasant state of feeling to the sick, and what is better, after using it a few times, these little ills grow less and less, and there is a prospect of being entirely free from them by a continuance in the use of the Invigorator. LOCAL.

GRASS, CORN, &c.—Passing through the outskirts of our city a day or two since, we observed a very large quantity of hay damaged by the late rains and dull weather.—We noticed one field of grass, of about eight acres, which had been cut before the rains of last week, entirely spoiled.

Good weather is much needed, in order to secure a *good* crop of hay. In low lands, grass grows very fast, but on high land it needs cutting, much of it being lodged, and in some places even rotten.—The crop, on the whole, is large.

The heavy wind of Thursday morning damaged the corn to some extent, breaking it off, and laying some whole fields nearly level with the ground. The best down corn will commonly rise part way, and sometimes do well.

In general, vegetation looks remarkably well, (notwithstanding the cold weather in the early part of the summer,) and will compare favorably with any season of the past ten years.

MATRIMONIAL—HISTORICAL—POLITICAL. Under the head of "Marriages," we this morning record the union of Octave Laighton, Esq., a native of this city,—a printer, and now an editor and publisher in the West, with a grand-daughter of the immortal Patrick Henry, of Virginia. The history of the acquaintance which has resulted in the wedding, is not a little romantic; and the parties will please excuse our giving them (the facts, not the bride and groom,) to the public.

A year or two since, the lady saw Albert Laighton's beautiful poem, "Found dead," and wrote to the author, expressing her admiration of the touching stanzas, &c. This naturally led to a brief correspondence between the parties. Afterwards, she saw another piece from his pen, in the Fulton City (Illinois) Advertiser; and on writing to the publisher, Mr. Octave Laighton, learned that he was brother to the poet—whom of course she admired through his writings, as every appreciative soul must.

We can't say, if we would, just how "the course of love" has run, in this instance; nor is that essential, so that all is well thus far. Suffice it for us, to know that the twain are one flesh. We congratulate them on their prospects—and especially rejoice in the good fortune of our old genial friend Laighton, a pleasant member of the editorial fraternity—for the lady is pronounced by her new acquaintances here, to be a worthy descendant of the old patriot who preferred death to the deprivation of liberty, and was not afraid to say so.

Mr. Laighton is a son of Hon. John Laighton, of this city, a man much esteemed, an old-fashioned Democrat, and at one time, Mayor of this city. The son is a Republican, and his paper supported Col. Fremont for President. So liberal principles *ought* to prevail in the new family.

We will close by wishing the newly married couple a perpetual honey-moon, which shall know no wane.

FOUR DAYS LATER FROM EUROPE.

QUEBEC, July 27.—Steam propeller North American, from Liverpool 15th inst., arrived here last night. The proceedings in Parliament had reference to Mr. Marcy's letter on privateering. It is said, the new [Buchanan] administration intimates that it wishes no answer.

The Liverpool Chamber of Commerce have given a brilliant banquet to the officers of the U. S. frigate Niagara.

The details of a recently discovered conspiracy in Paris are creeping out, which prove it to have been the most serious yet exposed.

Mazzini, it is alleged, escaped from Italy in a ship carrying the American flag.

Hong Kong dates are to May 23. The frigate Sun Jacinto, and a number of English gun boats had gone up the Canton river to attack junks.

At Foo-chow-too the rebels had been defeated there.

Trade at Hong Kong and Shanghai was quiet. The American house of King & Co., at Hong Kong had suspended; liabilities $150,000, mostly to Chinese.

The Liverpool cotton market is generally buoyant. Newspaper reports state all qualities advanced 1-16 of a penny per pound.

FUNERAL OF ANDERSON.—*New York, July 26th.*—The funeral of Anderson, the murdered policeman, this afternoon, was very long. A large number of the Metropolitan Police, many fire companies, and friends of the deceased, accompanied his remains to Greenwood Cemetery. The funeral cortege passed down Broadway, and was about a mile and a half in length. No signs of disturbance were manifested.

PHILADELPHIA FRAUDS.—The Supreme Court of Pennsylvania were *unanimous* in deciding that Wm. B. Mann, American Republican, was legally elected District Attorney of Philadelphia last fall. The exposure of the fraud is truly startling, and fully convincing too, as it brings the Court to act *unanimously*.

TERRIFIC STORMS.—*Albany, July 25.*—A little before noon to-day one of the most terrific rain, hail, thunder and lightning storms ever experienced here, visited us, and produced scenes never before witnessed in this city. The rain fell in perfect torrents, and State street and all parallel streets leading to this river were entirely flooded. As the stream of water passed down State street it had all the appearance of rapids and boxes, and barrels were borne along by the current, and such was its force that paving stones were torn up and whirled along into the Hudson river. The storm lasted about three-quarters of an hour, and both travel and business were entirely suspended.

Second Dispatch.—The stores and cellars on Beaver, Broadway, State, Maiden Lane, etc., were flooded and great damage was done. Treadwellf iron foundry on Beaver street suffered severely

There has been a great flood in the neighborhood of Cuba (N. Y.) and two bad breaks on the Genesee canal are reported.

Hartford, July 25.—The most powerful rain storm ever witnessed here, occurred between half-past one and three this afternoon. It was accompanied by heavy thunder and lightning, which struck in several places. The streets were flooded, and in the lower part of the city much damage was done by the inundation of cellars and basements.

MINNESOTA TROUBLES.—*St. Pauls, (via Chicago,) July 25.*—The double-headed Constitutional Convention is still in session. The Republicans are in Convention in the hall of the Capitol, with A. B. Balcomb, President; and the Democrats in the Council Chamber, with H. H. Sibley, President.

The Republicans number 50, all of whom have presented their credentials, which have been accepted, and a number of them qualified.

The Democrats to-day, numbered 32, several having become disaffected, and returned home. The credentials of the members of the Democratic Convention have not yet been reported upon, and no permanent organization effected.

The Republican Convention has permanently organized, and appointed Standing Committees; also a Committee to prepare a preamble and Bill of Rights, to be submitted.

The Democrats, previous to this, held a caucus, advising with Hon. H. M. Price and Gov. Medary, yesterday afternoon. The course resolved upon was not apparent. It seems probable that each body will insist that it is the Constitutional Convention, and that both will form Constitutions to be submitted to the people.

POTATOES.—The Cincinnati Enquirer says a wagon load of potatoes was offered to a firm in Commercial Row, in that city on Friday, at the low price of twenty-five cents a bushel, by a gentleman from Covington, Kentucky. The same gentleman offered to contract for five hundred or a thousand bushels at digging time at the same price. The Cleveland Herald says that it heard on Saturday of an offer to contract to deliver one thousand bushels at twenty cents in digging time.

Mr. A. J Gleason, of Milford, Mass., gave a barrel of beer, last Thursday, to his customers, who became jovial upon it, and entered the Police Court, where a liquor trial was going on, making a great disturbance and interrupting the proceedings. One of the leaders was arrested.

THE BEST MOWING MACHINE.

ALLEN'S Patent Improved Mowing Machine, and combined Mower and Reaper Bore off the palm at the great National Trial of Mowers at Syracuse, N. Y., and a larger number of them have been sold than of any other patent. Strong, Simple in Construction, not liable to get out of Order; Compact, Light, Easy of Draught; perfectly safe for the Driver, and may be worked at a slow gait by Horses or Oxen; no clogging of Wheels; works well on rough ground, side hills—salt and fresh meadows, &c., and in any kind of lodged grass and clover.

Lawrence's Carminative,
—OR—
CHILD'S PAIN-KILLER.

THIS invaluable preparation is a favorite scientific prescription of one of the most eminent of the Medical Faculty in New England, and one who has been successful as any other in the treating of
DISEASES OF CHILDREN,
and has been used with never-failing success.

The Carminative is emphatically
A CHILD'S MEDICINE,
and is the *only* Child's Medicine in this country; intended to do away with the excessive and injurious use of *Paregoric*, a remedy sure to be followed by a "close of physic."

The ingredients of which the *Carminative* is compounded, are known to the Medical Faculty, and it is now extensively used, and approbated by the physicians living in the vicinity of the Laboratory, where opportunity has been had to test its virtues.

The *Carminative* is offered in full confidence for the rapid cure of
Colic, Pain in the Bowels, Wind in the Stomach and Bowels, Green Stools, Diarrhœa, Nervous Affections, Sore Mouth, Restlessness,
and other disorders incident to Weaning and Teething; sure to regulate derangements of the Stomach and Bowels, which often afflict young children; correct debilitated and sour Stomachs, relieve pain and give tone, energy and strength to the whole system.

Due regard has been taken to have the price of the Carminative so low as to be within the reach of all. Price *only 25 cents.*

Parents who value their children should not fail to buy a bottle, as they may depend upon its giving relief to "worrisome children."

Sold by country traders and all Apothecaries throughout the United States and Canada.

LANCET, LEECHES AND BLISTERS.

INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—has but ONE AIM—accomplishes but ONE THING, to wit: SUBDUES INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. Every *form of inflammation* (but no other disease) is subdued, by it as easily as fire is extinguished by water. Is it asked, *how* it does this?—simply by restoring the lost balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires merely what adheres to the point of a pin's head dipped into a solution of it, to infect the entire system.

☞ *Of its intrinsic value, the enlightened community, and not the discoverer, must be the judge.*

New Crockery and China Ware.

NOW opening from the above vessel a splendid assortment of New Goods comprising a complete assortment of
JOHN ALCOCK'S
WHITE GRANITE DINING AND TEA WARE.

In point of style, and especially DURABILITY, this ware has no equal among the other manufacturers of Europe, for while the Glazing of Alcock's Ware is *proof* against any test, almost every other make will crack in the glazing, causing the ware to have an old and worn out look, at first using.

A beautiful assortment of
BAND AND WHITE CHINA,
Solar Oil and Fluid Lamps, Lanterns, China and Glass Vases, Britannia Tea and Coffee Pots, elegant Tea Trays and Waiters.

Table Cutlery of every description, and all kinds of GLASS WARE for Table use.

Purchasers of any of the above goods will find this the only complete stock to select from in this vicinity, and at as low prices as in Boston or elsewhere.

MORE MORMONS DESERTING—THEIR EXPOSURES OF THE SYSTEM.—From the Plattsmouth (Nebraska) Jeffersonian, we clip the record of another arrival of Mormons from over the plains. It is as follows:

"A train, consisting of about one hundred persons with twenty wagons, passed through this place on Friday last, on their return from Utah to the States. They formed part of a company of two hundred persons and forty teams; but some distance back the remainder took the road for Leavenworth. They left Salt Lake about the 20th of April, and were on the road a little over two months. They bore the appearance of persons who had seen much trouble and privation—being reduced in body and dejected in mind. A more pitiable set of persons we never beheld. They rejoiced that they had at last reached a land where they could live at ease.

"The account of their experience in Utah was touching in the extreme. In the narration of what they endured, they seemed to approach the subject with reluctance and feelings of horror in calling to mind their sufferings, but in the course of their remarks would invariably become animated, and break out in expressions of indignation at the cruelty and oppression which they had endured.—They declared the whole system to be but a grand scheme of robbery and sensuality on the part of those in authority. It is not by direct compulsion, they stated, that the property of their followers is taken, but by means of religious enthusiasm. This is inspired by the promise of great spiritual rewards, and by setting before them the example of Scripture character; that as Job received an increase above all his former possessions, so should they, by their self-sacrificing, reap an increased reward, both of spiritual and temporal possessions.

"After all their property was destroyed, then the policy of their rulers would change, and their conduct would be such as to say, 'get away if you can.' If any one should become dissatisfied and desired to leave, they were publicly denounced, and the whole church forbidden to purchase any property they might wish to dispose of. From that day they would be subjected to the insults of the entire community, if not absolute danger of their lives. One person stated that, in order to get away, he had to sell his farm, clandestinely at that, for sixty dollars. They reported that one man went out with $3000, and was returning in the train with his team only, and had not enough to eat. Another, who had a farm there worth $7000, sold it for $35. A man by the name of George Brooks, (if we recollect aright,) who had considerable grain and goods stored in his house, on incurring the displeasure of the elders, had the sides of his house literally stove in, and his property all carried off, he only escaping with his life."

Health Regulations.

THE BOARD OF HEALTH of the City of Portsmouth call the attention of the public to the following sections of City Ordinance No. 4, and invite all interested in the preservation of health in the City to aid them in the execution of their duty.

SEC. 3.—All waste water of houses, yards, cellars, sinks, pumps, &c. shall be conveyed by their owners or occupiers to the common sewers, or to such places as the Health Officers may direct.

SEC. 4. No person shall be allowed to throw any vegetable or dead animal substance, or any other matter capable of producing infection, into any street, lane, alley or dock, or upon any wharf, but shall bury them or throw them into the river below low-water mark.

SEC. 5. The contents of vaults and privies shall not be permitted to rise within one foot of the surface of the earth. And all owners or occupiers of buildings having such vaults or privies as may require it, shall cause them to be emptied within ten days from the promulgation of this ordinance, and in future on or before the first day of May in each year. And any such owner or occupier neglecting so to do, shall forfeit and pay for every such neglect a sum not less than three nor more than twenty dollars, and a like sum for every week's neglect after the time above specified.

SEC. 11. The health officers may give written notice to the owner or occupier of any building, vessel or enclosure, to remove or destroy any nuisance or other thing deemed by them, on examination, to be injurious to the public health, within a certain time limited therein; and in case such owner or occupier—the said notice having been given to him, or left at his usual place of abode—shall neglect to comply therewith, the said health officers may, by direction of the mayor and accompanied by the city marshal, forcibly enter such building, vessel, or enclosure, and cause the said nuisance or other thing aforesaid to be removed or destroyed.

SEC. 14. The owner or occupier of any building, vessel or enclosure shall be liable to pay the expense of the removal or destruction of any such nuisance or other thing, as aforesaid, including fees of the health officers who order or cause the same to be removed; and the same may be recovered by action to be brought in the name of the city.

SEC. 16. And whenever any person or persons shall violate any rule or regulation, or commit any act forbidden in any section of this ordinance, to which no special penalty is annexed, shall forfeit and pay a sum not less than one dollar nor more than twenty dollars, to be recovered by complaint before the police court of this city.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FRANCIS & Co are the managers, are authorized by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular scheme is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Tenary combination. Prizes vary in amount from $20 to $100 700. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers: The Clipper, Sunday Times, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

Address J. H. HURBARD & CO.,

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity to participate in the prizes, even at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, and orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten draws a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $50 to $20,000; every prize is drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each one is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Union*, Daniel's *Intelligencer*, and New York *Weekly Day Book*. Write your address plainly, and direct to S. SWAN & Co., Atlanta, Georgia

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

All communications strictly confidential. m31y

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,
(*Late Agent of U. S. Patent Office, Washington, under the Act of 1837.*)
No. 76 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unattainable by the not inconsiderable number who, in any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL. AFTIER PATENT OFFICE, than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty-eight years, has enabled him to collect a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and the accessibility of the Patent Office, the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any, persons acting in that capacity, who had so much business at the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of securing their application in a form to secure for them an early and favorable consideration at the Patent Office.

CHARLES MAGNUSSON,
Late Commissioner of Patents."

From the present Commissioner.

ACCESS 17, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. THOS. EWBANK,
Commissioner of Patents.

A TORNADO AT TEWKSBURY, MASS.—A violent tornado or cyclone occurred in Tewksbury, Mass., on Friday afternoon. The cone of the tornado or cyclone was first seen about half past five, over Round Pond, and was apparently of the size of a cart wheel. It moved with a heavy rumbling sound, first south-west and then east, passing through a valley, and growing larger, and more violent. It damaged the orchards of Mr. Jacques and Mrs. Kittredge, then struck the farm of Mr. Morey, destroying a field of rye, and uprooting his apple trees. A fishmonger had driven under a tree near the farm for shelter; his horse and wagon were lifted up in the air, the horse dropped in a ditch, and the wagon broken to pieces. Some portions of the wagon were afterwards found nearly a mile from the spot, sticking up in the ground. The occupant of the wagon was thrown across the road, the tree under which he sought shelter being blown down upon him, by which he was seriously but not fatally bruised.

The cyclone then swept through the orchard of Oliver Carter, doing great damage; then crossing the hill, made a clean path through an oak grove, and nearly destroying the orchard of Mr. Caleb Livingston. Next it crossed the farm of Mr. Samuel Thompson, tearing down fences, &c; then striking the house and barn of Mr. John Clark, it demolished the barn and carried away the roof and back part of the house. Crossing the river, the cyclone took of the corner of the barn of Mr. Benjamin Burt, and destroyed the sheds between the house and barn. Continuing its course, it crossed the track of the Boston and Maine Railroad, uprooting trees, and was last heard from upon the farm of Mr. Upton of Wilmington, where it made a path in the woods, and gradually died away. Notwithstanding the destruction of property, no lives were lost.—Had the track of the cyclone been upon the elevated ground much greater damage must have ensued, as there are comparatively few houses in the valley.

"OUT WEST."—John Wentworth, Mayor of Chicago, was last week arrested for assault and battery on one C. S. Cameran. John was a pretty fair boy when he left New Hampshire, but the Illinois water does not agree with his system, they say.

One of the Aldermen of Chicago, the other night, went into the wrong house in going home—probably one he owned to lease—where his wife seeing him among the "fair but frail," rushed in and forcibly marched him thence to her own "bed and board." There never was so vile a place—for a new one—under heaven, as that Chicago. It is fever and ague underneath, blotches on top, and corruption inside.—*Newburyport Herald.*

A young man named Thomas Linton, of Richmond, Virginia, has several times been involved in various difficulties on account of his remarkably feminine appearance. Some time since, he was sued for breach of promise by a man named Lipscomb, who firmly believed Linton to be a woman in disguise, and an examination by physicians was necessary to convince the skeptic. Within a week or two Linton has thrice got into trouble in Washington, from the same cause.

THE CROPS.—The Philadelphia Pennsylvanian of Thursday says of the crops in the Keystone State:

Another week of favorable weather has enabled our farmers to make great progress with the hay harvest. The great body of the grass crop in the rural districts has been secured and in excellent condition.—Some farmers are done with their hay.—The quantity housed within the past two weeks has been immense, and greater than has been secured in the same period for many years. The wheat is generally ready to be cut, and the crop will be principally gathered the present week, should the weather continue favorable. From all parts of the country the representations are that the wheat and rye crops are unprecedentedly heavy.

Of the crops in western New York, the Albany Statesman remarks:

Crops of every description are in the highest degree promising in western New York. The grass crop was never more abundant, and is being secured in excellent condition. Corn, which until lately looked unpromising in the extreme, now, though small, bids fair to rank equal to the average of seasons. The potato crop is large beyond contingency. As to wheat, the weevil has not done injury enough to keep croakers in countenance. That catastrophe died out before it had an existence. In some counties farmers, in view of previous failures from the weevil, rust, &c., sowed barley this year, and the experiment is proving a most successful one, both as to the yield and the market. In the county of Niagara wheat has very generally given place to barley. In the counties of Munroe, Ontario, Cayuga, and Seneca, no croakers are to be found. Barley in these counties constitutes a leading feature. Fruit is likewise promising in the highest degree; while in some sections the earth's surface is blackened and crimsoned with berries, which this year produces in unheard-of profusion.

GLORY OR A GRAVE.—The eminent Dr. Baudens, in an able report on his official mission to the Crimea, affirms that, for some time, 200 French soldiers expired daily, between that region and Constantinople, and that the official bulletins conveyed no adequate idea of the sufferings and privations of the troops, and the extent and horrors of the mortality. The number of deaths of French soldiers recorded in the hospitals was about 63,000; 31,000 in the Crimea, and 32,000 at Constantinople. Was another campaign possible?

☞ At the Springfield, Mo., land office, within sixty days, 400,000 acres of land have been entered, chiefly by persons from Ohio and Pennsylvania. At the Warsaw land office 500,000 acres have been lately entered, and the office is closed. So says the Missouri Democrat, which is jubilant at the prospect of Missouri lands being bought by free state men.

IMPORTANT DISCOVERY.
DR. CHEESEMAN'S PILLS FOR FEMALES,
Prepared by an old Physician of 40 years experience.
THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, certain for restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.
These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. L. CHEESEMAN, Box No. 4,531, Post Office, New York City, can have them sent to their respective addresses by return of mail.

WEDNESDAY, JULY 29, 1857.

KANSAS.

There seems to be a very pretty quarrel among the various sorts and stripes of proslavery papers, just now, over Gov. Walker's administration in Kansas; involving Pres. Buchanan's instructions, under which Walker acts.

A writer supposed to be Mr. Burke, in the Concord, N. H. Democratic Standard, says:

We observe symptoms of hostility to the course of Gov. Walker in Kansas, and of opposition to the Administration, in some quarters in the South, which bode no good to the Democratic Party.

The cause of the opposition to Gov. Walker, is to be found in his recommendation, that the constitution which is to be framed by the convention just elected for that purpose, should be submitted to the people of Kansas for their approval or disapproval, as the case may be. Those who object to this course, insist that it shall not be submitted to the people of the territory, but shall be reported directly to Congress, for its acceptance and the admission of the territory into the Union as a State. This is the position taken by the recent Democratic State Conventions of Georgia and Mississippi, and by many of the leading democratic presses of the Southern States. And they proceed to censure Gov. Walker for recommending the submission of the constitution to the people of Kansas, and express the expectation that, for so doing, he will be recalled by the Administration. * * * *

Our Southern brethren, therefore, are making war upon the very fundamental principle of Democratic Republican Government, when they contend that the constitution to be framed by the convention of Kansas, shall not be submitted to the people of that territory for their approval or disapproval;—when they contend that the acts of the agent shall be binding on the principal, whether the latter approve of them or not. We cannot agree to such a doctrine, and we believe there is not a man in the whole *North*, who would approve of it. * * * *

And what man could stand up and defend it in the North? Not one. No: this business of making a Constitution for Kansas, must be fairly done. There must be no snap judgments about it. It must be the honest and truthful expression of the voice of the People of that territory, or it cannot stand. If it be the honest and truthful expression of the People of Kansas, whether it recognize slavery or not, the patriotic and true men of the North will stand firmly and unflinchingly by the decision of the People of Kansas. But they must have that firm ground to stand on, or must inevitably fall. Let our brethren of the South bear this fact constantly in mind.

But we have observed some indications in the expressions of political assemblies at the South, and the tone of a portion of the Southern press, which impresses us with the belief that there is a disposition, in some quarters, to array a democratic opposition against the present administration, and that the just and proper course of Gov. Walker in Kansas is the pretext. We do not shut our eyes to the fact that the more ultra of the Southern Democracy, desired a different candidate than the present illustrious incumbent of the Presidency. And we do not shut our eyes to the fact that there are dissatisfied elements at the North, the strong adherents of a past *regime*, who are ready to affiliate with a movement at the South for ulterior purposes. We think that the recent visit to the North of a distinguished Southern Senator, on the pretext of attending the Bunker Hill celebration, to be not without its omens. There are other indications which we might name, all pointing to the confirmation of our suspicions; but, at present, we forbear further allusions to them.

THE FRENCH SPOLIATIONS.—Those who are interested in these claims feel confident of being able to get them allowed during the Presidency of Mr. Buchanan. The claims have been before Congress for more than half a century. Bills have been introduced and passed, sometimes by one house, sometimes by the other, and occasionally by both, but always in some way defeated and prevented from going into effect. But as Mr. Buchanan has always favored these claims, it is safely presumed that he will sign a bill directing their payment. A convention of the claimants has been proposed at Philadelphia, for the purpose of taking measures to secure the passage of such a bill through Congress.—Most of these claims have passed out of the hands of the original owners.—*N. Y. Evening Post.*

We hope there may be some truth in the idea that Mr. Buchanan will favor these just claims.—What the N. Y. Post says of *most* of these claims, that they have *passed out* of the hands of the original owners,—is only true of the Portsmouth claims so far as *death* has made the change. It is indeed, rather true, that in this place, the hands that held them, and the hearts that were made sick by delay, now lie in the tomb. That they will be paid sometime, we will not doubt. That the present congress and President Buchanan will do so much justice, we hope.

☞ Mr. Sinclair, of Scotland, is doing a good work in Massachusetts, viz. getting thousands of youth to enlist in the total abstinence "bands of hope."

COL. FORNEY.—A Democratic newspaper in Connecticut says of J. W. Forney:

He unquestionably contributed more towards Mr. Buchanan's election than any other man living. Indeed, some think the contest in Pennsylvania would have been doubtful had it not been for the active exercise of his talents and influence.

The Boston Bee of July 27, adds:

This is correct. If Forney had not bought the Irish, and bribed the Dutch, in Philadelphia, and smuggled in several thousand illegal votes, Buchanan never would have been elected. But the Colonel should not complain: those who do such very dirty work are the very men to get cheated by their masters.

Apropos of Col. Forney and Mr. Buchanan—we have before us the New Hampshire Patriot of Nov. 26, 1856, containing the following article in praise of Col. Forney, doubtless from the pen of Mr. John Appleton, who was to be, (but is not) editor of the Union, and who was to have, (but did not have,) Mr. Edmund Burke of New-Hampshire for his co-editor. We *italicize* a few words. The thing is decidedly rich reading, now that the tremendous frauds are *unanimously* condemned and exposed by the highest court in Pennsylvania.—Read, but don't laugh.

The Argus says:

We are glad to see that our democratic contemporaries are disposed to do justice to the eminent services, in the late canvass, of Col. Forney. They cannot well be *overestimated*. Pennsylvania was the battle ground of the Union, and he was the *leader* of the democratic organization in that State. How nobly he discharged the duties of his position we need not say. Who could have been more faithful, more industrious, more energetic, and who could have brought to the good work more *genius* and ability or more enthusiasm?—Had we failed in the Keystone *he* would have been a permanent sufferer in a general catastrophe; and now that we have *succeeded* there, let him be recognized, with equal *pre eminence*, among the *victors*. We know he is habitually traduced by men who *cannot appreciate* his generosity of character. But in proportion to the hatred of his political enemies ought to be the *reward* of his political friends. We have known him for years, and the better we have known him the more we have respected that nobility of nature which the Almighty gave him, along with his warm and glowing intellect, and of which no calumny can possibly deprive him. May he live a thousand years!

☞ As one proof of the commencement of a general stagnation of business, may be mentioned the fact that the manufacturers of New England are now doing less work than usual, in consequence of the difficulty of selling their goods. They prefer not to manufacture rather than to have a large quantity of goods on hand. The Lowell Vox Populi says "we are sorry to know (though not unlooked for,) that the 'hard times' have come to knocking at the doors of our factories, and some of them are slacking up and others will soon follow. The Suffolk Company has already made a large curtailment, and the Carpet has been doing comparatively nothing for the last three months. Stock is high and goods dull. That tells the whole story."

TEMPERANCE IN LYNN.—A large temperance meeting was held on Lynn Common, Monday afternoon. Messrs. John Hawkins of Baltimore, and Samuel C. Knights of Cambridge, delivered addresses, which were well received by the audience. It was estimated that not less than three thousand persons were present. It was an orderly and quiet meeting. At the close, it was voted to meet on Thursday, August 6th, for the purpose of organizing a Washingtonian Society. There are already quite a number of temperance organizations in Lynn, all of which are in a prosperous condition.

NEW MEDICAL SALT; *A perfect substitute for the Lancet, Leeches and Blisters!*—Another editor says:—"A son of mine, subject to Fits from boyhood, used the Salt one month, and is well."

The Agent in Portsmouth is Jos. H. Thacher. See advertisement.

☞ Henry Howell, of Monticello, Ill., a boy of fourteen years, was thrown by his mule in front of the mowing machine he was driving, and dragged by the sickle about fifty feet. His right arm was cut off between the wrist and elbow, his thigh gashed, and his right foot nearly severed at the instep.

WASHINGTON, July 28.—The sloop-of-war Dale arrived at Porto Grand, Cape de Verde Islands, on 27th June. Small pox was raging so dreadfully on shore, that the ship's boats could not land for table supplies.

☞ Rattlesnakes of late years are seldom met with in this State, but an old stager, 5 feet 3 inches in length, with ten rattles, was killed in Ossipee a few days ago. These reptiles were formerly numerous in one of the Winnipisaukee islands, and from thence emigrated to the neighboring shore.

LIGHTNING RODS.

The following statement will be read with interest by all who wish for safety from lightning.

Messrs. Editors:—In your paper, the 23d inst., is a statement of the circumstances connected with the damage done to my house by lightning last week, which is in several respects different from the facts in the case, as now ascertained, and is likely to give people, unjustly, an unfavorable opinion of the protection afforded by the rods on the house, (Otis's Patent.) I therefore deem it my duty to request you to set the matter right by publishing these lines.

The discharge which broke upon the house, was the most terrific I ever heard; and, judging by the damage I have known much lighter strokes of lightning to do, would have utterly demolished it, but for the rods.

The charge did not, as you have it, (and as was thought at first,) strike the house within "eight feet of the chimney," but fell upon the point attached to the chimney and was almost wholly carried to the ground by the conductor.

The only injury to the house was caused by a small portion of the fluid taking to a twenty penny nail that was driven through the saddle board into a rafter, near the rod. It splintered the end of the rafter, and in passing off through the roof, started up a few shingles. This is the whole extent of the damage, and it can be repaired for a trifle.

If the rods on both chimneys had been connected together, according to the inventor's rules, and as I intend to have them, thereby affording the fluid two communications with the ground instead of one, it would not have been overcharged.

Instead of attaching any blame to the rods, I now consider myself, (after a thorough examination of the premises,) indebted to them for the safety of my house, and perhaps the lives of my family.

I would not be without them for many times their cost. J. S. WALKER.

Rye, July 27, 1857.

☞ Reports of casualties by lightning continue to reach us. In Brooklyn, N. Y., on Thursday evening, Mr. Robert McKnight was struck by lightning and instantly killed; and on Monday last Alexander McAlister of Cumberland Co., N.C., met with a similar fate. On the 19th inst., as the congregation were coming out of the Roman Catholic Church at Cotoau du Lac, in Canada, a flash of lightning struck the tower, and descending, instantaneously killed a young woman, seriously injured two, and stunned ten others. A number of accidents occurred on Friday in different parts of New-England, but we have heard of no deaths.

HOW FASHIONS CHANGE.—The ladies will be interested in one of the changes in fashion in dress, of which we are reminded by a Philadelphia paper of 1828. Those were the days of narrow skirts and large bonnets, as those are the days of vast skirts and small bonnets; and the press of 1828 was as full of squibs about bonnets, as the press of 1856 and '57 has been of squibs about hoops.

These extremes of fashion are certainly contemptible and ridiculous. It may perhaps be as well to keep within hail of "the prevailing style" of dress; but the man who wears boots so tight that he can't stand in them, pants so snug he can't sit down, or a coat so small he can't button it up or turn round quick—or the woman who wears petticoats which force her to use both hands and feet in walking, or a bonnet half as large or ten times as large as is comfortable—certainly are open to the public criticism, and to the laughter and contempt of all sensible people.

THE BEST MOWING MACHINE.

ALLEN'S Patent Improved Mowing Machine, and combined Mower and Reaper:

MOTHERS! MOTHERS!! MOTHERS!!!

AN OLD NURSE FOR CHILDREN.

DON'T fail to procure Mrs. Winslow's Soothing Syrup for Children Teething. It has no equal on Earth. No mother who has ever tried Mrs. Winslow's SOOTHING SYRUP for Children will ever consent to let her child pass through the distressing and critical period of teething without the aid of this invaluable preparation. If life and health can be estimated by dollars and cents, it is worth its weight in gold.

Millions of Bottles of MRS. WINSLOW'S SOOTHING SYRUP are sold every year in the United States. It is an old and well-tried remedy:—None genuine unless the fac-simile of "Curtis & Perkins" is on the outside wrapper.

PRICE ONLY 25 CENTS A BOTTLE.

Sold by DAVID KIMBALL, No. 26 Market Street, and by Druggists generally. july21d4wly

HAIR RESTORATIVE.—Every one will, we think, agree with us in the opinion that the human hair is the greatest natural ornament that is possessed either by a gentleman or a lady.—Just meet an apparently good looking man, for instance, in the street; you admire his features, whiskers, and general bearing; but lo! he lifts his hat in recognition of your bow, and the charm is vanished, for behold a wig is written on his bald head, and the glory has departed with the flowing locks that once flourished luxuriantly there. In the case of a lady, the matter is, if possible, worse—such cases reminding one of the circumstances on which the following epigram is founded:

'O! give me, fair Emma, a lock of your hair,'
A bashful young lover took courage and sighed;
'T'was a sin to refuse such a modest request,
So take the whole wig,' the dear creature replied.

Now, to prevent such a catastrophe, is within the power of every lady and gentleman; for, by using Prof. O. S. Wood's Hair Restorative, hair is not only prevented from falling off or turning gray, but the article will restore hair to bald places; and even if it has changed color and become gray, it will bring it back to its pristine beauty and luxuriance. Those who are acquainted with the anatomy, physiology and pathology of the hair, must be well aware that certain substances have a specific action upon it; and it is by a judicious combination of these that Professor Wood has succeeded in compounding a mixture possessed of remarkable virtues.—[Waverly Magazine and Literary Gaz.

IF ALL OUR READERS

Who are troubled with liver complaint, Jaundice, or Dyspepsia, will read the advertisement in another column of Dr. Sanford's Invigorator, and then do as we have done—get a bottle, we should not see so many sickly, half-dead, despairing people as now meet our gaze at almost every corner, for certainly there never was a remedy invented of which so much is said, and that performs so nearly what its proprietors say it will do. It came to us so highly recommended that we could not fail to try it, and a trial has convinced us, without a doubt, that it is the best family medicine in use. We take it for Headache, Sour Stomach, Billiousness, and any of the little bodily ills that are common, and it does produce a pleasant state of feeling to the sick, and what is better, after using it a few times, these little ills grow less and less, and there is a prospect of being entirely free from them by a continuance in the use of the Invigorator. LOCAL.

ACCIDENT.—Mr. Geo. W. Plumer, of this city, was severely and it may be seriously injured by his horse, near the bakery of Parry & Plumer, in Fleet street, early on Tuesday morning. He had just harnessed the restive animal (which is kept for his own pleasure driving, and doesn't work hard enough to keep him cool,) into the bread cart, when he started to run, with Mr. Plumer holding him by the bridle. As he dashed across the street, Mr. P., finding he could not manage him, tried to run him against the Franklin House stable; but the horse shied and passed between that building and Mr. Plumer's house. Mr. Plumer was jammed between the wheel and step of the carriage, and a stone post—the horse plunging and jumping several times, till he got clear of the harness—of course crushing and squeezing Mr. Plumer all the while. He was unable to walk or stand when relieved from his perilous situation; and his escape from death was certainly very narrow. No bones were broken, but he was much cut, jammed and bruised, and is quite sick.

☞ An elderly gentleman of this city, a good horseman, and who is accustomed to enjoy frequent morning rides on his own trusty horse, met with a singular accident a few days since. While riding in Rye, his horse suddenly made a misstep, and threw his rider to the ground so heavily as to stun him—and he did not entirely recover from the shock for some days. As the animal is sure-footed, having never been known to stumble, and the gentleman is unconscious of what was happening at the time of the accident,—he thinks he must have fallen asleep, and his horse likewise perhaps; and thus, the blind driving the blind, they both fell almost into the ditch. The horse stood near by, until his master was taken up and provided for.

It is very common for persons riding in carriages, and driving, to fall asleep; and not unusual even for riders on horseback, if riding a long distance; but the horse should choose another opportunity for *his* nap.

☞ A school-teacher in this city suggests that our new High School be named the "Walker High School," in compliment to Hon. H. D. Walker, who was Mayor at the time of its being planned and constructed; and who, with his lady, has ever manifested much interest in the establishment of so fine a building. We hope the suggestion may be adopted; and are sure all the scholars who are enjoying the advantages thero afforded, would gladly vote the title.

All the school-houses in this city which are worth naming (and some which we fear are not) except this, have distinctive titles—Bartlett, Woodbury, Franklin, and Haven Schools; and why should not the High School be honored with the name of a gentleman who was one of the chief instruments in procuring its erection. We go in for the "Walker High School."

☞ On our way to the Post Office on Tuesday, we observed a poor fellow staggering along, sometimes describing a semi-circle, then a right angle, and occasionally angles somewhat *obtuse*. He was evidently very drunk, notwithstanding his assertions to the contrary. Advancing towards us, he inquired in a very cold and impolite manner, "who in h-l we were talking to;" not receiving the required information, he added that he "would lick us in two minutes." We left him, failing to discover the beauties of rum drinking. *

THE LOST FOUND.—A gentleman and lady, from Dover, while lunching in a saloon in this city, on Tuesday, missed their little boy, only three years old, who suddenly strayed from them. After searching the vicinity in vain, Mr. Newman was employed to find him; and while he was crying for the child, the youngster was found in Pleasant street, also crying, for his mother. Better keep good hold of mamma's apron-strings, a little longer than that, at any rate.

THE BONDS ARE PAID.—The Sheriff has just told Uncle Toby, and he hastens to tell his nephews, that the bonds in a certain criminal case referred to, were paid. Two good sureties in $50 each, forked over $100, instead of the $50 fine for the offence.—So the law is not quite "a dead letter," but its breach is sometimes a costly amusement.

☞ Our two High Schools have just begun to enjoy their Summer Vacation. The new term begins on the first Monday, (7th day,) of September.

FOR THE WEST!—A letter from John C. Bennett, Postmaster of Polk City, Iowa, recently received by a gentleman of this city, contains the announcement that the General is now on his way to the East, in company with Col. Walker, Register of the Fort Desmoines (Iowa) U. S. Land Office; and are about visiting this section of the country, for the purpose of procuring mechanics and artizans to locate in the new and flourishing settlement of Polk City.

They are induced to make this effort in behalf of the citizens of that locality, because of the great demand which exists for skilful and competent workmen in the various mechanical branches. Carpenters, tanners, coopers, wagon manufacturers, saddle and harness makers, tailors and cabinet makers, are especially needed; and good workmen in any of these departments of labor, would be sure of immediate and constant employment at the highest western rates; while every facility will be extended to such as may wish to locate in that region.

The gentlemen above alluded to, having friends in this vicinity, propose stopping for a day or two in Portsmouth; and will be glad, on their arrival, to converse with any mechanics who have a desire to improve their condition, or who may have in contemplation a residence in the West. Further information in reference to this subject, may be obtained by applying at the Chronicle office.

FROM CALIFORNIA.

NEW YORK, July 27.

The steamship Illinois arrived this afternoon, having left Aspinwall July 19. She brings California dates of the 5th, nearly a million and a half in specie and 450 passengers.

CALIFORNIA.—The primary elections of delegates to the Democratic Gubernatorial Convention resulted in an overwhelming defeat of the Broderick party. Weller will doubtless be nominated on the first ballot.

The Americans are taking measures for the re-organization of their party in California.

The Supreme Court of California, in the case of the Mered Mining Company vs. John C. Fremont, have granted a perpetual injunction upon Fremont, preventing him from interfering with the operations of the Company. The Court has also reversed its late decision touching the San Francisco bonds, the Court now holding as unconstitutional and void that section of the consolidation bill regulating the payment of the Commissioners of the sinking fund, for the gradual extinguishment of the debt.

The miners have held a meeting, denouncing Fremont's Mariposa claim, and threatening resistance.

Business at San Francisco is unusually depressed; and several heavy failures are reported.

OREGON.—Advices from Oregon are to June 20. Fears are still entertained of further Indian difficulties at the Dalles.

The policy of making Oregon a slave State continues to be zealously urged, and a prospectus has been issued for a pro-slavery paper.

THE ISTHMUS. — The frigate Roanoke would sail from Aspinwall July 6th, with a number of fillibusters.

The steamer Sonora, at Panama, brought nearly two million dollars' worth of specie.

The frigate Independence was struck by lightning on the morning of July 5, at Panama, and her mainmast shivered.

CENTRAL AMERICA.—The Chilian Minister Plenipotentiary had arrived at San Jose with proposals for the contemplated Spanish American confederation.

Four hundred of Walker's troops remained at San Jose and Punta Arenas.—The Tennessee had been chartered by the Costa Rican Government to proceed to San Juan del Norte, to take these troops home.

The sloop-of-war Decatur was at Punta Arenas.

Gen. Barridos, late commander of the San Salvadorian forces in Nicaragua, had made unsuccessful attempts at revolution against his government.

Later advices from Central America state that the determination of Costa Rica, to hold her position at Rivas, had given great offence to Nicaragua, and that Costa Rica had sent to England for three gunboats for the purpose of strengthening her position on the rivers and lakes—that a fight is to come off next month between Martinez and Chillon and Mendez; and that the Chamorra party have sent urgent solicitations for Walker's return.

COMMERCIAL INTELLIGENCE.—The markets at San Francisco are glutted with all kinds of produce. (There is no demand, and prices are rapidly depreciating.) Money is accumulating, and rates have a downward tendency. Gallego flour is nominal, at $13 50 per barrel. Pork had declined fully $1 50 per barrel for both mess and clear, sales having been made at $32 50 a $33 for mess, and $35 for clear, cash.

WASHINGTON, July 26.—The correspondent of the New York Herald says:—Our government has recently received advices from Europe which places it beyond doubt that the Spanish and Mexican embroglio will be arranged in a satisfactory manner. The French Minister, Count Sartiges, has also received the same intelligence and has notified our government to that effect.

Information has been received here from Kansas to the effect that the Topeka party have yielded.

Lawrence's Carminative,
—OR—
CHILD'S PAIN-KILLER.

THIS invaluable preparation is a favorite scientific prescription of one of the most eminent of the Medical Faculty in New England, and one who has been successful as any other in the treating of
DISEASES OF CHILDREN,
and has been used with never-failing success.

The Carminative is emphatically
A CHILD'S MEDICINE,
and is the *only* Child's Medicine in this country; intended to do away with the excessive and injurious use of *Paregoric*, a remedy sure to be followed by a "dose of physic."

The ingredients of which the *Carminative* is compounded, are known to the Medical Faculty, and it is now extensively used, and approbated by the physicians living in the vicinity of the Laboratory, where opportunity has been had to test its virtues.

The *Carminative* is offered in full confidence for the rapid cure of
Colic, Pain in the Bowels, Wind in the Stomach and Bowels, Green Stools, Diarrhœa, Nervous Affections, Sore Mouth, Restlessness,
and other disorders incident to Weaning and Teething; sure to regulate derangements of the Stomach and Bowels, which often afflict young children; correct debilitated and sour Stomachs, relieve pain and give tone, energy and strength to the whole system.

One regard has been taken to have the price of the Carminative so low as to be within the reach of all. Price *only 25 cents.*

Parents who value rest should not fail to buy a bottle, as they may depend upon its giving relief to "worrisome children."

Sold by country traders and all Apothecaries throughout the United States and Canada.

J. F. SHORES, No. 1 Congress Block, has just received
One Box of Belcher's Curtain Fixtures.

These Fixtures are a decided improvement on any other in the market. The arrangement is very simple, the curtain rising or falling as we wish, with a slight movement of the cord on the side;—and the cord cannot get over the end as it often does on the "Putnam's."

One in operation can be seen at my store.—Price 37½ cents each, including cord and tassel.

Cogswell's Medical Salt,
A PERFECT SUBSTITUTE
FOR THE
LANCET, LEECHES AND BLISTERS.

INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—has but ONE AIM—accomplishes but ONE THING, to wit: removes THE MATERIAL DISEASE—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. Every *form of inflammation* (but no other disease) is subdued, by it as easily as fire is extinguished by water. Is it asked, *how* it does this?—simply by restoring the lost balance between the fluids and solids. Such is its potency, that like vaccine virus, it renders merely what adheres to the point of a quill dipped into a solution of it, to affect the entire system.

Such is its intrinsic value, the enlightened community, and not the discoverer, must be the judge.

Manny's Celebrated Mower
—AND—
MOWER AND REAPER,
IMPROVED.

Built expressly for the New England States.

THE MANNY MOWER has been extensively used for the past five years in New England, and more than six years at the West.—Its success is beyond that of any other Mower or Reaper ever constructed. Over 1,200 machines have been awarded to, including the *Grand 1st Class Silver Medal* at the WORLD'S FAIR, PARIS, 1856.

With the two past years' experience, we have been enabled to make a number of very *important improvements*. We find New England farmers require a different Machine from other sections;—the field generally lying small. We have worked with ease at the same time possess *great strength*; *portable*, with facilities to *raise the cutters to pass obstructions*, and to remove from field to field. A perfect cutting apparatus, to cut the tine grasses without clogging, and so constructed as to *stand in the grass without backing*, easily adjusted to cut high or low, and have a Heel to cut equally well with or against the wind, and to be worked with ease by a light team, and so easily managed and simple that any one of common ability may operate it successfully, and to be built in the most thorough manner.

With this knowledge of the farmers' requirements, and with the determination to build a better Machine than have ever before been constructed in this country, we offer the **Manny Mower of 1857** with confidence, as combining the qualities enumerated above, and as one particularly adapted to meet the wants of New England farmers.

Price of Mower, $110; with Reaper attachment, $15 Extra. Delivered on board the cars at Worcester, Mass. JOHN P. ADRIANCE & Co.,
Manufacturers.

AYER'S Cathartic Pills,
(SUGAR COATED,)
ARE MADE TO

CLEANSE THE BLOOD AND CURE THE SICK
Invalids, Fathers, Mothers, Physicians Philanthropists, read their effects, and judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach

PITTSBURG, PA., May 1, 1855.

DR. J. C. AYER. *Sir:* I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once. If they will do others as they do me, the fact is worth knowing.

Yours with great respect,
ED. W. PREBLE,
Clerk of Steamer Clarion.

Bilious Disorders and Liver Complaints

DEPARTMENT OF THE INTERIOR,
WASHINGTON, D. C., 7 Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of *bilious disease* so obstinate that it did not readily yield to them.

Fraternally yours,
MORDECAI D. GALE, M. D.,
Physician of the Marine Hospital.

Dysentery, Relax, and Worms.

POST OFFICE, HARTLAND, LIV. CO., MICH., Nov. 16, 1855

DR. AYER: Your Pills are the perfection of medicine they have done my wife more good than I can tell you she had been sick and pining away for more than four years, and could not get cured by the best of doctors, but got no better. She then commenced taking your Pills, which soon cured her by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of bloody dysentery. One of our neighbors had it bad, and my wife cured him with two doses of your Pills, while others around him paid from fifty to twenty dollars for doctor's bills, and lost much time, without being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be appreciated here.

GEO. J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in doctoring. To regulate the system and purify the blood they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WAYLAND, WYOMING CO., N. Y., Oct. 24, 1854.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN M. WHEELHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Forwarding Merchant of S. Louis, Mo. 4, 1855.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet, which had become incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. Your alterative only, of her child was cured, she tried your Pills, and they have cured her. ASA MORGRIDGE.

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawkes, of the Methodist Episc. Church.

PULASKI HOUSE, SAVANNAH, GA., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has afforded me if I did not publicly say so. My arm, A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding that I had the best of physicians, the disease grew worse and worse, until, by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them, I was now entirely well.

SENATOR CRAMMER, BATON ROUGE, LA., 5 Dec., 1855.

DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease that had afflicted me for years. VINCENT SLIDELL.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a Dinner Pill, they are agreeable and effectual.

Fits, Suppression, Paralysis, Inflammation, and Deafness, all of Vertical Blindness, have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skillful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, IN CIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it already known. Not a few of the families in any civilized country on this continent without some personal experience of its effects; and fewer yet the communities any where which have not among them some living trophy of its victory over the subtle and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in their dwellings as a preventive against croup, that steals upon them unprepared. We have abundant grounds to believe the CHERRY PECTORAL saves more lives by the consumptions it prevents than it cures. Keep it by you, cure your colds while they are curable, and forget that there until no human skill can master the incurable canker that, fastened on the vitals, eats your life away. All know the dreadful fatality of long coughs, and as they know too the virtues of this remedy, we need not ignore than to assure them it is still made the best it can be. We spare no cost, no care, no labor, to render it the most perfect healing balm we can afford those who rely on it the best agent which our skill can furnish for their cure.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FRANCIS & Co are the managers, are chartered by the state of Maryland, and a council, elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combination. Prizes vary in amount from $50 to $100 'OO. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawings in the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $30,000; every prize being drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers: Sun, Clipper, Patriot, *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Day Book*. Write your address plainly, and direct to S. SWAN & Co., Atlanta, Georgia

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

Researches made into American or Foreign works, to determine the validity or utility of Patents of Inventions, and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting Ony One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages of securing patents on more favorable terms, the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The specimens below given prove that there is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to Patents, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond identity, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here avoided. Inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, was extensively engaged in obtaining Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office, and there were none who conducted it with more skill and fidelity to business. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in recommending inventors that they can employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner of Patents.

Answer 17, Liberal charges during the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business at the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

TOO MUCH PROPRIETY.—An editorial in the New Bedford Standard, upon popular recreations among our countrymen, contains the following true and well spoken thoughts:

"Once more we have an overstrained and almost ludicrous sense of personal dignity. We are afraid to unbend. The clergyman must be a stately and dignified person, with a bronchitis-engendering cravat about his neck, and whose very laugh is solemn. The schoolmaster is a shallow and dyspeptic individual, without a thimble-full of animal spirits; and everybody is dreadfully afraid of being laughed at."

☞ The "city papers," as the Cleveland Herald calls them, of the Forest City, are perturbed in their curule chairs. They have a common, and the posts at the entances thereof are set thick, so that cows may not enter. And the "papers" are afraid that posts which exclude cows will be also a bar to the progress of crinolines and their contents. Well may they be in tribulation, for what is the use of a common if cows can go upon it? and again, what is the use of a common if the ladies are to be excluded?

THE LIQUOR LAW.—Those fast friends of temperance, the democratic papers and their correspondents, are a great deal scandalized, (or profess to be) because the republican members of the Legislature refused to amend the liquor law so as to allow the selectmen of towns to appoint agents for the sale of ardent spirits, or not,—the Supreme Court having decided that by the terms of the present law it was obligatory upon them to do so. The motion to amend the law was well understood to be made by a man who was not opposed to the sale or use of liquor, but to the law prohibiting it. His object was to give the selectmen of locofoco towns an opportunity, by shutting up their agencies, to render it impossible to obtain liquors even for the purposes contemplated by the law, and thus render it so unpopular and vexatious in the country towns as to procure its repeal; when "free rum" would again be the order of the day. The majority in the Legislature understood the game and declined aiding the party in their philanthropic work.—*Dover Inquirer.*

Col. David Fuller, a prominent citizen of the western part of this county, died at his residence in Francestown on the 23d inst. He was a native of that town, and represented it two years in the Legislature, and was a member of the Constitutional Convention in 1850. While yet a minor and in indigent circumstances, he discovered, while plowing upon the farm of his father, the valuable quarry of soap-stone which has been extensively wrought for stoves, fire frames, sizing rollers and other purposes. A few years since he refused the offer of $40,000 for it. He was 66 years of age, and had been in feeble health for several years.—*Manchester American.*

A New York merchant recently sent for a cargo of Maltese cats from that celebrated Island, per schooner William E. Callis, of Nantucket, Captain Smith. Fifty kittens were received on board the schooner, as a part of the assorted cargo. On the voyage very rough weather was experienced. At first the tars attributed the rapid succession of gales to the comet, but one old sailor told the crew that it was nothing outside the vessel that occasioned the storm; that one cat was enough to send any ship to Davy Jones's locker, and as they had fifty on board, not a man of them stood a chance of setting foot on dry land again. This was enough for the superstitious crew, and the cats were immediately demanded of the Captain, and given and drowned. By a singular coincidence, the storm thereupon abated. The owner of the cats has now sued the owners of the vessel for damages, laying the value of the cats at $50 a-piece—or $2,500.—*Albany Express.*

CAN SATAN CAST OUT SATAN?—A man was in apparent distress at the sights of drunkenness he saw. He never did the first thing to help the cause of temperance. On the contrary he opposed it. Church member though he is, he has been frequently been intoxicated on cider. But as it served his turn to say something against temperance, he lived through it.—He said it was the result of the prohibitory law, as in consequence of it there was more drunkenness than before. Wonder if he wont pray in secret that God will bring about its repeal?—*Morning Star.*

It is easy on the Fourth of July to praise the dead heroes of a past age, and magnify their meritorious achievements, as the Pharisees whitened the sepulchres of the prophets; but it is noble to breathe the spirit, emulate their consecration to the same great cause of justice and freedom, and to re-enact their parts amidst the altered emergencies of the present age. —*Rev. Wm. R. Alger.*

IMPORTANT DISCOVERY.

DR. CHEESEMAN'S PILLS FOR FEMALES,

Prepared by an old Physician of 40 years experience.

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. L. CHEESEMAN, Box No. 4,581, Post Office, New York City, can have them sent to their respective addresses by return of mail.

THURSDAY, JULY 30, 1857.

STATISTICS.

A new book, called the North and the South, is filled with valuable comparisons between Slavery and Freedom. We give a few extracts, which may interest the reader.

By the census of 1860, more than two-thirds of the entire population of the Union will be found in the Free States.

The whole number of slaveholders, (less than 350.000) including females and minors, *counting them all as voters*, are less than the number of freemen who voted at the Presidential election in 1852, in either Pennsylvania or Ohio!

The number of slaves annually sold from the Northern Slave States to the Southern is not less than 25,000.

The slaves have a representation in Congress (for the exclusive benefit of their tyrannical masters) equal to that of New Hampshire, Vermont, Connecticut, Iowa, and Wisconsin.

The free population of the whole fifteen Slave States is slightly more than that of New York, Pennsylvania and Massachusetts; yet the latter have only sixty-nine, while the former have ninety representatives.

The aggregate vote of eleven Slave States, in 1852, was less than that of the single State of New York; and yet these States are entitled to seventy-nine electoral votes, and New York to only 35. Pennsylvania and New York cast a popular vote larger, by more than 60,000, than *all* the Slave States; yet the former have only sixty-two electoral votes, while the latter have one hundred and twenty!

In the North, 93,296 freemen and 16,101 voters are required to elect a representative to Congress. In the South, only 71,251 freemen and 8,976 voters.

Including only the lands under cultivation in the two sections, the value per acre in the North, is more than three times that of the South. Including the whole area, the proportion is still larger.

The value per acre of land in the States, *on the dividing line between freedom and slavery*, is very suggestive;—thus in the Free States, the value of farms per acre is as follows, viz.:—New Jersey, $43.67; Pennsylvania, 27.27; Ohio, 19.99; Indiana, 10.66; Illinois, 7.99. Average, $22,17.

In *the border Slave States* the value is as follows, viz:—Delaware, $19.75; Maryland, 18.81; Virginia, 8.27; Kentucky, 9.03; Missouri; 6.49. Average, $9.25.

Again—take those Slave States which, by position, population, or intercourse, *feel least the influence of the Free States*. Thus, the value of farms per acre, is, in North Carolina, $3.24; South Carolina, 1.32; Tennessee, 5.16; Florida, 3.97; Georgia, 4.19; Alabama, 5.30; Arkansas, 5.87; Texas, 1.44; Mississippi, 5.22. Average, $3.74!

What a revelation is this! Observe, too, that whilst South Carolina is the most intensely pro-slavery, and the most vigilant in the maintenance of her slave system, she is lowest in the scale.

The North, with half as much land under cultivation, and two-thirds as many persons engaged in farming, produces two hundred and twenty-seven millions of dollars' worth of agricultural products in a year more than the South; twice as much on an acre, and more than double the value per head for every person engaged in farming! And this, while the South, paying nothing for its labor, has better land, a monopoly of cotton, cane sugar, and a climate granting two, and sometimes three crops in a year.

In manufactures, the North has more than twenty times; in tonnage owned in 1855, three times; and in tonnage built in the same year, three hundred and fifty times as much as the South. The 'tonnage built' in 1855, in redoubtable South Carolina, consisted of one schooner of sixty-one tons burden! This is since the sitting of several Southern Conventions, in which they resolved to have an extensive commerce of their own, not only with Europe, but with Brazil and Central America!

A Plain, Straightforward Speech.—Fellow-citizens: The Black Republicans put the cart before the horse in all their logic about slavery, and that is the reason why they come to the wrong conclusion.—They say slavery is the cause of the agitation and trouble of the country. But it is just as plain as the sun at midnight, that agitation is the cause of slavery; it is of course the cause of the extension of slavery. So long as you oppose the extension of slavery, the slaveholders will wish to extend it. Hence the only non extension party is the party which does not oppose the extension of slavery. If all at the North would join this party there would be no agitation against either slavery or the extension of slavery, and without agitation and opposition slavery would cease to be extended and soon cease to exist.

Had it not been for the Emigrant Aid Society there would have been no agitation of the subject of a free State in Kansas, and of course there would have been no motive for slavery to have entered there—no cause to produce its extension.—Therefore, the Emigrant Aid Society is responsible for Slavery in Kansas, and for the murders and arsons, and all the political troubles in the country. There is no hope for Freedom but in ceasing to agitate and oppose the extension of slavery, and leaving it to take care of itself everywhere.

☞ On Wednesday eleven slaves from Georgia were set free in Cincinnati, pursuant to the will of their late master.

Sad Case of Suicide.—We learn from the Manchester American the particulars of a melancholy case of suicide by drowning in a factory canal. The victim was a woman, Miss Eliza Lunt, daughter of James Lunt, of Rockland, Me. The suicide occurred in Manchester on Saturday, about 4 o'clock in the afternoon.

On the banks near by were found her bonnet, shawl, parasol, wallet and some pieces of paper—apparently as placed by herself. The wallet contained a $100 bill on the Merchants' Bank, Boston, and $9 76 in small bills and change.

She had come to Manchester on Tuesday, and appeared lady-like, but singular. The deceased had been in Manchester twice before, the last time in October last. A sister who accompanied her on her first visit, several years ago, became the wife of Deacon Daniel Gooden, and committed suicide a year ago last spring. While in Manchester last fall, her manners were very quiet, modest and unsociable—often abstracted and melancholy. She was quite a reader, and reflected much upon religious subjects, but entertained peculiar views.—She believed in annihilation—that there was nothing beyond the grave. She was considered partially insane, so strange was her appearance at times. Her deportment was always correct, and it is believed she destroyed herself while laboring under aberration of mind. Her mother was insane for years.

The Husband Game.—The Boston Traveller says, one Cornelius Doherty was examined and held for trial in the Police Court for extorting $2 from a Mr. Bayley. Bayley, it appears, visited Doherty's place in North street, and invested in divers delectable beverages there sold. He made his trade with Doherty's wife, and while he was enjoying the pleasures of Bacchus, Doherty entered the place and the usual scene occurred. The modesty of Mistress Doherty had been grossly insulted, Mr. Doherty's honor had been irreparably injured, and the affairs of the family generally damaged. Five dollars was demanded as a salve for these wounds, and was promptly refused by Mr. Bayley, on the very reasonable ground that his worldy possessions were not of that amount; so after some higgling, Mr. Doherty concluded to accept the small amount of coin which the destroyer of his domestic peace and happiness happened to have with him, and for two dollars granted an indulgence for the sins of the past. A pair of police officers happened to overhear the talk, and as soon as the contract was completed they entered the place, seized the injured husband and the cash, and the result is above narrated.

Hundreds of the keepers of drinking shops and houses in Boston, are just as respectable as this same Mr. Doherty—scores of such in Lowell—a dozen in Portsmouth; and yet some paper in Lowell prates about the business going into hands less responsible.

Another Foot Expedition Mountainward.—A correspondent writing to the Traveller from Newmarket, N. H., says that a company of pedestrians, consisting of four young men, passed through that place on Monday, knapsacked in the old continental style, bound for the White Mountains. The party was from Amesbury, Mass., and were a hale, jolly-looking set. They intend travelling about twenty miles a day, resting during the day from nine in the morning to five in the afternoon. Thus far the journey has been pleasant, and they have lived on bread and milk plentifully supplied them by the good country-women. The party were in fine spirits, and, without doubt, will successfully complete the journey.

☞ The Commissioner of Patents has set apart a portion of the funds last appropriated by Congress for agricultural purposes, for obtaining cuttings of all the wild grape vines of the United States, to be placed in the hands of practical cultivators, with a view of testing their adaptation to the soil and climate of the other sections of the Union, and determining their value for table use and for making wine.

☞ Senator Sumner writes back from Europe that his health and capability of mental exertion are slowly but surely improving, and he hopes to return to Massachusetts in the fall, prepared for the discharge of his public and private duties. The Manchester American says, "we heard an intimate friend of Mr. Sumner, and one who well understands the nature of the dreadful injuries he sustained, express the opinion a few days since, that Mr. Sumner although he might apparently fully recover, will never regain that capacity for prolonged and intense mental application which he previously possessed."

Sharpers Foiled at their Own Game.—In New York, on Monday, the Sun says, a couple of patent "safe" sharpers got hold of a supposed greenhorn near one of the hotels, whom they found to be so exceedingly verdant that caution on their part was entirely laid aside. Green was ready enough to go to it blind on their "safe," but he said his wife had got all his money, and he wanted a good pretext to get it out of her. So he borrowed a gold watch of the sharpers, in order to show to his wife as a desired purchase,—entered the hotel—stepped out of another door—and the sharpers have not seen him since.

Death of Captain Patten.—Capt. Joshua A. Patten, formerly master of the ship Neptuno's Car, died at the McLean Asylum, in Somerville, on Sunday. He was but a little over 30 years of age. It was on the passage of this ship to California, that Mrs. Patten, captain's wife, successfully navigated the ship into the port of San Francisco.

Mrs. Patten's health is said to be improving.

☞ It is said that great excitement exists in Woodford county, Ky., in consequence of the failure of James H. Shouse of Versailles. The failure, which is for *several* hundred thousand dollars, is not the worst feature; already not less than two hundred thousand dollars of forged paper have been discovered. Nearly every person in Woodford and Franklin, and adjoining counties, with whom Shouse had dealings, is a sufferer by the forged paper.—Shouse has absconded.

☞ The Deseret News gives the following description of one of the Mormon sisters:—"Sister Mary Phillips, of Keysville, Davis county, is now eighty-four years old, enjoys good health, and can walk twenty miles a day. In the summer of 1854 she gleaned twenty bushels of wheat, and raised twenty bushels of potatoes; and last fall she donated a yoke of cattle to the P. E. fund for gathering the poor."

☞ In New York, on the night before the Fouth, the mate of the ship Zurich, was attacked by five or six men, in Oliver street, who threw him down. Being a strong man, he fought desperately, and while on the ground, stabbed the assailant who had him by the throat. The ruffian rolled off into the gutter, and the others fled. The man he stabbed was conveyed to the hospital, and died early the next day. Verdict—justifiable homicide.

☞ Some unknown friend in England, keeps us regularly supplied with the Alliance Weekly News, a paper published every Saturday, at Manchester. This paper contains accounts of Neal Dow's progress through the kingdom, with the meetings and addresses. Also, a great amount of temperance matter, for which we have but little room, as our columns are full, and as American News of the same sort is abundant and interesting.

Liquor Cases at Concord, Mass.—We learn that the liquor trials at the late term of the Court in Concord were mostly failures, convictions being obtained only in cases where the evidence was *perfectly clear* and no defence was made.—*Boston Trav.*

Well and good: all cases *ought* to fail when the evidence is not *perfectly* clear. It would not do to convict people of crimes on mere accusation and presumption, without proof.—The accused ought always to have the benefit of every *reasonable* doubt, in liquor cases as well as others. They should be tried precisely as others, and neither more nor less of proof should be required.

☞ Mark Perkins of Dover, on one of the hot days last week, won a bet of $10, by hauling Oscar K. Grant in a wagon, two miles in twenty-two minutes. The whole load weighed 410 lbs. The sport was witnessed by a large crowd; and proved Perkins to be a man of good wind and muscle.

☞ The Boston correspondent of the New York Times says Mr. Choate was waited upon to know if he'd accept a coalition nomination for Governor against Mr. Banks, and replied that he could not entertain the proposition on any terms, and that Mr. Banks was sure to be elected.

☞ One of the Toledo papers has been mulcted in $1712.50 damages, for announcing that a Mrs. Griffin, of Albany—whose husband, it was stated, died destitute in Toledo some time since,—had eloped from her lord, who was in search of her at the time of his decease.

When the Duke of York was obliged to retreat before the French, Sheridan gave as a toast, "The Duke of York and his brave followers."

No Danger now.—Looking over a drawer of scraps, we find the following extract from a paper of Dec., 1856, rejoicing over Mr. Buchanan's election, and speaking thus of its effects:

It has consolidated and *eternized* the Union of the States.

It has crushed *forever* all secret political societies.

☞ David Johnson, Jr., the young man who injured himself in such a singular manner by diving in a swimming bath in Williamsburgh last week, died on Saturday afternoon. He became insensible on Friday, and was not conscious up to the period of his decease.

HAIR RESTORATIVE.—Every one will, we think, agree with us in the opinion that the human hair is the greatest natural ornament that is possessed either by a gentleman or a lady.—Just meet an apparently good looking man, for instance, in the street; you admire his features, whiskers, and general bearing; but lo! he lifts his hat in recognition of your bow, and the charm has vanished, for Ichabod is written on his bald head, and the glory has departed with the flowing locks that once flourished luxuriantly there. In the case of a lady, the matter is, if possible, worse—such cases reminding one of the circumstances on which the following epigram is founded:

'O! give me, fair Emma, a lock of your hair,'
A bashful young lover took courage and sighed:
'T'was a sin to refuse such a modest request,
So take the whole wig,' the dear creature replied.

Now, to prevent such a catastrophe, is within the power of every lady and gentleman; for, by using Prof. O. S. Woods' Hair Restorative, hair is not only prevented from falling off or turning gray, but the article will restore hair to bald places; and even if it has changed color and become gray, it will bring it back to its pristine beauty and luxuriance. Those who are acquainted with the anatomy, physiology and pathology of the hair, must be well aware that certain substances have a specific action upon it; and it is by judicious combination of these that Professor Wood has succeeded in compounding a mixture possessed of remarkable virtues.—[Waverly Magazine and Literary Gaz.

IF ALL OUR READERS

Who are troubled with liver complaint, Jaundice, or Dyspepsia, will read the advertisement in another column of Dr. Sanford's Invigorator, and then do as we have done—get a bottle, we should not see so many sickly, half-dead, despairing people as now meet our gaze at almost every corner, for certainly there never was a remedy invented of which so much is said, and that performs so nearly what its proprietors say it will do. It came to us so highly recommended that we could not fail to try it, and a trial has convinced us, without a doubt, that it is the best family medicine in use. We take it for Headache, Sour Stomach, Billiousness, and any of the little bodily ills that are common, and it does produce a pleasant state of feeling to the sick, and what is better, after using it a few times, these little ills grow less and less, and there is a prospect of being entirely free from them by a continuance in the use of the Invigorator. SUDDEN DEATH. — Commodore John Thomas Newton, Commandant of Portsmouth, N. H., Naval Station, died very suddenly at Washington, D. C., on Tuesday night, July 28th, probably in a fit of paralysis. He was located here in the fall of 1855; and was an efficient and popular officer. He had been in Washington ever since March, as President of the Naval Court of Inquiry; to attend which nearly every commissioned officer on the yard here has been summoned at one time or another during its session.

The first intimation his family had of his sickness, was a telegraphic dispatch received here from Washington, on Wednesday morning; which was followed in a single hour, by the receipt of another, announcing his death. His age is thought to be about 72 years; and his habits and appearance were not such as would seem to indicate liability to sudden death. Soon after the adjournment of the Naval Court he was struck with paralysis, and died very shortly. He was apparently in perfect health up to the moment of the attack.—His son, Gordon Newton, who has been his clerk, proceeded to Washington immediately on receiving the sad intelligence.

It is a remarkable circumstance that but two officers who have ever been Commandants at this station (Commodores Storer and Sloat) are now living; though Com. Newton is, we think, the first instance in which death has occurred to an actual incumbent of the office.

POLICE COURT.

WEDNESDAY, July 29.

Before Justice Bennett—Sylvanus J. Edgerly of Newington was accused of assaulting Edward L. Hill. Sentenced to pay a fine of $2; and costs, $9 20; and was recognized in the sum of $30 to keep the peace, and for good behavior.

The same Edgerly was accused of assaulting Josiah Drew of Newington. In this case two persons were fighting, one of whom had a club; and Drew, in attempting to wrench the stick from them, received a blow upon the face. After hearing the case, the court ordered the defendant to be discharged.

WHAT'S IN A NAME?—The old Piscataqua House is no longer a hotel, and will soon be demolished as a building. So Messrs. Grant & Lewis have adopted the name of "Piscataqua House" for their hotel, the next building north—which for several years (under direction of Col. Wm. S. Hadley) has been known as the Granite House; and have removed Gen. J. G. Hadley's tall sign-post to the front of their establishment. The name Piscataqua is certainly the more beautiful—and we are glad it is to be retained; besides being altogether more appropriate than "Granite," especially for a wooden building.

☞ The schooner Champion, of Portsmouth, was ashore at Seven-Hundred-Acre Island, Bangor. Steamtug Terror went to her assistance on Monday, and it was thought she would be got off on Tuesday.

☞ The body of Foley, the Irishman drowned at Dover Point a few days since, was found by a man of the name of Tuttle, belonging in Elliot. Dr. Pray was called, but no inquest was deemed necessary.

☞ On Sunday evening, July 26th, at Phillips Academy, Andover, Mass., the 34th anniversary of the Society of Inquiry was celebrated, when an address was delivered by Mr. William W. Dow, of Portsmouth, N. H.

Mr. Dow also recited a Poem on "The art preservative of all arts." The history of the art of Printing, from the time when the Devil was supposed to be at the bottom of it, to the present day of ten-cylinder presser, was racily reviewed. Mr. Dow displayed considerable genius in his production, and what is quite as creditable perhaps, proved by his use of typographical technicalities that he was no stranger to the mysteries of the art. Mr. Dow was a graduate of the Portsmouth Journal Office; and is a young man of considerable talent—which he is improving to the best advantage.

☞ "Sunny Memories" is the appropriate title of a pleasing "Waltz, composed for the Piano-Forte by H. P. Crane," organist at the Universalist Church and teacher of music, in this city. Copies may be had at Harvey's Bookstore.

BUTTERFLIES.—We can't say whether Mr. Thacher's excellent Soda Fountain is what attracts them or not; but he is getting quite a collection of beautiful Butterflies in his store—which, after they have once fairly entered, become so "*attached* to" the building, that they can't well leave. They are of various sizes and colors, one measuring upwards of six inches from tip to tip of wings,—the largest and most beautiful we ever saw in this climate.

☞ On Wednesday evening, Marshal Beck arrested an Irishman named Murphy, who lives in the old Goodrich house on Hanover street, and with much difficulty carried him to the lock-up. He was crazy drunk, and when the City Marshal entered the house he had an axe uplifted over his wife's head, threatening to split her skull. He is an old offender, and deserves to be sent to the State Prison. *

DEATH AT A PRIVATE PARTY.—In Baltimore, at a private party on Saturday night during the progress of the "merry dance," a Miss Bridget McGarrity, who had been dancing, was asked by a young man to dance with him in the next set, to which request she yielded a polite assent. The next moment she reeled back against the wall, but was caught before falling, and seated in a chair. Dancing instantly stopped, and everything was done that suggested itself as proper for her recovery, but she died in five minutes, and before a physician who had been sent for could reach the house. That scene of festivity was thus turned into one of mourning, and the guests sadly took their leave, even as the dead had, before the expected time. A post-mortem examination revealed the presence of disease of the heart, which had been aggravated and brought to a fatal crisis by the exertion consequent upon dancing.

Mr. Jabez Eaton of the schooner Pacific, fishing off Boon Island, came near being drowned by an adventure with a horse mackerel that weighed about 500 pounds. Mr. Eaton was in a wherry, and a harpoon had been thrown into the fish with a line attached to the boat; but when he had been towed about half a mile the boat was tipped over, with a turn of the line about Eaton's leg and body, so that he was carried several fathoms down, and remained there till another boat could go to him.—When taken out of the water he was as one dead, and remained so for some time. The fish was lost; the man was recovered. *Newburyport Herald.*

☞ The U. S. sloop-of-war Cyane, Commander Robert G. Robb, arrived at Boston yesterday from Aspinwall, after a passage of 24 days, bringing 53 men who were formerly attached to Walker's army.

☞ On Tuesday a son of Capt. Geo. W. Dennis of Newburyport, aged 11 years, was drowned while bathing near a wharf.—The body was recovered within ten minutes of his sinking; but he was too far gone to be revived.

Juvenile Singing School.

NEW TERM.

A. PEARSON will form a new Class of Juveniles, for instruction in Singing, AT EXCHANGE HALL, *On SATURDAY Afternoon, August 1st.*, AT 3 O'CLOCK.

This will be a good opportunity for beginners, as the pupils somewhat advanced will greatly aid them; and all such are invited.

TICKETS $1, for the course of 12 Lessons,—may be had at Mr. Cobb's Music Store, and at the Hall. Portsmouth, July 29th, 1857.

THE BEST MOWING MACHINE.

ALLEN'S Patent Improved Mowing Machine, and combined Mower and Reaper; Bore off the palm at the great National Trial of Mowers at Syracuse, N. Y., and a larger number of them have been sold than of any other patent. THIS invaluable Medicine is unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject. It moderates all excess, removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES

It is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

Each bottle, Price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.

CAUTION.

These Pills should not be taken by females that are pregnant, during the first three months, as they are sure to bring on Miscarriage, but at every other time and in every other case they are perfectly safe.

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Fatigue on slight exertion, Palpitation of the Heart, Hysterics, and Whites, these Pills will effect a cure when all other means have failed, and although a powerful remedy, do not contain iron, calomel, antimony, or any thing hurtful to the constitution.

To all directions accompany each package.

Sole Agent for the United States and Canada, JOB MOSES, (late I. C. BALWDIN & CO.,) Rochester, N.Y.

N. B.—$1 and 6 postage stamps enclosed to any authorized Agent, will insure a bottle of the Pills by return mail.

For sale, wholesale and retail, by W. R. PRESTON, Portsmouth, and by Druggists in every town in the United States.

Lawrence's Carminative,

—OR—

CHILD'S PAIN-KILLER.

THIS invaluable preparation is a favorite scientific prescription of one of the most eminent of the Medical Faculty in New England, and one who has been successful as any other in the treating of

DISEASES OF CHILDREN,

and has been used with never-failing success.

The Carminative is emphatically

A CHILD'S MEDICINE,

and is the *only* Child's Medicine in this country; intended to do away with the excessive and injurious use of *Paregoric*, a remedy sure to be followed by a "dose of physic."

The ingredients of which the *Carminative* is compounded, are known to the Medical Faculty, and it is now extensively used, and approbated by the physicians living in the vicinity of the Laboratory, where opportunity has been had to test its virtues.

The *Carminative* is offered in full confidence for the rapid cure of

Colic, Pain in the Bowels, Wind in the Stomach and Bowels, Green Stools, Diarrhœa, Nervous Affections, Sore Mouth, Restlessness,

and other disorders incident to Weaning and Teething; sure to regulate derangements of the Stomach and Bowels, which often afflict young children; correct debilitated and sour Stomachs, relieve pain and give tone, energy and strength to the whole system.

Due regard has been taken to have the price of the Carminative so low as to be within the reach of all. Price *only 25 cents.*

Parents who value rest should not fail to buy a bottle, as they may spend upon its giving relief to "worrisome children."

Sold by country traders and all Apothecaries throughout the United States and Canada.

Coggswell's Medical Salt,

A PERFECT SUBSTITUTE

FOR THE

LANCET, LEECHES AND BLISTERS.

INSTEAD of being a panacea for all maladies, it has control over but *ONE* MALADY—but but ONE AIM—accomplishes but ONE THING, to wit: CURING INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. Every *form of inflammation* (but no other disease) is subdued, by it as easily as fire is extinguished by water. Is it asked, *how* it does this?—simply by restoring the lost balance between the finite and solids. Such is its potency, that like vaccine matter, it requires merely what adheres to the point of a pin dipped into a solution of it, to affect the entire system.

☞ *Of its intrinsic value, the enlightened community, and not the discoverer, must be the judge.*

Manny's Celebrated Mower
—AND—
MOWER AND REAPER.
IMPROVED.

Built expressly for the New England States.

THE MANNY MOWER has been extensively used for the past two years in New England, and more than six years at the West.—Its success is beyond that of any other Mower or Reaper ever constructed. Over 150 1st *Premiums* have been awarded it, including the *Grand* 1st Class *Silver Medal* at the WORLD'S FAIR, PARIS, 1855.

With the two past years' experience, we have been enabled to make a number of very *important improvements*. We find New England farmers require a different Machine from other sections;—the fields generally being small. It must be light, at the same time possess *great strength*; *portable*, with facilities to *raise the cutter* to pass *obstructions*, and to remove from field to field. A perfect cutting apparatus, to cut the fine grasses without clogging, and so constructed as to *start* in the grass *without backing*, easily adjusted to cut high or low, and have a Reel to cut equally well with or against the wind, and to be worked with ease by a light team, and so easily managed and simple that any one of common stability may operate it successfully, and to be built in the most thorough manner.

With this knowledge of the farmers' requirements, and with the determination to build a *better* Machine than has ever before been constructed in this country, we offer the **Manny Mower of 1857** with confidence, as combining the qualities enumerated above, and as one particularly adapted to meet the wants of New England farmers.

Price of Mower, $110; with Reaper attachment, $15 Extra. Delivered on board the cars at Worcester, Mass. JOHN P. ADRIANCE & Co., *Poughkeepsie, New-York.*

One of the above Machines can be seen at the store of the Subscriber.

AYER'S Cathartic Pills,
(SUGAR COATED,)
ARE MADE TO

CLEANSE THE BLOOD AND CURE THE SICK wealthy, Fathers, Mothers, Physicians Philanthropists, read their Effects, and judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach

PITTSBURG, PA., May 1, 1855.

DR. J. C. AYER. *Sir:* I have been repeatedly cured of the worst headache by only one have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once. If they will do so, I believe as they do me, the fact is worth knowing.

Yours with great respect, ED. W. PREBLE,
Clerk of Steamer Clarion.

Bilious Disorders and Liver Complaints

DEPARTMENT OF THE INTERIOR,
WASHINGTON, D. C., 7 Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic pill. Their influence upon vitiating secretion on the liver is quick and decided, consequently they are an admirable remedy for derangements of the organ. Indeed, I have seldom found a case of bilious disease so obstinate that it did not yield readily to them.

Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Relax, and Worms.

POST OFFICE, HAVELOCK, LIV. CO., MICH., Nov. 16, 1855

DR. AYER: Your Pills are the perfection of medicine. They have done my wife more good than I can tell you. She had been sick and pining away for months. Went off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of bloody flux. One of our neighbors had had a bad cough, my wife cured him with two doses of your Pills, while others around us paid from five to twenty dollars doctor bills, and lost much time, without being cured entirely even then. I consider it a wonderful medicine, which is actually good and honest, will be prized here.

GEO. J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. J. C. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood they are the very best remedy I have ever known, and I can conscientiously recommend them to my friends. Yours, J. V. HIMES.

WATERTOWN, WYOMING CO., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent cathartic, effective to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Physician of Merit in Lynn, Mass.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for two years before. Her mother has been greatly afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her. ASA MONGRIDGE

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Bocock, of the Methodist Episc. Church.

PALMYRA, Putnam Co., Ga., Jan. 6, 1856.

HONORED SIR: I feel it to be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until, by the advice of your excellent agent, Dr. Redfield, I tried your Pills. Their effects were slow, but sure. By persevering to the use of them I am now entirely well.

SENATE CHAMBER, BATON ROUGE, LA., 5 Dec., 1854.

DR. AYER: Your Pills have conferred the greatest benefit of Rheumatic Gout—a painful disease that had all year me for years. VINCENT SLIDELL.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a **Dinner Pill**, they are agreeable and effectual.

Fits, Suppression, Paralysis, Inflammation, and even **Deafness**, and **Partial Blindness**, have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skillful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its improper exhibition. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL
FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, INCIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout our country town, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it already known. Now, few are the localities in which some individual does not reside who has some personal experience of its effects; and fewer yet the communities any where which have not among them some living trophy of its victory over the subtle and fatal forms disease of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the insidious enemy that steals upon them unprepared. We have abundant proofs to believe the CHERRY PECTORAL saves more victims by the consumptions it prevents than those it cures. Keep it by you, and cure your colds while they are curable, for neglect them until we become victims to the incurable consumption that fastened on the vitals, cuts your life away. All know the dreadful fatality of lung disorders, and so they know to the virtues of this remedy. We need not dwell upon them here. Suffice it it still made the best it can be. We spare no cost, no care, no toil to produce it the most perfect possible, and thus afford those who only ask it the best agent which our skill can afford for their relief.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. TRAVERS & SON are managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket, (either the Havana plan), and Tertary combination. Prizes vary in amount from $20 to $100,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers:—Sun, Clipper, Wm. Penn, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public their opportunities for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme a ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes are paid in full (without deduction) being drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount of prize in each, annexed to. will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Day Book*. Write your address plainly, and direct to S. SWAN & Co., Atlanta, Georgia

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

American and Foreign Patents.
R. H. EDDY, solicitor of Patents,
(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)

No. 76 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Research made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters appertaining to the Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

R. H. Eddy is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, those which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL. AT THE PATENT OFFICE, AND AFTERWARDS, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years in the Patent Office, gives him a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and his familiarity with the patent laws in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons of his capacity who had more business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the well informed and successful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and in no case can they more promote their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

ACCOMAC CT., 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the usage and practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHARLES MASON,
Commissioner of Patents.

BOSTON.
Conducted on the European Plan.

LEWIS RICE, Proprietor, respectfully announces that in compliance with the public preference expressed for the European system of hotel management, that the American House will hereafter be conducted solely on that plan. Well furnished parlor and sleeping apartments will be let by the day, or for longer periods. Meals served at the gentlemen's hall at all hours of the day and evening. The ladies' dining hall will be opened in like manner for ladies, and gentlemen accompanied by ladies. The accommodations and conveniences of the house are unsurpassed, and the recent improvements and alterations leave nothing to be desired. Suburban residents will find the arrangement specially convenient. Large or small parties provided with dinners, suppers, &c., at short notice.

AN UNUSUAL WEDDING SCENE. — Some time since, six young gentlemen bid farewell to the lasses who had won their hearts amid Scotia's blooming heather, and sought the shores of America, in hope of being enabled the better to prepare for wedded life. They located at Chicago, where the remembrance of their "bonnie Annie Lauries" inspired them to unusual and persevering exertions, till fortune at last so favored them that they sent home to Scotland the information that they were anxious to see their betrothed, and accompanied the message with a goodly remittance to pay their passage. The girls, for mutual protection and society, came over the ocean in the same vessel, and arrived in safety at Quebec. Thence they embarked with several hundred other emigrants on a river steamer, to continue their journey up the St. Lawrence.—That steamer was the ill-fated Montreal, and of the six betrothed maidens, five found either fiery or watery graves. The sixth, Miss Jeanette Pettigrew, was taken up for drowned, and only by faithful and persistent attention was her life saved.—All her worldly possessions were gone, but kind-hearted women at Montreal supplied her abundantly when they heard her affecting story. Eventually she reached her destination, and in a late number of the Chicago Tribune, there is chronicled the marriage of Mr. Adam Tate of Chicago, to Miss Jeanette Pettigrew. He alone reaped the reward of his long exertions; and at the wedding there were present two of the five young men, whose feelings, when they contrasted the happiness of their friend with their own bereaved condition, must have been sad indeed.—

A letter from Florence says:—"There has been a grand funeral here; the sister of the Grand Duke died, and was laid out in state in the Palazzo Pitti; crowds went to see her; she was hump-backed, and appeared like a child of ten years, though about fifty years of age. She was laid out in full dress of white satin, and covered with jewels. She was exhibited for five days. Priests were performing mass all the time, and her ladies, in deep mourning, prayed by her side; it was rather a theatrical exhibition. On the day of the funeral she was carried through the streets in full view, with no covering for the face, and reclining on a sofa. Immense crowds of course thronged the streets and balconies."

☞ The Portland Advertiser comes out this week in new type throughout. The old had worn four years; and with a large and well earned impression, the old dress was worn out.

☞ According to recent official returns, the population of the Swedish capital, Stockholm, is a little above a hundred thousand; the increase since 1840, twenty thousand.

☞ George S. Barton, son of the late Cyrus Barton, and Clerk of the N. H. Senate in 1855 and '56, died at Concord on Friday.

An impression prevails among the friends of the late P. S. Brooks, of South Carolina, that his life might have been saved had the necessary skill been used by the attending physician. Possibly this may have been the case, yet it is well known to every member of Congress who came in contact with him that his habits had for months previous rendered him liable to a serious if not a fatal attack of delirum tremens. It is charity to believe that his fiendish assault on Sumner was made when in a state of mind bordering on insanity.—*Manchester American.*

EXPENSIVE SPUNK. — An independent American, travelling on the Connecticut and Passumpsic Rivers Railroad, refused to take the conductor's checks for his tickets for himself and wife, and they being left with him, he threw them on the floor, and would not pick them up and give them to the conductor when the latter came around for them. The President of the road being upon the train, told the passenger he could have his choice—he put off the cars, pick up and return the checks, or pay his passage over again. The man paid, his spunk costing him $4 20.

Mr. Keyes of London, has obtained a verdict, with $600 damages, against the Ballymena and Londonderry and Coleraine railway company, for the loss of a box of watches. The trial lasted three days. The plaintiff wanted to take the box into the carriage with him, but was prevented by an officer of the company, who took it into the luggage van, from which it was stolen.

CHELSEA, MASS.—There was a large temperance meeting at the City Hall, Sabbath evening. The meeting was addressed by clergymen from the Baptist, Episcopalian, Unitarian, Universalist, Methodist and Congregationalist churches in the city.—An effort will be made to suppress the sale of liquor during the military encampment on the Hospital lands.

COMMUNION WINE.— Mushroom catsup was by mistake administered at the Sacrament, instead of the customary Tent wine, at a village near Sherburne, Canada, a few days since. The substitution caused considerable consternation, as the nature of the draught was not immediately discovered; and it began to be whispered that the wine was poisoned.

A paper asks very innocently if it is any harm for young ladies to sit in the lapse of ages. Another replies that it all depends on the kind of ages selected. Those from eighteen to twenty-five it puts down as extra hazardous.—*Portland Transcript.*

NOVEL WAY OF SQUARING A THING.—A certain deacon in the northwest corner of Massachusetts, having lost a good cow by a stroke of lightning, resolved and actually worked on Sundays until he had earned enough to cover his loss.—*Port. Trans.*

F. S. Cozzens, author the "Sparrowgrass Papers," editor of the "Wine Press," and himself a wine merchant in New York city, has been sued for selling liquor without a license.

The young man who was stabbed by a merchant of Williamsburg, L. I., on the morning of July 4, while running off with the merchant's wife, is still at the house of the merchant, and rapidly recovering. The woman was turned away, as before stated.

Of the seventy-five negroes in Albemarle county, Va., emancipated under Capt. Jas. H. Terrell's will, and sent to Liberia last December, nineteen died in four months after landing on the coast of Africa.

IMPORTANT DISCOVERY.

DR. CHEESEMAN'S PILLS FOR FEMALES.

Prepared by an old Physician of 40 years experience

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel, in every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhea, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. L. CHEESEMAN, Box No. 4,531, Post Office, New York City, can have them sent to their respective addresses by return of mail.

BURDEN'S

Pressed Boat Ship, Brad & Countersunk Railroad Spikes

ARE well known in the United States, and are conspicuous for their regularity and finish, their unvarying uniformity of size, and for the excellent quality of iron from which they are made, to which may be attributed their rare strength. They are everywhere considered far superior to the hand made spike of common English iron, and inferior to nothing of the kind yet introduced to the public.

FRIDAY, JULY 31, 1857.

THE MORAL MOVEMENT.

Quite a revival of temperance efforts, in the way of societies and pledges, is taking place in Lynn and Salem, Massachusetts. In the latter place the Mayor is chairman of the board of organization. Hon. Asahel Huntington, a member of the same committee, in a note to the Mayor, approves the plan of the Youth's Temperance Societies, or Bands of Hope,—and says:

You will excuse me for saying further, that in my judgment, the prohibitive law, *or any form or kind of law*, will become a curse and a scourge, if it shall lead the minds of men *away* from these sources of *moral* influence and power, which have already, and for almost a generation past, inaugurated temperance as an actual and real power in the State; and which has planted the law, itself, indeed, as only one of its institutions. The danger now is, and has been for several years past, that the friends of our cause expect altogether too much from the law. *That* should be regarded as only auxiliary, and when it ceases to be so regarded, and becomes enthroned as the principal, then we shall behold the retrograde movement in all directions.

The law undoubtedly has its office, but it is only as auxiliary to the moral powers and forces, which should be continually brought to bear upon that great class in this and in all communities, which supports and sustains the traffic itself. The municipal law bears only in its pains and penalties on the traffickers—a small class comparatively; while the moral law—the great law of love and good will—should be brought out in its power, and in its highest efficacy, on that great class and body of consumers, but for whom the traffic would cease to exist. Our work therefore—I mean our main work—that upon which we can alone depend for ultimate deliverance from the evils and sin of drunkenness, is behind, before, above, and especially UNDER the law. It is the support of the law itself. I wish to state my conviction strongly on this point—that moral means must continue to be the great instrumentalities, in time to come, as they have been in time past, of promoting and establishing the cause of temperance. I have never entertained but one opinion on this subject, and the law itself I regard quite as much for its moral bearings and aspects, as for its pains and penalties.

There is another point which deserves consideration, not so much here as in other quarters; and I now address you, Mr. Mayor, as chairman of the School Committee as well as of this Special Committee.—The law in terms and by express provisions, enacts that the teachers of our public schools shall use their best endeavors to impress on the minds of the children and youth committed to their care, the principles of "*temperance*," and to point out to them the evil tendency of the "*opposite vice*," which is intemperance. The School law then gives the power and covers the whole ground. "Temperance" stands intrenched also, by name, in the Constitution and Bill of Rights. There is no doubt, then, of our power, and there is as little in regard to our duty, as the conservators in the department of public instruction. And what kind of temperance shall we teach and impress on the children in the public schools? Just that kind, sir, and no other or different than that, which you yourself, as the Father of the City, so effectually and beautifully illustrated and enforced on the great assembly of the children last week in Mechanic Hall. There is but one kind of temperance to be thought of for a moment, either for children or adults, in this day of grace.

Mr. Huntington of course means total abstinence.

☞ The New York Senate, at the last session of the Legislature, appointed a Committee to visit and investigate the condition of the charitable institutions sustained by that State, together with the city and country poor and work-houses. The report is a valuable one, and brings out a vast amount of astounding facts.

The sum total of pauperism in the different counties of the State, is something like this:—The number of paupers is 7695, out of which there have come by the agency of runselling, 5143! The evidence in regard to the effect on crime, is of a like nature with that of pauperism. New York State pays upwards of three hundred thousand dollars a year for the single item of rum pauperism! And all this exclusive of pauperism in the city of New York. Think of these things, tax-payers!

☞ Henry Eddy, of Chesterfield, Hampshire county, Mass., was killed in Goshen last Thursday by a vicious horse belonging to C. C. Dresser. Eddy undertook to teach Dresser how to catch the animal, and also to teach him how to break him of his bad tricks. Accordingly, taking a stick in each hand, he drove the horse into a corner of the lot, and continued striking him as he turned either way to escape, until the horse kicked him near the stomach, and killed him almost instantly. Mr. Dresser repeatedly cautioned him not to approach too near the horse, but he paid no attention to the warning.

SOUTH SIDE VIEW.

If any one wishes to know what some of our Southern brethren think of Kansas, the president, and Gov. Walker, he will please to read the following calm, deliberate avowal from the Charleston Mercury, the ablest Southern Democratic organ:

If the Democratic party be wrecked, the responsibility will rest upon those who have sought to use its power and influence for making Kansas an anti-slaveholding State—who have thought to pander to the North—to sacrifice the rights and safety of the South to party expediency or even the preservation of the Union. Of Southern men, whether Democrats or otherwise, patriotism requires the South to be the first of considerations. And when party success, or the Union, is brought into competition with the salvation of this endangered section—whatever politicians and placemen may think—there will be no difficulty to the people of the South in deciding wisely and firmly. Walker must go down—his supporters of the administration must go down—the party that backs the administration must go down—and, if the necessity comes, even the Union must go down—*rather than the South*. The Union is valuable only for the protection it affords and the benefits it confers, and when it ceases to protect and is made the instrument of injury, its hold upon the Southern heart is loosed. The Democratic party is valuable to the people of the South only as a great organization for defeating the policy of our enemies, and for carrying out into practical effect just measures for the benefit and protection of the South; and when, either through unavoidable weakness, or expedient perfidy, it panders to the views of our bitter foes, and lends itself to accomplish their very purposes against us, the South has no further use for it. The administration, as the head of such a party, inaugurating and sustaining such a policy, cannot expect to command either the respect or support of the people of the South. Mr. Walker, as their instrument, must call down upon his head the reprobation of the people he has injured. To the people of the South, the South cannot but be the first of considerations—above the Democratic party and the Union.

Here we have the whole Southern position distinctly stated—it is put in unmistakeable terms, and is authoritative.—"*The Union must go down—rather than the South!*" The pro-slavery party place the institution of human bondage, its perpetuation and extension, above the Union, the Constitution,—in short, above all things else. If the Democratic party fail to establish slavery in Kansas, then so far as the South is concerned, it must go down; if any party or man refuse to devote himself wholly and servilely to the purposes of the slavery propagandists, then it is announced that the Democracy of the South will place their anathema upon that man or that party, and even the Union shall be destroyed, if necessary to further the designs of the slave power.

PRIVATEERING.—The London Times has an article on Secretary Marcy's privateering letter, which it calls a bold and comprehensive proposal, and expresses regret that England did not at once close with the suggestion therein made. It says that before a decision could be formed, the Cabinet at Washington became alarmed at the possibility that its offer would be accepted. Mr. Buchanan and General Cass have intimated their disinclination to follow up the discussion; nor is there any reason to hope that so desirable an object will soon become attainable. In the meantime, the laws of war between England and America, are wholly unaffected by the Convention of Paris.

☞ A shocking tragedy took place on Staten Island, on Tuesday morning, wherein a young lady named Emma Brewly was shot by a supposed rejected lover. At the coroner's inquest, it appeared that the deceased was discarded by her father for persisting in marrying the man of her choice, who was with her at the time of her untimely death. The murderer escaped, notwithstanding he was hotly pursued. At a later hour, a young man was arrested in New York, on suspicion of being the perpetrator of the deed, but he could not be recognized as such, and was accordingly discharged.

☞ Willian Childs, of Fairlee, informs the Newbury (Vt.) Aurora that at about half-past four o'clock Wednesday afternoon, a current of electricity came in contact with the telegraph wire at some point south of that place, and leaving the wire, went down five telegraph poles nearest his dwelling, making five successive reports, and leaving visible traces of its power the entire length of each pole. Several of his neighbors visited the spot soon after, and witnessed its effects, one of them stating that the bolt was seen coming north on the wire past his house.

☞ The editor of the Lynn News thinks children's games are becoming popular with older persons, now-a-days, as he has seen recently "a large number of full-grown men *chasing hoops* in our streets."

☞ At Cummins, Rockcastle county, Ky., on Sunday, while Rev. John G. Fee was preaching, an armed mob forced their way into the church, seized him and two other ministers, who were with him, Rev. J. Richardson and Rev. J. M. McLean, and after abusing and insulting them, finally decided that they should be taken out of the county. Mr. Fee was struck on the head and considerably injured. On the way out, a distance of some ten miles, every opportunity was taken to insult and abuse their victims, and they heralded through the neighborhood they passed, that they were going to lynch. The immediate cause of the outrage was the attempt to establish a school in that town.

HAPPINESS INTERRUPTED. — John H. Burns, an Irish book-keeper, who went to Cincinnati from the "gem of the sea" two years ago, fell in love with a fair relative of his employer, and in due time was wedded to the young lady. His domestic felicity was sadly interrupted on Saturday, however, by the unexpected appearance of a woman with six children, who had just come over the water, and who had prior claims upon his affections. John was greatly amazed, and was still further annoyed by the unceremonious interposition of that grim visage of the Law, who compelled him to answer to the charge of bigamy.

☞ On Monday, July 20th, Mr. James Hazelton of Orford, N. H., 67 years old, went upon a scaffold in his barn to take away a load of hay. The man who pitched off the load, had passed him one forkfull, when he noticed that Mr. H. did not dispose of it. He spoke to him but received no answer. He then went immediately to the hay mow where Mr. H. was, and found him dead. The deceased had always been a very healthy man; never requiring the services of a physician in his life.

☞ On Thursday night about 11 o'clock, Mrs. J. C. Patten, boarding with her husband in the U. S. Hotel in Buffalo, committed suicide by jumping from a fourth story window. An inquest was held, and the testimony went to show that the act was committed while the woman was intoxicated. The clerk testified that during the day, he sent up to her three quarts and a pint of beer, and one glass of brandy.

NEW ENGLAND HORSE COMPANY.—The exhibition grounds of the New England Horse Company, it is thought will be entirely completed about the first of September, at which time the first race over the course will occur. The site selected consists of one hundred and fifty acres, situated in Chelsea and Saugus, on the line of the Eastern Railroad.

The best capital for a young man is a capital young wife. So a young gent informs us, who has just "gone and done it."

A NEW DEFINITION.—N. P. Willis calls women "the *ciphers* men *sigh for*—(those 'characters,' which 'standing alone, signify nothing;' but which, if properly added on, so easily multiply one to ten!)" He also calls children "their decimal fractions," and "their husbands the integers."

The Portsmouth Chronicle says, "We have seen it stated and not denied, that a late School Commissioner in New Hampshire, in writing the word Night on a black board, at Institute, began it with a K."

We deny it. It was not a School Commissioner, who wrote the word Night with a K. We saw it done however, and it was immediately corrected by the writer himself.—*Exeter News-Letter.*

HAIR RESTORATIVE.—Every one will, we think, agree with us in the opinion that the human hair is the greatest natural ornament that is possessed either by a gentleman or a lady.—Just meet an apparently good looking man, for instance, in the street; you admire his features, whiskers, and general beauty; but lo! he lifts his hat in recognition of your bow, and the charm has vanished, for Ichabod is written on his bald head, and the glory has departed with the flowing locks that once flourished luxuriantly there. In the case of a lady, the matter is, if possible, worse—such cases reminding one of the circumstances on which the following epigram is founded:

'O! give me, fair Emma, a lock of your hair,'
A bashful young lover took courage and sighed:
'T'was a sin to refuse such a modest request,
So take the whole wig,' the dear creature replied.

Now, to prevent such a catastrophe, is within the power of every lady and gentleman; for, by using Prof. O. S. Wood's Hair Restorative, hair is not only prevented from falling off or turning gray, but the article will restore hair to bald places; and even if it has changed color and become gray, it will bring it back to its pristine beauty and luxuriance. Those who are acquainted with the anatomy, physiology and pathology of the hair, must be well aware that certain substances have a specific action upon it; and it is by judicious combination of these that Professor Wood has succeeded in compounding a mixture possessed of remarkable virtues.—[Waverly Magazine and Literary Gaz.

IF ALL OUR READERS
Who are troubled with liver complaint, Jaundice, or Dyspepsia, will read the advertisement in another column of Dr. Sanford's Invigorator, and then do as we have done—get a bottle, we should not see so many sickly, half-dead, despairing people as now meet our gaze at almost every corner, for certainly there never was a remedy invented of which so much is said, and that performs so nearly what its proprietors say it will do. It came to us so highly recommended that we could not fail to try it, and a trial has convinced us, without a doubt, that it is the best family medicine in use. We take it for Headache, Sour Stomach, Billiousness, and any of the little bodily ills that are common, and it does produce a pleasant state of feeling to the sick, and what is better, after using it a few times, these little ills grow less and less, and there is a prospect of being entirely free from them by a continuance in the use of the Invigorator. POLICE COURT.

THURSDAY, July 30.

Before Justice Bennett—Michael Butler, *alias* Crockett, was accused of being drunk on the 29th of July. Found guilty, and sentenced to 20 days labor at the House of Correction; costs $3 86.

Jeremiah Murphy, for assault and battery on Catherine, his wife, was sentenced to 30 days in jail, and to give $100 bonds to keep the peace until the next session of the Court of C. P.

The same Jeremiah Murphy was also accused of resisting and assaulting police officer Andrew J. Hough. Bound over in $100 bonds, to appear at the S. J. Court.

Pelatiah Moulton was accused, by the jailor, of unlawfully climbing over a certain fence enclosing the County Jail lot in Portsmouth. Found guilty, and fined $7 50; costs $5 76.

This prisoner was caught in the act of smuggling a bottle of rum into the jail, for the aid and comfort of the patriots confined therein, and climbed over the fence for this laudable purpose; but being caught, must probably lie in jail awhile himself, unless some other advocate of the business shall pay his fine.

CHRISTIAN ASSOCIATION.—Rev. S. Holman, now of Great Falls, a few months since, attended the Confederation of Christian Associations, at Richmond, Va., as delegate from the Portsmouth Young Men's Christian Association. This evening, at half-past seven, he is to make report to the Association, of what he saw and heard during that visit—at Washington Hall. All members are requested to be present—and others interested are invited.

Many of our readers will regret to learn that this Association, which has been in rather a languishing condition for a year or two past, is to be discontinued. At an unusally full meeting, on Wednesday evening last, it was voted to close up all business on the 9th of August, and dissolve the Association. The matter of settling the business and disposing of the property, was referred to the Board of Managers for consideration; with instructions to report a plan this evening, at the close of the meeting.

A report, read at the meeting, from an investigating committee appointed for the purpose, stated the list of members in three classes or kinds, viz. reliable paying members, doubtful, and worthless. A suggestion was made that this report be published in the newspapers; in which case we guess not a few of the "nice young men," who shrink out of jointly bearing pecuniary responsibilities they encouraged others to assume,—would stare a bit, at being set down as "doubtful" or "worthless."

The number of members has not increased, nor have any new members joined the Association, for several months; while the expenses of rent, &c., fall heavily upon the small number of "reliable paying" members who are left to bear them.

This Association might and ought to be the means of effecting much good in the city—if properly aided and encouraged by those who profess an interest in such matters. Shall it be allowed to decline?

MUNICIPAL.—*Thursday evening, July* 30. In the Board of Aldermen, the subject of cutting down a hill on the North Road was postponed to another year.

An application was made by a "boys' company" for use of Jefferson Hall for the purpose of drilling. Not granted.

The report of the Committee on Streets relative to the boundary line on Wibird's Hill was presented, and it was voted that the Mayor and Aldermen visit the spot on Tuesday next, and investigate the subject.

Engine Co. No. 2 applied for the use of Jefferson Hall on Monday evening next, for the reception of a company from Newmarket. Granted.

☞ We learn that ex-President Pierce and lady arrived in this city on Thursday evening, and are now stopping at the Rockingham House.

FREE RETURN TICKETS will be furnished to all who attend the State Teachers' Association at Concord on Tuesday and Wednesday next.

Also *free* accommodations to all female teachers by the citizens of Concord.

☞ On the next Sabbath, August 2, Rev. Winthrop Fifield, of South New Market, will preach at Newington. August 9th, Rev. Mr. Dinsmore of North Hampton; 16, Rev. Mr. Cummings of Exeter; 23, Rev. Mr. Colby of Hampton; and on the 30th, Rev. Mr. ———, of New Market, will preach—all by arrangement of the Piscataqua Association.

FORT CONSTITUTION.—Calling at this fortification on Tuesday afternoon, we were politely shown over it by Sergeant Davidson, the veteran soldier in charge, under whose care everything is kept in apple-pie order. We understand that a proposition will be made to the next Congress to have this fort rebuilt on an enlarged scale, bomb proof, and made in every respect a first class fort.—*Ballot.*

☞ We understand the Eastern Railroad corporation intend to build a tower upon their depot in Boston, and place on it a clock, the face of which will be seen from Hanover street.

ROGUES IN LIMBO.—The Dover Inquirer states that John Rogers, one of the gang of thieves who broke into Davis's clothing store at Rochester, about two months ago, and who escaped at the time, was arrested at Toledo, Ohio, a few days since. From some letters found in his possession, his true character was ascertained, as well as the place from which he came. Among them was a letter from his wife about Bixby, another of the gang, who broke jail in Dover a few weeks since, giving an account of his escape, and of his intention to join him. This led to the arrest of Bixby also, but from some cause the latter was not detained.

UTAH TROUBLES.—*St. Louis, July* 29.—The Republican publishes the affidavit of Curtis E. Bolton, Deputy Clerk of the Supreme Court of Utah. It is addressed to Attorney General Black, and the seal of the Court is attached to it. Mr. Bolton declares that the statements of Judge Drummond are false regarding the destruction of the records of the Court; that they are all safe in his custody, not one missing, and that no person has ever disturbed them.

MURDERERS ARRESTED.—*Philadelphia, July* 29.—Frederica Bush, a German woman, was arrested to-day, for causing the death of two children by starvation. One died Sunday, and the other yesterday.—They had been placed in her charge by their parents.

A HUSBAND BEATEN TO DEATH.—*New York, July* 29.—Julia Hefferman and her two children were arrested in Brooklyn, to day, charged with beating to death Christopher Hefferman, the husband of Julia. All Irish.

NEW YORK, July 30.—A correspondent of the Times, writing from Hong Kong, states that the island of Formosa will probably be taken possession of by the U. S. forces at an early day. An officer of the American squadron has been sojourning there the three past months, engaged in making the necessary preparations.

WASHINGTON, July 29.—The President assures all in private conversation that Southern ruffians shall not again crush out the free State cause in Kansas, but the acts of the bogus legislature will be enforced.

Commissioner Mason has requested to be immediately relieved. He cannot agree with Secretary Thompson.

☞ Mrs. Wildley, of St. Louis, understood that Mr. Connelly, a merchant on Broadway in that city, had made some injurious remarks concerning her character; and, armed with a riding whip, and accompanied by her husband, visited the store, where she charged him with having spoken ill of her. He did not deny the "soft impeachment," so the Amazon belabored him with her whip, and her husband stabbed Mr. Connelly's partner, who attempted to interfere. The belligerent couple were taken into custody.

☞ The still in the Trull distillery, that exploded the other day, was capable of containing 7,000 gallons, and at the time of the explosion contained 3000 gallons of boiling hot whiskey. The accident killed one person and wounded some others.—The sale of the liquors, says the Newburyport Herald, would have produced much more mischief.

☞ Thomas Campbell, aged 18, apprentice on board the ship Zuleika, at Quebec, fell overboard on Sunday; one of the crew of the ship at once dived and found him at the bottom of the water, holding fast to a post. Though he touched him at three different divings, the sailor, despite every effort, could not manage to unfix his hold.

Near Utica, N. Y., three farmers were caught in a shower, with their pitchforks on their shoulders. Two of them threw their hays away. The third clung to his, carrying its points in the air. He was killed by a stroke of lightning, and his companions on either side were prostrated, but recovered.

"Boys," said a colored individual, disclosing a small coffin which he carried along Broadway, under his cloak—"Boys, don't laugh—I's a funeral."

Lawrence's Carminative,
—OR—
CHILD'S PAIN-KILLER.

THIS invaluable preparation is a favorite scientific prescription of one of the most eminent of the Medical Faculty in New England, and one who has been successful as any other in the treating of
DISEASES OF CHILDREN,
and has been used with never-failing success.

The Carminative is emphatically
A CHILD'S MEDICINE,
and is the *only* Child's Medicine in this country; intended to do away with the excessive and injurious use of *Paregoric*, a remedy sure to be followed by a "dose of physic."

The ingredients of which the *Carminative* is compounded, are known to the Medical Faculty, and it is now extensively used, and approbated by the physicians living in the vicinity of the Laboratory, where opportunity has been had to test its virtues.

The *Carminative* is offered in full confidence for the rapid cure of
Colic, Pain in the Bowels, Wind in the Stomach and Bowels, Green Stools, Diarrhœa, Nervous Affections, Sore Mouth, Restlessness,
and other disorders incident to Weaning and Teething; sure to regulate derangements of the Stomach and Bowels, which often afflict young children; correct debilitated and sour Stomachs, relieve pain and give tone, energy and strength to the whole system.

Due regard has been taken to have the price of the Carminative so low as to be within the reach of all. Price *only* 25 *cents.*

Parents who value rest should not fail to buy a bottle, as they will be found upon its giving relief to "worrisome children."

Sold by country traders and all Apothecaries throughout the United States and Canada.

Coggswell's Medical Salt,
A PERFECT SUBSTITUTE
FOR THE
LANCET, LEECHES AND BLISTERS.

INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—has but ONE AIM—accomplishes but ONE THING, to wit: SURDUES INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. Every *form of inflammation* (but no other disease) is subdued, by it as easily as fire is extinguished by water. Is it asked, *how* it does this?—simply by restoring the lost balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires merely what adheres to the point of a sail dipped into a solution of it, to affect the entire system.

☞ *Of its intrinsic value, the enlightened community, and the discovery, must be its proof.*

Manny's Celebrated Mower

—AND—

MOWER AND REAPER.

IMPROVED.

Built expressly for the New England States.

THE MANNY MOWER has been extensively used for the past two years in New England, and more than six years at the West—its success is beyond that of any other Mower or Reaper ever constructed. Over 150 1st *Premiums* have been awarded it, including the *Grand 1st Class Silver Medal* at the WORLD'S FAIR, PARIS, 1856.

With the two past years' *experience*, we have been enabled to make a number of very *important improvements*. We find New England farmers require a different Machine from any other mower or reaper, the fields generally being small. It must be *light*, at the same time possess *great strength*; *portable*, with facilities to *raise the cutter bar past obstructions*, and to remove from field to field. A perfect cutting apparatus, to cut the fine grasses without clogging, and so constructed as to *start* in the grass without backing, easily adjusted to cut high or low, and have a Reel to cut equally well with or against the wind, and to be worked with ease by a light team, and so easily managed and simple that any one of ordinary capacity can operate it successfully, and to be built in the most thorough manner.

With this knowledge of the farmers' requirements, and with the determination to build a *better* Machine than has ever before been constructed in this country, we offer the **Manny Mower of 1857** with confidence, as combining the qualities enumerated above, and more particularly adapted to meet the wants of New England farmers.

Price of Mower, $110; with Reaper attachment, $15 Extra. Delivered on board the cars at Worcester, Mass. JOHN P. ADRIANCE & Co.,

AYER'S Cathartic Pills,

(SUGAR COATED,)

ARE MADE TO

CLEANSE THE BLOOD AND CURE THE SICK

Invalids, Fathers, Mothers, Physicians Philanthropists, read their Effects, and judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach

PETERSEN, PA., May 1, 1856.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to cleanse the Stomach, which they cleanse at once. If they will do others as they do me, the fact is worth knowing.

Yours with great respect, ED. W. PEERLE,
Clerk of Steamer Chariot.

Bilious Disorders and Liver Complaints

DEPARTMENT OF THE INTERIOR,
WASHINGTON, D. C., 7 Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we now have. Their tonic qualities evince in the liver quick and decided consequences by they are an admirable remedy for derangements of the organ. Indeed, I have seldom found a case of bilious disease so obstinate that it did not yield kindly to them.

Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Relax, and Worms.

POST OFFICE, HAVELOCK, LIV. CO., MICH., Nov. 16, 1855.

DR. AYER: Your Pills are the perfection of medicine they have done my wife more good than I can tell you She had been sick and pining away for months. Went off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of bloody dysentery. The neighbors have had it bad, and my wife cured him with two doses of your Pills, while others around us paid from five to twenty dollars doctors bills, and lost much time, without being cured entirely even then. Such is my knowledge of your medicines, which is actually good and honest, will be prized here.

GEO. J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family, and consider them a valuable medicine to distress. To regulate the organs of digestion and purify the blood they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WARSAW, WYOMING CO., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the blood. Yours, &c.,

JOHN G. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Remarkable Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the perfection of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long given by affected with a tumor upon her side which broke out in her body. After our child was cured, she also tried your Pills, and they have cured her. ASA MORGRIDGE

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawley, of the Methodist Episc. Church, Charleston, S. C., Nov. 15, 1855.

HONORED SIR: I feel it to be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which I could not shake off. Nothing would relieve me. I had the best of physicians, the disease grew worse and worse, until, by the advice of your excellent agent, Dr. Wakefield, I tried your Pills. The effects were wise, but sure. By persevering in the use of them I am now entirely well.

SERGT. CHANNEL, REGD. ROYAL ARTY., Nov. 15, 1855.

DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease that had afflicted me for years. VINCENT SLIDELL.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a Dinner Pill, they are agreeable and effectual.

Fits, Suppression, Paralysis, Inflammation, and even Deafness, and Partial Blindness, have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skillful hands, is dangerous in a public pill, from the dreadful consequences that frequently FOLLOW its incautious use. These contain no mercury or mineral substance whatever

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, IN CIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American world, its wonderful cures of pulmonary complaints have made it already known. Nay, few are the families in any civilized country in this enlightened age, some personal experience of its effects; and fewer yet the communities any where which have not among them some living trophy of its victory over the subtle and dangerous diseases of the throat and lungs. Within it is the most powerful antidote yet known to man for the fearfulable and dangerous diseases of the pulmonary organs. It is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the insidious enemy that steals upon them unprepared. We have abundant grounds to believe the Cherry Pectoral will prevent by its use consumptions it prevents than those it cures. Keep it by you, and cure your colds while they are curable, for neglect them until no human skill can reach the disease. Neglected cough fastens on the vitals, eats your life away. All know the dreadful fatality of lung disorders, and all they know too the virtues of this remedy, we need not dwelling on them here. Its power is known. Let it be used.

We spare no cost, no care, no toil to produce it the most perfect possible, and thus afford those who rely on it the best agent which our skill can furnish. AYER & CO.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which Dr. Cohen is one of the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. Lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The price of tickets is the same as others. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Tens in combination. Prizes vary in amount from $20 to $100 $70. All orders for tickets or packages will receive prompt attention, and be forwarded to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to see that their drawings, and certify that everything connected with the same is done in a strictly honorable manner. The price of Prizes vary from $20 to $100. Prizes are paid immediately after it is over. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to puzzle the buyer. Lottery from 8th to 15th of every month, being drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount which prizes are entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Dog Book*. Write your address plainly, and direct to S. SWAN & Co., Atlanta, Georgia

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

All communications strictly confidential. m13ly

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,

(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)

No. 76 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on the shortest notice, and in elegant manner. Examination made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters appertaining thereto. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of their inventions, which are not immeasurably superior to any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL; AT THE PATENT OFFICE the subscriber is, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, another year, that no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years, and the use of the Patent Office, as a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and the facilities afforded by his office, in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were very few persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the most competent and trustworthy, and more especially of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules and practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. THOMAS EWBANK,
Commissioner of Patents.

City Hotel, Portsmouth, N. H.

BY WM. S. HADLEY.

THE SUBSCRIBER has the pleasure of announcing to his old patrons, and the travelling public generally, that he has leased this well-known, commodious and pleasant House, and would invite travellers and others to make "themselves at home" on the premises—promising to spare no reasonable effort which may conduce to the comfort and satisfaction of visitors.

While acknowledging his liberal patronage with which we have been so long favored, in our old quarters; we would solicit a continuance, now that our accommodations are so much increased and improved. WM. S. HADLEY.

Appledore House,

ISLES OF SHOALS,

IS now open for Public Accommodation.

The schooner SIBYL, (one of the beautiful yachts built by the late Geo. Steele,) will run daily to this island from Portsmouth, in connection, immediately after the arrival of the morning train of cars from Boston, and return in the afternoon.

The Sibyl is commanded by Capt. RUFUS A. PREBLE, a thorough seaman, who will give every attention to the comfort and enjoyment of his passengers.

The Sibyl has a magnificent cabin, water closets, tanks, and every accommodation which a first class Packet requires.

The advantages this purely Ocean Retreat possesses over all others are well known. Resting on the broad bosom of the Atlantic—free from heat, dust and noise—it is peculiarly fitted to restore health to the invalid, and rest to the careworn and weary. j22 THOMAS B. LAIGHTON.

ATLANTIC HOUSE, Wells Beach, Me.

AS THE season for summer travel and recreation has arrived you will allow us to suggest this Beach, as one which for boldness, extent and variety of scenery, is unrivalled on the New England Coast.

This House, located on its most prominent and picturesque part, has been thoroughly refitted and furnished, and is now open for the reception of Visitors. Rare inducements are offered for GUNNING and FISHING, and the best of Horses, Carriages and Boats are subject to order. Visitors may be assured that nothing shall be wanting on our part to make their stay agreeable and satisfactory.

A Coach running from this House will connect at Wells Depot, with every train on the Portsmouth, Saco and Portland Railroad. Rooms can be engaged by addressing the Proprietor, or being addressed to either of us at *Wells Depot Post Office.*

AMERICAN HOUSE,

BOSTON.

Conducted on the European Plan.

LEWIS RICE, Proprietor, respectfully announces that in compliance with the very general preference expressed for the European system of hotel management, that the American House will hereafter be conducted solely on that plan. Well furnished parlor and sleeping apartments will be let by the day, or for longer period. Meals served at the gentlemen's hall at all hours of the day and evening. The ladies' dining hall will be opened in like manner for ladies, and gentlemen accompanied by ladies. The accommodations and conveniences of the house are unsurpassed, and the recent improvements and alterations leave nothing to be desired. Business residents will find the arrangement especially convenient. Large or small parties provided with dinners, suppers, &c., at short notice.

JOB AND CARD PRINTING promptly executed.

MIDDLESEX Co., MASS.—The Lowell Citizen of July 27 thus explains the doings of the Court at Concord, Mass., during the session just closed.

Two additional sentences were had for liquor selling—Patrick Fitzpatrick of Woburn and Peter Riley of Middle street, in Lowell, for single sales. The sentences were $10 and costs and thirty days in the House of Correction, each.

The failure of the liquor cases during the term is ascribed to the *resolution of the Juries not to convict.* The counsel for the defence even went so far as to *admit* that their clients *sold*; and then argued that the law is unconstitutional. Under these circumstances, District Attorney Morse let most of the indictments go over to the next term.

The case of Stephen Castles goes by his appeal to the Supreme Court on questions of law. It appears that after the trial at Cambridge, Castles' counsel filed a motion in arrest of judgment. Before that motion could be heard, Castles ran away. On his being brought into court again, his motion in arrest was overruled by the court. He appealed, and was ordered to recognize, with sureties, in the sum of six thousand dollars. Failing to do so, he was committed. On another case he was ordered to find sureties in the sum of fifteen hundred dollars—so the chances are that he will remain in jail until the cases are decided in the Supreme Court.

In regard to the liquor cases before the grand jury, we are informed by Mr. Morse that the beer and cider cases were not all thrown out. In the beer cases witnesses were asked if what they drank was intoxicating. If the answer was negative, as it generally was, or if the party said he did not know, the case was thrown out—and of course very properly, for the Commonwealth, in order to convict, must show that it was intoxicating.

In New York, last Sunday evening, a young girl about thirteen years old called on one of the station-houses in great excitement and agitation, and requested the assistance of an officer to arrest her father, who was unmanageable and dangerous from delirium tremens at home. She felt it hard to do anything against her father, but herself and sisters, who support him, found it impossible to get along with him any longer.

A posse of policemen were at once deputed to bring the offender to the station house, whither he was followed by his daughters, varying in ages from about 18 to 22, who seemed almost distracted with the idea of consigning him to prison to insure their own safety and peace.

They stated that their mother died about nine years ago, since which they had not only supported their father in idleness, but furnished him with spending money for liquor, in which he had indulged freely, and finally brought on delirium tremens, which rendered him unmanageable and their landlord, on account of his boisterous conduct had ordered them to leave the premises forthwith. Under these circumstances the girls found it necessary to take some decisive step to ensure peace in the household. It was with the utmost difficulty they could be persuaded to make a complaint against their father, although assured that it was the only course that could be pursued to secure the safety of their lives; and when he slave off\um was taken to his cell, the daughters gave vent to their feelings of grief in a manner that deeply affected all present. They all expressed their readiness to support him comfortably in any institution where he could be taken proper care of.

And yet some pettifogger will gravely assure a jury in Middlesex, that a law aiming to diminish this evils is unconstitutional; and a jury of boobies may be found soft enough or rummy enough to believe him or agree with him.

BUCHANAN AND WEBSTER.—Soon after the great expounder had discharged one of his heavy guns in the U. S. Senate, a gentleman was extolling him to Buchanan. "Yes," said the latter, "he is a great statesman, but no politician." The same individual met Mr. Webster a few days subsequently, and improved the occasion to elicit his opinion of the philosopher of Wheatland; and singularly enough, he said of Buchanan, "He is a great politician, but no statesman."—*Boston Trans.*

THE "WHISKEY CROP."—The following extract from a communication in the Cynthiana News, is at once graphic and startling:

The crops of Harrison county, this year, unless cut short will be very great. We will have to haul to the depots on the railroads, which runs through the middle of the county, 300,000 bushels of wheat, 100,000 of rye, and 30,000 bushels of barley. Thousands upon thousands of barrels of corn must be hauled to the Devil's Pass, there to make good old Bourbon, notwithstanding it is made in Harrison; and if you will but drink this good old Bourbon, made in Harrison by the Harrisonites, with their improvements of logwood, arsenic, cockroaches and molasses, it will eat up your bowels in less time than Solomon built the temple.

From a readable letter in the Albany Journal:

The principal attraction of Dublin is its whiskey, without the custom house mark—and the punch, which they drink out of large tumblers at very short intervals.—There is an immoderately large Irish population here,—a majority of the citizens are what our 'Ilindoo' friends would call foreigners; and from the quantity of children I judge there is chance for a continuation of this state of things.

That is to say, that part of the city referred to is a dreadfully drunken hole. A true bill, as our own eyes have seen.

"Your neighbor, Mrs. Partington, is something of a connoisseur, is he not?" asked the Doctor as he looked in. It was a stiffener of a word. "I don't like to express myself desperishingly against anybody," said she, "but I should say, by the way he swills down the wine, that he comes as near a common sewer as anything." "Connoisseur—connoisseur—my dear madam," he said, checking her.—"Well," replied she, "what's said is said, and the least said is soonest mended. For my part I find it the best way to say nothing against nobody."—*Sat. Eve. Gaz.*

A German peasant newly enlisted in the army, had scarcely arrived at the regiment when he was sent with others upon a skirmishing party. Approaching a wood in which a party of the enemy were posted, who immediately fired upon the Germans, and while the musket balls were flying very thick, the honest peasant stepped out of the ranks, making a sign to the coming enemy to desist, at the same time bawled out, "Why, what the d—l are you firing for? don't you see there are people a-coming?"

Senator Brown of Mississippi, administration democrat, in an address to his constituents at Yazoo on the 4th inst. is reported to have spoken as follows:—

"The speaker passed to Kansas affairs, in a discussion of which, Walker's course met with the severest reprobation at his hands.—He did not believe Mr. Buchanan would suffer Walker to retain his place as Governor of a territory, but if he did, the South would rise up and denounce him as false to the great principles of the Kansas bill, and a traitor to her best interests. He, for one would do so, and so would every true Southerner. He had heard it from the President's own lips, that this thing of squatter sovereignty was one of the most damnable heresies that was ever broached in this or any other country, and that he (the President) would leave nothing undone to throttle it. Mr. B. had told the speaker this in all sincerity, and he believed him. He had no doubt but that Walker's appointment would be cancelled."

IMPORTANT DISCOVERY.
DR. CHEESEMAN'S PILLS FOR FEMALES,
Prepared by an old Physician of 40 years experience
THE combination of unprecedented virtues in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance where they have been used, they have proved a safe and sure cure. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health will return, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called "The Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.
These Pills are put up in square flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to DR. C. L. CHEESEMAN, Box No. 4,581, Post Office, New York City, can have them sent to their respective addresses by return of mail.

BURDEN'S
Pressed Boat, Ship, Brad & Countersunk Railroad Spikes
ARE well known in the United States, and are conspicuous for their regularity and finish, their unvarying uniformity of size, and for the excellent quality of iron from which they are made, to which may be attributed their rare strength. They are everywhere considered far superior to the hand-made spike of common English iron, and inferior to nothing of the kind yet introduced to the public.

Morning Chronicle.

SATURDAY, AUGUST 1, 1857.

A WORD FOR THE CHRONICLE.

With this number, we commence the sixth year of the Daily Chronicle; and it will gratify us, at least, and we think many of our readers, to have a few words with them, concerning ourselves, newspaperially considered. For some years prior to the issue of our prospectus, announcing the establishment of such a paper, it had been our determination to engage in such an enterprise—of the success of which, we never had any doubts. The results of our exertions during the five years that have just closed, are in every way satisfactory to us—and from running ahead to haul the load of our little Daily, as we did at first, we have come to be enabled to jump on occasionally, and ride a bit.

Our advertising patronage, which is the main item with all Daily newspapers, and with nearly all others, was good at the start, and has increased and improved every year since—till last year it amounted to several hundred dollars more than in any previous one, and was almost double what it was the first year. There is another difference in our business, between then and now, too; when we issued the first number, we solicited advertisements, and wrote (at the request of others) more than half those with which our columns were filled—now-a-days, we have neither opportunity nor occasion for this, though of course we often draw up notices of the sort, when asked to do so.

Our List of subscribers was never so good before as at present. When we increased the price of the Daily, a year ago, some few poor (rich) ones dropped off our list, to be sure—and some of our friends were fearful the change would work to our disadvantage; and then, again, at the time of the liquor trials here, a few "temperance but no Maine law" men took themselves off. But these have all been more than made up, and our list goes on steadily increasing—so that this increase in price has resulted decidedly and materially to our advantage.

The Weekly Chronicle & Phenix is also an institution, the establishment of which is no longer a question. Our announcement, a few days since, that we should no longer furnish the Daily Chronicle, to be paid for by the week, has been misconstrued, in several instances which have come to our knowledge, and perhaps in others, into the idea that the Weekly Chronicle is to be discontinued. Nothing could be farther from our intentions—indeed, would the size of our press allow, we should ere this have enlarged the Weekly, if not both papers—which we shall do, as soon as we can procure the right kind of a press cheap enough.

Our facilities for Job and Card Printing have been much improved and increased within the last year; and we are continually adding to this department of our business. For cards and small work, "Foster's Card Press" has no superior.

Not few nor small have been the changes in our office within the past year—the first during which we have conducted the business alone. Chief among these was the fire, which so came near proving very serious to us financially, by perilling our subscription and account books; and which actually did do us considerable damage.—This has resulted in our getting the best printing office in this region—for which we are thankful, and which we shall endeavor to make the most of; but it was not without great sacrifice of business and heavy outlay of time and money, as will as almost endless toil and trouble, that we have been enabled to get things to rights. This interruption of our business, in the early part of the year, has kept us from squaring our books, on both sides, so soon and so thoroughly as we otherwise should have done. So true is it, that an hour lost in the morning, can hardly be overtaken in a hard day's hurry.

We had hoped to commence our sixth year with a new heading to the Daily, and other typographical improvements; but were unable to obtain the materials in season. We shall probably do so in a few days.

It is with no little pleasure that we refer to the liberal patronage and generous encouragement we have received from our fellow citizens generally, and from many patrons abroad. The publication of a daily paper in a small city, where a very large circulation is of course out of the question—must of necessity be an object of equal importance and accommodation to the public as of pecuniary interest and advantage to the publisher. While we have no reason to be dissatisfied with the success we meet, (indeed we wouldn't work long if it didn't "pay") we wish to acknowledge many an encouraging word we received when we needed them more than now, and the not unfrequent substantial evidences we often have, that the establishment of the Daily Chronicle is regarded as a public benefit and local advantage, by its readers generally. That it may ever be thus, we shall still labor. Y.

☞ One Rev. S. J. Parker, who hails from Alabama in the winter, and from Ithaca, N. Y., in the summer, has most effectually donkeyised himself, by a letter he wrote and which was published in the Congregational Journal. Parker is a travelling and preaching agent of the American Seaman's Friend Society; and he wrote a foolish letter, complaining of indolence and want of hospitality on the part of minister's wives. The editor of the Cong. Journal saw through the man and his letter, and printed it verbatim.

Now the wives begin to pitch into him with answers. Parker had better not come into New Hampshire again, unless he wishes to be talked to. His luxurious tastes, lordly assumptions, and plantation rhetoric, are not exactly in keeping for an agent in the Granite State.

HEAVY TAXATION.—The Manchester American says that "a gentleman, intelligent and observant, computes the expenditure in that city, (Manchester,) for liquors and tobacco, to average $500 per day," which the American thinks is correct. This is at the rate of one and a half cents for each individual of the population, and makes the annual tax on the whole city, $182,500!

☞ The papers state that a sister of Louis Kossuth is teaching school at Conwall, Orange county, N. Y.—a respectable and useful calling,, in which we wish her good success. The sister of many a greater man has been worse employed—Pauline Bonaparte, for example. An honest woman with health, and a little industry needs not to be degraded in this country, because she is poor, and Miss Kossuth is more respected we doubt not, than a dissolute duchess, who sells her reputation to support her idle tastes and extravagant habits of life.

☞ On Wednesday, the New York Police Commission, who have been at loggerheads since the resignation of Mr. Draper, went to work and dispatched considerable business, among which was a unanimous order to pay the wages due to the special police, and the regular police, and all the official expenses incurred by the Commissioners since their organization. No appointments were made.

FELONIOUS ASSAULT.—The Wilmington (Mass.) correspondent of the Herald, says that Daniel C. Tuttle, a native of Dover, N. H., was arrested for a felonious assault upon a girl of ten years, daughter of Mr. Spalding, of that place. Tuttle was identified by the girl as her assaulter, and the marks of her teeth were found upon his fingers. He, however, denies the charge. He is a married man with 4 children.

☞ The shocking tragedy on Staten Island, in which Miss Emma Brewly was killed by a pistol shot, turns out to be a farce, or rather a hoax. Some blockhead *sold* the Herald with the story. There is no Miss Emma Brewly, say the Times and Tribune; there was no murder; no inquest—nothing but "a lie wi' a circumstance."

A FAST DOG.—Henry A. Ewers of this town, left on Friday for Astalan, Wis., where he has purchased a farm. He owned a small dog which he gave to Henry Briggs before he left. The dog followed Mr. Ewers to the depot in this town, and upon the cars leaving, followed on after, overtaking them at South Deerfield, before they left that station. The distance run by the dog was eight miles, and the time occupied twenty-two minutes, or over twenty miles an hour. Mr. Ewers concluded that such a faithful friend was not to be parted with lightly, and took the dog into the cars with him for Wisconsin. —*Greenfield Gazette.*

At Fort Dallas, Fla., mosquetos are so plentiful that both officers and men rave; the guard on duty pass their whole time under bars. The sentry is provided with a mosquito veil, or rather bag, thrown over the head, and kept from the face by a hoop: woolen clothes, boots and gauntleted gloves protect the limbs and body from their murderous attacks. Persons who have not experienced this beauty of everglade life will scarcely believe that horses and cattle are actually bled to death in a single night: and woe be to that soldier or seaman who, by means of liquor loses command of himself and falls to the ground, helpless and unprotected—the insatiable vampires will fasten their fangs upon him, and draw from his besotted body what fevered blood remains.

MUSIC IN COLLEGES.—The New York Musical World finds fault,—and with good reason too—that the Colleges of America do nothing for Music. In England, these institutions "have foundations for Musical Professorships, and give degrees to those who show the proper efficiency" in this, as in any other department of art.

Prince Albert devotes no little attention to it, and gives good proof of his study. Among the composers of England, we find Lord Wellesley, a Governor-General of India; and the name of his illustrious brother, the Duke of Wellington, will be seen in some of our books of Church Music, as the composer of chants of no mean merit. Could General Scott have been sent to Mexico, if he had been so unhappy as to have composed a psalm tune? Could "*Johnny Mason*," (as the French Court Journal has christened him) have represented Uncle Sam near the Court of Lewis Napoleon, if he had written a mass?

Hard fisted and hard-headed Brother Jonathan, while he professes to admire and love the Divine Art, terribly despises the artist. He likes to hear the singing and playing, but despises the performers.

Seriously, any proficiency in music, however small, is a bar to success in a professional man in any department. He is looked upon as a flippant dreamer and an idler, who sings as he goes through life instead of calculating interest. If he sings, he cannot pray well, or plead well, or heal well.—*N. Y. Musical World.*

MUSIC IN COMMON SCHOOLS.—We are in receipt of the "Report on Music in the Public Schools," offered to the Boston Committee last May. It is an able document, made with much care, and after a thorough investigation of the subject. It follows, of course, that they do not for a moment recommend that the study of vocal music should be discontinued, but, on the contrary, in advocacy of its advantages, quote largely from the able and elaborate report submitted to the Boston Committee, in 1837. Twenty years of experience, not always, it is to be feared, under the most favorable circumstances, have confirmed the opinions and views then expressed; and the Boston Committee, then as now, are found strongly in favor of music as a branch of regular study in common schools.

But we have referred to this report principally for the purpose of quoting its concluding paragraph, which takes ground which we have long occupied, namely: that we can only reap the full advantage of the introduction of the study of music into our schools, and the experiment can only be crowned with complete success, when instruction in that department shall be given by the regular teacher of the school. May the day soon come when the ability to teach the elements of music, as well as of grammar and arithmetic, shall be deemed essential to the public school teacher.—*N. Y. Musical Review.*

REPLY TO "SEAL."—The following anonymous communication, received from Rye, is too rich to put in our stove; and as it was sent as an advertisement, with pay, we print it. We will only say, in comment, that we are sure our friend "Seal" meant no offence or disrespect to the ladies, in his remarks.

It will be recollected, that he and a companion were bathing on the Sands, when their horse started off; and that, "covered (*only*) with modesty as with a garment," they pursued; and their team had nearly reached the house mentioned, ere they could overtake him. "Seal's" statement that the ladies came to the door to look at them, after they were clothed and in their carriage, is what has touched our Rye friend.

RYE BEACH, July 25th, 1857.

Messrs. Editors:—We hope that our young friends of the roving propensities, who visited Wallis's Sands on the 7th of July for the purpose of bathing, did not think that the ladies of the first house rushed to the door to make any observation in roving or naked propensities, but merely to see who passed by; it they *did*, they were as much mistaken as though their horse *had* run away with their shirts. If their horse had taken fright and run away, they might have been glad to have called at that hospitable roof, for clothes to cover them with.

We have had a long spell of bad weather for haying, but a fine rain for the corn and plants. We think there is water enough now in the brooks and ponds by the wayside, to drown any blockhead who don't know enough to carry some kind of weight to his horse's halter, to keep him from walking off with his breeches, or to cover a Seal.

HAIR RESTORATIVE.—Every one will, we think, agree with us in the opinion that the human hair is the greatest natural ornament that is possessed either by a gentleman or a lady.—Just meet an apparently good looking man, for instance, in the street, you admire his features, whiskers, and general bearing; but lo! he lifts his hat in recognition of your bow, and the charm has vanished, for Ichabod is written on his bald head, and the glory has departed with the flowing locks that once flourished luxuriantly there. In the case of a lady, the matter is possible, worse—such cases reminding one of the circumstances on which the following epigram is founded:

'O! give me, fair Emma, a lock of your hair,'
A bashful young lover took courage and sighed:
'Twas a sin to refuse such a modest request,
So take the whole wig,' the dear creature replied.

Now, to prevent such a catastrophe, is within the power of every lady and gentleman; for, by using Prof. O. S. Wood's Hair Restorative, hair is not only prevented from falling off or turning gray, but the article will restore hair to bald places; and even if it has changed color and become gray, it will bring it back to its pristine beauty and luxuriance. Those who are acquainted with the anatomy, physiology and pathology of the hair, must be well aware that certain substances have a specific action upon it; and it is by judicious combination of these that Professor Wood has succeeded in compounding a mixture possessed of remarkable virtues.—[Waverly Magazine and Literary Gaz.

IF ALL OUR READERS

Who are troubled with liver complaint, Jaundice, or Dyspepsia, will read the advertisement in another column of Dr. Sanford's Invigorator, and then do as we have done—get a bottle, we should not see so many sickly, half-dead, despairing people as now meet our gaze at almost every corner, for certainly there never was a remedy invented of which so much is said, and that performs so nearly what its proprietors say it will do. It came to us so highly recommended that we could not fail to try it, and a trial has convinced us, without a doubt, that it is the best family medicine in use. We take it for Headache, Sour Stomach, Billiousness, and any of the little bodily ills that are common, and it does produce a pleasant state of feeling to the sick, and what is better, after using it a few times, these little ills grow less and less, and there is a prospect of being entirely free from them by a continuance in the use of the Invigorator. POLICE COURT.

FRIDAY, July 31.

Before Justice Bennett. Michael Hennessy was accused of stealing a silk scarf, value 75 cts. from Frederick Danielson.—Found guilty,—and sentenced to jail for 20 days, costs $5,74; treble damages, 2,25.

James Weldon was accused of brawl and tumult on the evening of July 30, in Congress street; plead guilty; fined $3, costs 2,92.

The young man's apology before the magistrate, was, that he was drunk at the time, which was doubtless true; but he said he did not know where he got his liquor, which was probably not true. The fight in Congress street, in which he was engaged with two others, like himself, was one of the products of the groggery.

A few *searches* of these places, by our city authorities, under the act for suppressing intemperance, would diminish the number of brawls.

NUISANCES.—It is too bad there should be permitted so many intolerable nuisances in the way of needless stench-creating buildings, &c. Prominent among these are the abominable slaughter-houses on Auburn street and South road—one or the other of which must be passed in order to visit the Cemeteries, Sagamore, &c. They should "be removed and cast into the sea," or at least located *over* the water somewhere.

Another nuisance, of long standing, and altogether too grievous to be borne, is the drainage of a certain livery stable through Fleet street, and Hanover, into Vaughan. This has continued, with but little cessation, for years; and to such a degree at times, as would seem sufficient to breed a pestilence. It is in full flow now, and "scents" the whole neighborhood; —and merits the attention of the Health Committee.

☞ Uncle Toby drives his cow through a most populous and prolific neighborhood, where Young America grows up like a weed, from imported roots. He often sees sights amusing, grotesque, ludicrous and beautiful. Among the latter, none has pleased him better than the frequent sight of an old immigrant who devotes his hours, out of the factory, to the amusement of his own children, not a few, and with them a flock of the neighbors' children; tops, dogs, kites, &c., are the play-things. Some sights there are not of the same kind; for instance, that of a man with two looking glasses under his arm offering to sell or pawn them at the groggery; but the keeper thereof, to his credit be it said, declined the trade, and the man with the glasses proceeded in search of adventures, with an extra polite bow to Uncle Toby, who, like an officer of the old school, had turned aside and given him the whole sidewalk to the man and glasses, lest there might be a collision.

NIGHT SCENES.—Being on our way home about 10 o'clock last Friday evening, we were startled by an awful screaming near the corner of Hanover and Bridge streets, and following up the noise, found two young men, who were evidently not total abstinents, striving to kick in the door of a small house in Tanner street, interlarding this agreeable occupation with frequent desires for some one who was inside, to come out and be murdered. Nearly the whole neighborhood was aroused by the racket, and groups of persons in light costume were to be seen looking from the windows near by.

A diversion of the storm from the house by some one's asking what was the matter. The aggrieved party related his story nearly thus: "Why, you see me and this fellow went into that store on the corner to get a glass of beer, and this fellow he had a little dog, and this man asked him what he'd take for him. He said ten dollars. 'I'll give you two cents,' says he: and that fellow has kept that little dog—and this fellow you see he's a friend of mine and we are going to have the dog to-night or we'll have his heart's blood."—Here young man went off in a shriek, and we went off under an umbrella.

DAMON & PYTHIAS.

"WESTWARD," STILL. — Messrs. Elisha Tripp and Thomas Neil left this city on Thursday morning, on a trip of investigation in the West—with a design to locate somewhere there. They will visit St. Louis, Minnesota, and other prominent places.

☞ Rev. Sullivan Holman of Great Falls, will preach at the Methodist church to-morrow.

☞ Edward N. Fuller, Esq. editor of the New Hampshire Gazette, offers that establishment for sale at a bargain, privately.

☞ We would recommend for the serious attention of every reader, the articles on our second page, respecting Music in Schools and Colleges. There is no reason why singing, at least, (if not instrumental music,) should not be included in the studies at *every* school, seminary, academy and college. It may be said that all teachers are not competent for this, nor all pupils either; but there is the same difference of capacity on both sides, in regard to every other branch of education—all cannot teach or learn languages, mathematics or philosophy equally well; yet who would think of leaving out either of these for such a reason? Every teacher *can* teach music, more or less, and every pupil could learn something about it; and we hope that the day will soon come, when this idea will be adopted—and music be placed on at least an equal footing with the other departments of education.

Meantime, while we lack this, we don't see that a better local substitute can be had, than is offered by the Juvenile Singing School of Mr. Pearson, who commences a new term this (Saturday) afternoon. He informs us that the class whose term has just closed, was the best he ever had in this city; and it will be seen by the advertisement that the new class offers still greater inducements to fill up Exchange Hall.

☞ Among the numerous visitors to our pleasant city, last week, we noticed Hon. Wm. A. Walker, Ex-Member of Congress; and Daniel D. Badger, Esq., the great iron manufacturer—both now of New York; on a visit to the home of their childhood, on which both have conferred honor as the place of their nativity.

Hon. Daniel Clark, U. S. Senator of New Hampshire, has also been spending a few days here.

☞ Mr. Frank Morrill, of Kittery, a carpenter employed on the Navy Yard, had his foot severely jammed there, on Thursday afternoon. He was sitting on the forward end of a heavy stick of timber, which was being moved by several yoke of cattle, with a fall and blocks. A plate of iron on the under side of the log, used in drawing it, caught his feet,—jamming one partly on the other, and crushing both terribly. Of course, the timber could not be moved backward very readily, and it was only by sawing and chopping away the timber on which his feet caught, that he was released. Though but about four minutes in his uncomfortable position, and having no bones broken, yet his feet were so jammed as to be almost black, immediately after being freed. He was able to stand, with assistance, however, and is doing well.

☞ George M. Grouard, a veteran printer, who went from Portsmouth to Washington, about forty-three years ago, died in that city on Saturday, in the 68th year of his age. Up to the day of his death, the deceased has been in the employment of the National Intelligencer office, and for about twenty years was its active manager.

☞ "The Flowers of Spring" and "The Spaniard's Serenade" are two fine pianoforte pieces, just received, among a host of others, at the book and music store of Charles C. Harvey.

MOTHERS! MOTHERS!! MOTHERS!!!
AN OLD NURSE FOR CHILDREN.
DON'T fail to procure MRS. Winslow's Soothing Syrup for Children Teething. It has no equal on Earth. No mother who has ever tried MRS. WINSLOW'S SOOTHING SYRUP for Children will ever consent to let her child pass through the distressing and critical period of teething without the aid of this invaluable preparation. If life and health can be estimated by dollars and cents, it is worth its weight in gold.
Millions of Bottles of MRS. WINSLOW'S SOOTHING SYRUP are sold every year in the United States. It is an old and well tried remedy.—None genuine unless the fac simile of "Curtis & Perkins" is on the outside wrapper.

Lawrence's Carminative,
—OR—
CHILD'S PAIN-KILLER.
THIS invaluable preparation is a favorite nostrum with the prescription of one of the most eminent of the Medical Faculty in New England, and one who has been successful as any other in the treatment of
DISEASES OF CHILDREN,
and has been used with never-failing success.
The Carminative is emphatically
A CHILD'S MEDICINE,
and is the *only* Child's Medicine in this country intended to do away with the excessive and injurious use of *Paregoric*, a remedy sure to be followed by a "dose of physic."
The ingredients of which the *Carminative* is compounded, are known to the Medical Faculty, and it is now extensively used, and approbated by the physicians living in the vicinity of the Laboratory, where opportunity has been had to test its virtues.
The *Carminative* is offered in full confidence for the rapid cure of
Colic, Pain in the Bowels, Wind in the Stomach and Bowels, Green Stools, Diarrhea, Nervous Affections, Sore Mouth, Restlessness,
and other disorders incident to Weaning and Teething; sure to regulate derangements of the Stomach and Bowels, which often afflict young children; correct debilitated and weak stomachs, relieve pain and give tone, energy and strength to the whole system.
Due regard has been taken to have the price of the Carminative so low as to be within the reach of all. Price *only 25 cents.*
Parents who value rest should not fail to buy a bottle, as they may depend upon its giving relief to "worrisome children."
Sold by country traders and all Apothecaries throughout the United States and Canada.

An Important Discovery!

Coggswell's Medical Salt,
A PERFECT SUBSTITUTE
FOR THE
LANCET, LEECHES AND BLISTERS.
INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—has but ONE AIM—accomplishes but ONE THING, to wit: SUBDUES INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, chest, bowels, abdomen, or extremities. Every *form of inflammation* (but no other disease) is subdued, by it as easily as fire is extinguished by water. It is a sheet anchor, it does this—simply by restoring the lost balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires merely what adheres to the point of a quill dipped into a solution of it, to affect the entire system.
☞ *Of its intrinsic value, the enlightened community, and not the discoverer, must be sole judge.*
PRIME COST, $1,50 per drachm—PRICE $2 per drachm.

Pendulum Curtain Fixtures.
J. F. SHORES, No. 1 Congress Block, has just received
One Box of Belcher's Curtain Fixtures.
These Fixtures are a decided improvement on any other in the market. The arrangement is very simple, the curtain rising or falling as you wish, with a slight movement of the cord on the side;—and the cord cannot get over the end as it often does with "Putnam's."
One in operation can be seen at my store.—Price 37½ cents each, including cord and tassel. (July2)

Manny's Celebrated Mower
—AND—
MOWER AND REAPER.
IMPROVED.

Built expressly for the New England States.

THE MANNY MOWER has been extensively used for the past two years in New England, and more than six years at the West—Its success is beyond that of any other Mower or Reaper ever constructed. Over 150 in Providence have been awarded it, including the *Grand Ist Class Silver Medal* at the World's Fair, Paris, 1856.

With the two past years' *experience*, we have been enabled to make a much more *perfect* and very *important improvements*. We find New England farmers require a different Machine from other sections;—the fields generally being small. It must be *light*, at the same time possess *great strength*; *portable*, with facilities to *raise the cutters to pass obstructions*, and to remove from field to field. A perfect cutting apparatus, to cut the fine grasses without clogging, and so constructed as to *start* in the grass *without backing*, easily adjusted to cut high or low, and have a lever to cut equally well with or against the wind, and to be worked with ease by a light team, and so easily managed and simple that any one of common ability may operate it successfully, and to be built in the most thorough manner.

With this knowledge of the farmers' requirements, and with the determination to make a better Machine than has ever before been constructed in this country, we offer the **Manny Mower** of 1857 with confidence, as combining the qualities enumerated above, and we think most thoroughly adapted to meet the wants of New England farmers.

Price of Mower, $110; with Reaper attachment, $15 Extra. Delivered on board the cars at Worcester, Mass. JOHN P. ADRIANCE & Co., *Manufacturers.*

One of the above Machines can be seen at the store of the Subscriber.

AYER'S Cathartic Pills,
(SUGAR COATED,)
ARE MADE TO
CLEANSE THE BLOOD AND CURE THE SICK
Invalids, Fathers, Mothers, Physicians
Philanthropists, read their Effects,
and judge of their Virtues.
FOR THE CURE OF

Headache, Sick Headache, Foul Stomach

Pittsburg, Pa., May 1, 1855.

Dr. J. C. Ayer. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from foul stomach, which they cleanse at once. If they will do others as they do me, the fact is worth knowing.

Yours with great respect, Ed. W. Preble,
Clerk of Steamer Clarion.

Bilious Disorders and Liver Complaints

Department of the Interior,
Washington, D. C., 7 Feb., 1856.

Sir: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their rapidly laxative action on the liver is quick and decided, consequently they are an admirable remedy for the derangements of the organ. Indeed, I have seldom found a case of *bilious disease* so obstinate that it did not readily yield to them.

Fraternally yours,
Physician of the Marine Hospital.

Dysentery, Relax, and Worms.

Post Office, Hartland, Liv. Co., Mich., Nov. 16, 1855

Dr. Ayer: Your Pills are the perfection of medicine. They have done my wife more good than all else the doctors can tell you she had been sick and pining away for months. Went off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of bloody dysentery. One of our neighbors had bad and my wife cured him with two doses of your Pills, while others around us paid from five to twenty dollars doctors bills, and lost much time, without being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be prized here.

Geo. J. Griffin, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

Dr. Ayer: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood they are the very best medicine I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

Warsaw, Wyoming Co., N. Y., Oct. 24, 1855.

Dear Sir: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN C. BEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum,

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

Dr. Ayer: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet, which had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After one child was cured she also tried your Pills, and they have cured her. ASA MORGRIDGE

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawks, of the Methodist Episc. Church.

Pulaski House, Savannah, Ga., Jan. 6, 1856.

Honored Sir: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until, by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in them I am now entirely well.

Senate Chamber, Baton Rouge, La., 5 Dec., 1856.

Dr. Ayer: I have been entirely cured by your Pills of rheumatic Gout—a painful disease they had afflicted me for years. VINCENT SLIDELL.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as **a Dinner Pill**, they are agreeable and effectual.

Fits, Suppression, Paralysis, Inflammation, and even Deafness, and Partial Blindness, have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its improper exhibition. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL
FOR THE RAPID CURE OF
COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, IN CIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it known. Every family, few are the families in any civilized country on this continent without some personal experience of its effects; and fewer yet the communities any where which have not among them some living trophy of its victory over the subtle and dangerous disease of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the insidious enemy that steals upon them unprepared. We have abundant grounds to believe the Cherry Pectoral saves more lives by the consumption it prevents than those it cures. Keep it by you, and cure your colds while they are curable, nor neglect them until no human skill can master the inexorable banker that, fastened to the throat, sets your life away. All know the dreadful reality of lung disorders, and as they know too the virtue of this remedy, we need not do more than to assure them it is still made the best it can be. We prepare no costs, no pains, no skill, to render it the most perfect possible, and thus afford those who rely on it the best agent which our skill can furnish for their cure.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. Francis & Co are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combinations. Prizes vary in amount from $20 to $100,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

LOTTERIES.

The Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners who are to be present at their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to act as agents for opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There are no combinations of numbers to mystify the buyer. Prizes vary from $40 to $50,000; every prize being drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York *Weekly Dog Book*. Write your orders plainly, and direct to S. SWAN & Co., Atlanta, Georgia

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

American and Foreign Patents.
R. H. EDDY, solicitor of Patents,
(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)

No. 76 State st, oppo. Kilby st, Boston,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries; to prepare Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters appertaining thereto. Copies of the claims of any Patent furnished by remmitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is more SUCCESSFUL, if as PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has every reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, was my agent in the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States and have no hesitation in advising inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

August 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

Coggswell's Medical Salt,
A PERFECT SUBSTITUTE
FOR THE
LANCET, LEECHES AND BLISTERS.

INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—has but ONE AIM—accomplishes but ONE THING, to wit: SUBDUES INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. Every *form of inflammation* (but no other disease) is subdued, by it as easily as fire is extinguished by water. Is it asked, *how* it does this?—simply by restoring the lost balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires merely what adheres to the point of a quill dipped into a solution of it, to affect the entire system.

☞ *Of its intrinsic value, the enlightened community, and not the discoverer, must be the judge.*

Lawrence's Carminative,
—OR—
CHILD'S PAIN-KILLER.

THIS invaluable preparation is a favorite scientific prescription of one of the most eminent of the Medical Faculty in New England, and one who has been successful as any other in the treating of

DISEASES OF CHILDREN,

and has been used with never-failing success.

The Carminative is emphatically

A CHILD'S MEDICINE,

and is the *only* Child's Medicine in this country; intended to do away with the excessive and injurious use of *Paregoric*, a remedy sure to be followed by a "dose of physic."

The ingredients of which the *Carminative* is compounded, are known to the Medical Faculty, and it is now extensively used, and approbated by the physicians living in the vicinity of the Laboratory, where opportunity has been had to test its virtues.

The *Carminative* is offered in full confidence for the rapid cure of

Colic, Pain in the Bowels, Wind in the Stomach and Bowels, Green Stools, Diarrhœa, Nervous Affections, Sore Mouth, Restlessness,

and other disorders incident to Weaning and Teething; sure to regulate derangements of the Stomach and Bowels, which often afflict young children; correct debilitated and sour Stomachs, relieve pain and give tone, energy and strength to the whole system.

Due regard has been taken to have the price of the Carminative so low as to be within the reach of all. Price *only 25 cents.*

Parents who value rest should not fail to buy a bottle, as they may depend upon its giving relief to "worrisome children."

Sold by country traders and all Apothecaries throughout the United States and Canada.

Manny's Celebrated Mower
—AND—
MOWER AND REAPER.
IMPROVED.
Built expressly for the New England States.

THE MANNY MOWER has been extensively used for the past two years in New England, and more than six years at the West.—Its success is beyond that of any other Mower or Reaper ever constructed. Over 150 1st *Premiums* have been awarded it, including the *Grand 1st Class Silver Medal* at the WORLD'S FAIR, PARIS, 1856.

With the two past years' *experience*, we have been enabled to make a number of very *important improvements*. We find New England farmers require a different Machine from other sections;—the fields generally being small. It must be *light*, at the same time possess *great strength*; *portable*, with facilities to *raise the cutters to pass obstructions*; and to remove from field to field. A perfect cutting apparatus, to cut the fine grasses without clogging, and so constructed as to *start* in the grass *without backing*, easily adjusted to cut high or low, and have a Reel to cut equally well with or against the wind, and to be worked with ease by a light team, and so easily managed and simple that any one of common ability may operate it successfully, and to be built in the most thorough manner.

With this knowledge of the farmers' requirements, and with the determination to build a *better* Machine than has ever before been constructed in this country, we offer the **Manny Mower** of 1857 with confidence, as combining the qualities enumerated above, and as one particularly adapted to meet the wants of New England farmers.

Price of Mower, $110; with Reaper attachment, $15 Extra. Delivered on board the cars at Worcester, Mass. JOHN F. ADRIANCE & Co.,

One of the above Machines can be seen at the store of the Subscriber.
